THE FARMERS' LOAN & TRUST COMPANY

Foreign Exchange, Cable Transfers, Letters of Credit, Payable throughout the world

The Company is a legal depositary for moneys paid into Court, and is authorized to act as Executor, Administrator, Trustee, Guardian, Receiver, and in all other fiduciary capacities.

Acts as Trustee under Mortgages made by Railroad and other Corporations, and as Transfer Agent and Registrar of Stocks and Bonds.

Receives deposits upon Certificates of Deposit, or subject to check, and allows interest on daily balances.

Manages Real Estate and lends money on bond and mortgage.

Will act as Agent in the transaction of any approved financial business.

Depositary for Legal Reserves of State Banks and also for moneys of the City of New York.

Fiscal Agent for States, Counties and Cities.

Railway Equipment Obligations

Railway Equipment Obligations, because of their fundamental soundness, have become a very popular form of investment security. They combine in a high degree the three requisites of a good investment—security, marketability and liberal income.

We have prepared a booklet describing the more important issues of the principal railroads, and will be pleased to mail a copy to you upon request.

TO HOLDERS OF

First Refunding and Extensions Mortgage Bonds of the

WABASH RAILROAD COMPANY:

The undersigned, owning and representing large amounts of the above bonds, have formed a Committee for the protection of the holders thereof. No one of the undersigned Committee is in any way connected with the present management of the Wabash Railroad, under which the recent receivership and default have been brought about.

To the end that co-operation of all of the bondholders may be secured, the undersigned Committee requests the holders of the above bonds to deposit their bonds, with coupons maturing on and after January 1, 1912, with the Central Trust Company of New York, 54 Wall Street, N.Y. City, as Depositary, which will issue its certificates of deposit therefor under the Agreement of Deposit dated December 20, 1911, under which this Committee has been formed.

THESE CERTIFICATES OF DEPOSIT OF CENTRAL TRUST COMPANY OF NEW YORK HAVE BEEN LISTED UPON THE NEW YORK STOCK EXCHANGE.

Copies of the agreement of deposit may be obtained from the Depositary. The agreement provides opportunity for depositing bondholders to withdraw in case the plan of reorganization formulated by the Committee is not approved by them, and limits the contribution to the expenses of the reorganization of bondholders who so withdraw to one per cent of the face amount of their bonds.

New York, March 28, 1912.

WESTINGHOUSE ELECTRIC & MANUFACTURING COMPANY

ANNUAL REPORT—FOR THE FISCAL YEAR ENDED MARCH 31 1912.

(Summary of Annual Report.)

Pittsburgh, Pa., May 18, 1912.

The Board of Directors submits herewith a combined report of the operations of your Company and of its subsidiary companies for the fiscal year ended March 31st, 1912. The Income Account for the year is as follows:

Gross Earnings:		
Sales Billed		$34,196,445.68
Cost of Sales:		
Factory Costs, including all Expenditures for Patterns, Dies, New Small Tools and Other Betterments and Extensions; also Inventory Adjustments and all Selling, Administration, General and Development Expenses		30,604,849.88
Net Manufacturing Profit		$3,591,595.80
Other Income:		
Interest and Discount	$330,792.33	
Dividends and Interest on Sundry Stocks and Bonds Owned	720,681.02	
Miscellaneous—Royalties, etc	108,969.42	1,160,442.77
Gross Income		$4,752,038.57
Deductions from Income:		
Interest on Bonds and Debentures	$1,116,307.63	
Interest on Collateral Notes	376,000.00	
Interest on Long-Term Notes and Mortgages	106,720.20	
Depreciations Charged against Income	504,942.04	
Proportion of Expenses Incidental to Bond and Note Issues	90,000.00	
Miscellaneous	113,975.26	2,307,945.13
Net Income—Surplus for the Year		$2,444,093.44

(Here follows in printed report a condensed statement of gross earnings and net profits for the past six years.)

In the report for the year ended March 31, 1911, reference was made to a suit filed by the United States against your Company and others, with respect to the incandescent lamp business. This suit was terminated during the past year by the entry of a decree, which, as predicted in the report of your Directors for the year ended March 31, 1911, does not seriously affect the conduct of your lamp business.

The surplus as of March 31, 1911, was $5,964,224.90. This was decreased during the year by various items detailed in the statement of Profit and Loss to $5,887,182.66. This balance was increased by the Net Income for the year, $2,444,093.44, to a Gross Surplus of $8,331,276.10. Against this Surplus have been charged dividends on the preferred stock at the rate of 7 per cent per annum ($279,909) and a dividend of 1 per cent ($352,117.50) on the common stock, declared by your Directors on March 27, 1912. These charges reduced the Surplus to $7,699,249.60, against which depreciations of investments were written off aggregating $1,050,285.31.

As a result of these depreciations, the Surplus as of March 31, 1912, shown in the balance sheet is $6,648,964.29.

ASSETS.

PROPERTY AND PLANT—$19,195,188.06.

The increase in this item of $1,503,042.45 over the figures as of March 31, 1911, is chiefly due to the completion of the extensions of the buildings on the additional ground purchased for the Newark (N. J.) plant that were in progress at the close of last year; the purchase of a new plant at Pittsburgh by the R. D. Nuttall Company, which heretofore occupied leased premises not well adapted to their manufacturing requirements; the erection of a new four-story and basement brick building in place of a one-story frame building and other general improvements at the East Pittsburgh Works.

The purchases at Newark and by the Nuttall Company at Pittsburgh include considerable real estate not yet occupied by buildings which can later be used to still further increase your manufacturing facilities. The buildings already erected have resulted in a considerable increase in the capacity and efficiency of each of these plants.

An extension was obtained of the lease of the property on which your Company operates an iron foundry at Pittsburgh, Pa. The plans mentioned in last year's report for the erection of foundry and pattern buildings at Trafford City have not yet been carried out. It is possible that the erection of these buildings will be started during the current year.

SINKING FUND—$444.37.

This item represents the uninvested balance of the sinking fund payments made to the trustee on account of the Company's issue of convertible sinking fund 5 per cent gold bonds. As a result of sinking fund payments made during the year, there were retired a total of $537,000 face value of convertible bonds and $260,000 face value of debenture certificates.

INVESTMENTS—$23,384,515.56.

The aggregate book value of investments as of March 31, 1912, shows a decrease of $650,120.43, as compared with the book value as of March 31, 1911. The amount of decrease due to depreciations has already been detailed in the analysis of the profit and loss account. The only important cash investments made during the past year are:

Bonds of Westinghouse Electric & Mfg. Co	$143,041.39
Debentures of Societa Italiana Westinghouse	481,335.55

The former have been purchased in anticipation of sinking fund requirements due December 31, 1912. The debentures of the Italian Company were received in payment for cash advances made partly during the year ended March 31, 1911, and to which reference was made in the report for that year.

Other changes in investments represent bonds and stocks principally taken in part payment for apparatus sold. The aggregate amount so taken is less than the amount realized from the sale of other investments.

There have been no unusual developments during the past year in connection with the affairs of the several foreign Westinghouse Companies in which your Company has investments. The British, French and Canadian Westinghouse Companies, in which your Company has the largest investments, all improved in net profits during the year ended December 31, 1911, as compared with the previous year. The Russian Company also showed some improvement. The Italian Company has suffered because of the war between Italy and Turkey, in that the Italian Government has delayed the further electrification of the State Railways and no orders for electric locomotives were received by the Italian Company during the year ended December 31, 1911.

CURRENT ASSETS—$19,848,706.25.

The several items comprising this total have been verified by the official auditors of your Company. During the year a reserve was created monthly against which all losses on notes and accounts receivable were charged.

WORKING AND TRADING ASSETS—$13,119,286.13.

It is the practice of your Company, in conjunction with its official auditors, to verify by inventory all of the accounts classified under this caption. The inventory reports of materials and apparatus on hand were valued, as to raw materials, at purchase prices or less, and as to completed parts and apparatus, at factory cost or less.

OTHER ASSETS—$7,072,513.36.

The total of this item shows a decrease compared with the total as of March 31, 1911. The charges to Patent Account during the year aggregated less than $25,000 00. All other expenditures for patents, licenses, development and experimental work were charged to expenses and are included in the cost of sales.

LIABILITIES.

There are no changes in the liabilities of your Company as of March 31, 1912, as compared with March 31, 1911, that call for comment.

The books and accounts of the Company and of its subsidiary companies have been audited by Messrs. Haskins & Sells, Certified Public Accountants, and their certificate is made a part of this report.

The Board takes pleasure in acknowledging the loyal and efficient services of the officers and employees of the Company and of its severa subsidiary companies.

By order of the Board of Directors.

GUY E. TRIPP, Chairman.

Consolidated and Condensed General Balance Sheet, March 31, 1912.

$15,200,000

Bethlehem Steel Company

FIRST LIEN AND REFUNDING MORTGAGE FIVE PER CENT THIRTY YEAR GOLD BONDS

Principal Payable May 1, 1942 — **Interest Payable May 1 and November 1**

PRINCIPAL AND INTEREST GUARANTEED BY BETHLEHEM STEEL CORPORATION BY ENDORSEMENT ON EACH BOND

Coupon Bonds of $1,000 and $500 denominations with full privilege of registration.
Coupon and Registered Bonds interchangeable.

Annual Sinking Fund of 2½ Per Cent of the face value of bonds of this issue outstanding, with minimum Sinking Fund limit of $300,000 per year.

All of any part of the issue redeemable at the option of the Company at 105% and accrued interest on any interest date upon twelve weeks' notice.

EQUITABLE TRUST COMPANY OF NEW YORK, TRUSTEE.

FREE OF TAX IN PENNSYLVANIA

Attention is directed to a letter of Mr. C. M. Schwab, President of the Bethlehem Steel Corporation (copies of which can be obtained from the undersigned), which he summarizes as follows:

"**PURPOSES OF ISSUE**: The proceeds of the $15,200,000 bonds sold to you, in conjunction with Messrs. Kuhn, Loeb & Co., New York, are to be used:

To retire the entire outstanding amount of $6,428,000 Bethlehem Steel Company Five-Year Six Per Cent Secured Gold Notes.

To purchase $2,668,000 Bethlehem Steel Company First Extension Mortgage 5% Bonds, thereby reducing the outstanding amount of that issue to $8,000,000.

To provide additional working capital.

$2,300,000 bonds remain in the treasury for the general purposes of the Company, and the balance of the authorized issue of $50,000,000 Bonds is to be reserved under carefully drawn restrictions of the mortgage for refunding the $8,000,000 First Extension Mortgage 5% Bonds, and for construction or acquisition of additional property at not exceeding 90% of its cost, with limitations in issuing bonds for the latter purpose, having reference to net earnings of the Bethlehem Steel Corporation.

LIEN OF THE MORTGAGE: Bonds of this issue will be secured by a mortgage upon the real estate and manufacturing plants of the Bethlehem Steel Company, subject only to its Purchase Money Mortgage ($7,500,000 outstanding) and its First Extension Mortgage ($8,000,000, as above shown, outstanding, for the retirement of which a sufficient amount of bonds of this issue will be reserved).

These bonds will also be secured by a first mortgage lien upon real estate and manufacturing plants hereafter acquired by the Bethlehem Steel Company, subject only to the after-acquired property clauses of the First Extension Mortgage (so far as practicable), and to any purchase money or other mortgages subject to which such property may be acquired; but against which an equal face amount of bonds of this issue shall be reserved.

VALUE OF ASSETS BACK OF BONDS: Upon the issue of $15,200,000 bonds sold, the assets of the Bethlehem Steel Company over and above its other liabilities, including its prior mortgages above referred to, will be $25,880,758, and the value of other properties represented by stocks to be pledged to secure the guaranty of Bethlehem Steel Corporation will be $6,766,869, making a total of $32,647,627 of assets back of these First Lien & Refunding Mortgage Bonds, or more than double the amount sold at this time. To the above values of properties represented by stocks pledged, about $28,000,000 should be added to represent the real worth of mining properties of the Corporation.

EARNINGS: The accounts of the Bethlehem Steel Corporation and its Subsidiary Companies have been audited annually from the date of incorporation to the close of the last fiscal year by Messrs. Price, Waterhouse & Co., and the statements of earnings which follow are based upon the audited accounts.

On the basis of net earnings of the Corporation for 1911, before providing for depreciation or for exploitation and exhaustion of minerals, there is available after the payment of all charges, including amortization on prior issues, $3,826,618, with which to meet the interest charges on these $15,200,000 First Lien & Refunding Mortgage Bonds. This is over FIVE TIMES the amount so required and over THREE TIMES the amount of the entire charges on these bonds, including Sinking Fund and amortization.

IN GENERAL: The Bethlehem Steel Corporation is one of the most important and successful of the independent steel companies. Its growth and progress have been consistent and steady since its incorporation. Its annual business in 1905 was $14,554,117; in 1911 it was $30,093,022. During the first quarter of 1912 it booked orders aggregating about $12,250,000. Total orders on hand March 31, 1912, about $21,000,000.

The plants are modern and up to date in all particulars and are maintained in a high state of efficiency and repair, as is evidenced by the expenditure or appropriation of $13,608,628 out of earnings, during the last five years, for this purpose.

The Bethlehem Steel Corporation is well rounded out and self-contained, and occupies an independent position with ample supplies of ores, coal and other raw materials which it either owns or controls."

Application will be made to list this issue on the New York Stock Exchange and, if deemed desirable, on one or more foreign Exchanges.

Temporary Certificates, exchangeable later for Engraved Bonds, are now ready for delivery.

The form of bonds, the creation of the mortgage, and all legal proceedings connected therewith are to be approved by our Counsel, Messrs. Simpson, Thacher & Bartlett.

Having placed a large majority of this issue here and in Europe, we will receive subscriptions for the unsold balance

at 91½ and accrued interest

The subscription will be opened on Thursday, May 23rd, 1912, at 10 o'clock A. M. and closed at 3 o'clock p. m. the same day or earlier, at the option of the undersigned. The right is reserved to reject any application and to allot a smaller amount than applied for. Payment in full to be made upon allotment. Subscription blanks may be obtained from the undersigned.

A simultaneous issue will be made by Messrs. Hope & Co., of Amsterdam, and by Messrs. Salomon & Co., London

Preferred Stocks
of
Public Utility Companies

The preferred stocks of well managed Public Utility Companies, on account of their large income yield, have long been favored as an investment in States assessing a heavy personal property tax, and are increasing steadily in popularity with the investment public at large. This Class of security has a good market, and is usually absent from speculative manipulation, price changes being due principally to merit alone.

We are prepared to make offerings of the following Preferred Stocks. Association in the management of these properties places us in a position to furnish investors information regarding progress of the Companies:

	Net Earnings Appl. to Dividends	*Preferred Dividends*
CONSUMERS POWER COMPANY

Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below detailed figures for the week ending with Saturday, noon, May 18 for four years.

Clearings at—	*Week ending May 18.* 1912.	1911.	*Inc. or Dec.*	1910.	1909.

STATE AND CITY SECTION.

With to-day's issue of the "Chronicle" we send to our subscribers a new number of our "State and City Section" revised to date.

THE FINANCIAL SITUATION.

The political situation calls for action on the part of business men. It is each day assuming a more threatening character. The result of the State primaries in Ohio on Tuesday of this week, which every one conceded in advance would be decisive on the chances for the Republican Presidential nomination of President Taft and ex-President Roosevelt, has been that Mr. Roosevelt gets 32 of the district delegates to the Republican Convention, while Mr. Taft gets only 10. Who will get the delegates-at-large from that State seems yet to be in doubt. This triumph by Mr. Roosevelt in Mr. Taft's own State, following the other Roosevelt successes the present month—in Maryland, in Texas, in Minnesota, in California, in West Virginia, &c.—and the still more notable victories achieved the previous month in Illinois and Pennsylvania, makes Mr. Roosevelt's nomination by the National Republican Convention at Chicago next month almost a foregone conclusion. We are aware, of course, that Mr. Taft still insists that his own nomination is certain and that some of the Taft adherents (not a great many, however) keep echoing the same view; but, unfortunately, there is only too much reason for thinking that Mr. Taft is deceiving himself. On the face of the figures Mr. Taft has enough delegates to give him the nomination, but the Taft delegates in good part are only lukewarm in his support, and there is more or less tendency to defection all through the ranks of the Taft adherents. On the other hand, Mr. Roosevelt is surrounded by a band of political zealots who will fight with him to the very end.

Let no one therefore minimize the possibility of Mr. Roosevelt's nomination and still less the menace involved in such a nomination. As the coveted prize is gradually getting within his grasp, he is becoming more and more arrogant and defiant of those who are opposing him. There has naturally been considerable talk of a compromise by which both the contestants would be eliminated from the field. With such a bitter warfare between these two men and with the party rent asunder as a result of the enmity that has been engendered among their respective adherents, such a compromise might be the very best way out of the trouble. But Mr. Roosevelt has this week repudiated anew (he rejected the idea at the very outset of his campaign) all talk of a compromise, as far as he himself is concerned. His words are worth recording here as an indication of the character of the man and of the spirit actuating him. Speaking on Monday night, on the eve of the next day's primaries in Ohio, he boasted that he would be victorious, and then disposed of the suggestions of a compromise as follows: "I'll name the compromise candidate. He'll be me. I'll name the compromise platform. It will b our platform."

Thus it is a rule-or-ruin policy with him. He cares thing for the party, but is determined upon the mination, and relies upon his specious appeals to the ses to obtain success for himself at the polls, even e conservative wing of the party shall refuse to for him upon election day. Mr. Taft aptly charized the man, on the very day of the delivery of this ultimatum, when he likened the former President to Louis XIV. as King of France, when that monarch made the famous declaration: "The State, I am it. I am the State."

The duty incumbent upon business men is to bring pressure to bear everywhere upon the Democratic Party, with the view to securing the nomination of a Democrat for President of the right sort, around whom men of all shades of political opinion who abhor the Roosevelt policies and doctrines could rally. The danger is that the Democrats will simply oppose Roosevelt the man, and then declare for practically the same radical policies as Roosevelt himself. There would in that event be no choice except a choice of evils, and accordingly Mr. Roosevelt would be triumphantly elected. That is, indeed, what Mr. Roosevelt himself is confidently counting on. What was condemned in William J. Bryan sixteen years ago is now embodied in Roosevelt, and no Democrat who might be nominated could out-radical the ex-President in radicalism. The Democrats can only hope to succeed by nominating a man who will attract the conservative part of the population. By naming Bryan, or some puppet of his or of Hearst, they will be repelling the conservative Republicans who are anxious to turn from Roosevelt, but who will not vote for a Democrat permeated with the same pernicious ideas.

When we ask the business community to interest itself on behalf of the selection of a well-balanced Democrat, we appeal to the business world as a whole, in the truest and best sense of the word, and have no special reference to Wall Street or of the financial interests centred there. Opposition to Mr. Roosevelt and his doctrines in the financial district is by no means as strong as might be supposed, recalling how these interests suffered during Mr. Roosevelt's incumbency of the Presidential office. It is patent, of course, that in his present campaign for the nomination, he is in possession of unlimited means, and it is also well known that certain leaders in the financial and industrial world are open and avowed champions of his. In this we believe these men are making a grave mistake. There are of course many opportunists in the financial world who reason that after all it might be better to go with the tide and no longer oppose Rooseveltism, especially as the Democrats are so actively engaged in stirring up things themselves.

Those who argue thus contend that with Roosevelt re-elected the country would know the worst and thereafter everything would go along swimmingly. That is a fatuous and a dangerous policy. With Mr. Roosevelt again in the Presidential chair we would never know the worst. He is dependent for his success entirely upon appeals to the vicious, the ignorant and the uninformed. To prevent the defection of these classes he would constantly be making new bids for their support. He has frequently made attacks upon wealth and upon the existing political and social order, and in the event supposed he would go from one extreme to the other, until little was left to connect the present with the past. And his autocratic spirit would make him more and more imperious.

Every one will readily recall how he bellowed during the whole of his term in office, how he assailed every one who differed with him, and threatened and bully-ragged all those who were obliged to have relations with him. If, now, he should be returned to power, with the recall of judges and judicial decisions added to his other weapons, who, then, could stay his hand?

Who, then, would dare to oppose him? His will would be supreme—in the executive departments, in the Legislature and with the judiciary. It would not be the rule of the people (the plea with which he is now appealing to the masses), but the rule of Roosevelt alone.

We understand, of course, that those industrial and financial leaders who advocate the nomination and election of the ex-President do so because the latter advocates vesting the Government with supreme control over industrial corporations and trade combinations. These men believe they would then be no longer subject to trust suits and Government prosecutions. They entertain the fond hope that all that would then be necessary would be to submit their plans to the Commissioner of Corporations or some other Government official, and thereafter everything would be plain sailing.

Supposing that this should be the result, it would be the worst possible thing that could happen. Favoritism would inevitably rule and it would quickly appear that the arrangement would work to the satisfaction only of the clique that stood well with those in power. All those who did not train with this clique would get nothing and find their projects blighted and impossible of execution. In the end, even the advocates of bureaucratic government would have their eyes opened and see the evils of the system, as compared with which the defects of the present system would hardly be a circumstance. The crying necessity is that business affairs should be relieved as far as possible from disturbing Governmental and political influence. Proper laws for the regulation of large combinations are necessary, but the power to decide whether the laws have been violated should rest with the courts, who are not amenable to political considerations, and not be delegated to a bureau or official of the Executive Department, who will always be tempted to pander to the populace in order to retain office.

An acceptable Democratic candidate will be one who shall declare uncompromising adherence to Constitutional standards and who will seek to remove any evils that may have developed in connection with the conduct of large corporations without injecting Government further into business and without making the carrying on of business dependent upon political favor or influence. The vast majority of the voters in both parties would flock to the support of such a candidate. The people of this country believe in Live and Let Live. They are not extremists. They are well satisfied with our institutions and with our Constitution and form of government. The popular discontent and the spirit of unrest, about which one hears so much, exist mainly in the imagination of the politicians, particularly those of the Roosevelt type, who seek to promote discord in order to advance their own selfish ends. We are sure that our voting population will declare itself emphatically to that end if given an opportunity so to do. This opportunity will be denied them if a Roosevelt radical is opposed by a Democratic radical hardly less objectionable.

The situation to-day is closely akin to that of sixteen years ago, with this difference, that then the point at issue was the maintenance of our monetary standard, while to-day the issue is in effect the preservation of the system of government established by the framers of the Constitution with its carefully devised system of checks and balances. In the period from 1873 to 1896 both the great political parties were all the time coquetting with silver and both were afraid of doing anything to displease the handful of silverites. Concession after concession was made to the silver interests, just as to-day each party is seeking to outbid the other for the support of the extremists. But when the silver issue was brought squarely before the people, the vote went overwhelmingly against the blatant silverites. We believe that to-day it would go overwhelmingly against the Roosevelt radicals if a clear-cut contest should be provided between the opposing candidates. To be called upon to choose between two radicals would decide nothing and be conclusive of nothing. On the other hand, were a sound Democrat pitted against Mr. Roosevelt, we would quickly know where the country stood. If Mr. Roosevelt should be chosen anew, it would prove that radicalism was dominant and triumphant in this country. Everyone would then abide by the judgment and act accordingly. On the other hand, if success rested with the moderates, that would mean an end to the turmoil that has disturbed the country during the last dozen years. Will not the business community undertake to impress upon the Democrats what kind of a man is needed and will not the Democrats be at once sensible enough and patriotic enough to present such a man for the suffrages of the people?

Mr. Robert L. Fryer, President of the Fidelity Trust of Buffalo, has sent to Representative Pujo a polite and firm refusal to furnish the information demanded concerning the private business of the institution, and his associates in the management sustain his position. What is asked, he says, involves "that the relations of individuals and others with this company be laid bare for your inspection." He must decline to furnish the information asked, "or else I must recognize your authority to ask for or demand it." He cannot recognize this, for the company is a State institution, chartered by the State, examined by the State, responsible to the State. It has nothing to conceal as to its financial condition. It does a general banking business like other trust companies, making loans, receiving deposits, acting as guardian, accepting and executing private trusts, "and in all these matters we hold inviolate our fiduciary relationship to our patrons in the same way that lawyers are required to guard the secrets of their clients." There is not a person in this country who has a bank account, however humble, and even in a savings bank, who does not expect the institution to keep the transaction confidential. The custom is universally observed, because it is founded on the feeling (still held) notwithstanding the prevalent curiosity to pry into the affairs of others), that every person's private business is his own concern. As to obeying this custom, Mr. Fryer sums up in saying that "were we to do otherwise, we should have little business to transact, even if we were worthy of it."

Mr. Fryer throws into a strong light the temporarily over slaughed question of State sovereignty. "If Congress (he says) has the right to compel banking institutions to disclose relations with their patrons under such circumstances, what single power now exercised by the several States remains which cannot be taken from them by the fiat of Congress?" Certainly this question is unanswerable. The Fidelity Trust is a State institution, having nothing to do with the National Banking Act. Now, says Mr. Fryer, "if Congress has the power to inquire into the relations of a State bank or trust company with its patrons, it has the same power to invade the States and compel disclosure of private transactions carried on by citizens wholly within a sovereign State."

Speaking as a Democrat, and a hopeful and expectant one, Mr. Fryer devotes the remainder of his letter to a vigorous protest against the folly of attempting to equal or outdo the centralization and radicalism of the Republicans. The "New Nationalism," which Mr. Roosevelt proclaimed at Ossawatomie, startled the country. The "Charter of Democracy," which he proclaimed at Columbus, startled it anew. If the voting majority are now reconciled to this and ready to adopt it as the happy solution of all problems, Mr. Roosevelt himself is the man, and it will be impossible to elect any other. If the sober thought of the country has not expressed itself in the primaries, and is seeking relief, the Democrats have their long-awaited opportunity, for if the country does not want Rooseveltism with Roosevelt, it wants not only a different person but a different course.

This is the tenor of Mr. Fryer's manly and spirited protest against the political folly of attempting to outdo what is now proclaimed as the full blossoming of the rule of the common people. Naming a sound Democrat, on a sane and Constitutional platform, would offer alternative and escape. If the Baltimore convention is a thinking body, instead of a mere mouthpiece or a mob, to be swayed by shouting, it will discover the direction in which it is capable of rendering a national service and of perhaps regaining the power that it has not had in half a century, except in two terms under one man.

The annual meeting of the National Association of Manufacturers in this city this week considered the menace of labor unions (of which the members have had ample experience), industrial education, the current movement towards what is miscalled "compensation" for industrial accidents, the various preventive devices already existing (including a graphic presentation by moving pictures), and other topics. But a further step was indicated. Paraphrasing Lincoln, President Kirby declared that no country can exist half free and half throttled by unionism. The sober-minded part of the population, he said, should unite in one party whose chief purpose should be the preservation of the Government that has served us so well. A house divided against itself cannot stand, and if neither of the present parties will rise with a platform free from demagogueism, "then a new party will be forced upon the country whose platform will be the preservation of the Constitution as it stands and the principles which Lincoln gave his life to preserve."

The final reliance has always been on the sober thought of the common people, the only possible guaranty for a democratic government, that is, a representative one. This has never failed hitherto, and the encouraging assumption is that it will not fail. But it must have means of expression offered to it, or it must arouse itself and make such means. It is suggestive when a body of manufacturers, coming together to discuss business conditions, listen with apparent approval, although without formal indorsement, to a challenge to rally for preservation against tearing down.

A large Chicago corporation which is engaged in a mail-order business has given a million to the Crop Committee of the Council of Grain Exchanges, to be expended by installments in furtherance of the plans of that organization for agricultural development. The primary purpose of this committee is "to work through the grain trade and kindred organizations to obtain a larger yield of better grain," the chief instrumentalities being publicity, co-operation and education. The motive is not altruism; it is the same enlightened selfishness which has been moving the railroads that need more freight, the bankers that need more business and (in an unorganized form) the whole population, which needs food at lower cost. Each county is expected to study the plans best adapted to meet its own local conditions. A trained agriculturist is to be supplied to each county, "in connection with the United States Bureau of Farm Management, the State agricultural colleges, State commercial associations and local commercial clubs."

At the recent meeting (already mentioned) of the Executive Council of the American Bankers' Association, it was said that only a small percentage of those who are tilling the soil have any knowledge except that gained by personal, hard experience; the vast majority attack the soil with no education but that gained at the "little red school house" of the crossroads. The bankers of the Northwest, at least, seem really determined to change this, and a St. Paul daily says that the time is near when the young man who is thinking about active life will view a course in agriculture as seriously as he would a course in law, medicine or en gineering; now that farming is entering the list of sciences, it says, the practice of this science will enter the list of professions, becoming more "classy" than it has yet been, and with another attractiveness, because it will be remunerative. The agricultural schools cannot now turn out enough scientific farmers to meet the demand at an average salary of $1,500 to start with, and the reports from Wisconsin are that the average earning capacity in the first year is $1,180, while offers to those who are not through with their course range from $600 to $3,000. This same journal declares that not only are so many needed as agricultural teachers, but "there are so many residents of cities who have farms, either as playthings or as summer homes, for which they need skilled management," that the route to a good-paying position is quicker and surer through an agricultural course than through law, medicine or even engineering or chemistry.

Earth is so kindly in Australia, said Douglas Jerrold long ago, "that if you tickle her with a hoe she laughs with a harvest." In our country, the soil has been "tickled" by treatment which has been partly slothful but mainly ignorant, because unstudied. People have ceased to deride the "scientific" farmer, and are fast recognizing him as the only successful one. Pressed by a demand which is beyond supply and increasing faster than supply, agriculture must soon take on new methods, which will enlarge its rewards and attractiveness.

A renewed demand by German bankers for American funds is attracting active attention in banking circles at this centre. This demand has become quite insistent and rates offered have been in instances as high as 5¼% for sixty-day loans. This does not include a guaranty to the lenders against losses in the foreign-exchange operations attending repayment; and as at this season a sixty-day maturity is rather an uncertain prospect so far as the foreign exchanges are concerned, a 5¼% rate is not as attractive as it might appear on a superficial examination. Ia fact, a number of loans have been negotiated on a 4½% basis where exchange has been guaranteed. The high rate, therefore, is more significant as an indication of the necessities of the German market than of any particularly profitable banking operation on this side. The sixty-day loans

will, of course, carry well into the new quarter-year, and will thus tend to alleviate the strain that is confidently expected to appear at the end of June.

The trouble in Germany is that the country has been going ahead too fast on borrowed capital. Trade and industry have been expanding on a sensational scale, and a position has been reached where adjustment to a more conservative basis seems imperative. At the time war with England seemed so imminent, last year, the Kaiser, as we showed in these columns a few months ago, called a conference of executives of leading banks, including the President of the Reichsbank. He asked them the direct question whether, in the event of war with a nation of the first class, German banks would be able to finance such a war. On being answered in the negative, he is reported to have made the curt reply, "I expect a different answer the next time I ask that question." This incident is worth repeating, since it marked the beginning of a determined attempt by the Reichsbank to force as a definite policy a steady strengthening of German banking reserves. Unfortunately, the progress has been comparatively slight. In the first place, French bankers have shown little disposition to return the vast sums they withdrew from Germany at the time of the Moroccan crisis, and the problem that has been presented to German bankers, therefore, has been the doubly difficult one of strengthening the reserves at a time when the customary financial facilities to which German trade and industry try had become accustomed were withdrawn. There can be no question that the results in Germany last year would have been more than serious had it not, fortunately for Germany, happened that dulness in American national activities automatically released a large amount of American funds that became available at satisfactory rental rates for the German market. It will also be recalled that 20% was quoted at the close of 1911 in Berlin for loans to carry into the new year—a figure that in Germany was significant almost of panic conditions. Accompanying the current German demand for funds is the news that President von Gwinner of the Deutsche Bank of Berlin has caused a sensation in financial circles in Berlin by warnings of severe financial trouble that will require much caution to avert. The warnings were contained in a speech delivered in the Prussian Upper Chamber, and have been reenforced in other responsible circles. The big joint-stock banks have thus far not been successful in curbing excessive demands for credits nor in checking wild speculation. German advices predict that the bi-monthly returns of the big Berlin banks, which will be issued at the end of this month, will reveal unsatisfactory conditions, including a considerable increase in the amount of money devoted to carrying speculative stock commitments for their customers.

Monetary conditions in Britain, notwithstanding the recent reduction in the official Bank rate, are not over-comfortable. Private discounts in London are virtually up to the Bank rate, being 2 15-16@3% for bills to arrive and 3% for spot bills. The renewal of labor troubles may, to some extent, be regarded the source of at least a substantial part of this firmness, while an equally potent cause is the activity in commercial and manufacturing circles which continues at full speed ahead regardless of the increasing arrogance of labor.

France seems to be occupying a position of monetary ease among European countries peculiar to itself. An indication of the enormous amounts available for investment is contained in the subscriptions to the Parisian Municipal loan for 205,000,000 francs, which was offered for public subscription on a 3.15% basis on Tuesday last. These bonds, bearing 3% interest, on par, were in denominations of 300 francs and were offered at 285 francs. The issue was oversubscribed seventy times in Paris alone and the entire subscription was eighty-two times the total offering. When we consider that the deposits of actual cash or its equivalent that were necessary under the terms of sale amounted to at least $115,000,000 the resources of the French market can be fairly well appreciated. Paris cable advices suggest that the Bank of France was induced last week to reduce its official discount to 3% from 3½% in order to create a favorable financial atmosphere to encourage the success of the new loan. Another evidence, if one is necessary, of the strength of the financial situation in France is the fact that the recent issue of 300,000,000 francs in bonds by the Western State-owned railroad were oversubscribed thirty-three times. This latter loan carried 4% interest and the fact that the later loan was still more successful, even though it had an income value of only 3.15%, is, of course, susceptible of explanation. The proceeds of the municipal loan are to be devoted to the extension of the Paris gas system and the form of issue is one peculiarly attractive to Frenchmen. As explained by press dispatches from Paris, the loan possessed the allurement of a lottery with monthly drawings. The premiums range from 500 to 200,000 francs, the total amount thus to be distributed up to 1923 being 1,490,000 francs. An additional feature is that the issue gives a chance for investment to the modest saver, as bonds were obtainable by the deposit of 10 francs with subsequent 25 franc payment up to 1915. On the day of issue the bonds reached a premium of 4 francs.

The German Reichstag on Wednesday May 22 adjourned until Nov. 29. The closing session was an exceedingly stormy one, due to an attack upon the Kaiser by Dr. Ledebour, the Socialist leader, as a result of a speech at a banquet in Strasburg, in which the Kaiser declared that he would incorporate Alsace-Lorraine into Prussia. Chancellor von Bethmann-Hollweg excitedly defended the Kaiser. Besides the Budget, the chief legislation enacted at the session was the army and navy bills. The army bill provides for an increase of 29,000 men, including officers and non-commissioned officers, while the navy bill provides for an extra battle squadron, for which three additional battleships and two cruisers are to be constructed before 1920. The estimated additional annual cost is $24,250,000 this year, $31,750,000 next year and $28,500,000 yearly thereafter. The navy bill also provides for an increase of the personnel of the fleet from its present strength of about 60,000 to about 80,000 officers and men. The Reichstag adopted the two laws on condition that it would grant the necessary funds upon the introduction by the Government of legislation providing for some form of general property tax and its enactment before Oct. 1 1916. Its second condition was that the Government should re-introduce the inheritance-tax bill, the rejection of which overthrew Chancellor von Buelow, and which was one of the principal issues at the last general election. The Secretary of the Treasury announced that the Government accepted the first condition, which was interpreted as demanding some form of taxation of wealth or inheritance, and would introduce a measure to that effect; but it was unwilling to bind itself to the inheritance tax con-

templated in the second condition. The Reichstag nevertheless adopted the second condition by a vote of 184 to 169.

The second visit of Viscount Haldane, British Secretary for War, to Berlin seems to warrant the interpretation that underneath the surface the prospect of an Anglo-German agreement upon restriction of armaments is not as unfavorable as might be suggested by the passage of the German army and navy bills. In addition, a distinctly favorable impression has been created in Berlin and London, according to cable advices from those centres, by the publication in a German review, "Nord und Sud," of articles by prominent Englishmen and Germans collected by Professor Stein, an advocate of an Anglo-German entente. The most significant article is that of A. J. Balfour, former British Premier, who analyzes in a perfectly calm manner the reasons which make it difficult for Great Britain to regard Germany's fleet-building as solely for defensive purposes. He disavowed his belief in the statement that the bulk of the German people wish to attack their neighbors. The danger lies, he says, in the co-existence of Germany's marvelous instrument of warfare with the assiduous and almost organized advocacy of a policy which it seems impossible to reconcile with the peace of the world or the rights of nations. "For those who accept this policy German development means territorial expansion. All countries which hinder, though only in self-defense, the realization of this ideal are regarded as hostile, and war, or a threat of war, is deemed a natural, fitting method whereby the ideal is itself to be accomplished. . . . Germany has taught Europe much and can teach her more. She can teach Europe that organized military power can be used as effectually in the interests of peace as in those of war; that the appetite of domination belongs to an outworn phase of patriotism; that the forbearance of civilization must be the joint work of many peoples, and that the task is not lightened by the tremendous burden of modern armaments. If she is prepared to lead on these lines, she will find the world prepared to follow; but if there are signs that her desires point to other objects, can it be surprising that other countries will watch the steady growth of her powers of aggression with undisguised alarm and anxiously consider schemes for meeting what they have been driven to regard as a common danger?"

Labor troubles have broken out afresh and in violent form in England. At six o'clock yesterday morning a strike of dock laborers was ordered in London, and a large number of ships, with a total tonnage in excess of 1,000,000 tons, many with perishable food cargoes, are held up in the Thames. Representatives of dock workers from every port in the United Kingdom were present at a meeting of the labor federation on Thursday, when a resolution was unanimously adopted to stop work. The resolution, according to the Secretary of the Federation, means "the stoppage of work by all transport workers of London," and, if necessary, a national strike, he said, will be declared later. Should the strike become national, it is estimated that more than 500,000 men will cease work and the question of the food supply of Great Britain will again become involved. The breaking out of labor troubles in such an acute form after the recent settlement of the coal strike has been the source of much discouragement to the London market for securities.

Mob rule is in full swing in Budapest, Severe disturbances reflect a so-called labor protest at the election of Count Tisza as President of the Lower House. The protest took the form of a general strike of workers, which was ordered Thursday. Only about one third of the workers obeyed this order, however, though it was estimated, according to cable advices, that 50,000 workers were marching through the city attacking men at work. All this took place at the instigation of the Socialists, but on Thursday evening their leaders, recognizing that the strikers had gone too far, issued a proclamation to the men to stop rioting and to resume work on Friday morning. The orders to return to work were not generally obeyed and yesterday police and regular troops had hard work in handling the mobs, although reports last evening indicated that order was being gradually restored.

The Turco-Italian war is still dragging from the military standpoint, but the international phase seems to be becoming more acute. Italy's occupation of the Turkish islands in the Aegean Sea, which Turkey has answered by expelling Italians from the Empire, is causing considerable unrest in political circles. Italy has now control of eleven Turkish islands in the archipelago, and this, to quote the Paris "Temps," means that Italy's occupation of the archipelago changes the whole political map, as the Eastern Mediterranean enters into the dominion of the Triple Alliance. "The turn of events, therefore," says the "Temps," is distinctly against the interests of the triple entente and chiefly against those of Russia, and the time has arrived for the members of the triple entente to examine the situation seriously."

Cables from Peking announce that revised estimates of the Chinese budget for 1912 show a revenue of $207,900,000 and an expenditure of $403,200,000, including extra army expenditure of $22,400,000 and $77,000,000 for provisional administration. Premier Tang Shao-Yi has resigned in consequence of the violent attack by the National Council on his handling of recent loans. The Cabinet is endeavoring to persuade him to remain. No definite conclusion of the Six Nation loan has yet been announced.

A race war that has started in Cuba has created conditions that may have grave consequences. Negroes in many parts of Cuba are reported to be rising against the Government, and the situation was regarded sufficiently serious at Washington to justify the dispatching of the United States naval transport Prairie from Philadelphia on Thursday night with 600 marines on board for Guantanamo, where it will join the gunboats Paducah and Nashville. There have been no serious depredations committed on American property thus far, and the action by our Government is merely precautionary. It is evident, however, that information of a substantial character must have been specific, else there would have been no important reason for the evident haste that has been shown. The American Minister at Havana, Arthur M. Beaupre, on Thursday called upon Senor Sanguily, the Cuban Secretary of State, and explained that the action in sending the naval vessels had been taken in the friendliest spirit towards the Cuban Government, and was not intended in any way as intervention. Since the present troubles began American interests in the vicinity of Guantanamo and Santiago have been making representations to the State Department of the dangers to

their lives and property, and more recently have been urging the State Department to procure adequate protection for them. The chief trouble appears to be confined to the Provinces of Santa Clara and Oriente. The leader of the revolutionary forces is General Estenoz, who was arrested a short time ago for a minor offense in Havana and forfeited his bail and subsequently began operations against the Government in Santiago. He is fighting, he declares, for the repeal of the Morua law which was passed in 1909, and which forbids the organization of parties on racial lines. The negroes are arguing that they made up 85% of Cuba's revolutionary armies, and they demand a commensurate share in the list of office holders. This is the second attempt of General Estenoz since the law was enacted, the first being immediately after the enactment, when he was jailed for conspiracy. The main purpose of the negroes, according to reports from Havana, is to force intervention by the United States, and Colonel Armenteros, one of their leaders, announces he will continue to destroy foreign property. This was the threat of the revolutionists in 1906 which caused the foreign protests to the United States and precipitated the American intervention.

Latest advices from Mexico seem to indicate the early collapse of the revolution. General Pascual Orozco, the revolutionary leader, is reported to be in full retreat toward the northern border, having been defeated in a number of severe engagements since his advance column was turned back at Peronal (near Torreon) about a fortnight ago. A dispatch via El Paso states that General Orozco has been wounded. This report has not been definitely confirmed. Advices received by our State Department state that the Federals have demoralized the main force of the rebels under General Orozco to a greater extent than has been supposed hitherto. The rebel force is so scattered that the Federals are finding it difficult to locate the revolutionary army. An incident that has an international importance as an indication of Mexico's attitude is the payment by Mexico to the German Government of $100,000 indemnity to survivors and children of four Germans killed at the Covadonga factory in Puebla, Mexico, during a riotous outbreak last July. Julius Kruttschnitt, Vice-President and Director of Maintenance and Operation of the Harriman lines, in an interview this week, said that it was impossible to estimate the damage done by revolutionists to the Southern Pacific lines in Mexico, though more wooden bridges and trestles have suffered than steel and concrete structures. Because of the damage done on the line from San Blas to Tepic, a distance of about 480 miles, it has been decided for the present to abandon operations there.

The movement of aliens, both immigrant and non-immigrant, into the United States continues upon a comparatively restricted scale in 1912; for, while according to the latest official statement (that for March) and to unofficial figures for April and May, last year's inflow is being slightly exceeded, there is a noticeable decline from 1910 or 1909. Departures of steerage passengers thus far in 1912, moreover, have been more numerous than usual, and consequently the gain in foreign-born population is moderate as contrasted with recent years. As to nationalities of the arriving aliens in the current calendar year, a falling off in Italians is observable from 1911, and the same is true of Hebrews, English, &c., Dutch and Scandinavians. Poles, on the other hand, have come in much greater number, and a more or less marked increase in the arrivals of Bulgarians, Croatians, Ruthenians and Slovaks is to be noted. Altogether aliens to the number of 110,948 were admitted through the various ports of the country in March 1912, against 96,917 in the month a year ago and 152,020 in 1910, with the three months' influx 212,669 and 192,017 and 275,564, respectively. For the nine months of the fiscal year 1911-12 (July 1 to March 31), the inflow reached 649,262, against 721,396 in 1910-11 and 779,507 in 1909-10. Against these 9 months' arrivals in 1911-12 there were departures of 471,907, against only 371,610 in 1910-11 and 264,673 in 1909-10, so that the gain in population through the alien movement thus far in the current fiscal year reaches but 177,355, as contrasted with 349,786 in 1910-11 and 514,834 two years ago.

It is to be noted in connection with the above that considerable public opposition to the immigration bill, passed by the Senate April 19, has developed latterly. At a hearing before the House Committee on Immigration on May 7 the bill was generally condemned by representatives of charitable organizations and steamship companies, especial antagonism being shown toward the imposition of a literacy test. As a result of the opposition, the committee voted on May 21 to lay the bill on the table, and in the opinion of various Representatives this will serve to considerably delay the passage of an effective law to restrict immigration. On the other hand, there is a feeling that it were better to do nothing than to pass a measure so drastic and radical as the one in question.

Private foreign discounts, with the exception of Paris, again register a steady demand for banking accommodation. At London, according to yesterday's cable advices, the range was 2 15-16@3% for bills, long and short, to arrive, while spot bills were quoted at 3%—the official Bank of England rate. A week ago 2⅞% was the current rate for bills of all maturities, spot and to arrive. The market, according to the weekly statement of the Bank of England, was a borrower of £1,188,000, one particular demand during the week having been the necessity of raising funds to pay for the £3,000,000 treasury bills on May 21. In addition to the borrowings there was some evidence of liquidation of high-grade securities in order to raise funds to complete recent underwritings, consols closing at a further loss of ⅜% for the week, after a net reduction of 7-16% last week. In addition to the selling of investment securities, there was active liquidation of speculative stocks, especially of Marconi Wireless shares, in which there had been exceedingly wild trading since the prominence into which the wreck of the Titanic brought the securities. An additional failure was reported on the London market this week, and it is feared that there will be others at the next settlement. In Paris the closing private discount rate yesterday was 2¾% for all maturities, which compares with last week's closing quotations of 2¾% for spot bills of all maturities and 2⅞% for bills to arrive. In Berlin the rate at the close was 4% for all maturities, comparing with 4⅛@4¼% a week ago. Brussels closed at 3⅜% for spot and to arrive bills, which is an advance of ⅛% for spot bills. Amsterdam remains unchanged at 3⅞%. The official bank rates at the centres named are: London, 3%; Paris, 3%; Berlin, 5%; Brussels, 4½%, and Amsterdam, 4%.

The weekly statement of the Bank of England, which was published on Thursday, was not quite as attractive as has recently been the rule. As usual, the Bank bought the greater part of the offerings of Cape gold in the open market on Monday, which amounted to £800,000. Of this amount India took its customary weekly quota of £200,000, besides taking quite freely from Australia. The Bank, therefore, purchased £600,000 of the total, and in addition bought fairly substantial amounts over the counter almost daily. Nevertheless, the increase in the gold coin and bullion holdings, according to the dispatch of our special correspondent, amounted to only £204,388. This increase, however, is sufficient to bring the total bullion holdings above the coveted £40,000,000 mark, the total now held amounting to £40,036,726, which compares with £38,331,578 at this date last year and £38,666,514 in 1910. Public deposits naturally reflected the payment for the new treasury bills, expanding £3,683,000. Private deposits were reduced £2,400,000, the increase in loans and the decrease in private deposits just about offsetting the Treasury operations. The proportion of reserve to liabilities is now 51.33%, comparing with 52.30% last week and 51.76% at this date last year. On Thursday £200,000 was taken for shipment to Turkey. Our special correspondent furnishes the following details of the gold movements into and out of the Bank for the Bank week: Imports, £485,000 (of which £17,000 from France and £468,000 bought in the open market); exports, £270,000 (of which £200,000 to Turkey, £20,000 to Java and £50,000 German coin sold), and shipments of £11,000 *net* to the interior of Great Britain.

The weekly statement of the Bank of France showed the abnormal increase of 360,800,000 francs in general deposits, which undoubtedly has direct connection with the new municipal loan which was formally offered for subscription on Tuesday. This loan was so heavily subscribed that, although the total offered was only 205,000,000 francs, the preliminary formal deposits to guarantee the responsibility of the bids exceeded 575,000,000 francs. The same explanation will probably suffice for the increase of 143,575,000 francs in discounts, as the market was called upon to furnish accommodation for subscribers to the loan. The Bank's gold holdings expanded 17,025,000 francs, bringing the total up to 3,258,250,000 francs, comparing with 3,213,350,000 francs one year ago and 3,415,975,000 francs in 1910. The silver holdings increased 1,650,000 francs. Circulation was reduced 54,750,000 francs and treasury deposits increased 26,200,000 francs.

The weekly statement of the Imperial Bank of Germany was issued last Saturday. It registered an increase of 28,134,000 marks in gold and of 47,043,000 marks in gold and silver combined. Notes in circulation were reduced by 87,496,000 marks, treasury bills by 21,000 marks and discounts by 56,878,000 marks. Deposits were expanded 94,109,000 marks and loans 743,000 marks. The gold and silver holdings of the Imperial Bank are now 1,289,702,000 marks, comparing with 1,167,860,000 marks one year ago and 1,183,160,000 marks in 1910. Loans and discounts aggregate 1,100,301,000 marks, against 1,029,980,000 marks one year ago and 914,040,000 marks in 1910.

In the local money situation there is no appreciable change. As is quite natural during the current acute political unsettlement, slight disposition is being evinced to undertake new commitments on an extensive scale, and, therefore, the demand for fixed maturities and the offerings of commercial paper are both quite negligible. The demand that has developed from German borrowers, to which reference has already been made in another column, is the only new feature. This has contributed a degree of firmness that is more noticeable among lenders than was the case a week ago. Meanwhile, the volume of speculation on the Stock Exchange has become so restricted that the demands on the banks from this source are also of unimportant proportions. No estimate is yet available of the amount of funds that has been loaned to Berlin and it is more than likely that they have in part been drawn from balances that were being carried by New York bankers in London. At any rate, sterling exchange has ruled quite firm throughout the week and as we have now reached the active period of the tourist season, there seems less encouragement for reliance upon our ability to draw home our funds from abroad in the event of the local market requirements becoming at all urgent. However, the prospects of such a desirable development are unfortunately not overbright, as it is not likely that either trade or industry will materially expand under its present handicaps while offerings of new securities likewise promise to be restricted until the political situation assumes a more definite form.

Call money during the week has ruled between 2¼ and 3%. The latter rate has been quoted as the maximum for each day until Friday, when 2⅞% was the highest, while the minimum has varied. Thus, on Monday the minimum was 2½%, on Tuesday 2¼%, on Wednesday 2½% again, on Thursday 2¾% and on Friday 2¼%. The ruling rate on Monday was 2⅞%, but during the remainder of the week it remained unchanged at 2¾%.

Time money, as we have intimated, has not appreciably changed, rates being largely a question of negotiation so far as small fractional advantages are concerned. Quotations at the close are 3% for sixty days, 3@3¼% for ninety days, 3¼@3½% for four and five months and 3½% for six months. The offerings of mercantile paper are comparatively light and, as was the case last week, the minimum and not the maximum rate in the discount quotations more accurately represent the market. The formal quotations are 4 to 4½% for sixty and ninety days' endorsed bills receivable and also for four to six months' single-name bills of choice character; others are still quoted at 5%.

Sterling exchange has remained firm all week, which is not unnatural in view of the firmness of money in London and in most of the Continental centres. The tourist season is now in full swing and is requiring active remittances, while the demand for American funds that has once more developed in Berlin is also indirectly a factor in the market's strength. It is understood that the recent offering abroad of Bethlehem Steel bonds was entirely successful. These bonds were offered both in London and Amsterdam, but the foreign subscriptions exercised no appreciably depressing influence on sterling quotations. Checks on London in Paris closed at 25 francs 24¼ centimes, which compares with 25 francs 22 centimes a week ago, showing a tendency from Paris to London, while checks on

London in Berlin closed unchanged for the week at 20 marks 46 pfennigs. This rate is in favor of Berlin.

Compared with Friday of last week, sterling exchange on Saturday was firmer for demand and cable transfers, which were quoted at 4 8705@4 8710 and 4 8730@4 8735, respectively; sixty days was unchanged at 4 8425@4 8435. On Monday rates moved up on inquiry for remittance against sales of stocks by London, and demand advanced to 4 8710@4 8715, cable transfers to 4 8740@4 8745 and sixty days to 4 8440@4 8450. There was a further advance on Tuesday on German borrowing in this market and firmer English discounts; rates went up about 10 points during the forenoon, but later receded slightly, the final range being 4 8715@4 8720 for demand and 4 8745@4 8750 for cable transfers; sixty days ruled unchanged. On Wednesday, after a firm opening, the market reacted on dull trading and an easier tendency in London discounts, and closed practically unchanged for the day at 4 8715@4 8720 for demand and 4 8750@4 8755 for cable transfers; sixty days advanced to 4 8450@4 8460. Sterling moved irregularly on Tuesday; early weakness was followed by a slight rally on continued borrowing by Germany, and the British labor troubles; the close was firm, with demand about 5 points higher at 4 8720 @4 8725 and cable transfers at 4 8755@4 8760; sixty days showed no change. On Friday the market continued firm, advancing about 5 points early in the day and then reacting, and closing at an advance of 5 points for sixty days and at a decline of 5 points for demand and cable transfers. Closing quotations were 4 8450@4 8460 for sixty days, 4 8715@4 8720 for demand and 4 8750@4 8755 for cable transfers. Commercial on banks closed at 4 83@4 84 and documents for payment 4 83⅝@4 84¾. Cotton for payment ranged from 4 84½@4 84¾; grain for payment from 4 84¾@4 85.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending May 24 1912.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks.*	*Net Interior Movement.*
Currency	$13,496,000	$4,353,000	Gain $9,143,000
Gold	3,478,000	947,000	Gain 2,531,000
Total gold and legal tenders	$16,974,000	$5,300,000	Gain $11,674,000

With the Sub-Treasury operations the result is as follows.

Week ending May 24 1912.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings.*
Banks' interior movement, as above	$16,974,000	$5,300,000	Gain $11,674,000
Sub-Treasury operations	24,300,000	27,500,000	Loss 3,200,000
Total gold and legal tenders	$41,274,000	$32,800,000	Gain $8,474,000

The following table indicates the amount of bullion in the principal European bank.

Banks of	*May 23 1912.*			*May 25 1911.*		
	Gold.	*Silver.*	*Total.*	*Gold.*	*Silver.*	*Total.*
	£	£	£	£	£	£
England	40,036,726	--------	40,036,726	38,331,578	--------	38,331,578

Total week	510,187,846	109,647,920	619,835,766	500,984,675	111,665,043	612,649,718
Prev. week	507,006,318	107,676,170	614,682,488	496,717,200	110,247,397	606,964,597

a The total of gold in the Bank of Russia includes the balance held abroad—that is the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-eighth of the total this year, against about one-seventh a year ago.

b The Austro-Hungarian Bank statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The division between gold and silver given in our table of coin and bullion in the Banks of Italy and Belgium is made from the best estimates we are able to obtain; it is not claimed to be accurate, as the banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

THE GOVERNMENT AND "COFFEE VALORIZATION."

The latest move by our Department of Justice in the application of the Anti-Trust law is one of peculiar interest. Last Saturday the Government filed suit against the agents of the much-discussed "coffee valorization plan," undertaken by an international syndicate under the auspices of the Brazilian Government, and continued from 1906 up to the present time. The stated grounds of the Government suit are that the syndicate has been holding off of the American market great amounts of coffee bought from Brazilian producers, and has been re-selling such holdings only at an arbitrary fixed price. In the complaint there is set forth the sufficiently well-known contract between the Brazilian Government and the syndicate, first drawn up in July 1906, providing minimum prices at the sales of the syndicate coffee equivalent to between 14 and 15 cents a pound, whereas the price in the two preceding seasons had ranged from 7⅛ to 8⅞ cents. The expenses of this forestalling operation were to be met through a $75,000,000 loan, issued by the Brazilian State of Sao Paulo, and subsequently guaranteed by the Brazilian Federal Government. This loan was raised in Europe on the collateral of the coffee itself, but also with the pledge of the proceeds of a so-called "surtax" imposed by the Brazilian Government on exports of coffee in excess of a certain arbitrary figure.

The Government reviews at some length the actual operations of this syndicate. It finds that they had bought 8,146,123 bags of coffee up to the end of 1907, and that the total of purchases had been subseqently raised to 10,868,266. Up to September 1909 the syndicate had sold only 3,781,894 bags, leaving 7,086,372 for future disposal. Sales made since 1909 are stated to have left four to five million bags in the hands of the syndicate, of which 950,000 bags are stored in the United States. On April 1 1911 the syndicate publicly announced that no further sales of its coffee holdings would be made that year. Last January, when 400,000 bags had been sold at 15 cents, a similar announcement was made regarding 1912.

Pending this operation, the price of Rio coffee at New York has risen from something like 7½ cents a pound to about 14¾. Laying stress on this advance of nearly 100% in price, the Department of Justice contends that the American operations of the syndicate violated the Anti-Trust law. The fact that these actions "were not unlawful in Brazil and were participated in by a foreign State" cannot, the Attorney-General argues, make them lawful in the United States. The acts committed by the defendants in this country must be judged entirely by the laws of the country in which they were committed. Therefore the Attorney-General's petition asks that the valorization plan, to the extent that it has been applied in our own inter-State or foreign commerce be declared illegal; that the syndicate be enjoined from further holding its stock of coffee off the market, and that the courts appoint a receiver to take charge of its coffee holdings.

A number of highly interesting questions are involved in the suit thus initiated. First will arise the question whether the price has been arbitrarily raised by the syndicate's operations. Members of the syndicate have denied that this is so. But such raising of the price was avowedly the intent of the valorization plan, and it must, therefore, in the main, be accepted as a result of that plan. Yet it would not be wholly

fair to ascribe to the syndicate's operations all of the rise in price, because the heavy Brazil tax on coffee exports in excess of a certain figure would naturally tend to check the export movement, while it is also true that the world's crop of coffee since 1906 has not increased, and has in fact fallen considerably below the average yield of several preceding years. In general, however, the facts are unmistakable that an important market is artificially controlled through borrowed money, not ostensibly for a speculative profit, but avowedly to prevent such decline in price as would be natural if an unusually large crop is raised.

This part of the situation has three aspects—the economic aspect, which applies to the field of industrial production generally; the financial aspect, in its relation to the fiscal operations of the Brazilian States; the social and legal aspect, as applied to the interests of the consumer, especially in America. Our own opinion has been from the start that the valorization plan was economically unsound, representing, as it does, an arbitrary and unnatural interference with the course of industry. To what lengths such interference, once begun, might logically lead people or governments that had adopted such a plan of regulating industry, may be judged from the fact that the Brazilian Legislature of 1909 favored and very nearly passed a law providing for actual destruction by the Government of coffee produced in a given year in excess of a stipulated amount. This proposal was withdrawn in 1910; yet it is difficult to see that it was not a natural consequence of the general proposition. Financially, the valorization plan has enjoyed unexpected success in the five or six years during which it has been in operation. For this there have been a number of special reasons, not least of which was the fact that enormous supplies of capital were readily available on the money markets of the world for any purpose where the security was high. Yet the burden on Brazilian finances is undoubtedly very heavy, not less so when the revenue from the surtax, which is relied on largely to meet the interest burden, is obtainable in quantity only when the Brazil coffee crop is large and when, therefore, the ultimate purpose of the valorization plan will have been defeated. This part of the general question has not yet had its complete and final test.

It is, however, the legal aspect of the plan which alone concerns our Government. We have set forth already the contentions and petitions of the Department of Justice in regard to the valorization plan. They appear on their face to make out a plausible case for restraint of trade. But there are other aspects of the matter which do not appear in the Government's formal brief. One of them is the question, whether anything would be accomplished for the consuming community, even supposing the Government's proposition to be carried out. At present, 950,000 bags of coffee are stored in the United States; but four or five times as much is stored in foreign markets, and it is not clearly apparent that the syndicate's undertaking would be in any way hindered or embarrassed if all its coffee were to be stored in Europe, and if all its sales were made on the European markets.

But beyond even this consideration, there remains the question of the attitude of Brazil. That the action of that State, in attempting to force an artificial market on the foreign consumer of its coffee and to do so through operations on those foreign markets themselves, was a most obnoxious Governmental policy, does not alter the diplomatic position of the case. Nor can that aspect of the problem be improved by insisting that the real solution of the Brazilian problem is to encourage diversification of its crops. The gist of the matter is, that the Brazilian Government is, to all intents and purposes, a defendant in this suit, though, of course, not formally mentioned in the Government's petition. Yet no official cognizance of this relation of the Brazilian Government to the litigation has in any respect been taken. Indeed, it could not have been taken save through the State Department, and it is somewhat difficult to see how the matter could have been approached, even there.

Whether, therefore, our Government's suit will be taken by Brazil as a deliberate unfriendly measure by a neighboring government, is an interesting question. It is not easy to see how Brazil, which undoubtedly has had its heart in the valorization project, is likely to look on the matter in any other way. Mr. Herman Sielcken, the American member of the valorization syndicate, when testifying on this same matter a week ago, before the Pujo Committee at Washington, questioned the whole propriety of our Government's "going into Brazil's affairs." As to the legal propriety of such action, there is a good deal to say on both sides. But the political side of the matter has unusual aspects, which might easily become embarassing at a time when our relations with the Latin-American States to the South of us are in a more or less delicate position. Perhaps it would have been wise for the Government to have counted the cost more carefully in advance of its petition to the courts, and to have assured itself of what would actually be gained if the suit were to succeed.

AN INSTRUCTIVE TRADE LESSON FROM THE PAST.

There is an interesting bit of history which has value to-day in the uncertainty which hangs over the immediate future of China and large parts of Asia and Turkey, and in view of the sharp contest which is going on with reference to the partition of Africa, as well as the new interest awakening in the possibilities of South America. History has been, hitherto, chiefly the story of conquering nations and of great military captains. The destiny of the world has lain largely in their hands. But new forces have now come into play, and to-day far larger scope than in the past is given to little recognized but always existing forces which have had less opportunity in the strife of the kings and the captains who are now departing.

The merchant has been dependent upon the patronage and protection of the Crown. And where commerce has played an important part in the development of the world, it has been either a royal perquisite, or has been carried on by great organizations which have had the advantage of royal favor or State protection, like the British, Dutch and East India companies, and the early Spanish and Portuguese adventures. With the now established freedom of the sea, with the growing recognition of the rights of neutrals, and with the creation of international law and the increased stability of the nations of the West, the individual merchant has found his opportunity.

This fact has two important bearings. It shows that there is no necessity for urging, as has lately been done in Berlin, the development and maintenance of a great navy, in order to guarantee protection to German merchants in any part of the world. And, also,

it shows how large a place definite commercial education and intelligent enterprise have come to play in the possibilities that are open before the individual business man. As never before, the world is his field. And with the development of the modern means of intercommunication, the world has come home to him, wherever he may dwell. He can not only send his goods to the ends of the earth and find a profitable market for them—if he knows what goods are wanted at the ends of the earth, and can produce them in satisfactory form and at satisfactory price—but he is also awakening to know that unless he has this free access to all markets, coupled with exact and intimate knowledge of their wants, he cannot expect to build up a business that shall be adequate to a proper ambition or have hope of permanency. This fact is what lies back of the new movement to supply commercial education of a high character in all the leading commercial cities.

Attention has been recently called to the place which private enterprise occupied at the very opening of the modern world, four centuries ago, by a brilliant address delivered in Berlin by Rector Carl Dunker of the Handels-Hochschule. The immediate effect of the discoveries of Columbus and the early Portuguese navigators was to check the prosperity of the cities and countries adjacent to the Eastern Mediterranean. They saw their trade with the Levant beginning to be turned around the Cape of Good Hope. Then it was that the adventurous son of a Nuremburg tradesman, named Martin Beheim, recognizing the coming failure of the business of his native place, ventured by a new route down the Rhine, through Antwerp, to Lisbon. He sought to open a trade in astronomical instruments, a specialty of the skilled workmen of Nuremburg. He was himself a pupil of the great mathematician, Johann Muller of Konigsberg, and was academically educated. He was neither a sea rover nor an explorer. But he took with him sufficient knowledge of astronomy to teach the Portuguese navigators how to use the newly-devised quadrant, and gave them a new method of reckoning, by the altitude of the Pole Star. This not only opened the way for the world-wide exploration which was to follow, but established a market which was to be of immense importance to the towns of Southern Germany. Their merchants discovered that goods from the Orient which came direct by sea to Lisbon were within their reach by water to Antwerp, up the Rhine and down the Danube. In return, there was a demand for the product of their mines, and manufactures. Two merchant houses in Augsburg ventured largely into the new business, and their story is a suggestive one to-day.

Nearer the Mediterranean than their northern neighbors, they were harder pressed by the shrinkage of the Levantine trade, but they knew how to seize their opportunity. They had had early connection through Southern France and Genoa with the people beyond the Pyrenees, especially with Saragossa and Valencia. Since the Tyrolean pack-horse routes began to be deserted, and spices poured in by way of Antwerp, the "Ancient and Honorable Merchants of the Imperial City of Augsburg and all other cities of Germany," as they called themselves, turned toward the Scheldt, where an equal chance for trade with the Portuguese awaited them. The Welsers of Augsburg soon had their representative in Lisbon, and he negotiated with the Crown for them, the Fuggers and four other South German firms, a share in the new trade. With three ships and valuable cargoes, they participated in the Indian expedition of 1505. Their profit was 150%. They called themselves the first Germans to seek the Indies, and they participated, though with smaller cargoes, in succeeding expeditions to the East. Unfortunately, the great profits of the business raised far-reaching controversies with the Portuguese Exchequer, which became so much the less friendly the more the King, through his Indian business, came into possession of sufficient capital of his own not to need further alliance or aid from outside sources.

The old Indian sugar industry, which was formerly carried by the Arab-Mohammedans in their victorious march to the western borders of the Mediterranean, Portugal now transplanted to the hitherto unknown islands of the Atlantic, and united to it the labor of the West African negroes. About 1510 the Welsers found entrance to this sugar business of Portuguese Madeira and the Spanish Canaries. When the "Victoria," the only surviving ship of Magellan's expedition, returned to Seville from her voyage around the world, her valuable cargo of spices passed into the hands of the Welsers. The contest was on between Spain and Portugal for possession of the business and lands of the Far East. The Augsburg merchants joined in the next expedition under the lead of the Cabots, to make sure of a share in the newly opening trade. Their compatriots, the Fuggers, leased from the Spanish authorities the entire west coast of South America from Peru to the Straits of Magellan, with supreme dominion and monopoly over all the islands of the Pacific within the same latitude, because they saw that that region was to occupy the same important position, as half-way house, to the Indies of the west that the Cape of Good Hope did in the route to the Indies of the East. The Fuggers, however, were destined to defeat. Pizarro's captains swept down the coast from the north, pushing their borders to the Aurecanian Indians of the south, where, in the play of fate, in the nineteenth century, once more German intelligence and persistency re-created an oasis of trade in the dark forests of that region. The Mexican Acapulco and not the Chilian harbor, became the port of departure for the new trans-Pacific business. Instead of the southwest passage, which Magellan opened, and upon which the Fuggers had staked their enterprise, the Northwest Passage became the only one to be used by Spanish merchant vessels, through the wastes of the Pacific to Manila and the remoter Orient. Returning before the west winds, by the same parallels, the Spaniards were the earliest Europeans to take possession of the California coast. To-day, from Japan to Singapore, the various forms of Asiatic dollars carry evidence of their Mexican origin, as Spanish names as far north as Alaska witness to the long-forgotten route of that early traffic around the world. The Fuggers, however, were able to hold their ground in the alliance with the Spaniards until 1645, for among Spanish exportations quicksilver was the most important, since, from the middle of the sixteenth century, by the introduction of amalgamation in the separating of the precious metals, it had become indispensable, and could be had only in small quantities in America. By their working of the Almaden mines, which they controlled, in a hundred years they delivered not less than a quarter of a million zentners (quintals) of the liquid metal to the Spanish Government, at no small profit to themselves.

In their turn, the Welsers succeeded in establishing themselves, by royal privilege, in 1525 in Seville, the port that had the monopoly of the American business, and in San Domingo, the chief town of the New World.

In 1528 the partners of their firm, Heinrich Ehinger and Jerome Sailer, concluded the memorable contracts of Burgos, which secured to the Augsburg house the monopoly of the West Indian slave trade for four years and the great land concession of Coro, in Northwestern Venezuela, with the monopolies and rights that went with it. For this the Welsers paid 20,000 ducats, and in turn were obligated to build forts, to sow the land, and to bring over German miners as managers and superintendents of the mines. For this great undertaking they acquired their own docks in the harbor of Seville. Their recruiting officers marched with drum and fife through the city, and the Welser squadron led, the same year, out of the Guadalquiver, a merchant fleet to take possession of American tropical territory for an Augsburg firm. The flag was Spanish, and Spanish also the command, as far as San Domingo. There the representative of the company, Ambrose Ehinger, took command, and landed in Coro Feb. 24 1529, a Welser Governor of the royal Spanish Province of Venezuela.

For several years Welser vessels carried over slaves, provisions and horses, and brought back sugar and skins. Welser mining was conducted in Espanola and in Mexico. In Venezuela, Welser employees, as leaders of desperate expeditions, pressed through unknown forests and over mountains, to the so-called "Eldorado," which later sealed the fate of Sir Walter Raleigh, and of which the gold-bearing territory at the close of the nineteenth century threw the governments and the exchanges of England and America into dangerous excitement. The Welsers and their people were hated by the Spaniards, as aliens, and in San Domingo were openly despised by the natives, while for a time they were upheld in Spain by the Court and the Indian Council. At ast, in 1540, they had to surrender their establishments in San Domingo and Seville, and they sold their Mexican silver mines to the Kronburgers, a German-Spanish house in Seville. With German tenacity, they fought with arms and in the courts for the possession of Coro. Their last representatives in Venezuela, Bartholomew Welser and Philip von Hutten, perished by the hand of a common assassin, and ten years later the Indian Council declared that Venezuela had passed back to the Spanish Crown.

Thus closed the sixteenth century story, but its memory and the inspiration that comes from it remain an abiding fact in German political and mercantile life. It is used to-day to kindle German ambition to the possibilities that, as never before, lie open to German commerce, no less than to the German State. The argument drawn from it in Berlin, to justify the maintenance of a great German navy, seems to be unwarranted, but the appeal that it makes to the German merchant and to the patriotic spirit of the German people, as the heroic story of the merchants of the past, is a power that will surely make itself felt in the open markets of the world.

It has its value, also, for the merchants of other lands, and should quicken their purpose, of which the Chamber of Commerce in New York is now taking cognizance, to furnish the younger men who are coming to succeed them with those ambitions and that education which will move them to aspire to a notable place in the business of the world, and to make them realize that modern business opens a career worthy of the largest intelligence, and is capable of leading in the civilization of the world. It lies close to the challenge which the Monroe Doctrine to-day presents to the business men of the United States.

LOWER SAVINGS BANK DIVIDENDS AND THEIR EFFECTS.

The time is close at hand for the managers of our savings institutions to make another semi-annual declaration of dividends (or interest) on their deposits. Many institutions have already reduced dividends from a basis of 4% per annum to 3½%, and it is a matter of deep interest how many more institutions will think it advisable or prudent to adopt the same course. That others ought to reduce—that, in fact, they should all come down to a common basis of 3½% (and some of the weaker ones even lower)—hardly admits of dispute. Just what action, however, will be taken must remain in doubt until the event. All the managers are by no means amenable to the same considerations; questions of expediency and even a feeling of jealousy often comes up to thwart judgment and overrule the counsels of prudence.

Why the trustees of the banks which still pay their depositors 4% should hesitate to come down to a lower basis, in view of the advisability of such a course, and in view of the experience of the banks that have already gone to a 3½% basis, is difficult to understand. Some of the banks are deluding themselves with the idea that the so-called surplus on "investment value" is as good as the surplus on market value. If, however, they were called upon to realize upon any of their depreciated security holdings, they would quickly find out that there is a wide difference between the two. It is quite true that when a savings bank buys a security yielding a certain rate of interest, and such security is held until maturity of the issue, and proper amortization allowances made in the interval, the bank comes out whole in the end, no matter what decline in value may occur during the interval. Nevertheless, where securities have depreciated in value because similar or the same securities can now be bought so as to yield a higher rate of return, the effect of using investment value instead of market value is to postpone to the future allowance for a loss which has already been incurred. The loss is tangible and real. In the one case it is charged off at once; in the other case it is extended over the life of the bonds.

In any event market value furnishes the only true basis for measuring the present status of the institutions. Judged by that standard, the position of the savings banks as a whole in this State does not warrant continuance of a 4% rate. Indeed, in the case of some of the separate institutions, continuance of the old rate might in time involve some hazard. As a result of the reduction in interest rates by the institutions that have already taken that course, some improvement in total surplus account has occurred within the last twelve months; but not much more than is called for by the growth in deposits in the interval. The aggregate of the surplus for all the savings banks of the State on Jan. 1 1912 on the basis of "investment" value was $160,997,929. The aggregate on the basis of market values was only $116,272,555, showing a difference between the two in amount of over 44½ million dollars.

At $116,272,555 on market values, the surplus Jan. 1 1912 compares with $107,156,492 on the same basis Jan. 1 1911, with $103,835,540 Jan. 1 1910 and with $105,493,132 on Jan. 1 1909. These comparisons are interesting as showing that surplus account did not improve at all (in the face of a large increase in deposits) so long as the 4% rate was maintained, and has gained none too much since the banks holding th

greater part of the deposits have cut their rates to 3½%. It should be noted, furthermore, that while the surplus on market values now is $116,272,555, ten years ago, on Jan. 1 1902, it was $116,754,992, and eleven years ago, on Jan. 1 1901, it was $118,294,674. Deposits eleven years ago, however, were only $947,129,638, whereas they are now $1,619,115,648. In other words, with deposits larger by $672,000,000, the surplus now is actually less.

Put in another form, the ratio of surplus to deposits for the current year (after some improvement as compared with twelve months ago) is only a little over 7%, whereas on Jan. 1 1901 it was almost 12½%. If we went back twenty years, to Jan. 1 1892, we should find that the ratio then was 14.84%, while in the years immediately preceding it was still larger.

From the foregoing it is apparent that, whether we deal with aggregate surplus by itself or surplus in relation to the growing volume of deposits, prudence in either case suggests caution about maintaining the 4% rate until surplus account shall have been very appreciably reinforced. And why should there be any hesitation about abandoning the 4% rate, for a time, when conditions so clearly warrant lowering the dividend? Does the experience of he institutions that have reduced afford any ground for hesitation? Have the banks that have cut their rate suffered such a frightful loss in deposits that the result should serve as a warning to others not to follow in the same footsteps lest their experience be the same? We have had the curiosity to examine and study the figures bearing on this point, and the results are quite significant in the striking evidence they afford that the banks paying the lower rate have fared just about the same as the others.

The basis for these remarks is the statements of the savings banks for New York County. In the case of the banks in Kings County there is as yet no material for study. Several of the banks in that county are now on a 3½% basis, but the reduction did not come until after Jan. 1 1912, and hence it remains for the future to show the effects. There is no reason, however, for thinking that the experience in this respect of the institutions in Kings County will be any different from that of the banks in New York County. The results in this last instance must in any event be considered conclusive, inasmuch as deposits here form considerably over half of those for the entire State. In the following we have arranged the savings institutions of New York County in two groups, the first containing the banks that are now down to the lower basis and the second the banks that have not as yet deviated from the 4% rate. We compare Jan. 1 1912 with Jan. 1 1909; the latter date, while only three years ago, is far enough back to get a date before the initiation of the movement for strengthening the reserves of the institutions.

BANKS WHICH HAVE REDUCED.

New York County—	*Deposits Jan. 1 1912.*	*Deposits Jan. 1 1909.*	*Gain or Loss since Jan. 1 1909.*

Total	$367,875,605	$306,887,610	+$60,987,995

It will be noticed that out of the 18 banks which have reduced their interest rate only a single one actually shows lower deposits than three years ago, namely the Bowery Savings Bank, and in its case conditions are rather exceptional by reason of the character of the trades people located in the immediate neighborhood of the bank; many of these tradesmen put small amounts in savings institutions which ordinarily would go into the mercantile banks, and they are quickly responsive to changes in interest rates. The remaining 17 banks all show increases in deposits and the increase for the whole group (notwithstanding the loss of $3,103,487 by the Bowery Bank) reaches no less than $43,744,333; aggregate deposits of these institutions now standing at $474,294,973, against $430,550,640 on Jan. 1 1909.

In some cases the increases are relatively and absolutely of very large extent. Take the case of the Union Dime, for instance. This reduced to 3½ as early as July 1910; yet its deposits have risen $7,443,712 in the three years, being a gain of over 27%, and the increase has been persistent year by year. The Harlem Savings Bank reduced last July, and yet shows an increase for the three years of $6,802,647, or over 40%. The Dry Dock Savings Institution reduced January 1910, but nevertheless has an increase for the three years of $3,646,290, or 10%, and on only one Jan. 1 in the three years was there any decrease, an then only for a trifling amount.

Turning now to the group of banks that are still continuing the 4% rate, we find an increase of $60,987,995, the deposits having risen in the three years from $306,887,610 to $367,875,605. The percentage of addition is somewhat larger than in the other case, being a little over 19%; but there is the same irregularity in the comparisons of the separate banks as in the case of the other group. The bulk of the whole gain is contributed by the Emigrant Industrial, which has added $20,798,571 to its deposits (somewhat over 22%), and the German Savings Bank, which has added $17,811,060, or over 25%. But there is nothing to indicate that these changes have any special reference to the maintenance of the rate any more than the reduction in the rate can be said to have special reference to the changes in the other group. As a matter of fact, if any bank might be expected to derive benefits from the maintenance of the 4% rate, it is the Seaman's Bank for Savings, which ranks at once among the larger and the strongest savings institutions in the city. Yet the Seaman's shows an increase for the three years of only $3,165,715, or less than 5%, notwithstanding that it continues paying 4%.

Altogether, the experience of the last three years would seem to show that depositors value security and safety quite as much as they do a high rate of return, and at all events are not apt to get panic-stricken and pull their deposits out when the dividend return is reduced.

TRADE WITH SOUTH AMERICA.

While the export trade of the United States has made notable progress of late years, advancing from a total value of 1,382 million dollars in the fiscal year 1901-02 to about 2,200 millions in that to end with June 30 next, disappointment has been frequently expressed that expansion has not been more pronounced in our business relations with the various South American republics. It is true, of course, that our trade has increased materially in that direction, especially with Argentina and Brazil, but not as greatly, it is believed, as our advantageous position would seem to warrant. We have only, in fact, to compare our export results for, say, the last decennial period with those of some of the European countries to learn how much more rapidly than we they have extended their trade in South America. Great Britain, Germany, France, Italy, and even to some extent Belgium, Switzerland and Spain, have outgeneraled us in finding increasing markets for their goods in the principal countries of South America, and why? Merely because they study the markets they wish to supply and cater to them.

We are led to refer to this subject by the remarks of Mr. J. P. Santamarina, an expert on Argentine affairs, made at the first annual Pan-American Trade Conference held at the Waldorf-Astoria recently. Mr. Santamarina said in effect that to get the trade of Argentina the American salesman must not forget the vast difference in commercial temperament between the people of the two countries, and should act accordingly. Manufacturers, furthermore, he remarked, must establish sample houses where goods may be seen, this being more effective in securing business than the mere use of catalogues. He also urged the copyrighting of all American trade-marks in Latin-American countries, as goods are sold under false pretenses because manufacturers do not protect themselves. Banking arrangements with the countries with which business is sought to be done he also considered essential as a protection against high rates of exchange, and intimated that the names of American manufacturers' clients are communicated by bankers to their competitors abroad. Mr. Santamarina's familiarity with affairs in Argentina gives to his suggestions a weight that ought to insure their adoption, if substantial progress is desired in our commercial intercourse with Argentina at least.

As bearing upon efforts to extend our trade in South America, we note also that the Bolivian Consul-General is pleased with the responses by manufacturers to his requests for information about American goods, and he has announced that steamers plying to Bolivia will transport free the samples already received and any others. Thus far, of course, our exports in any one year to Bolivia have been comparatively nominal, and the imports from there practically nil. A little proper effort, however, should accomplish much.

CORPORATE OWNERSHIP IN MANUFACTURING INDUSTRIES.

One of the features disclosed by the Census Statistics of Manufactures is the further development of the corporate form of ownership in manufacturing industries. The following, bearing on the subject, was given out at Washington on Wednesday of this week.

Washington, D. C., May 22 1912.—In the advance bulletin on Thirteenth Census statistics of manufactures in the United States it is stated, on the subject of character of ownership that the most important distinction shown is that between corporate and all other forms of ownership.

Of the total number of establishments reported as engaged in manufacturing industries in 1909, 25.9% were under corporate ownership. The corresponding figure for 1904 was 23.6%. While corporations thus controlled only about one-fourth of the total number of establishments, they gave employment to a large proportion of all wage-earners reported, namely 75.6% in 1909 and 70.6% in 1904. The value of products of the factories operated by corporations represented 79% of the total value of products for all establishments in 1909 and 73.7% in 1904. These figures show that even during this short period of five years the corporate form of ownership increased so greatly that it represented an appreciably larger proportion of the manufacturing interests of the country in 1909 than in 1904.

Partnership Losing Ground.

Partnership (including limited partnerships) controlled about one-fifth of the total number of manufacturing establishments in 1909 and individuals rather more than one-half of the total number. These two classes of establishments were about equal in volume of business; each reporting in the neighborhood of one-eighth of the total number of wage-earners and one-tenth of the total value of products in 1909. During the five years from 1904 to 1909 partnerships lost ground, relatively, to a greater degree than individual ownership, presumably because of the incorporation of many concerns previously operated by firms.

In 1909 there were 4,120 establishments operated by co-operative companies and other miscellaneous forms of ownership that could not be classified as individual, firm or corporate ownership. These establishments gave employment to only 2-10 of 1% of the wage-earners, and the value of their products was only 5-10 of 1% of the total value reported for all establishments.

From 1904 to 1909 the average number of wage-earners per establishment decreased for all three principal classes of ownership, while the average value of products per establishment decreased for the establishments under individual and firm ownership but increased for corporate ownership.

Summary for United States.

The table that follows has for its purpose the presentation of conditions in respect to the character of ownership, or legal organization, of manufacturing enterprises. Comparative figures are given covering all industries combined for the censuses of 1909 and 1904. Similar data for 1899 are not available.

Character of Ownership—		*Number of Establishments.*	*Average Number of Wage-Earners.*	*Value of Products.*

LEGISLATIVE, FINANCIAL AND BANKING NEWS.

—The public sales of bank stocks this week aggregate 126 shares, of which 124 shares were sold at the Stock Exchange and 2 shares at auction. No trust company stocks were sold. A sale of one share of stock of the Bank of the Manhattan Co. was made at auction at 351½, an advance of 21⅞ points over the price paid at the last previous sale, which was made in December 1910.

—The United States will be represented at the coming Conference at The Hague on uniformity of legislation regarding bills of exchange and checks by Mr. Charles A. Conant of New York, who was delegated to the Conference of two years ago. The adjourned Conference will open on June 15th and Mr. Conant will sail on Thursday next on the "Kaiserin Auguste Victoria."

The Conference seems likely to have important results on international law and practice in regard to bills and checks. A draft of a uniform law on bills of exchange was prepared at the Conference of 1910 and submitted to the different Powers for further consideration. Replies have been received from the principal European Powers, embodying some proposed amendments of detail. These will be taken up at the adjourned Conference in June and a final agreement will probably be reached by the Continental and Oriental Powers. The position of Great Britain and the United States is somewhat different from that of those countries which are under the domain of the civil law and their delegates will probably not agree to recommend the uniform law in full to their governments. This will not

indicate any lack of sympathy with the project. Even if the United States and Great Britain, with their dependencies, adhere to their own system, which is now nearly uniform throughout these countries, the codes of law governing bills will be reduced to two—the uniform law of Continental Europe and the bills of exchange Act of the Anglo-Saxon countries. It is possible that the delegates of the United States and Great Britain will hold out the olive branch to the other Powers to the extent of recommending to their governments a few changes in existing law adopted from the uniform law.

The subject of a uniform law of checks will also come before The Hague Conference and is expected to greatly simplify the present confusion in regard to the validity of endorsements and the methods of collecting and paying checks. There is a strong disposition on the Continent to adopt the English system of crossed checks in order to give greater safety to the check and promote its wider use. Bankers in the United States will welcome such an extension of the crossed check system on the Continent and will probably employ crossed checks to an increasing extent in making remittances abroad, but apparently will not need additional legislation in the United States to give validity to such checks.

—A decrease of $115,500,000 in corporate earnings in the United States occurred during 1911, according to a statement made public by Royal E. Cabell, Internal Revenue Commissioner, on the 19th inst. The 1% assessment on the 1911 net earnings of corporations, it is expected, will turn into the Federal Treasury about $28,278,000, most of which will be paid in June, against $29,432,000 last year, a decrease of $1,154,000. The amount probably will be augmented somewhat, it is stated, before the close of the fiscal year, bringing the decrease below $1,000,000. While there was a big loss in the aggregate net earnings, there was an increase of 17,660 in the number of corporations. The number in 1911 was 287,862, as compared with 270,202 in 1910.

—The resolution of Senator Works, fixing the term of office of the President of the United States at six years and making such officer ineligible for re-election, was favorably reported to the Senate by the Judiciary Committee on the 20th inst. It is stated that a minority report of four members of the committee favors a single term of four years. A resolution similar to that of Senator Works has been introduced in the House by Representative Clayton.

—The Panama Canal bill, embodying rules for the government of the canal zone, and the rates of toll and regulations which will apply in the operation of steamship lines through the waterway, was passed by the House of Representatives on the 23d inst. The bill contains the provision incorporated by the House Committee on Inter-State Commerce, which not only forbids railroad-owned ships from using the canal, but prohibits all railroads from holding stock in or controlling, directly or indirectly, a steamship line with which the roads compete. An amendment proposed by Representative Broussard, which was defeated by a vote of 206 to 63, provided that this prohibition apply only to vessels engaged in traffic on the Panama Canal, and that the President be given authority to determine when a vessel should be excluded from the canal because of its connection with railroad interests. The bill gives the Inter-State Commerce Commission the right to determine when competition may exist, and the findings by the Commission are made final. The powers of the Commission, according to the New York "Tribune," are also enlarged to the extent that it may prescribe through routes and maximum joint rates between and over connecting rail and water lines, and may also establish maximum proportional rates by rail to and from ports to which the traffic is brought or from which it is taken by the water carrier. The provision requiring foreign and American vessels using the canal to pay the same rate of toll has been amended through the adoption (by a vote of 147 to 126) of an amendment offered by Representative Doremus, which permits the free use of the canal by vessels engaged in the coastwise trade of the United States. The tolls fixed in the bill for foreign ships, and American vessels using the Canal not in the coastwise trade, are not to exceed $1 25 per net registered ton.

—The bill amending the Revised Statutes, designed to remove all doubt as to the right of a committee of Congress to investigate the affairs of national banks, was passed by the House of Representatives on the 18th inst. The introduction of the bill was occasioned by the pending inquiry into financial and monetary conditions which the Committee on Banking and Currency has been directed to make, and the reluctance to supply some of the information called for by it with respect to the business of the banks and the latter's relations with other institutions and with their customers. The bill adopted by the House affects that section of the National banking law which provides that "no association shall be subject to any visitorial powers other than such as are authorized by this title, or are vested in the courts of justice"; the House amendment changes this, so that it will read as follows:

> No association shall be subject to any visitorial powers other than such as are auth rized by this title or are vested in the courts of justice, or such as shall be or shall have been exercised or directed by the Congress or either branch thereof. . . .

While more or less opposition to the course of the Commission has been evidenced, the first direct refusal to accede to its request has come from the Fidelity Trust Co. of Buffalo, N. Y., through its President, Robert L. Fryer. Mr. Fryer is a well-known Democrat, and a brother-in-law of the late Daniel Manning, Secretary of the Treasury during the first term of President Cleveland's administration. His letter, which denies the right of Congress to inquire into State institutions, has attracted widespread interest, and we therefore print it in full herewith:

> *Buffalo, N. Y., May 20 1912.*
>
> *Hon. A. P. Pujo, Chairman of the Committee on Banking and Currency, House of Representatives, Washington, D. C.:*
>
> *Sir.*—The Fidelity Trust Company of Buffalo, of which I am President, is in receipt of a communication from you requesting certain information in connection with the pending Congressional investigation of the so-called "Money Trust." . . . . . .
>
> You ask, among other things, that this company give you information concerning transactions between it and its customers, and that the relations of individuals and others with the company be laid bare for your inspection. I must decline to supply this information or else I must recognize your authority to ask for or demand it.
>
> The charter of this company was obtained from the State of New York and the banking laws of the State prescribe our duties. We have nothing to conceal, and the State Banking Department knows of every loan and every investment we have. Its examiners have complimented us time and time again upon our clean and healthy condition. We do a general banking and trust company business, receive deposits from individuals and corporations, and loan money to those whom we consider worthy and responsible. We accept and execute public and private trusts, act as guardian, executor and administrator, and in all of these matters we hold inviolate our fiduciary relationship to our patrons in the same way that lawyers are required to guard the secrets of their clients. Were we to do otherwise, we would have little business to transact, even if we were worthy of it.
>
> In a country administered by politicians in aid of rival political parties, it may be asking too much, in a Presidential year, that only orderly and well-considered legislative action be taken. But as a Democrat, I marvel that a Democratic House of Representatives should be so lacking in political sagacity as to justify the policy of the Republican Party for an enlargement and concentration at Washington of the Federal power. Mr. Roosevelt may be the nominee of his party. If that shall be the case, Democrats may attack him as fiercely as they will. They may say that as President he protected his corporate friends and punished his corporate enemies; they may point out that he never blazed the way for tariff reduction, and that his election for a third term would upset all the precedents of the past; but all these fade into insignificance compared with the one great issue, which would have destroyed him and his party and upon which all Democrats could have agreed, namely, the usurpation by the Federal Government of the powers Constitutionally vested in the respective States and the concentration of that power at Washington.
>
> The "New Nationalism" of Theodore Roosevelt, promulgated at Ossawatomie, startled the country. It resulted in the election of a Democratic House for the first time in many years and in the election of Democratic Governors in all of the doubtful States. What terrors will this vicious scheme of "New Nationalism" now have for the electorate of the country when the very Congressmen who were elected on that issue justify it all by assuming to give to one of their committees the outrageous and unconstitutional power to inquire into the business relations of the citizens of the several States with their banking institutions, created by those States? . .
>
> If Congress has the right to compel banking institutions to disclose relations with their patrons under such circumstances, what single power now exercised by the several States remains which cannot be taken from them by the fiat of Congress? . . . . . .
>
> If Congress has the power to inquire into the relations of a State bank or trust company with its patrons, it has the same power to invade the States and compel disclosure of private transactions carried on by citizens wholly within a sovereign State. For more than a year Democratic representatives struggled against a proposed Constitutional Amendment presented by a Republican United States Senator that recognized the possibility of Federal interference in the election of United States Senators in the several States, and having recently fallen back from that intrenched position, they now forever silence the voice from Ossawatomie by proclaiming that Federal power can supersede State authority even in purely domestic affairs.
>
> In no sense of the term is this company a national banking institution. The activities of national banks are regulated by national law, but trust companies and State banks are only subject to examination and regulation by the legislatures of the sovereign States who created them; and as a Democrat, who hopes to vote for a Democratic President next autumn, and as an official of a State banking institution, I consider it my duty to direct your attention and the attention of similar institutions and the millions with whom they transact business to the scope and destructive consequences of your proposed inquiry. . . . .
>
> Respectfully yours, ...
>
> ROBERT L. FRYER.

—The Dillingham Immigration bill, which passed the Senate on April 19, was tabled on the 21st inst. by the House Committee on Immigration and Naturalization by a vote of 7 to 5. The following statement bearing on the action of the committee, by Representative A. P. Gardner, minority member, appears in the "Journal of Commerce":

"I am sorry to say that the Committee on Immigration took such action to-day as makes it practically impossible to enact at this session a law restricting immigration by the enactment of an illiteracy test. In fact, I am very much concerned lest the whole question may prove to have been sidetracked for two years.

"The Committee on Immigration voted this morning to lay on the table the Dillingham Senate Bill, which contains a reading and writing test for immigrants as its principal restrictive feature. Even if the Committee presses the Burnett House Bill for an illiteracy test, I am afraid that but little can be accomplished. If the present program is carried out, it will probably mean that the Senate will adhere to the Dillingham Bill, while the House adheres to the Burnett Bill, and yet both bills purport to have the same object in view.

"It is just such parliamentary situations as this which create so much public dissatisfaction with Congress. Can anything be more absurd than a situation in which the Senate passes a bill to restrict immigration and the House passes a bill to restrict immigration, and yet a situation is created where the Senate and the House cannot come together.

"I can only hope that House Committee on Immigration will rescind its action, as it looks to me like a death-blow to our well-founded hopes for the speedy enactment of an effective law to restrict immigration."

—An adverse report on the Underwood bill, revising the wool schedule of the tariff, was ordered by the Senate Finance Committee on the 23d inst. It is expected that the Republican members of the committee will submit a substitute bill, based on the report of the Tariff Board. The Underwood bill passed the House of Representatives on April 1.

—The announcement that he would not be a candidate for re-election to the United States Senate was made this week by W. Murray Crane, of Massachusetts, in a statement in which he said:

Some months ago I definitely decided not to become a candidate for re-election as United States Senator, but I intended to defer making a statement to the effect until after the Republican National Convention. There is, however, a proposition pending in the Massachusetts Legislature for nominating United States Senators somewhat similar to the nomination of candidates for the Presidency, Representatives in Congress and State elective officers. If this proposed law is enacted a much earlier campaign for this office will be necessary, and I therefore make known my position at this time in order that those who may be interested in becoming candidates may have the fullest opportunities to have their candidacies considered.

Senator Crane's term expires on March 3 1913. He was one of a coterie conspicuous as leaders of the Senate among whom were Aldrich, Hanna, Hale, Spooner, Platt, &c. He is the last of the famous "Old Guard" to remain in the Senate.

—Suit against the so-called "coffee trust" was instituted by the Federal Government on the 18th inst., when United States District Attorney Wise secured a temporary injunction from Judge Hand in the U. S. District Court at New York, restraining the New York Dock Co., Herman Sielcken, &c., from disposing of 950,000 bags of coffee stored in the Dock Company's warehouses in Brooklyn, pending the issuance of the final decree. Subsequently the order was amended allowing the withdrawal of 74,338 bags of coffee alleged to belong to others than those mentioned in the suit. In all, eight defendants are named in the petition, the five in addition to the two above being Bruno Schroeder of J. Henry Schroeder & Co., London; Edouard Bunge of Antwerp; M. le Vicomte des Touches, Havre; Dr. Paulo Da Silva Prado of Sao Paulo; Theodor Wille of Hamburg, now deceased, and the Societe Generale of Paris. The petition charges the defendants with violation of the Sherman Anti-Trust Act; it recites that the foregoing, with the exception of the New York Dock Co., were parties to a scheme for the valorization of coffee, whereby legislation by the State of Sao Paulo designed to curtail the production of coffee and materially reduce the amount shipped from Brazil to the United States was secured, thus maintaining the price at a higher level than that at which it would remain if the laws of supply and demand were permitted without hindrance to have their way; and it is also charged that a large portion of the coffee under their custody has been, and is yet, being withheld from the market. It is furthermore set out that, "in order to prevent and restrain a further restraint of such trade and commerce by said defendants, it is necessary that a certain 950,000 bags of coffee in the possession of said defendants be sold in the market under the order of this Court." It is recited that the world's consumption of coffee has increased during the past ten years from 15,000,000 bags (of 132.3 lbs. each) to about 18,000,000 bags, and that of this amount the United States consumes about 40%. On account of the soil and climate of parts of Brazil, the larger part of the world's supply is grown in a few States of that country, of which the State of Sao Paulo is the principal one. According to the petition, the 1906-07 crop was the largest in the world's history, aggregating 23,814,000 bags. "Realizing," it continues, "that, according to the natural laws of commerce, the price of coffee would be very materially reduced on account of the great over-production during the season of 1906-07, some of those interested in maintaining coffee at as high a price as possible conceived the idea not only to hold it at the price then existing, but actually to increase the same by artificial means, and thus directly and unduly to restrain the trade and commerce therein throughout the world, and of course between Brazil and the United States." The bill of complaint refers in detail to various loans of the Government intended to promote the scheme of valorization, including the loan of $75,000,000, which was contracted under an agreement creating a committee of seven. With the moneys received from these loans, coffee to the total amount of 10,868,266 bags was purchased. The petition states:

The immediate effect of valorization was to withdraw from the natural course of commerce more than 10,000,000 bags of coffee and thus to reduce the available supply and to increase its market price, and hence the price of coffee was not materially reduced, even by the enormous crop of 1906-07. Shortly thereafter the prices began to rise and continued to rise, although in the season of 1909-10 the production exceeded the consumption by more than 1,000,000 bags, with the result that, whereas when the scheme of valorization was adopted, Rio No. 7 was selling at New York at about 7½ cents a pound, it is now selling at 14¾ cents a pound, an increase in price of nearly 100%.

Within the last year conditions have become especially acute because the consumption has exceeded the production, and hence the deficiency had to be drawn from the supply already on hand, while a very large part of that supply was, and is, in the hands of said committee, who were careful to sell therefrom only in such quantities and in such a way as not to reduce the market price. As a matter of fact, said committee are masters of the coffee market. They have under their control such a quantity of coffee that by placing the same upon the market the price of coffee would be greatly reduced, while withholding it from the market maintains a price which is abnormally high. This coffee has once been in the channels of commerce, and in the manner heretofore described has been withdrawn therefrom and is being held by said committee, not for the purposes of consumption, but to be again returned to the channels of commerce. However, by various agreements and conspiracies between the members of said committee, they refuse to sell the same in such quantities as will materially affect the price, and to insure that the price will not be affected thereby when sold, it is their custom to require an express contract from the purchasers to whom they sell that they will not re-sell the coffee purchased on the Coffee Exchange.

* * *

The real intent and purpose of the valorization scheme was, through a restraint of the commerce in coffee between Brazil and other countries, including the United States, by monopolizing the same, to increase the price thereof to the enrichment of those instigating the scheme. This fact is made manifest by the amount of money realized by individuals therefrom and the expense thereof directly to the State of Sao Paulo, but indirectly to the consumers of coffee.

Mr. Sielcken, one of the defendants in the action, was the first witness examined by the committee investigating banking and monetary conditions.

—Gov. Foss of Massachusetts on the 17th inst. vetoed the bill, passed at the instance of organized labor, permitting "peaceful persuasion" during strikes, lockouts or other labor disturbances in the State. In his veto message he said:

To the Honorable Senate and House of Representatives:

Herewith I return without my approval an Act to allow peaceful persuasion. The right of free speech is already sacred in Massachusetts; and so equally is the right of everyone to freedom from molestation. Both these rights are guaranteed by our fundamental law. This proposed law, if enacted, would break down the equitable balance of our present law; it can add nothing to the already established rights which every citizen possesses so long as he keeps the peace; and its effect would inevitably be to withdraw from our citizens their right to protection from molestation and intimidation upon the public streets.

—With the issuance on Monday of the Philadelphia Clearing-House statement for the week preceding May 20, a new column was introduced to show "Exchanges for Clearing House." Heretofore these "exchanges" were not shown, but were deducted by the banks from their deposits before entering the latter on the statement. The new method is intended to furnish a more complete and uniform showing of the condition of the banks. The amount of the exchanges under the amplified statement are $14,240,000, and the deposits as reported to the Clearing House are correspondingly increased by the introduction of the new item.

—The opinion that the collection of drafts attached to bills of lading covering shipments of whiskey is in violation of the Georgia Prohibition Law is advanced by Orville A. Park, counsel for the Georgia Bankers' Association, in a recent communication to L. P. Hillyer, Secretary of that organization. We quote the letter herewith:

April 25 1912.

Mr. L. P. Hillyer, Secretary Georgia Bankers' Association, Macon, Ga.:

Dear Sir: Complying with your request for an opinion as to whether or not a bank can lawfully collect a draft to which is attached an order-notify bill of lading covering a shipment of liquor, I beg to say:

It has been held more than once by the Court of Appeals, and the Supreme Court of Georgia, that: "The middle man in an illegal sale of intoxicating liquor, to be free from criminal responsibility, must act solely as agent for the buyer. If he delivers the liquor and receives the money from the purchaser, he is prima facie a violator of the law; and if he would escape criminal responsibility he must satisfy the jury that he did not induce the transaction, that he had no profit in it, that he was not an agent of the seller and that he acted solely as agent for the purchaser."—*Plummer vs. The State*, 8 *Ga. App., p.* 379.

"When a bill of lading is attached to a draft, neither the title to the goods nor the right to the bill of lading will pass to the drawee until he accepts or pays the draft."—*Code of Georgia*, Sec. 4134.

The title to the liquor is, therefore, in the owner of the draft and bill of lading until the draft is paid. The delivery of the bill of lading transfers the title to the liquor and is a symbolic delivery of the liquor itself. The bank is the agent of the owner of the draft and bill of lading to make this delivery and to collect the purchase price. The sale is not complete until the draft is paid.

I am, therefore, of the opinion that the bank, as agent of the owner of the draft and bill of lading, or as such owner itself where advances have been made to the drawer, is engaged in the sale of the liquor; and, as in misdemeanors, all parties concerned are principals, that the transaction is in violation of the Georgia Prohibition Law.

My attention has been called to a circular recently issued by the National Wholesale Liquor Dealers' Association, in which it is stated that the collection of drafts with bills of lading for whiskey shipments attached is not illegal. This circular makes no reference to the Georgia Prohibition Statute, but endeavors to prove that collecting such drafts is not in violation of Section 239 of the new Criminal Code of the United States. The material part of this section is as follows:

"Any railroad company, express company or other common carrier, *or any other person*, who, in connection with the transportation of any spirituous or other intoxicating liquor, of any kind, from one State into any other State, shall collect the purchase price or any part thereof before, on or after, delivery from the consignee, or from any other person, or shall in any manner act as the agent of the buyer or seller of any such liquor, for the purpose of buying or selling or completing the sale thereof, save only in the actual transportation and delivery of the same, shall be fined not more than $5,000."

Hon. Alexander Akerman, U. S. District Attorney for the Southern District of Georgia, has given an opinion based on the construction of this statute by some of the United States courts, that the collection of drafts with bills of lading for whiskey shipments attached is in violation of this section, and is indictable in the United States courts. The circular of the National Wholesale Liquor Dealers' Association above referred to purports to quote an opinion of the Attorney-General of the United States to the contrary.

It is certainly a very close question. There has been no authoritative opinion by the United States courts on the subject. One district judge has held that it is a violation and another that it is not, and the question is now pending before the United States Circuit Court of Appeals for the Eighth Circuit.

But whether it is or not, I am of the opinion that it is a violation of the Georgia Prohibition Law, and therefore advise against the handling of such drafts by the members of the Georgia Bankers' Association.

Respectfully yours,
ORVILLE A. PARK,
Counsel Georgia Bankers' Association

—John J. Mitchell, President of the Illinois Trust & Savngs Bank of Chicago, returned to that city on the 15th inst. after a sojourn of three months in California. Mr. Mitchell states that conditions on the Pacific Coast are satisfactory in every way and reports a most optimistic feeling on the part of business men in that section. Crops promise well, and a great impetus to general business activity along the entire coast is anticipated as a result of the opening of the Panama Canal. Mr. Mitchell reports that a large amount of new capital is coming into Califorina at this time for enterprises of every description.

—At the 19th annual convention of the Savings Bank Association of the State of New York, held in this city on Thursday, President Charles E. Hanaman, President of the Troy Savings Bank, referred to the bill endorsed by the association, regulating the surplus of the savings banks. In his comments on the proposed legislation, and the failure to enact it into law, Mr. Hanaman said:

"Pursuant to a resolution passed at our annual meeting in May last, a special meeting of this association was held at the Fort Orange Club in the city of Albany, N. Y., on Jan. 12 and was called for the purpose of receiving the report of the counsel and of the executive committee relative to a form of a bill for the purpose of establishing by law a minimum market value surplus on the savings banks of the State. Sixty-nine banks were represented at this meeting and, after due discussion, the form of bill presented by the counsel and recommended by the executive committee was approved by a vote of 61 to 8 of the banks represented.

"I shall not encroach upon the report of the executive committee relative to this subject farther than to say that through the opposition of members of this association the bill was held up until too late to come to a vote in the Legislature before its adjournment. But permit me to point out that if this association is to be of any benefit to the savings banks of the State, disloyalty to the will of the majority must cease. If this association cannot go to the Legislature with an unbroken front, it would far better remain away.

* * * * * * * * *

"One of the chief difficulties to overcome in making a law for the establishment and maintenance of an adequate surplus in our institutions is the spirit of commercialism exhibited in the competitive importance given to the interest rate to depositors. In a practical experience of nearly a quarter of a century, in one of the most difficult environments for savings bank work in the State, I have accumulated ample evidence to prove that, if the public have reason to believe in the sincerity and singleness of purpose of the trustees of an institution, and are properly instructed as to the character of the work of that institution, the interest rate is of very little importance as a competitive factor between it and its commercial neighbors, be they commercial banks or commercially managed savings banks.

"I am very well satisfied of the fact that commercial competition is no bar to the establishment or growth of a new savings bank in any environment where there is any real need for such an institution.

Amendments to the by-laws, adopted at the meeting, provide for the division of the association into five groups of counties. Clark Williams, President of the Windsor Trust Co., was a speaker at the meeting.

—The "Bankers' Special" train from this city to the New York State Bankers' Convention at Buffalo to be operated by the Lehigh Valley RR. will leave the Pennsylvania RR. station, Jersey City, at ten o'clock in the morning on June 12 and arrive in Buffalo at eight-thirty in the evening. Nearly all the berths for this daylight run through the "Switzerland of America" have already been taken by New York City bankers, but there are still a few accommodations which can be reserved by arrangement with A. J. Simmons, General Eastern Passenger Agent, at 1460 Broadway. The "Bankers' Special" will be a duplicate of the famous "Black Diamond Express" and will have special features for this trip.

—The many friends of Albert C. Judson in New York City and throughout the State will learn with regret of his death in this city on Sunday last. Mr. Judson was well known as a bank examiner, and his connection for the past twenty-five years gave him a wide acquaintance in banking circles, particularly in the New York and Brooklyn district, where he rendered the most service. Albert C. Judson was born at Albany in 1835. At sixteen he entered the Exchange Bank of that city, in which his father, I. L. Judson, was President. After several years' banking connection with different Albany banks, he took up commercial life and became prominent in Albany political and business circles. At one time Mr. Judson was County Clerk of Albany County and United States Pension Agent under President Grant. Edmund L. Judson, an officer of the Equitable Trust Co. of this city, is one of his sons.

—The list of banks making use of the finger-print system of identification is steadily growing. The North Side Savings Bank, on Third Avenue near 162d Street, announces the adoption of the new system on May 1. In commenting upon it recently, Secretary Arthur A. Ekirch had the following to say:

"We installed the finger-print system on May 1 and find it popular with our depositors. It is not the Bertillon system used by the police, but was devised by an Englishman named P. A. Flack, who for fifteen years was employed by the British Government at Singapore, India. Instead of the thumb, we take the imprint of three fingers of the right hand—the tips of the index, middle and third fingers."

Among the institutions in this city where the system has been already inaugurated are the Maiden Lane Savings Bank of Manhattan and the Williamsburgh Savings Bank of Brooklyn. In Albany, following the lead of the Albany Savings Bank, the National Savings Bank and the Home Savings Bank have also lately decided to employ the new method of identification, and several others in that city are said to have its adoption under consideration. We noted on April 13 its inauguration by several Boston savings banks.

—Justice Bischoff of the New York Supreme Court on the 10th inst. handed down a decision holding that the Carnegie Trust Co. is not a preferred creditor of the Carnegie Safe Deposit Co. The ruling was given on a motion of the Bethlehem Steel Co., one of the creditors of the Safe Deposit Co. It is reported that the decision affects the distribution of the $275,000 to be received from the sale of the assets of the Safe Deposit Co. to Kissel, Kinnicutt & Co. on behalf of a syndicate. The case will be appealed by the State Banking Department, which is conducting the liquidation of both the Trust Co. and the Safe Deposit Co.

—Guy E. Tripp, Chairman of the Board of the Westinghouse Electric & Manufacturing Co., has been elected a director of the United States Mortgage & Trust Co. of this city.

—The proceedings for the merger of the Columbia Trust and Knickerbocker Trust companies of this city, of which mention was made in these columns last week, were approved by the directors of the two companies on Monday. The respective stockholders will act upon the plans on June 4, and the merger will take effect on June 5. The new Columbia-Knickerbocker Trust Co., which is to be formed by the union, will have a capital of $2,000,000 and a surplus of $7,000,000. Under the arrangements agreed to, the stockholders of the Knickerbocker Trust Co. will receive five-twelfths of a share of stock in the new company for one share now held, while the stockholders of the Columbia Trust Co. will receive two-thirds of a share of the new stock for each share held at present. The Knickerbocker has a capital of $3,181,000 and the Columbia has $1,000,000 of capital. As the present capital and surplus of the Knickerbocker Trust Co. is approximately $9,000,000, of which only $6,000,000 is contributed to the new corporation, certain assets of that company, including all the old loans and investments which have not yet been liquidated, and all charged-off items, amounting to about $3,000,000, will be segregated. These assets will be held by the new company and will be liquidated by it, subject to the general control of a committee representing the present Knickerbocker stockholders, for the following purposes: (1) To make good within two years to the new company items taken over by it from the Knickerbocker Trust Co. which it may be unable to realize in full. (2) After any such loss is made good, to distribute the proceeds of these segregated assets as rapidly as the liquidation thereof can be made, to the present Knickerbocker stockholders. The

new institution will enter the Clearing House under the membership number of the Columbia Trust Co. Willard V. King, President of the Columbia, will be President of the succeeding institution, and Charles H. Keep, President of the Knickerbocker, will be Chairman of the board of the new organization. Howard Bayne and Benjamin L. Allen will be Vice-Presidents, Langley W. Wiggin will be Secretary and Harris A. Dunn will be Treasurer. Messrs. Bayne and Wiggin are, respectively, Vice-President and Secretary of the Columbia Trust Co., while Mr. Allen is Vice-President and Mr. Dunn Secretary and Treasurer of the Knickerbocker. A Barton Hepburn, Chairman of the board of the Chase National Bank, and a director of the Columbia Trust Co., will be Chairman of the Executive Committee of the Columbia-Knickerbocker Trust Co.; the committee will also include Union N. Bethell, Frederick H. Eaton, Henry Goldman and Frederick Strauss of the Columbia's board, and F. G. Bourne, Franklin Q. Brown, Edward H. Clark, J. Horace Harding and William A. Tucker of the Knickerbocker's directorate. The new company will occupy the offices of the Knickerbocker Trust Co. at 60 Broadway, 358 Fifth Ave., 100 West 125th St. and 148th St. and Third Ave.

—The Transatlantic Trust Co., whose proposed formatiou was referred to in this department Feb. 17 and March 23, began business on Wednesday last at 67-69 William Street, corner of Cedar Street. The company reports a paid-up capital of $700,000 and a surplus of $350,000. It will conduct a general banking and trust business. The Hungarian General Credit Bank, the Hungarian Commercial Bank of Pest and the Hungarian Discount & Exchange Bank, leading banks of Hungary, representing an aggregate capital and surplus of $70,000,000, are financially interested in the new company and closely connected with its management. The Transatlantic Trust Co. is under the management of Julius Pirnitzer, a Hungarian-American banker and diplomat, President; H. B. Fonda, Vice-President; George Plochmann, Treasurer, and Victor Ehrlicher, Secretary. Vice-President Fonda has had twenty-five years' banking experience; he was Treasurer of the Trust Co. of America before the recent merger with the Equitable Trust Co., and prior to that had been officially connected with the National Bank of Commerce. Mr. Plochmann was formerly identified with Ladenburg, Thalmann & Co. The following constitute the directorate of the new institution:

H. Rieman Duval, Chairman, President American Beet Sugar Co.; James G. Cannon, President Fourth National Bank; John W. Platten, President United States Mortgage & Trust Co.; Calvert Brewer, Vice-President United States Mortgage & Trust Co.; Stuyvesant Fish, capitalist; Walther Luttgen, August Belmont & Co., bankers; Henry H. Wehrhane, Hallgarten & Co., bankers; Clark Williams, banker; Arpad G. Gerster, M.D., capitalist; Gustave Leve, merchant; Morris Cukor, counsellor-at-law; Arnold Somlyo, Baldwin Piano Works; Walter G. Oakman, capitalist; Hon Alexander Von Nuber, Consul-General for Austria-Hungary; Hans Winterfeldt, Speyer & Co., bankers; Julius Pirnitzer, President of the company.

—The vacancy in the directorate of the National Park Bank of this city occasioned by the death of John Jacob Astor has been filled by the election to the board of John G. Milburn, of the firm of Carter, Ledyard & Milburn.

—J. Louis Schaefer of W. R. Grace & Co. has been elected a director of the Washington Trust Co. of this city.

—The Bankers Trust Co. of this city moved into its imposing new building on the corner of Wall and Nassau Sts. last Saturday, and opened its banking offices on the three lower floors for public business Monday morning. This $4,000,000 building has attracted unusual attention and is without doubt the most striking office structure in the financial district. The company's building is to-day the highest bank building in the world, and is one of the few in New York of which the entire front is of pure white granite. The new Bankers Trust Co. Building stands on a lot 100 feet square and is 41 stories high, including the six stories in the roof and the four basement floors, giving a total height from foundation to pinnacle of 540 feet. The crowning architectural feature of the entire building is the unique stepped "pyramid" roof of white granite, windowless and six stories high. This pyramidal roof artistically takes care of all the unsightly apparatus which is often placed on the roofs of high buildings and mars the sky-line. The stone roof is something of an experiment in design and construction, and there is no other of this kind in existence, although the restorations of the mausoleum of Halicarnassus generally show that type of superstructure. This, however, is said to be the first time one has been actually built. The base of the pyramid is 70x69 feet, the height is 94½ feet and there are 23 steps 3 ft. 9½ in. high and 1 ft. 4 in. wide. The interior of the pyramid contains six floors with 47 store rooms for the safekeeping of tenants' books ,valuable papers and records, sprinkler tanks for the automatic sprinkler system, fire tank, house tank for the plumbing system, elevator and ventilating machinery and also the main smokestack, six feet in diameter. Near the top are a number of ventilating apertures for emitting the foul air from the building.

On the 31st floor, which is the last before the pyramidal roof begins, there is a large suite of rooms with an open fireplace and other comforts, affording a view out to sea on clear days and in other directions for miles. Doors lead to an outside balcony where there is a broad, red-tiled promenade, and attached to the west side of this suite is a sun-parlor enclosed with glass. On the 16th floor half of the floor space is devoted to a rest room for the 300 stenographers and women clerks employed by the tenants, with many easy chairs, Red Cross equipment, books, magazines and papers. A matron is always in attendance. One of the numerous new features introduced for the first time in office buildings in this city is the passenger elevator system, which is composed of five express, five local and one relief elevator. The express elevators run in an enclosed shaft with no floor openings between the entrance floor and the 16th story, but each is provided with emergency exit doors on both sides of the cars to permit the transfer of passengers to the adjoining car if service is interrupted. Most of the tenants moved in on May 1, and 95% of the building is already rented. Many prominent banking firms have leased entire floors.

The trust company occupies the lower three floors and its safe deposit vault the two basements. A central entrance on Wall Street leads up to the first floor, where the foreign exchange, bond, coupon and transfer departments are located. The main banking room and mezzanine is on the second floor, with the officers' quarters on the Nassau Street side. In a small room in the Wall and Nassau Street corner of the officers' apartments is a tablet commemorating the services of Mr. Davison, Chairman of the company's executive committee. The tribute to this young and able member of J. P. Morgan & Co. is as follows: "The directors of the Bankers Trust Co. here record their appreciation of the services of Henry Pomeroy Davison in the organization and upbuilding of the company and the erection of its permanent home." The company has one of the most complete pneumatic tube services ever installed in a banking institution. These tubes connect every department of the trust company, as well as the offices of the company's attorneys on the 26th floor.

—George W. Davison, Vice-President of the Central Trust Co. of this city, has been elected a trustee of the institution.

—Fred. B. Henderson has resigned the presidency of the Bank of Coney Island and has been succeeded by William J. Ward, previously Vice-President. Mr. Henderson, it is said, will continue as one of the principal stockholders.

—The Orange County Trust Co. of Middletown, N. Y., celebrated its twentieth anniversary on the 2d inst. The institution started in 1892, opening the first safe-deposit accommodations to be afforded the people in its vicinity. Frank Harding, who entered the service of the institution with its inception as Secretary and Cashier, is its President; James H. Smith is Vice-President, G. Spencer Cowley is Secretary and Cashier and William W. Woodward is Assistant Secretary.

—An assessment of 100% on the stockholders of the First National Bank of New Berlin, N. Y. (capital $100,000), has been levied by the Comptroller of the Currency. The institution closed its doors on April 11. Frank T. Arnold, Cashier of the bank, was arrested on the 4th inst. on charges alleging the embezzling of its funds.

—Hon. Henry J. Ford, State Commissioner of Banking and Insurance, addressed the annual meeting of the New Jersey Savings Banks Association at Trenton on the 16th inst. According to Mr. Ford, the $116,000,000 deposited in New Jersey savings banks, while not the largest in amount in any State, is the most widely distributed among the varied classes of wage earners and foreign-speaking people. The manner in which these accumulations are now administered by the trustees of the savings banks must be conservative and efficient in the highest degree. The methods and standards prevailing, it was urged, will be the standards to which their successors will adhere, and the funds must have more diligent supervision and protection than any which come under the control of the department. Other addresses were made by Elliott Hardon, Examiner of the Banking Department, and by P. A. Flak, recently in charge of the finger-print identification office at Singapore. Mr. Flak's address

was upon finger-print identification for illiterate depositors, and was accompanied by numerous demonstrations. These officers of the association were elected: President, Merritt G. Perkins of Newark; Vice-President, Ralph T. Crane of Montclair; Secretary and Treasurer, Howard Biddulph of Bloomfield; members of executive committee, John Fischer of Newark and George W. Gould of Jersey City. Most of the savings banks of the State are members of this association.

—Fred. P. Holt and Norris S. Lippitt, Bank Commissioners of the State of Connecticut, were named as receivers of the Windsor Locks Savings Bank of Windsor Locks, Conn., on the 17th inst. They were appointed under an order signed by Judge Howard J. Curtis of the Superior Court authorizing the winding up of the institution's affairs. On Jan. 27 last the bank was restrained from paying out any of its funds or paying a dividend for a period of three months, but under an order modifying the injunction, it reopened on April 27. This order authorized the payment on demand of 50% of the deposits, which had previously been scaled 26% by the directors. At the time this modified order was issued there was pending before the court an application for the appointment of a receiver, presented by the Commissioners, who, it is stated, based their action on the ground that a deficit existed, and that, in their opinion, the public was likely to be defrauded. It was in response to this petition that the liquidation of the bank was authorized. The Bank Commissioners, it is understood, will act as receivers without compensation. Under the action of the Court on the 17th inst. the charter of the bank is forfeited. The bank's affairs were brought before the Court with the discovery of alleged irregularities in the books covering the period during which the late Alfred W. Converse served as its Treasurer.

—The Exchange Trust Co. of Boston has begun the payment of dividends with a quarterly distribution of 1%. The company has a capital of $250,000.

—The trustees of the City Savings Bank of Pittsfield, Mass., have voted favorably on the proposition to establish an insurance department. Three Massachusetts institutions are already operating departments of this character.

—The latest report of the Camden Safe Deposit & Trust Co., the largest banking institution in Camden, N. J., for April 18 shows a deposit line of $6,595,999, combined capital ($500,000), surplus ($650,000) and net undivided profits ($131,180) of $1,281,180, and aggregate resources, $7,936,-152. These figures do not include over $6,000,000 of trust funds held by the company for estates. Alexander C. Wood is President; William S. Scull, Vice-President; Ephraim Tomlinson, Second Vice-President and Trust Officer, and Joseph Lippincott, Secretary and Treasurer. The Camden Safe Deposit & Trust Co. was established in 1873.

—Effingham B. Morris has just passed his twenty-fifth anniversary as President of the Girard Trust Co. of Philadelphia. He has held the post since 1887, or practically one-third of the period of the existence of the company, whose seventy-fifth anniversary was reached last year. The institution's resources aggregate nearly $50,000,000.

—The directors of the Commercial Trust Co. of Philadelphia are said to have inaugurated an employees' insurance plan, under which all employees will be insured to the extent of one year's salary. In case of death that amount will be paid to the legal representatives of the insured. All the premiums are paid by the company.

To facilitate the prompt rendering of statements on the first of each month, the Commercial Trust will hereafter balance its accounts at the close of business on the 25th of the preceding month.

—The Girard National Bank of Philadelphia has added $500,000 to its surplus, increasing that item to $4,500,000.

—The West Philadelphia Title & Trust Co. of Philadelphia has added $25,000 to its surplus, thus making the combined surplus and profits $505,247. The capital of the institution is $500,000. The semi-annual dividend has been increased from 4 to 5%.

—William M. Potts of Wyebrook, Pa., and Arthur T. Parke of West Chester, Pa., have been elected directors of the Chester County Trust Co., West Chester, Pa.

—Thomas Hildt, Cashier of the National Bank of Commerce of Baltimore, and George C. Morrison, Vice-President of the Baltimore Trust Co., have been elected to the board of the National Bank of Commerce.

—W. J. Julian was elected a Vice-President of the Citizens' National Bank of Cincinnati on the 17th inst. to fill the vacancy caused by the election of G. P. Griffith to the presidency in January.

—Frank T. Lane, President of the Union Savings Bank of Toledo, died on the 15th inst. He was one of the organizers of the institution, founded in 1888, and had been its President since 1902. Mr. Lane had also been Secretary and Treasurer since 1876 of the Toledo "Blade." He was seventy years of age.

—It is reported that the Old State National Bank and the American Trust & Savings Bank, both of Evansville, Ind., have under consideration the advisability of a merger of the two institutions. The State National has a capital of $500,000, while that of the American is $200,000.

—B. R. Cahn, who was President of the Chicago Stock Exchange in 1905-06, and who has been identified with its administration for the past twenty years, has resigned as a member of the Governing Committee.

—The Lincoln State Savings Bank of Chicago, which has been formed with a capital of $200,000 and a surplus of $20,000, recently began business at 31st and South State Street. It is understood to have taken over the business of W. H. Bowers & Co. and the South Side Safety Deposit Co. Charles A. White is President and Edward Larson is Cashier.

—The Swedish-American State Bank is the name chosen for a new Chicago institution which is to have a capital of $200,000 and a surplus of $20,000. Interests in the Sheridan Trust & Savings Bank of Chicago are identified with the new organization, which will have quarters at Balmoral and North Clark streets.

—C. J. Peeples, formerly a national bank examiner and Vice-President of the American National Bank of St. Paul, Minn., has been elected a Vice-President of the Citizens' Trust & Savings Bank of Chicago.

—The directors of the Commercial-German National Bank of Peoria have asked authority from the stockholders to increase the capital from $550,000 to $750,000. The action is in line with the policy of the institution to keep pace with the expansion of the commercial interests of the city. The bank has accumulated surplus and profits of $750,000 and deposits of about 5½ million dollars.

—The Wisconsin State Bank of Milwaukee was opened for business on the 8th inst. with a capital of $75,000. The officers are: Christian Glaus, President; Harry S. Piggins, Vice-President, and William H. Hasse, Cashier.

—H. G. Lipscomb, President of the Broadway National Bank of Nashville, Tenn., died on the 17th inst. He was sixty-two years of age.

—In accordance with plans mentioned in our issue of Feb. 3, the Seaboard Bank of Norfolk, Va., became a national institution on the 14th inst., and will be known hereafter as the Seaboard National. With the change to the Federal system, the capital has been increased from $100,000 to $200,000. The bank was organized in 1905 with $25,000 capital. The officers of the institution are: W. T. Old, President; G. Serpell, Vice-President; Abner S. Pope, Cashier; W. C. Jenkins and W. P. Whaley, Assistant Cashiers.

—Col. Robert J. Lowry, President of the Lowry National Bank of Atlanta, has been elected a director of the American National Bank of Macon. Col. Lowry, who is an ex-President of the American Bankers' Association, has a wide acquaintance among the banking fraterinty. He is a trustee of the New York Life Insurance Co.

—George W. Nott, retired as President of the Citizens' Bank & Trust Co. of Louisiana, New Orleans, on the 14th inst., in pursuance of his desire to free himself from active participation in the management of the institution, to secure needed rest. At the request of the directors, however, he has consented to continue his affiliations with the bank as Chairman of the Board. Charles J. Theard, Vice-President of the institution, succeeds Mr. Nott as President, and has also been made Vice-Chairman of the Board. The institution has two new Vice-Presidents in D. W. Pipes and A. J. Stallings. H. C. Grenier, formerly Assistant Cashier, has become Cashier, succeeding Samuel A. Trufant, who resigned recently. Charles St. Raymond and H. C. Doize have been named as Assistant Cashiers. Mr. Nott, the retiring President, was Postmaster for New Orleans under

President Cleveland. He was chosen to the head of the Citizens' Bank in Feb. 1891; that institution was founded in 1833, and was succeeded in Jan. 1911 by the Citizens' Bank & Trust Co. The Citizens' Bank, in liquidation, has already paid its shareholders $185 per share, and indications, it is said, point to the further payment of $50.

—J. D. Hefley has been elected President of the American Trust Co. of Houston, Tex., succeeding M. J. Moore, who resigned on the 14th inst. Mr. Hefley had been a Vice-President.

—L. C. Brand, President of the All Night and Day Bank of Los Angeles, has sold the controlling interest in that institution, according to the "Los Angeles Times," to W. H. Holliday and M. H. Hellman, President and Vice-President, respectively, of the Merchants' National Bank and their associates. The All Night & Day Bank has a capital of $200,000. It will be continued at its present location by the new interests.

DEBT STATEMENT OF APRIL 30 1912.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued *April* 30 1912. *For statement of March* 31 1912, *see issue of April* 27 1912, *page* 1160; *that of April* 30 1911, *see May* 27 1911, *page* 1413.

Statement of New York City Clearing-House Banks and Trust Companies.—The detailed statement below shows the condition of the New York City Clearing-House members for the week ending May 18. The figures for the separate banks are the averages of the daily results. In the case of the totals, actual figures at the end of the week are also given.

For definitions and rules under which the various items are made up, see "Chronicle," V. 85, p. 836, in the case of the banks, and V. 92, p. 1607, in the case of the trust companies.

DETAILED RETURNS OF BANKS.

We omit two ciphers (00) in all cases.

The State Banking Department also furnishes weekly returns of the State banks and trust companies under its charge. These returns cover all the institutions of this class in the whole State, but the figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

For definitions and rules under which the various items are made up, see "Chronicle," V. 86, p. 316.

STATE BANKS AND TRUST COMPANIES.

Week ended May 18.	State Banks in Greater N. Y.	Trust Cos. in Greater N. Y.	State Banks outside of Greater N. Y.	Trust Cos. outside of Greater N. Y.
	$	$	$	$

Percentage last week	29.4%	16.5%	20.8%	15.9%

+ Increase over last week. — Decrease from last week. * As of March 21 1912.

Note.—"Surplus" includes all undivided profits. "Reserve on deposits" includes for both trust companies and State banks, not only cash items but amounts due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to location as shown below. The percentage of reserve required is computed on the aggregate of deposits, exclusive of moneys held in trust and not payable within thirty days, and also exclusive of time deposits not payable within thirty days represented by certificates, and also exclusive of deposits secured by bonds o obligations of the State or City of New York, and exclusive of an amount equal to the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the bank or held in trust for it by any public department. The State banks are likewise required to keep a reserve varying according to location, the reserve being computed on the whole amount of deposits exclusive of time deposits not payable within thirty days, represented by certificates (according to the amendment of 1910) and exclusive of deposits secured (according to amendment of 1911) by bonds or obligations of the City or State of New York, and exclusive of an amount equal to the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the company or held in trust for it by any public department.

Reserve Required for Trust Companies and State Banks. Location—	—Trust Cos.— Total Reserve Required.	Of which in Cash.	—State Banks— Total Reserve Required.	Of which in Cash.
Manhattan Borough	15%	15%	25%	15%

Other Boroughs (without branches in Manhattan)	15%	10%	15%	7½%
Brooklyn Borough, with branches in Manhattan	15%	15%	20%	20%
Other Boroughs, with branches in Manhattan	15%	15%	15%	15%
Cities of the 1st and 2d class	10%	5%	----	----
Cities of the 3d class and villages	10%	3%	----	----
Elsewhere in the State	---	----	15%	6%

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in the Greater New York *not in the Clearing House*. These figures are shown in the table below, as are also the results (both actual and average) for the Clearing-

House banks and trust companies. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in the Greater New York.

+ Increase over last week. — Decrease from last week.
a These are the deposits after eliminating the item "Due from reserve depositories and other banks and trust companies in New York City;" with this item included, deposits amounted to $726,480,300, a decrease of $1,627,900 from last week. In the case of the Clearing-House members, the deposits are "legal net deposits" both for the average and the actual figures. b Includes bank notes.

The averages of the New York City Clearing-House banks and trust companies, *combined* with those for the State banks and trust companies in Greater New York outside of the Clearing House, compare as follows for a series of weeks past:

COMBINED RESULTS OF BANKS AND TRUST COMPANIES IN GREATER NEW YORK.

Chicago, Ill. Boston, Mass. Albany, N. Y.
Members New York Stock Exchange.

White, Weld & Co.
Bonds and Investment Securities.
14 WALL STREET NEW YORK | THE ROOKERY CHICAGO | 35 CONGRESS STREET BOSTON

Bankers' Gazette.

Wall Street, Friday Night, May 24 1912.

The Money Market and Financial Situation.—The limited volume of business, together with the narrow movements of prices at the Stock Exchange this week, leaves little room for discussion of the market alone. We therefore turn to consider a few of the influences that have brought about this stagnation. Among these the most far-reaching in its effects is, undoubtedly, the political situation. That President Taft was so poorly supported in his own State was a surprise to many and this evidence of his opponent's strength in so conservative a community leaves small doubt that Mr. Roosevelt will receive more support in the National Convention than has generally been thought possible. If this matter would of itself have had a depressing influence upon security values, it has been counteracted by more hopeful conditions in the agricultural districts and by steadily increasing activity in industrial lines, especially in the iron and steel districts. Shipments of these products are not being made promptly enough to suit purchasers and it is reported that in some cases premiums are offered for quick deliveries. The anthracite coal strike is finally settled by an acceptance on the part of the miners of terms proposed by the operators; but this has had no perceptible effect, inasmuch as the outcome had been foreseen for some time past.

In banking circles some interest is felt in the renewal of a movement of funds from this centre to Berlin on offer of a 5% rate by German bankers. Paris seems, on the other hand, to be well supplied with funds, as the new Paris loan, just brought out, was many times over-subscribed.

The local money market continues easy and there seems little likelihood of any important change in this particular before the demand for crop-moving purposes sets in.

The open market rate for call loans on the Stock Exchange during the week on stock and bond collaterals has ranged from 2¼@3%. To-day rates on call were 2¾@2⅞%. Commercial paper quoted at 4@4½% for 60 to 90-day endorsements and for prime 4 to 6 months' single names and 5% for good single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £204,388 and the percentage of reserve to liabilities was 51.33, against 52.31 last week. The rate of discount remains unchanged at 3%, as fixed May 9. The Bank of France shows an increase of 17,025,000 francs gold and 1,650,000 francs silver.

Note.—The Clearing House now issues a statement weekly showing the actual condition of the banks on Saturday morning as well as the above averages. The figures, together with the returns of the separate banks and trust companies, also the summary issued by the State Banking Department giving the condition of State banks and trust companies not reporting to the Clearing House, appear on the second page preceding.

Foreign Exchange.—The market for sterling exchange throughout the week ruled firm, though at the extreme close a reactionary tendency was evident.

To-day's (Friday's) nominal rates for sterling exchange were 4 85 for sixty day and 4 88 for sight. To-day's actual rates for sterling exchange were 4 8450@4 8460 for sixty days, 4 8715@4 8720 for checks and 4 8750 @4 8755 for cables. Commercial on banks 4 83@4 84 and documents for payment 4 83 ⅝@4 84¼. Cotton for payment 4 84 ⅛@4 84¼ and grain for payment 4 84¼@4 85.

The posted rates for sterling, as quoted by a representative house, were not changed from 4 85 for 60 days, but on Monday were advanced to 4 88 for sight, which remained the figure all the week.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 20 less 3-32@5 20 less 1-16 for long and 5 17½ less 7-64@5 17½ less 3-64 for short. Germany bankers' marks were 94 11-16@94¾ for long and 95¼ less 1-64@ 95¼ plus 1-64 for short. Amsterdam bankers' guilders were 40 5-16@ 40 5-16 plus 1-32 for short.

Exchange at Paris on London, 25f. 24¼c.; week's range, 25f. 25c. high and 25f. 22½c. low.

Exchange at Berlin on London, 20m. 46½pf.; week's range, 20m. 47½pf. high and 20m. 45⅝pf. low.

The range for foreign exchange for the week follows:

Sterling, Actual—	*Sixty Days.*	*Cheques.*	*Cables.*
High for the week	4 8460	4 8725	4 8760
Low for the week	4 8425	4 8705	4 8730
Paris Bankers' Francs—			
High for the week	5 20 less 1-16	5 17½ less 5-64	5 17½
Low for the week	5 20⅝ less 1-32	5 18⅛ less 1-64	5 17½ less 5-64
Germany Bankers' Marks—			
High for the week	94¾	95¼ plus 1-32	95⅜ less 1-32
Low for the week	94⅝	95 3-16	95¼
Amsterdam Bankers' Guilders—			
High for the week	40⅛ plus 1-16	40 5-16 plus 1-16	40⅜
Low for the week	40⅛ less 1-32	40 5-16	40⅜ less 1-16

DOMESTIC EXCHANGE.—Chicago, 15c. per $1,000 premium. Boston, par. St. Louis, 40c. per $1,000 premium bid and 30c. asked. New Orleans, commercial, par; bank, $1 per $1,000 premium. San Francisco, 20c. per $1,000 premium. Savannah, buying, 3-16% discount; selling, par. St. Paul, 40c. per $1,000 premium. Charleston, buying, par; selling, 1-10% premium.

State and Railroad Bonds.—Sales of State bonds at the Board include $11,000 New York 4s 1961 at 101 to 101⅜ and $13,000 Virginia 6s deferred trust receipts at 47 to 47½.

On steadily diminishing daily transactions, the market for railway and industrial bonds has been decidedly dull, and 20 out of a list of 30 active issues are lower, while three close at the same level as last week.

United States Bonds.—Sales of Government bonds at the Board include $2,000 2s, coup., at 101¼, $1,000 2s, reg., at 100¾, and $6,500 Panama 3s at 101¾ to 102. Closing prices have been as follows; *for yearly range see third page following:*

	Interest Periods	May 18	May 20	May 21	May 22	May 23	May 24

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—As noted above, the stock market has been dull. On only one day have the transactions amounted to as much as 500,000 shares and the average has been considerably below that figure. The heaviest business was recorded on Wednesday, and on that day also prices reached the lowest point of the week.

Notwithstanding the limited transactions, last week's quotations have been well maintained. In only two cases did declines in the active railway list amount to more than 1½ points. The exceptional features were Candian Pacific, which lost 6 points of its recent persistent advance, and Reading, which dropped 4 points. Both have, however, substantially recovered.

Some of the industrial issues have made a record quite in contrast with the market as a whole. American Tobacco sold to-day at 280, an advance of 22 points from last week's closing prices. U. S. Rubber was over 8 points higher, and Peoples Gas closes with a net gain of 4¾.

For daily volume of business see page 1439.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—Considerable strength and activity was noted in some of the industrial issues in the outside market this week, though for the most part the list exhibited a reactionary tendency. United Cigar Stores was the leading feature throughout, and moved up from 201 to 230½, the close to-day being at 229½. Anglo-Amer. Oil gained substantially at the beginning of the week—from 23¼ to 25¾, the latter the highest point yet reached—but reacted, the final transaction to-day being at 21¾. British-Amer. Tobacco sold down a point to 26¾ and recovered to 27⅜, closing to-day at 27¼. Cons'd Rubber Tire com. went up 4 points to 18, then sank to 16⅜, but moved up to-day to 18¼. B. F. Goodrich com. improved from 86¼ to 86½ and eased off to 86, the final figure to-day being 86¼. The preferred sold up from 108 to 108¾ and down to 108½. Intercontinental Rubber com. advanced from 16 to 16¼ and fell to 14¾. Lehigh Valley Coal Sales from 253 reached 270 and declined to 250. Loose-Wiles Biscuit com. lost about half a point to 34, advanced to 35½ and was traded in to-day at 35. The preferred went up 1½ points to 103½ and eased off finally to 103. R. J. Reynolds improved from 230 to 245. Standard Oil of N. J. receded 10 points to 375, ex-dividend, sold up to 384 and reacted finally to 381. U. S. Light & Heating com. from 21 reached 22½ and fell back to 21, with the final transaction to-day at 22. Bond trading was limited. Bethlehem Steel new 5s, w. i., weakened from 91 to 90¾, sold up to 91½ and back to 91¼ finally. Chicago Elevated 5% notes were off from 98⅜ to 98⅛. Inspiration Con. Copper conv. 6s were traded in at 104½ and 105. Trading in copper stocks light. Braden Copper rose from 5⅝ to 5⅞. Giroux advanced from 5½ to 5¾ and sold to-day at 5⅝.

Outside quotations will be found on page 1439.

New York Stock Exchange—Bond Record, Friday, Weekly and Yearly

Jan. 1 1909 the Exchange method of quoting bonds was changed, and prices are now all—"and interest"—except for incomes and defaulted bonds.

BONDS N. Y. STOCK EXCHANGE Week Ending May 24.	Interest Period	Price Friday May 24. Bid	Price Friday May 24. Ask	Week's Range or Last Sale Low	Week's Range or Last Sale High	Bonds Sold No.	Range Since Jan. 1. Low	Range Since Jan. 1. High

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the electric railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

(*Report for Fiscal Year ending Dec.* 31 1911.)

Pres. Joseph F. Porter, Apr. 23 1912, wrote in substance:

Results.—The gross earnings show an increase of $193,985, or 7.71% over 1910; operating expenses and taxes increased $69,542, or 4.69%; net earnings increased $124,443, or 12.06%. The interest charge was $515,846, an increase of $34,438, or 7.15%, and the sinking fund $50,000. The directors created a replacement and renewal fund of $100,000 from the year's surplus and also authorized a charge of $12,043, being the proportion applicable to 1911 for organization expense and discount on bonds. There was declared 5% in dividends on the pref. stock, amounting to $169,572, leaving a balance $308,501, which was transferred to surplus account.

Bonds.—There was issued in 1911 $182,000 of the 5% collateral trust first lien sinking fund gold bonds to take up the balance of the 6% 1st M. gold bonds of the Davenport & Rock Island Ry. Co., which bonds matured on July 1 1911. The only underlying bonds now out are $54,000 Tri-City Ry. 1st mtge. 5s due 1922. There were purchased for the sinking fund in 1911 $50,000 collateral trust bonds, making a total of $200,000 of this issue so canceled to the end of 1911. Of the "first and refunding" 5% gold bonds, $1,456,000 were issued during the year, of which $845,000 were for account of the Davenport & Muscatine Ry. Co. (V. 93, p. 1465; V. 94, p. 488).

Construction.—There was expended for new construction $265,575 in the electric department, $178,045 in the railway department and $138,253 in the gas department, a total of $581,873; and for maintenance, $126,878, exclusive of the reserve for replacements and renewals of $100,000, mentioned above.

Railway.—The new "Pay-Enter" cars have given entire satisfaction, and it is proposed to purchase 20 similar to those now in use. During the latter part of 1911 we were obliged to use every one of our cars in order to meet the maximum traffic demands. The additional manufacturing activities in East Moline will undoubtedly make it necessary to double-track most of the East Moline line in 1912. The demand for extra car service to Bettendorf, together with the fact that the Iowa & Illinois Ry. Co. will soon operate a freight service, will necessitate double-tracking the Bettendorf line from the city limits of Davenport to the easterly limits of Bettendorf early in 1912. The 25th St. and 13th Av. line, Rock Island, and the 4th St., 16th Ave. and 7th St. lines, Moline, will be completed in 1912. The interurban line to Muscatine is well under way.

Electric Department.—The business of this department has necessitated additional transmission lines and extension of distributing lines into new territory. Your company has arranged for an output of approximately 3,000 k. w. from the new Davis hydro-electric plant at Sears, Ill., and this will be available as soon as the transmission lines to our Rock Island and Davenport substations are completed. Application has been received from the Iowa and Illinois Ry. Co. for power to operate their line between Davenport and Clinton. This, and other large prospective customers, will necessitate further transmission lines. The output was very satisfactory, in spite of the fact that the manufacturing plants in the three cities were affected by a shortage of orders. The outlook is still more promising for 1912.

Gas Department.—The expenditures for this department covered the installation of one 8 ft. 6 in. water-gas set in the plant at Davenport, the extension of distributing mains and the building of a high-pressure line and distributing mains in East Moline and Silvis. Additional distributing mains will be laid in East Moline and Silvis, and small extensions in other towns, but generally the available territory is well covered; consequently the earnings for the gas department should materially increase in 1912.

General.—By Jan. 1 1913 all construction requirements in the franchises will have been complied with. As to new control in 1911, see V. 94, p. 768.)

—V. 92, p. 1440.

Westinghouse Electric & Manufacturing Co., Pittsburgh.

(*Report for Fiscal Year ending March* 31 1912.)

Chairman Guy E. Tripp, May 18, wrote in substance:

In our advertising columns on a previous page may be found an official summary of the annual report, including extracts from the remarks of Chairman Guy E. Tripp, the balance sheet of March 31 1911-12 and the profit and loss account for the late fiscal year. Further particulars follow:

Results.—The sales billed for the year were $3,922,866 less than the sales billed for the previous year. This decrease is due partly to an actual reduction of output, but to a greater extent to the lower prices obtained. The latter is reflected in the decreased percentage of net profit on sales billed.

Orders.—The value of unfilled orders as of March 31 1911 was $7,616,058; as of March 31 1912 the value of unfilled orders was $8,137,961. During April the value of orders booked exceeded that of any month during the year ended March 31 1912, so that the value of unfilled orders as of April 30 1912 was $9,218,303.

Suit.—The suit filed by the United States with respect to the incandescent lamp business was terminated by the entry of a decree, which, as predicted last year (V. 92, p. 1642), does not seriously affect the conduct of your lamp business (V. 93, p. 1025; V. 94, p. 212, 1060).

Total Surplus.—The surplus of March 31 1911, $5,964,225, was decreased during the year by various items to $5,887,183. This balance was increased by the net income for the year $2,444,093 to a gross surplus of $8,331,276. Against this surplus have been charged dividends aggregating 7% on the pref. stock ($279,909) and a dividend of 1% ($352,117) on the common stock, declared March 27 1912. There was also written off $1,050,285 for depreciation of investments, as follows: Stock, Westinghouse Electric Co., Ltd., $250,000; debentures, Societe Electrique Westinghouse de Russie, $243,243, and bonds, Lack. & Wyoming Valley Rapid Transit Co., $557,042. As a result the surplus as of March 31 1912 is $6,648,964.

[The pamphlet report contains a complete statement of investments as of March 31 1912 compared with 1911.]

United Shoe Machinery Corporation, Boston.

(Report for Fiscal Year ending March 1 1912.)

Pres. Sidney W. Winslow, May 18, wrote in substance:

Results.—The number of machines on lease in the United States on Mch. 1 1912 was 97,081, an increase of 7.5%. A greater number of machines was turned out at the factory in Beverly than in any other 12 months. There are 4,200 employees at this factory. Were it not for the pending Government suits and threatened restrictive legislation by Congress, at least 1,000 more people would be employed at the present time.

Govt. Suits.—The Department of Justice, a short time before the last annual meeting, began the investigation of the organization of the company, its subsequent acquisitions of properties, its contracts with shoe manufacturers and its affairs generally. In September two indictments (Nos. 113 and 114) were reported against members of the executive committee for alleged violations of the Sherman Act.

On demurrer one count in indictment No. 114, which did not expressly allege that the company's business was based on patents, was held valid until it should appear otherwise on trial. The other counts in both indictments were quashed by Judge Putnam in the District Court (V. 94, p. 702). The Government has taken a writ of error to the Supreme Court in respect to certain of the quashed counts, and Judge Putnam has recently denied a motion of the defendants for a speedy trial on indictment No. 114.

The Government in December last filed its petition in equity against the company, the corporation, the directors of both, and others, praying that they be adjudged to have violated the Sherman Act and for relief (V. 93, p. 1672). Nine of the corporations made parties thereto demurred on the ground that they had no interest in the matters complained of, and the petition was dismissed as against them on motion of the Government. It is expected that the petition will be diligently prosecuted, as suggested by Judge Putnam, in order that the practical application of the statute to the special methods of the company may be thoroughly exploited and determined by the courts, and that in the meantime the criminal proceedings will be held in abeyance.

Both in the organization of the company and in the conduct of its business the directors have acted on the advice of eminent counsel, and have at all times conformed to the law as interpreted by them. Thus far the decisions of the highest courts in respect to the Sherman Act have justified the opinions of counsel and the acts of the company.

Judge Putnam, after having examined all the cases in which the Sherman Act has been construed by the Supreme Court, said: "It seems to be impossible to deny that the combination of various elements of machinery, all relating to the same art and the same school of manufactures, for the purpose of constructing economically and systematically, and of furnishing any customer the whole or any part of an entire system, is in strict and normal compliance with modern trade progress."

One Consequence of Government Suits.—Hitherto the manufacturer has had the option of either buying certain machines outright or taking them on lease at a nominal rental on condition that they be used only in connection with certain other of the company's machines. The legality of the lease having been questioned, the company in Dec. 1911 discontinued the optional terms, and now offers the machines only on outright sale, as it cannot afford to lease machines from the use of which it receives no direct pecuniary return unless it can contract that these machines be used in connection with certain other machines from which it derives its revenue. As a result, manufacturers with limited resources have found themselves badly handicapped. How seriously this will affect the industry is shown by the fact that more than 80% of the customers of the company in the United States each manufacture s less than 1,000 pairs of shoes per day; the shoe manufacturer who makes less than that number of pairs being now rated as a small manufacturer.

Additions.—The work upon additions to the Beverly plant has continued, and it is hoped that before May 1 1913 the new construction will be completed. There has been a large expenditure in substituting improved for out-of-date machines and in perfecting the improvements on machines which the company has had in hand. Several new machines are already in condition for installation in shoe factories.

Stockholders.—We now have 7,538 individual stockholders.

J. G. White & Co., New York.

(Report for Fiscal Year ending Feb. 29 1912.)

Pres. J. G. White, New York, May 20, wrote in part:

The surplus for the year shows an increase from $485,529 to $605,522, after having paid the regular 6% dividend on the pref. stock. This is equivalent to about 8% earned on your common stock.

Satisfactory earnings, as well as increases in rates of dividends, have been shown during the past year on a number of the properties in which your company holds securities. This is particularly true of some of the properties operated by your company and it is believed that further increases in this respect can be reasonably expected.

Anaconda Copper Mining Co., New York.

(Report for Fiscal Year ending Dec. 31 1911.)

Pres. B. B. Thayer, Butte, May 1, wrote in substance:

Results.—Owing to the depressed condition of the copper metal market at the beginning of the year, both the tonnage of ore extracted and output of refined copper were reduced materially. Development work, however, was maintained at a normal rate, and advantage was taken of the slackness of operations to re-timber certain shafts and make extraordinary repairs.

At no other period in the company's history was so much done in the line of extraordinary repairs, several shafts being re-timbered from the surface to the bottom. The expense thus entailed, together with the cost of adding new cylinders to certain hoisting engines for the use of compressed air, and the expense of successfully fighting the fire at the High Ore mine, were all charged to operating costs. Notwithstanding this fact and also that a curtailed output naturally tends towards higher costs, and that the grade of the ore mined was no higher in metal content than that treated in former years, the cost per pound of copper produced was lower than in previous years, reflecting, only partially as yet, the benefits derived from consolidation, the more general use of electric power, and general refinement of operations.

The dividends declared during the year exceeded the profits by $565,031. This difference was more than offset by the item of extraordinary repairs and expenditures in excess of normal years, amounting to $583,462, all of which sum, as has been stated, was charged directly to operations during the year 1911 and not carried for future proportionate distribution.

New Stock.—Capital stock of $2,812,500 (112,500 shares, $25 each) was issued to the Amalgamated Copper Co. for the purchase from W. A. Clark of mining properties in the Butte district. (See report for 1910.) This stock was listed on the N. Y. Stock Exch. June 7 1911 (V. 92, p. 1567, 1370).

Development and Improvements.—There was done in the mines of the company during the year, in the form of drifts, crosscuts, upraises, winzes and shafts, 30.7 miles of development work [against 33.1 miles in 1910] and the amount of ore developed was much in excess of the tonnage extracted. The shafts of the different properties were sunk during the year to additional depths aggregating 3,711 ft. [contrasting with 3,765 ft. in 1910]

The contracts with the Great Falls Power Co. (V. 94, p. 985) for furnishing power at Butte, Anaconda and Great Falls for the operations of your company were fully complied with, and the service was most satisfactory, and it will be our aim in the future to displace the use of steam at every point where electric power can be used more economically.

In the report for 1910 mention was made of the fact that the Parrot and Little Mina shafts had been put out of commission, and during the year 1911 the East Gray Rock and Gagnon shafts were added to the list.

For several years experiments have been carried on at the concentrator of the Boston & Montana reduction department at Great Falls, tending towards a higher percentage of extraction from the ores treated, and have resulted in absolute success. One full section equipped with the new method of concentration, operated continuously, showed such a saving that it was deemed advisable to change one section of the concentrator at the Washoe plant at Anaconda to permit of the use of the new method. As soon as this has been completed, corresponding changes will be made in the other sections. In addition to increasing the percentage of saving in the treatment of ores, the new method will also greatly increase the capacity.

Mine Tonnage.—The mines of the company produced 3,844,070 tons of ore and 4,603 tons of precipitates, or a total of 3,848,673 tons [contrasting with 3,330,640 tons in 1910, the apparent increase for 1911 being due to the fact that the purchase of the properties of the Boston & Montana, Red Metal, Washoe, Butte & Boston, Parrot, &c., companies was not effected till April 1 1910].

Reduction Works.—The reduction works treated for all companies during the year 3,154,036 dry tons of ore [against 3,302,523 tons in 1910] and other cupriferous material at Anaconda, and 1,101,778 dry tons of ore and other cupriferous material at Great Falls [against 1,035,165 in 1910]. Of this amount 3,756,235.05 tons of ore furnished from the company's mines, 499,077.33 tons of purchased ore, together with 501.40 tons of precipitates from the Old Works, were treated for your company.

(*Report for Fiscal Year ending Dec.* 31 1911.)

Pres. Joseph F. Porter, Apr. 23 1912, wrote in substance:

Results.—The gross earnings show an increase of $193,985, or 7.71% over 1910; operating expenses and taxes increased $69,542, or 4.69%; net earnings increased $124,443, or 12.06%. The interest charge was $515,846, an increase of $34,438, or 7.15%, and the sinking fund $50,000. The directors created a replacement and renewal fund of $100,000 from the year's surplus and also authorized a charge of $12,043, being the proportion applicable to 1911 for organization expense and discount on bonds. There was declared 5% in dividends on the pref. stock, amounting to $169,572, leaving a balance $308,501, which was transferred to surplus account.

Bonds.—There was issued in 1911 $182,000 of the 5% collateral trust first lien sinking fund gold bonds to take up the balance of the 6% 1st M. gold bonds of the Davenport & Rock Island Ry. Co., which bonds matured on July 1 1911. The only underlying bonds now out are $54,000 Tri-City Ry. 1st mtge. 5s due 1922. There were purchased for the sinking fund in 1911 $50,000 collateral trust bonds, making a total of $200,000 of this issue so canceled to the end of 1911. Of the "first and refunding" 5% gold bonds, $1,456,000 were issued during the year, of which $845,000 were for account of the Davenport & Muscatine Ry. Co. (V. 93, p. 1465; V. 94, p. 488).

Construction.—There was expended for new construction $265,575 in the electric department, $178,045 in the railway department and $138,253 in the gas department, a total of $581,873; and for maintenance, $126,878, exclusive of the reserve for replacements and renewals of $100,000, mentioned above.

Railway.—The new "Pay-Enter" cars have given entire satisfaction, and it is proposed to purchase 20 similar to those now in use. During the latter part of 1911 we were obliged to use every one of our cars in order to meet the maximum traffic demands. The additional manufacturing activities in East Moline will undoubtedly make it necessary to double-track most of the East Moline line in 1912. The demand for extra car service to Bettendorf, together with the fact that the Iowa & Illinois Ry. Co. will soon operate a freight service, will necessitate double-tracking the Bettendorf line from the city limits of Davenport to the easterly limits of Bettendorf early in 1912. The 25th St. and 13th Av. line, Rock Island, and the 4th St., 16th Ave. and 7th St. lines, Moline, will be completed in 1912. The interurban line to Muscatine is well under way.

Electric Department.—The business of this department has necessitated additional transmission lines and extension of distributing lines into new territory. Your company has arranged for an output of approximately 3,000 k. w. from the new Davis hydro-electric plant at Sears, Ill., and this will be available as soon as the transmission lines to our Rock Island and Davenport substations are completed. Application has been received from the Iowa and Illinois Ry. Co. for power to operate their line between Davenport and Clinton. This, and other large prospective customers, will necessitate further transmission lines. The output was very satisfactory, in spite of the fact that the manufacturing plants in the three cities were affected by a shortage of orders. The outlook is still more promising for 1912.

Gas Department.—The expenditures for this department covered the installation of one 8 ft. 6 in. water-gas set in the plant at Davenport, the extension of distributing mains and the building of a high-pressure line and distributing mains in East Moline and Silvis. Additional distributing mains will be laid in East Moline and Silvis, and small extensions in other towns, but generally the available territory is well covered; consequently the earnings for the gas department should materially increase in 1912.

General.—By Jan. 1 1913 all construction requirements in the franchises will have been complied with. As to new control in 1911, see V. 94, p. 768.)

INCOME ACCOUNT, INCLUDING SUBSIDIARIES.

Westinghouse Electric & Manufacturing Co., Pittsburgh.

(*Report for Fiscal Year ending March* 31 1912.)

Chairman Guy E. Tripp, May 18, wrote in substance:

In our advertising columns on a previous page may be found an official summary of the annual report, including extracts from the remarks of Chairman Guy E. Tripp, the balance sheet of March 31 1911-12 and the profit and loss account for the late fiscal year. Further particulars follow:

Results.—The sales billed for the year were $3,922,866 less than the sales billed for the previous year. This decrease is due partly to an actual reduction of output, but to a greater extent to the lower prices obtained. The latter is reflected in the decreased percentage of net profit on sales billed.

Orders.—The value of unfilled orders as of March 31 1911 was $7,616,058; as of March 31 1912 the value of unfilled orders was $8,137,961. During April the value of orders booked exceeded that of any month during the year ended March 31 1912, so that the value of unfilled orders as of April 30 1912 was $9,218,303.

Suit.—The suit filed by the United States with respect to the incandescent lamp business was terminated by the entry of a decree, which, as predicted last year (V. 92, p. 1642), does not seriously affect the conduct of your lamp business (V. 93, p. 1025; V. 94, p. 212, 1060).

Total Surplus.—The surplus of March 31 1911, $5,964,225, was decreased during the year by various items to $5,887,183. This balance was increased by the net income for the year $2,444,093 to a gross surplus of $8,331,276. Against this surplus have been charged dividends aggregating 7% on the pref. stock ($279,909) and a dividend of 1% ($352,117) on the common stock, declared March 27 1912. There was also written off $1,050,285 for depreciation of investments, as follows: Stock, Westinghouse Electric Co., Ltd., $250,000; debentures, Societe Electrique Westinghouse de Russie, $243,243, and bonds, Lack. & Wyoming Valley Rapid Transit Co., $557,042. As a result the surplus as of March 31 1912 is $6,648,964.

[The pamphlet report contains a complete statement of investments as of March 31 1912 compared with 1911.]

United Shoe Machinery Corporation, Boston.

(*Report for Fiscal Year ending March* 1 1912.)

Pres. Sidney W. Winslow, May 18, wrote in substance:

Results.—The number of machines on lease in the United States on Mch. 1 1912 was 97,081, an increase of 7.5%. A greater number of machines was turned out at the factory in Beverly than in any other 12 months. There are 4,200 employees at this factory. Were it not for the pending Government suits and threatened restrictive legislation by Congress, at least 1,000 more people would be employed at the present time.

Govt. Suits.—The Department of Justice, a short time before the last annual meeting, began the investigation of the organization of the company, its subsequent acquisitions of properties, its contracts with shoe manufacturers and its affairs generally. In September two indictments (Nos. 113 and 114) were reported against members of the executive committee for alleged violations of the Sherman Act.

On demurrer one count in indictment No. 114, which did not expressly allege that the company's business was based on patents, was held valid until it should appear otherwise on trial. The other counts in both indictments were quashed by Judge Putnam in the District Court (V. 94, p. 702). The Government has taken a writ of error to the Supreme Court in respect to certain of the quashed counts, and Judge Putnam has recently denied a motion of the defendants for a speedy trial on indictment No. 114.

The Government in December last filed its petition in equity against the company, the corporation, the directors of both, and others, praying that they be adjudged to have violated the Sherman Act and for relief (V. 93, p. 1672). Nine of the corporations made parties thereto demurred on the ground that they had no interest in the matters complained of, and the petition was dismissed as against them on motion of the Government. It is expected that the petition will be diligently prosecuted, as suggested by Judge Putnam, in order that the practical application of the statute to the special methods of the company may be thoroughly exploited and determined by the courts, and that in the meantime the criminal proceedings will be held in abeyance.

Both in the organization of the company and in the conduct of its business the directors have acted on the advice of eminent counsel, and have at all times conformed to the law as interpreted by them. Thus far the decisions of the highest courts in respect to the Sherman Act have justified the opinions of counsel and the acts of the company.

Judge Putnam, after having examined all the cases in which the Sherman Act has been construed by the Supreme Court, said: "It seems to be impossible to deny that the combination of various elements of machinery, all relating to the same art and the same school of manufactures, for the purpose of constructing economically and systematically, and of furnishing any customer the whole or any part of an entire system, is in strict and normal compliance with modern trade progress."

One Consequence of Government Suits.—Hitherto the manufacturer has had the option of either buying certain machines outright or taking them on lease at a nominal rental on condition that they be used only in connection with certain other of the company's machines. The legality of the lease having been questioned, the company in Dec. 1911 discontinued the optional terms, and now offers the machines only on outright sale, as it cannot afford to lease machines from the use of which it receives no direct pecuniary return unless it can contract that these machines be used in connection with certain other machines from which it derives its revenue. As a result, manufacturers with limited resources have found themselves badly handicapped. How seriously this will affect the industry is shown by the fact that more than 80% of the customers of the company in the United States each manufacture s less than 1,000 pairs of shoes per day; the shoe manufacturer who makes less than that number of pairs being now rated as a small manufacturer.

Additions.—The work upon additions to the Beverly plant has continued, and it is hoped that before May 1 1913 the new construction will be completed. There has been a large expenditure in substituting improved for out-of-date machines and in perfecting the improvements on machines which the company has had in hand. Several new machines are already in condition for installation in shoe factories.

Stockholders.—We now have 7,538 individual stockholders.

J. G. White & Co., New York.

(*Report for Fiscal Year ending Feb.* 29 1912.)

Pres. J. G. White, New York, May 20, wrote in part:

The surplus for the year shows an increase from $485,529 to $605,522, after having paid the regular 6% dividend on the pref. stock. This is equivalent to about 8% earned on your common stock.

Satisfactory earnings, as well as increases in rates of dividends, have been shown during the past year on a number of the properties in which your company holds securities. This is particularly true of some of the properties operated by your company and it is believed that further increases in this respect can be reasonably expected.

Anaconda Copper Mining Co., New York.

(*Report for Fiscal Year ending Dec.* 31 1911.)

Pres. B. B. Thayer, Butte, May 1, wrote in substance:

Results.—Owing to the depressed condition of the copper metal market at the beginning of the year, both the tonnage of ore extracted and output of refined copper were reduced materially. Development work, however, was maintained at a normal rate, and advantage was taken of the slackness of operations to re-timber certain shafts and make extraordinary repairs.

At no other period in the company's history was so much done in the line of extraordinary repairs, several shafts being re-timbered from the surface to the bottom. The expense thus entailed, together with the cost of adding new cylinders to certain hoisting engines for the use of compressed air, and the expense of successfully fighting the fire at the High Ore mine, were all charged to operating costs. Notwithstanding this fact and also that a curtailed output naturally tends towards higher costs, and that the grade of the ore mined was no higher in metal content than that treated in former years, the cost per pound of copper produced was lower than in previous years, reflecting, only partially as yet, the benefits derived from consolidation, the more general use of electric power, and general refinement of operations.

The dividends declared during the year exceeded the profits by $565,031. This difference was more than offset by the item of extraordinary repairs and expenditures in excess of normal years, amounting to $583,462, all of which sum, as has been stated, was charged directly to operations during the year 1911 and not carried for future proportionate distribution.

New Stock.—Capital stock of $2,812,500 (112,500 shares, $25 each) wa issued to the Amalgamated Copper Co. for the purchase from W. A. Clark of mining properties in the Butte district. (See report for 1910.) This stock was listed on the N. Y. Stock Exch. June 7 1911 (V.92,p. 1567, 1370).

Development and Improvements.—There was done in the mines of the company during the year, in the form of drifts, crosscuts, upraises, winzes and shafts, 30.7 miles of development work [against 33.1 miles in 1910] and the amount of ore developed was much in excess of the tonnage extracted. The shafts of the different properties were sunk during the year to additional depths aggregating 3,711 ft. [contrasting with 3,765 ft. in 1910]

The contracts with the Great Falls Power Co. (V. 94, p. 985) for furnishing power at Butte, Anaconda and Great Falls for the operations of your company were fully complied with, and the service was most satisfactory, and it will be our aim in the future to displace the use of steam at every point where electric power can be used more economically.

In the report for 1910 mention was made of the fact that the Parrot and Little Mina shafts had been put out of commission, and during the year 1911 the East Gray Rock and Gagnon shafts were added to the list.

For several years experiments have been carried on at the concentrator of the Boston & Montana reduction department at Great Falls, tending towards a higher percentage of extraction from the ores treated, and have resulted in absolute success. One full section equipped with the new method of concentration, operated continuously, showed such a saving that it was deemed advisable to change one section of the concentrator at the Washoe plant at Anaconda to permit of the use of the new method. As soon as this has been completed, corresponding changes will be made in the other sections. In addition to increasing the percentage of saving in the treatment of ores, the new method will also greatly increase the capacity.

Mine Tonnage.—The mines of the company produced 3,844,070 tons of ore and 4,603 tons of precipitates, or a total of 3,848,673 tons [contrasting with 3,330,640 tons in 1910, the apparent increase for 1911 being due to the fact that the purchase of the properties of the Boston & Montana, Red Metal, Washoe, Butte & Boston, Parrot, &c., companies was not effected till April 1 1910].

Reduction Works.—The reduction works treated for all companies during the year 3,154,036 dry tons of ore [against 3,302,523 tons in 1910] and other cupriferous material at Anaconda, and 1,101,778 dry tons of ore and other cupriferous material at Great Falls [against 1,035,165 in 1910]. Of this amount 3,756,235.05 tons of ore furnished from the company's mines, 499,077.33 tons of purchased ore, together with 501.40 tons of precipitates from the Old Works, were treated for your company.

Total Production at Anaconda and Great Falls.

	Year 1911.	*Year* 1910.
Fine copper, lbs	259,407,093	266,608,461
Silver, oz	9,731,561	9,534,888
Gold, oz	48,950	57,259

Shipped to other departments	508,913	449,421
Sold	316,647	309,242
Used at coal mines	74,513	69,868

Lumber Department.—The sawmills at Hamilton, Hope, Bonner and St Regis cut during the year 89,782,204 ft. of lumber [against 128,334,239 ft.], of which 6,246,467 ft. were used at the mills, 72,713,827 ft. were sold commercially and 10,821,910 ft. went into stock.

Subsidiary Departments.—These show for the year profits of $256,301.

Butte Anaconda & Pacific Ry.—Extension—Electrification.—This railway has completed plans for the electrification of the entire road from the mines at Butte to the reduction works at Anaconda, and in addition contemplates the extension of its road from Anaconda to the Georgetown district, in which are located several mines from which it is impossible for the owners at the present time to ship the lower grade ores on account of the lack of transportation facilities. Some of the ores mined in the districts which will be tributary to the extension of the road are most desirable in smelting operations at the Washoe Smeltery at Anaconda, and negotiations were concluded for the purchase by the Anaconda Copper Mining Co. of the Southern Cross mine, which has in the past been one of the largest producers

Calumet & Hecla Mining Co., Boston.

(*Report for Eight Months ending Dec.* 31 1911.)

Pres. Quincy A. Shaw, Boston, May 15, wrote in substance:

Change in Year.—The fiscal year has been changed to the calendar year, and stockholders will be requested to change the annual meeting to the second Thursday in June. This report covers the period April 30 to Dec. 31 1911, during which the company produced mineral equal by assay to 49,680,727 lbs. of copper. The price received for copper has varied from 12 ¾c. to 14 ¾c. On Dec. 31 it was about 14 ¾c. Dividends of $6 were paid on June 28, Sept. 22 and Dec. 20. [On March 22 1912 $8 per share was paid.—V. 94, p. 633.]

Comparative Results for the Past Four Calendar Years.

	1911.	1910.	1909.	1908.
Rock stamped, tons	2,909,972	2,795,514	2,842,880	2,643,938
Mine cost per ton rock (exclud. construction)	$1.84	$1.92	$1.93	$2.15
Refined copper prod., lbs.	74,130,977	72,059,545	80,096,995	82,549,979
Copper p. ton of rock, lbs.	25.47	25.77	28.18	31.22
Total cost copper per lb.	8.52c.	8.96c.	8.28c.	9.00c.
Price copper sold, per lb.	12.82c.	13.20c.	13.61c.	13.62c.
Refined copper, lbs.	72,861,925	72,672,469	74,593,553	81,660,723

Operations on Conglomerate Lode for Calendar Years.

	1911	1910	1909	1908
Rock stamped, tons	1,924,480	1,950,040	1,999,880	1,958,200
Mine cost per ton of rock (exclud. construction)	$2.07	$2.13	$2.11	$2.25
Copper produced, lbs.	58,469,399	58,739,509	66,285,684	70,427,877
Cop. per ton of rock, lbs.	30.38	30.12	33.14	35.96
Total cost copper per lb.	8.25c.	8.55c.	7.77c.	8.38c.
Shaft sinking	546 ft.	464 ft.	556 ft.	773 ft.
Drifting	8,613 ft.	9.215 ft.	8.032 ft.	10,640 ft.
Cross-cuts and foot-wall drifts	201 ft.	625 ft.	886 ft.	1,744 ft.

The operating shafts on this lode have attained depths ranging from 6,102 to 7,995 ft.

Development work in the ground adjacent to the Red Jacket Shaft is very nearly completed. The openings in the five forties continue to show ground of about average quality. At the Hecla and South Hecla branches the ground opened is quite up to the average of last year.

Operations on Osceola Lode for Calendar Years.

	1911.	1910.	1909.	1908.
Rock stamped, tons	985,492	831,194	838,200	685,738
Mine cost per ton of rock (exclud. construction)	$1.34	$1.41	$1.42	$1.75
Copper produced, lbs.	15,661,578	13,150,427	13,752,276	12,122,102
Copp. per ton of rock, lbs.	15.89	15.82	16.40	17.67
Total cost copper per lb.	9.95c.	10.53c.	10.41c.	12.25c.
Shaft sinking	837 ft.	506 ft.	2,042 ft.	2,824 ft.
Drifting	18,460.5ft.	16,986 ft.	21,815 ft.	21,155 ft.

The operating shafts on this lode have attained depths ranging from 1,460 ft. to 3,232 ft. The openings during the year have shown ground of average quality and even greater amounts of good ground have been opened and mined on the foot side of the lode.

Stamp Mills.—During the eight months the re-crushing plant treated coarse conglomerate tailings from the Calumet Mill, and produced 1,497,669 lbs. of copper at a cost of 4.75c., exclusive of smelting and selling.

Comparative Results for Past Three Calendar Years (since Feb. 1909).

	1911.	1910.	1909.
Tons of coarse tailings crushed	477,794	441,920	278,175
Pounds of copper produced	2,152,110	1,951,378	1,251,300
Cost per lb. exclusive of smelting and selling	5.01c.	5.08c.	4.81c.

The plans for the new pebble re-crushing mill are finished and the ground is being cleared for the foundations to the east of the Calumet Mill.

Smelters.—At the Calumet & Hecla smelting works the new furnaces with mechanical pouring devices are nearing completion and should be in operation some time in June.

Timber.—The sale of the Sheldrake and White Fish Point timber lands was referred to in the last report. Our present timber holdings are conservatively estimated at 492,000,000 ft., but are not included in the Treasurer's statement of assets and liabilities.

Lake Transportation.—The contract with the Calumet Transportation Co. for carrying our coal and mineral has been renewed for 10 years at slightly lower rates. The tonnage had increased so that it appeared desirable that the Calumet Transportation Co. should increase its fleet by the addition of two boats, each with a carrying capacity of about 10,000 tons. This company availed itself of the opportunity to take $348,200 stock in the Transportation Co. at par, a little more than 50% of the total authorized capital stock.

No Merger.—The consolidation with certain other mining companies, as proposed on Jan. 2 1911, was abandoned last October for reasons set forth in a circular (V. 93, p. 941).

SHARES OWNED IN OTHER COMPANIES.

	Number Owned.	Number Issued.		Number Owned.	Number Issued.

The capital stock is $2,500,000, in $25 shares, of which $12 per share paid in.—V. 94, p. 1386, 1318.

Utah Copper Co.

(*Report for Fiscal Year ending Dec.* 31 1911.)

Pres. C. M. MacNeill, N. Y., April 20, wrote in substance:

Results.—The gross production amounted to 98,436,224 lbs. and after allowing for smelter deductions, the net production was 93,514,419 lbs. of copper; also 40,202.9 oz. of gold and 366,907 oz. of silver. The net cost per pound of copper was 7.8655 cts.; for 1910 8.069 cts. (See comment in "Eng. & Mining Journal" of N. Y. for May 11 1912 Ed.). The profit resulting was based upon a price for copper of 12.6463 cts. per pound, gold of $20 per oz. and silver of 53.3 cts. per oz.

The net profits were $6,237,928—$4,470,933 from the plants in Utah, and the balance, or $1,766,995 from outside investments, including the dividends received on the stock owned in the Nevada Consolidated Cop. Co. Dividends paid amounted to $4,703,022. The balance of $1,534,906 was credited to undivided profits. The dividends paid up to and including Dec. 31 1911 have amounted to $11,512,472.

Undivided Profits.—The total amount to credit of undivided profits on Dec. 31 1911 was $2,731,445, after charging off $2,500,000, thus reducing the prepaid ore expense account to $919,733. As in past reports, the "undivided profits" have no bearing on the item of "surplus" ($6,311,020), which is the amount received in cash from the sale of securities in excess of their par value.

On Dec. 31 1911 the total issued capital stock outstanding was 1,575,000 shares of $10 each, an increase of 12,401 shares, as follows: for $2,000 convertible bonds (the entire amount outstanding) 100 shares; additional mining property, 6,650 shares; 2,825 ½ shares of stock of Bingham & Garfield Ry Co. 5,651 shares. Our total authorized capital stock is 2,500,000 shares. There remain, therefore, unissued 925,000 shares ($9,250,000). Quarterly dividends were paid during the year at the rate of $3 per share per annum, or 75 cents per share per quarter.

Stock Holding.—The total stock holding in the Nevada Consolidated Copper remains unchanged. Your company owns, 1,000,500 shares of said stock out of a total of 2,000,000 shares, which are carried at a price equaling the par value of the stock of the Utah Copper Co. exchanged therefor. The market value of said holdings is approximately $15,000,000 in excess of the figure that it is carried on our books.

Reserves.—Ore reserves, after deducting all ore mined prev. to Jan 1 1912, amount to 301,500,000 tons of fully developed and partially developed ore, as compared with 203,500,000 tons on Jan. 1 1911. Of the 301,500,000 tons of fully and partially developed ore, 230,000,000 tons are considered as fully developed. There is every assurance that further development will prove the existence of large additional ore reserves. The average value in copper contents of the entire deposit remaining is 1.532%. Contrasting with an average of the ore milled, 1.51% for 1911 and 1.54% for 1910.

Output.—It is believed that by the coming August, the mining and concentrating capacity of your property will be such as will enable the company to handle fully 20,000 tons of ore per day after that time, and it is expected that for the fiscal year 1912 an output of 120,000,000 pounds of copper may result from the Utah operations.

Bingham & Garfield Railway.—This road was finished, and commenced operating in September 1911, and from both a physical and a financial standpoint has proven fully up to expectations. The result of operations to date indicates that, with the tonnage it will be called upon to transport after the middle of the present year, it will show earnings that will indirectly result in reducing the cost of copper ¾ of one cent per pound. All of the capital stock of the railway is owned by your company. There are outstanding $2,500,000 1st m. bonds convertible into stock of your company at any time after July 1 1911 and on or before July 1 1914, at $50 per share. These bonds are guarantede as to principal and interest by your company and may be called at any time after July 1 1913.

INCOME ACCOUNT FOR PERIODS ENDING DEC. 31.

	Years end, Dec. 31 1911.	1910.	1909.	18 Mos. end Dec. 31 '08

* Property includes mining property, $8,301,330; Magna plant, $4,543,724 Arthur plant, $2,227,606, and mine surface equipment, $902,484.

x Investments include Garfield Water Co. stock (at par), $200,000 and advances to that co., $159,572; Garfield Improvement Co. stock (at par), $80,000 and advances, $46,140; Bingham & Garfield Ry. stock (at par), $1,750,200; $5,002,500 Nevada Consolidated Copper Co., stock, book value, $4,453,007; and $6,850 Utah & Salt Lake Canal Co. stock, book value $8,135.

y After writing off part of prepaid ore account (stripping expense), $2,500,000.—V. 94, p. 1191, 357.

General Asphalt Co.

(Report for Fiscal Year ending April 30 1912, Showing Operations, Balance Sheet, &c., for Year ending Jan. 31 1912.)

Pres. Arthur W. Sewall, May 6, wrote in substance:

Results.—The net gain to surplus is $818,785, compared with $906,760 for the previous year. There was charged against net earnings $50,996 for interest on the $1,116,500 5% debentures issued on Mch. 1 1911 in liquidation of the 8½% accumulated pref. dividends.—(V. 92, p. 728, 121.)

The amount charged against earnings for depreciation of plant was $214,867, against $180,189; there was also expended for repairs and renewals and charged directly against operations, $564,774, against $478,065.

Volume of Business and Subdivisions Thereof.

	1908.	1909.	1910.	1911.
Asphalt	$4,264,117	$4,920,405	$6,005,984	$8,303,014
Paving	4,711,244	6,158,212	6,348,708	6,254,932
Private work	1,477,592	1,408,362	1,746,351	1,040,846
Miscellaneous	1,365,576	1,506,005	1,903,131	943,489
Totals	$11,818,529	$13,992,984	$16,004,174	$16,542,281

The "asphalt account," which includes the mining, importing, refining and selling of the crude and refined asphalts and asphaltic products in all forms, now for the first time exceeds the paving account, representing the constantly increasing consumption for street, country road and miscellaneous purposes of the company's raw materials, the ownership of which constitutes its most valuable asset and permanent source of income. The volume of orders on hand for asphalt for future delivery, as of the date when this report is written, exceeds that of the same date in any previous year.

Sales of Asphalt, All Kinds—Years ending Jan. 31 (Tons).

$178,632	$501,588	$1,684,884	$1,079,652	$1,205,401	$1,379,245

Operations for Petroleum in Island of Trinidad and in Venezuela.

As of Jan. 31 1912 there had been charged to property account in these undertakings, $1,366,511, viz.:

Real estate and concessions	$228,268
24 oil-storage tanks of steel, aggregate capacity 1,045,000 bbls.	262,684
Oil-refining plant, power plant, water plant, storehouse, dwellings, &c	282,585
Pipe lines and pumping equipment	61,131
Drilling, roads, geological investigation, &c	531,844

Including materials in storehouse, $173,336, the total investment was $1,539,848 (less depreciation, $29,744), of which amount $838,711 was expended during 1911.

Our operations for petroleum in Trinidad have been conducted by The Trinidad Lake Petroleum Co., Ltd., all of the stock of which is owned by the General Asphalt Co. The work has been confined within 25 acres out of a total of 3,031 acres of land owned in fee by The New Trinidad Lake Asphalt Co., Ltd., and leased by it to its affiliated company, except as to 263 acres purchased by the latter in 1911.

We commenced drilling for oil Feb. 11 1908. Apart from No. 5, all of the drilling has been done within an area of 25 acres, or on less than 1% of the freehold lands of the company; of the 28 holes drilled, 10 have been unproductive up to the present time, 3 have not yet entered the oil sands, and oil was found in the remaining 15.

The average daily production for the week ending April 1 1912 was 675 bbls. The production for March 1912 was 18,000 bbls. A year ago we had none of the wells under control so far as gas and sand were concerned, and such oil as we were obtaining was flowing by heads under gas pressure. At the present time we have one flowing well and nine are pumping. We had in stock at Brighton April 20 1912 38,077 bbls. of Trinidad crude oil and at Maurer 60,000 bbls. The costs of production for Feb. 1912 are 8 1-3c. per bbl. less than for the year ending Jan. 31 1912.

The present rate of production, if continued, should yield us about 200,000 bbls. per annum, which would at least cover the cost both of production and of equipping and drilling new wells at the present rate of development, in addition to which the oil shipped to The Barber Asphalt Paving Co. yields a fair return to the latter upon its sale and use in the laying of street pavements and the building of roads.

Our subsidiary, The Petroleum Development Co., Ltd., received a license from the Colonial Government of Trinidad nearly two years ago for the right to experimentally develop 2,000 acres of Crown land in the Morne l'Enfer forest reserve, stipulating that if we should put down a certain number of wells within a two-year period, the license might ripen into a 21-year lease, under a land rental of $500 per annum and a royalty on the oil to be extracted of 2 shillings per ton. The question whether the licensee must be under British ownership, we now expect, will be concluded in a way mutually satisfactory, so that our intended operations may be resumed. The lands in question give promise of adequate returns.

We have not as yet commenced active operations in Venezuela. Our subsidiary, The Bermudez Co., however, has a concession from the Govt. of Venezuela dated July 14 1910 for the petroleum rights in the Islands of Pedernales, the Peninsula of Paria and that part of the State of Sucre known as the District Benitez. The concession provides for a 3-year exploration period preliminary to a lease for 47 years. Within the three years our geologists will select such areas as seem promising for operations, and under the lease we shall pay thereon 8c. per acre per annum for land tax and a royalty of 5% on the oil produced and shipped.

Our subsidiary, The Caribbean Petroleum Co., has a concession from the Govt. of Venezuela, dated Jan. 2 1912, for the petroleum rights in the States of Sucre, Monagas, Anzoategui, Nueva Esparta, Tachira, Trujillo, Merida, Zulia, Lara, Falcon, Carabobo, Yaracuy and the delta of the Orinoco. An exploration period of two years is to be followed by a 30-year lease of such parts, not previously occupied by similar concessions, as we shall select, upon which we shall pay 8c. per acre per annum land tax and a royalty on petroleum produced and shipped at the rate of 40c. per ton, equal to about 10% on oil produced and shipped.

In Dec. 1911 our chief oil expert and consulting geologist, Ralph Arnold, formerly of the U. S. Geological Survey, submitted to us an exhaustive report as to oil on our lands in Trinidad.

Good Roads.—The use of our Bermudez road asphalt is shown as follows:

	1909.	1910.	1911.
Bermudez road asphalt actually shipped (tons)	1,500	6,918	20,479
Miles of 15-foot roadway constructed	20	104	247

Orders already booked are largely in excess of a year ago.

During 1911 the company was also able to place on the market its "Trinidad liquid asphalt," an asphaltic material containing not the slightest trace of paraffine or other injurious ingredients. This liquid asphalt, while used as a surface treatment as are many kinds of crude oil, is, even in its crude form, a constructive agent, and not only lays the dust, but creates a wearing surface which has proven its ability to resist traffic far beyond that of any other liquid treatment. During 1911 400 miles of country road were treated with Trinidad liquid asphalt with satisfactory results, giving excellent promise of a larger volume of this business during 1912-13.

Uintah Railway Co.—During 1911 13.8 miles of main track were built, extending the northern terminus to Rainbow, in order to give the road increased tonnage of gilsonite from newly opened mines and to eliminate the heavy expense of wagon haul from these mines to Dragon. The extension was not completed until late in 1911, and the increased earnings therefrom did not accrue substantially during that year. The amount of gilsonite hauled over the road during 1911 was substantially the same as in 1910, but, including general freight, total tonnage was 40,931 (41,547 in 1910-11).

National Contracting Co.—Last year we referred to the judgment in favor of the Contracting Co. against The Hudson River Water Power Co. for $323,287. The question of the priority of the claim over certain of the mortgages foreclosed is now in litigation, with a fair probability of a substantial compromise payment in satisfaction of our judgment. [A certificate of satisfaction of the judgment was filed in the County Clerk's office in this city early this month.—Ed.]

Capital Expenditures.—These during 1911 were upon an unusually large scale, aggregating, net, $1,373,504, viz.:

Oil development in Trinidad and Venezuela	$838,711
Oil refinery at Maurer, N. J., 172 acres of real estate, power house, 4 stills, 13 storage tanks (capacity 332,000 bbls), pipe lines, &c	503,129
200 new steel tank cars	208,319
Uintah Ry. 13.8 mile exten., 17 freight cars, 1 loco., blds., &c	303,278
Additions to asphalt refinery, Maurer, N. J., additional trackage, 2 steam stills, locomotive, storage tank, 20 steel cars, &c	72,258
Plant site in Seattle; new asphalt paving plants in Los Angeles, Cal., Phoenix, Ariz., and Pasco, Ore.; 9 steam rollers; power and boiler house and additional stills at Madison, Ill.; improvements at Brighton, Trinidad; additional real estate at Guanoco, Venezuela, together with 10 railroad cars, 100 side dump cars, 1 locomotive, &c., at Guanoco, &c	170,838
Less credits (*a*) sale of quarries of Manhattan Trap Rock Co. at Nyack, N. Y., &c., $417,686; (*b*) Transfer from capital account to inventory, $90,476; (*c*) written off as depreciation, $214,867	*723,C30*

Capital expenditures during the current year will be upon a very moderate scale; and this fact, together with the surplus earnings, which now promise to be large during 1912, and the gradual conversion into cash of a considerable portion of the capital now engaged in certain branches which are comparatively unremunerative, should enable us largely to decrease current obligations, and at the end of 1912 to restore working capital to an amount at least equal to that prevailing on Jan. 31 1911. Substantial progress has been made in this direction since the close of the fiscal year.

Capital Stock.—Of the entire issue of $14,000,000 *preferred* voting trust certificates, $13,140,000 is in the hands of the public and $860,000 in the treasury. Of the $17,000,000 *common stock*, $9,999,000 is represented by voting trust certificates, of which $9,861,000 is owned by the public and the balance, $138,000, by the company. Of the remaining $7,001,000 common stock, $1,000 is owned by the directors for qualification purposes, and $7,000,000 is held in trust to be given as a bonus of 50% upon conversion (at option of holders at any time) of pref. stock into common stock, $ for $, making in all $150 of common stock for each $100 pref. (V. 92, p. 1371).

The voting trust agreement with respect to both pref. and common stock expires June 15 1913.

Stockholders.—On April 16 1912 there were 1,604 holders of record of pref. and 720 holders of record of common stock trust certificates.

Funded Debt.—During 1911 there were issued by The Barber Asphalt Paving Co. $184,850 5% car trust notes in part payment for 200 new steel tank cars. These notes mature serially every three months over three years; during 1911 $26,925 were paid, leaving $157,925 Jan. 31 1912. The collateral railroad notes of The Barber Asphalt Paving Co., which were increased from $200,000 to $500,000 on Feb. 15 1911, and issued for one year at 5½%, were, on Feb. 15 1912, reduced to $400,000 and extended for one year at 5% (V. 92, p. 1371).

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING ELECTRIC ROADS.

Anthracite Coal Roads.—*Four-Year Agreement.*—The delegates representing the 170,000 mine workers in the anthracite region at the convention at Wilkes-Barre on Saturday last by a vote of 323 to 64, decided to accept the terms offered by the operators, which had been approved by the joint sub-committee of the miners and operators, but rejected by the full conference committee of the miners. The miners returned to work on May 22 after being idle for 44 working days.

The new anthracite coal circular, dated June 1, but effective immediately, provides for an increase of 25c. per ton on the prepared sizes. The prices fixed therein are as follows: Grate, $5; egg and stove, $5 25; chestnut, $5 50; pea coal, $3 50; buckwheat, $2 75; rice, $2 25; barley, $1 75.

There has been no advance in the prices of buckwheat, rice or barley, the so-called steam sizes. On sales of domestic sizes there will be on June 1 the usual discount of 30c. a ton, covering grate, egg, stove and chestnut, the discount being reduced on July 1 to 20c. and on Aug. 1 to 10c.

Agreement for Four Years Ending March 31 1916.

The terms and conditions awarded by the Anthracite Coal Strike Commission and supplemented by agreements subsequent thereto are continued for four years ending March 31 1916, except as follows:

(*a*) Contract rates and wage scales for all employees shall be increased 10% over the scales established by the Commission effective April 1 1903. The sliding scale is abolished.

(*b*) All contract miners and laborers when working on consideration shall be paid not less than the rate paid company miners and laborers at the same mine.

(*c*) There shall be an equitable division of mine cars as set forth in the award of the Commission and the decisions of the Conciliation Board, and the rates paid by any contract miner to his employees shall not be less than the standard rate for that class of work.

(*d*) At each mine there shall be a grievance committee of not over three employees, who shall take up for adjustment with the company all grievances by employees who have first taken up said grievances with the foreman and failed to effect proper settlement. The member of the Board of Conciliation elected by the Mine Workers or his representative may meet with the mine committee and company officials in adjusting disputes. In the event of the mine committee failing to adjust any grievance, they may refer the grievance to the members of the Board of Conciliation in their district, and in case of their failure to adjust the same they shall refer the grievance to the Board of Conciliation for final settlement, as provided in the award of the Anthracite Commission and the agreements subsequent thereto, and whatever settlement is made shall date from the time the claim of grievance is raised.

(*e*) Contract miners shall have the right to employ check weighmen and check docking bosses (as authorized by the Anthracite Commission the Board of Conciliation) and these shall be selected by contract miners in meeting assembled specifically for that purpose.

(*f*) To facilitate the adjustment of grievances, company officials at each mine shall meet with the grievance committee and prepare a statement setting forth the rates of compensation paid for each item of work under this agreement and certify the same to the Board of Conciliation within 60 days after the date of this agreement.—V. 94, p. 1316, 1248.

Bolivia Ry.—*Listed.*—The New York Stock Exchange has listed £708,200 1st M. 5% bonds, due 1927, making the total listed £1,168,200. (In dealing $5 equal to £1.)—V. 91, p. 716.

Boston & Maine RR.—*Merger Bill Killed.*

The Mass. Senate on May 22, by a vote of 15 to 20, killed the bill authorizing lease or merger to or with the N. Y. New Haven & Hartford RR. Governor Foss announces that he will call an extra session this summer to pass a bill for the purpose. See V. 94, p. 1055, 1249.

$12,000,000 *Notes Offered.*—F. S. Moseley & Co. and Lee, Higginson & Co., Boston and New York, offered on May 20, at 99⅞ and int., for delivery about June 10, yielding 4⅛% int., $12,000,000 plain (unsecured) one-year 4% coupon notes, dated June 10 1912, due June 10 1913. Int. J. & D. 10. Par $1,000, $5,000 and $10,000.

From the proceeds of these notes the company will pay the $5,000,000 4% notes of 1911, due June 15 1912, will reimburse the New York New Haven & Hartford RR. for some $3,000,000 heretofore expended on the B. & M. for additions and improvements, and will have about $4,000,000 for further betterments, &c.

The Boston & Maine on May 3 reported that its equipment purchases during the past 18 months had aggregated $7,529,573 for 205 locomotives, or 17% of total number in service; 466 passenger cars, or 23% of total number in service, and 2,842 freight cars, or 10% of total number in service.—V. 94, p. 1382, 1249.

Canadian Northern Ry.—*Equipment Trusts.*—Messrs. Wm. A. Read & Co. of New York and the Dominion Securities Corporation, Ltd., of Toronto have purchased jointly $5,000,000 Canadian Northern Ry. equipment trust 4½s, payable in semi-annual installments over a period of 10 years, secured by new standard equipment upon which the railway company makes an initial cash payment of 25%. Of the total amount of $5,000,000 purchased, $2,000,000 were issued as "Series C-1 of 1912" under the "Philadelphia plan," and sold in Philadelphia. The remaining $3,000,000 will be known as "Series D-1 of 1912" and will probably be offered for sale in the near future.—V. 94, p. 1382.

Carolina Clinchfield & Ohio Ry.—*Notes Sold for Extension.*—The company has sold $5,500,000 5-year 5% notes, dated May 1 1912, secured by a first mortgage on the proposed extension of the road from its present northerly terminus at Dante, Va., to Elkhorn, Ky., a distance of 40 miles. About 8 miles has been completed, and the entire line will be finished by the end of next year. The extension is through a mountainous country and calls for very heavy construction work, including 19 tunnels. The estimated cost of the work is about $5,000,000. The importance of this extension will be seen by reference to the map of the road in our "Railway and Industrial Section." It completes the original plan of a road through the mountains, making a short through route from the Great Lakes to the Atlantic Coast.—V. 93, p. 469.

Chicago Elevated Rys.—*Transfer Ordinance.*—Mayor Harrison on May 21 approved the ordinance passed May 20 by City Council requiring the elevated railroads to issue transfers.

As there is a penality clause attached, the measure will not become effective for ten days. The elevated roads are prepared to make a contest in the courts as soon as the city tries to enforce the ordinance, their counsel, Gilbert E. Porter, stating that they will not grant transfers except on a mandate from the highest court. Mr. Porter says that it is simply an order on the elevated roads to carry a certain number of passengers free, although their ordinances permit them to charge a 5-cent fare, and that the ordinance is based on the assumption that the same people own the stock of the different elevated roads, which is true only in part.—V. 94, p. 982, 697.

Chicago Rock Island & Pacific Ry.—*Listed.*—The N. Y. Stock Exchange has listed $8,000,000 20-year 5% debentures, due 1932, with authority to add $12,000,000 on issuance in exchange for temporary debentures (V. 94, p. 206, 278).

Earnings.—For 9 months ending Mch. 31:

Nine Mos.—	*Operating Revenue.*	*Net Oper. Revenue.*	*Taxes Accrued.*	*Other Income.*	*Interest & Rentals.*	*Balance for Divs.*
'11-12.	$46,655,057	$11,848,989	$1,991,756	$1,024,982	$8,819,402	$2062,813
'10-11.	49,442,736	13,935,187	1,981,046	------	------	------

From the surplus as above for the 9 mos. of 1911-12 were paid the 1¼% quarterly dividend on Sept. 30 1911, 1% Dec. 30 1911 and 1¼% Mch. 30 1912, calling for $2,620,632, leaving a deficit of $557,819.—V. 94, p. 1056.

Cleveland Akron & Cincinnati Ry.—*Earnings.*—

Calendar Year—	*Operating Revenues.*	*Net (after Taxes).*	*Other Income.*	*Int. & Hire of Equip.*	*Net Income.*
1911	$3,562,712	$823,128	$14,472	$246,708	$590,892
1910	3,662,825	883,764	20,238	251,985	652,017

From the net income as above, $590,892 in 1912, there was contributed to sinking funds, $17,279; paid on account of principal of car trusts, $11,199; appropriated for additions and betterments, $236,259; and disbursed in dividends, $230,000; leaving a surplus of $96,155.—V. 93, p. 1668.

Columbus Delaware & Marion Ry.—*Personal Judgment.*—

Judge Kyle of Xenia, O., of the Court of Common Pleas of Greene Co., on May 13, in the suit for an accounting on the cash account of John G. Webb as President of the company, covering a period of years (and also from the sale of bonds), rendered a judgment in favor of the receiver, Eli M. West, for $1,055,931 for the balance due. The Court found that Mr. Webb, while President and the holder of substantially all of the stock of both companies, had received the proceeds of $900,000 Columbus Delaware & Marion Ry. consolidated bonds and $300,000 Columbus Northern Ry., Power & Equipment Co. bonds, for which the company, it is asserted, was given no value. The suit was brought in the Court of Common Pleas of Clarke Co., at Springfield, O., Judge Kunkle of that Court appointing Judge Rockel as Special Master Commissioner. Exceptions were filed to the Master's report of about 100 pages, and Judge Kunkle referred the exceptions to Judge Kyle. Mr. Webb was charged at the rate of about 85 for both bond issues and allowed a commission of 10% for selling them.

It was also found that Mr. Webb had disposed of the bonds of three subsidiary companies, which he received as contractor, after having them guaranteed by the Columbus Delaware & Marion Ry., for which he is held to be liable to the latter in the event of the guaranty being adjudged valid. These are $500,000 Columbus Marion & Bucyrus Ry. bonds, $200,000 Marion & Western Ry., Light & Power bonds and $250,000 Marion & Suburban Ry. bonds. On the Col. Marion & Bucyrus Ry. little or nothing, it is claimed, was done toward building the road and on the Marion & Suburban it is computed only about $10,000 of work was done. The company will try to show that the guaranties are not good, in which event the bondholders would have to look directly to Mr. Webb. The latter is also directed to return $200,000 "A" pref. stock of the Col. Del. & Marion Ry. to the receiver. If an appeal is taken it would be to the Circuit Court of Clarke Co.—V. 94, p. 1185.

Cumberland Corporation.—*Maturing Notes.*—The $15,000,000 notes due June 15 will be paid at maturity. The funds for this purpose will be provided in part, it is reported, from the sale of the Corporation's holdings of Seaboard stock.—V. 88, p. 944.

Elkin & Alleghany Ry.—*New State Road—Sale of Bonds.*—This 150-mile road is under construction by the State of North Carolina from Elkin, N. C., through Allegheny, Ashe and Watauga Counties, N. C., in order to give railroad facilities to that "mountainous but very productive country." Completed April 1, Eikin to Thermont, 12 miles. F. J. Lisman & Co., N. Y., have purchased the $1,800,000 1st M. 6s.

Capitalization: (*a*) $1,800,000 1st M. 6% bonds, dated July 1 1911, due July 1 1941; interest J. & J. Bankers Trust Co., N. Y., trustee. Mortgage limited to $12,000 per mile. (*b*) Income mortgage, dated Oct. 1 1911, due Oct. 1941; interest when earned. Issue limited to $1,500,000 at $10,000 per mile. (*c*) Capital stock to be issued to State of North Carolina in payment for convict labor, at the rate of $1 50 per day for convicts. The line will ascend the Allegheny Mountains about 20 miles north of Elkin from a 2% compensated grade.

Georgia Coast & Piedmont RR.—*New Mortgage.*—

The RR. Commissioners of Georgia have authorized the company to make a new mortgage to secure an issue of $3,500,000 bonds, of which a block will be sold presently to extend the road from Darien to Brunswick on the south, 15 miles. The mortgage will also provide for an extension from Reidsville to Vidalia on the north and for improvements, a sufficient amount to be reserved to take up the underlying bonds.—V. 88, p. 624.

Grand Trunk Pacific Saskatchewan Ry.—*Bonds.*—

The Legislative Assembly of the Province of Saskatchewan recently passed a bill authorizing the Lieutenant-Governor in Council to guarantee the payment of the principal and interest of the 4% 30-year bonds, debentures, debenture stock or other securities of this new company, to an amount

not exceeding $13,000 per mile of the respective lines of railway mentioned in the schedule to the Act. Part of the lines must be completed on or before Dec. 31 1912 and the remainder by Dec. 31 1914. The Act provides that the deeds of trust securing the securities so guaranteed may provide for the issue from time to time of additional securities of similar kind, not exceeding $2,000 per mile in respect of any of the lines mentioned in the schedule and also additional securities of similar kind, also ranking *pari passu* in respect of additional lines in the Province of Saskatchewan to be hereafter constructed, but not exceeding $15,000 per mile of such additional lines; provided, that before any such additional securities are issued, the guaranty thereof shall first have been authorized and given and the amounts to be issued per mile shall first have been fixed by the Legislative Assembly.

The application to the Saskatchewan Assembly to incorporate the company, it was stated last February, provided for the right to build approximately the following lines in Saskatchewan: (*a*) Watrous southwesterly, via Swift Current, to the international boundary; (*b*) Saskatoon westerly and northwesterly to Battleford; (*c*) Melville northerly and northwesterly to Regina; (*d*) Saskatoon southeasterly, southerly and southwesterly to Regina; (*e*) Township 36, Range 8, west of the third meridian, southwesterly and westerly to join the Biggar-Calgary line.

Grand Trunk Ry. of Canada.—*New President.*—A cable dispatch from London reports that E. J. Chamberlain has been appointed President to succeed the late Charles M. Hays. —V. 94, p. 1383, 1317.

Hannibal & Northern Missouri RR.—*Status.*—

"Manufacturers' Record" says: "Henry Funk, Clarence, Mo., writes that he purchased the road at the receiver's sale, and holds it in trust for every one concerned until a reorganization is agreed upon. Considerable construction was done before the receivership, and efforts are being made to issue bonds. There are assets consisting of practically all the right of way and subsidies averaging $3,000 to $4,000 per mile. Some legislation is required. The route of the road is through one of the richest parts of Missouri and includes farming and coal lands.—V. 94, p. 1119.

Havana Electric Ry.—*New Securities Ready.*—

Speyer & Co., as managers, notify holders of certificates of deposit issued under the plan of amalgamation and agreement dated March 8 1912 (V. 94, p. 767) for pref. and com. stock of Havana Electric Ry. and stock of Compania de Gas y Electricidad de la Habana that certificates for the pref. and com stock of the Havana Electric Ry., Light & Power Co. will be delivered the day following the surrender of certificates of deposit. Certificates for Havana Electric Ry. stock may be presented at the office of the managers in New York or at the office of the Havana Electric Ry. in Havana and those for the Compania de Gas y Electricidad de la Habana at the Banco Nacional de Cuba.—V. 94, p. 932, 767.

Indianapolis Crawfordsville & Danville Electric Ry.—

The company, which was recently incorporated with $500,000 capital stock (of which $400,000 common and $200,000 perferred) has taken over the Indianapolis Crawfordsville & Western Traction Co., sold in foreclosure on April 6 1912 (V. 94, p. 1057). The authorized stock has been increased to $800,000 by the addition of $200,000 preferred, so that it now consists of $400,000 each of preferred and common stock, the $200,000 additional pref being reserved for an extension from Crawfordsville to Danville, Ill.

The company has made a mortgage to the Girard Trust Co. of Philadelphia, as trustee, to secure an issue of $2,500,000 of $1,000 bonds dated May 1 1912 and maturing May 1 1942, but subject to call at 102½ and int. on any interest day.

Indianapolis Crawfordsville & Western Traction Co.—
See Indianap. Crawfordsville & Danville Elec. Ry. above.—V.94, p.1057.

Indianapolis Newcastle & Northeastern Traction Co.—

The company has been incorporated as successor of the Indianapolis Newcastle & Toledo Electric Ry., which was sold in foreclosure on April 22 1911 (V. 92, p. 1243; V. 94, p. 697). A deed showing the transfer has been filed in the Recorder's office at Indianapolis. As soon as the Union Trust Co. of Indianapolis, the receiver of the road, files its final report with Judge Carter in the Superior Court, and the Court approves the report, the receiver will be discharged and the road pass into the hands of its new company.

Indianapolis Newcastle & Toledo Elec. Ry.—*Successor Co.*
See Indianap. Newcastle & Northeastern Trac. Co. above.—V.94,p.697.

International Rys. of Central America.—*Merger—Bonds.*

The Guatemala Ry. Co., incorporated in N. J. on June 8 1904, changed its name in April last to the International Rys. of Central America, increased its capital stock from $7,500,000 to $40,000,000 in $100 shares ($30,000,000 common stock and $10,000,000 5% preferred), and took over the property of the Guatemala Central RR. (V. 79, p. 902, 903).

The consolidated company has made a mortgage to the Empire Trust Co. of N. Y., as trustee, to secure an auth. issue of £4,500,000 (which can be increased under certain conditions to £6,000,000) 5% gold bonds dated May 1 1912 and due May 1 1972, covering, it is stated, as a first lien, all property now or hereafter owned, except 142½ miles of the existing line, which is subject to $6,000,000 old bonds. Coupons M. & N. in London, Brussels, Paris and at office of trustee in N. Y. City. The bonds will be redeemed at 102½ by means of an annual sinking fund beginning in 1922, equal to ½ of 1% of the face value of the outstanding bonds after drawing by lot, if not purchasable at or below par. All or any part of the issue is also subject to call any time on 6 months' notice at 102½ and int. The company agrees to pay all taxes which may be laid on bonds or coupons by the U. S. or any of the govts. of Cent. Am.

Dunn, Fischer & Co., London, and the Banque d'Outremer, Brussels, received subscriptions on May 23 for £1,000,000 (or 25,250,000 fr.) of the issue (par £20 and £500, or 505 fr. and 2,525 fr.) at 95 and int. Application will be made to list the bonds in London, Paris and Brussels.

Of the proceeds of the present issue, £440,000 will be used to pay part of the purchase price of the railroads recently acquired, £300,000 to build the 42-mile line from Las Cruces to Vado Ancho (uniting the company's lines in Guatemala and giving the main system direct connection, via the Pan-American RR., with the National Railways of Mexico) and the balance to meet the expense of building docks and terminals at Puerto Barrios, to reducing the grade on the line at this port and to the construction of wharves at La Union, &c.

Of the remainder (£3,500,000) of the auth. issue, £1,234,600 is reserved for the purpose of taking up the $6,000,000 underlying bonds and the remainder, £2,265,400, is to be used for the acquisition, construction and equipment of railway lines to connect Zacapa on the Guatemala railway line with the existing line of the company in Salvador; also other lines in Salvador. The company is forbidden to issue any further bonds for any purpose whatsoever until its net receipts are twice the interest on its bonds, including those proposed to be issued.

Lines of Railway Acquired (Narrow, 3-ft. Gauge)—	*Miles.*
Puerto Barrios, on the Atlantic Ocean, Guatemala, via Guatemala City to the port of San Jose on the Pacific Ocean (277½ miles), with 60-mile branch from Sta. Maria to Mazatenango, the centre of the coffee district	337½
Mazatenango to port of Champerico (42 m.) on the Pacific Ocean, with 9-mile branch to San Felipe	51¼
Port of d'Ocos on the Pacific Ocean via Ayutla on the National Ry. of Mexico to Vado Ancho in the interior of Guatemala	23
Port of La Union on the Pacific in Salvador to San Miguel	42¼
Under Construction or About to be Built—	
Line to connect the main line at Las Cruces with the d'Ocos line at Vado Ancho and thus with the National Ry. of Mexico	42¼
Extension in Salvador from San Miguel to Usulutan	40¾
Total built and building	537

The company proposes eventually to connect its Guatemala lines with those in Salvador by a line from Zacapa via Santa Ana, San Salvador, and San Vicente to Usulutan, with branch to Ahuachahan, making a total system of 805 miles, serving the productive zone of Guatemala and Salvador States, with a combined population of 2,800,000, producing chiefly coffee, sugar, rubber, wood and bananas.

The company has entered into a traffic agreement with the United Fruit Co. (which in 1911 raised in Guatemala 1,602,971 bunches of bananas and whose product in 1912 is expected to reach 2,240,000 bunches), by which the railway company will carry all the products of the Fruit Company in the territory served by the railway.

Earnings of the Lines Now Owned, Years 1908-11; *Estimated* 1912.

	1908.	1909.	1910.	1911.	*Est.* 1912.
Gross	$842,176	$1,034,063	$1,375,077	$1,942,452	$2,486,400
Net	150,676	280,541	485,578	947,753	1,243,200
Deduct interest on the $6,000,000 underlying bonds					227,920
Balance for interest (say $250,000) on the present issue					$1,015,280

For the three months ending March 31 the gross earnings were $757,818 in 1912, against $623,820 in 1911; net, $439,219, agst. $349,257.

The company operates under long concessions, that in Guatemala giving the Government the right after Jan. 2003 to purchase the lines at an arbitrated price. The 99-year concession in Salvador is dated June 3 1908, the railways in 2007 to become the property of the Govt. without indemnity and with the right to purchase after June 1978 at a price to be fixed by arbitration. Subsidy in Guatemala on some lines $7,320 per kilometer, on other lines $3,200 per k. In Salvador, $7,000 gold per kilometer, payable monthly from certain import and export duties.

Directors: Minor C. Keith, New York, President, Vice-Pres. Northern Railways Co. of Costa Rica, Vice-Pres. of United Fruit Co.; Henry M. Keith, New York, Vice-President; Paul Dutasta, Paris; Emile Francqui, Brussells; Gen. Thomas H. Hubbard, New York; Kenneth K McLaren, Jersey City; H. I. Miller, New York; Bradley W. Palmer, Boston, director of United Fruit Co. and National of Mexico; Francois Pietri, Paris; Andrew W. Preston, Swampscott, Mass., Pres. United Fruit Co.; Sir William C.Van Horne, K.C.M.G., Montreal. N. Y. office 17 Battery Place.

Interoceanic Ry. of Mexico.—*First Pref. Div. Deferred.*

The company on May 13 issued a circular letter to the holders of the £1,400,000 first preference non-cumulative 5% stock, saying: "Owing to the disturbed political conditions in Mexico, which have adversely affected the earnings of the railway, the board thinks it desirable to defer the payment of any dividend on the first preference stock until the accounts for the financial year have been made up and audited, which will be about the month of November next. The estimated gross receipts from July 1 1911 to March 31 1912 amount to $6,392,890, as compared with $6,699,620 for the corresponding period of the previous financial year, a decrease of $306,730, or £31,310, and the estimated net receipts for the same period show a decrease of £26,040."

In 1909 to 1911 the full 5% (2½% each in May and Nov.) was paid and in 1908 4½%. In Nov. 1910 and 1911 the £1,000,000 2d pref. stock received the full 4% and in 1909 1%. Compare annual report, V. 93, p. 1458.—V. 93, p. 1786.

Maine Central RR.—*Stock.*—

The stockholders on May 24 authorized an increase in the capital stock from $10,000,000 to $15,000,000. Compare V. 94, p. 1384, 912.

Nashville (Tenn.) Railway & Light Co.—*Special Dividend.* —A special dividend of 11% was paid on May 15 on the $4,000,000 common stock, per plan of purchase by Byllesby & Co. and associates, V. 94, p. 827.—V. 94, p. 1317, 827.

The First National Bank of Nashville gives notice that it has received payment under the option contract and will make payment of $114 per share of common stock upon presentation of the receipts. Only $65,700 of the $4,000,000 common stock has not been turned in by the stockholders. —V. 94, p. 1317, 827.

Norfolk & Western Ry.—*New Director Elected.*—

W. W. Atterbury, a Vice-Pres. of the Pennsylvania RR., has been elected a director to succeed John B. Thayer, deceased.—V. 94, p. 417, 208.

Northern Texas Electric Co., Fort Worth.—*Pref. Stock.*—

Stone & Webster, N. Y., Boston and Chicago, are offering at 97, to yield 6.18%, $500,000 new 6% pref. (p. & d.) stock, making $4,000,000 outstanding; red. at 110, dividends M. & S. The proceeds of this issue will provide for double-tracking the interurban line near Fort Worth, the purchase of additional rolling stock, the installation of an additional 5,000 k. w. (6,720 h. p.) turbine in the power station, and other extensions and improvements to meet the increasing business. Present earnings are nearly twice the preferred dividend and are increasing steadily. The subsidiary interurban to Cleburne, to be completed early in the fall, should materially increase earnings. Increase in population in last ten years: Fort Worth, 174%; Dallas, 116%. See page 51, "Elec. Ry." Sec.—V. 92, p. 1243.

Quebec Railway, Light, Heat & Power Co.—*Contract.*—
See Stadacona Hydraulic Co. under "Industrials" below.—V.94,p.1057.

Rapid Transit in New York City.—*Report Approved.*—The Board of Estimate yesterday, by a vote of 13 to 3 (President Mitchell of the Board of Estimate alone dissenting), approved the report prepared by Chairman McAneny of the Transit Committee, allotting the routes for the new dual subway system to the Interborough Rapid Transit and Brooklyn Rapid Transit companies:

The road mileage of the system to be owned by the city will be increased from 66.9 to 172.4 miles and the total track from 177.9 to 486.74.

The lines to be embraced in the Interborough and Brooklyn Rapid Transit systems are as follows:

Interborough System.—Present subways, single track, 73 miles; elevated system, 118 m.; New road to be constructed jointly by the city and the company (subways), 150 m.; elevated extensions to be constructed by the company, 9 m.; third-track extension to be constructed by the company, 27 m.; total, 377 miles.

Brooklyn Rapid Transit System.—Present elevated lines, single track, 98 miles; subways to be built by the city, 76 m.; subway and elevated extensions to be constructed by company, 86 m.; rapid transit roads to be reconstructed, 50 m.; total, 310 miles. Grand total of roads to be operated by both companies, 687 miles, less lines reconstructed, 50 m., leaving the total rapid transit mileage 637 miles.

This completes, with 3 exceptions, the routing of the dual system of subways to connect the five boroughs of Greater New York. The 3 routes yet to be determined are the tunnels from 65th St., Brooklyn, to Staten Island, the Interborough tunnel from Manhattan to Brooklyn, which will be determined as soon as permission is received from Congress to pass under the Federal Building to Beekman St. or Spruce St., and the East River, and the junction point between the present subway system and the Broadway-Lexington Ave. system, which will be between 32d and 40th streets.

The report gives the following figures of costs:

Cost of construction of all new lines and improvements, subway and elevated, embraced in the dual plan—exclusive of Fourth Ave. and Bridge loop lines, which are nearing completion and already provided for, to be approximately $214,000,000; cost of equipment will be $47,000,000; combined outlay by the city and the operating companies to be $261,000,000. The Interborough Co. will spend, in addition, about $25,000,000 for extensions and improvements to the Manhattan Elevated System. The city's additional investment in the Fourth Ave. and Bridge loop lines which are to be taken into the Brooklyn system will be about $28,500,000.

The Interborough Co. is to furnish not more than $56,000,000 for construction and $21,000,000 for equipment; total, $77,000,000; the city to furnish an amount equal to the investment of the company in construction and any additional sum necessary to complete the lines projected.

Present estimate of cost to the city for the completion of all the lines to be operated by the Interborough Co., $59,649,250. The Public Service Commission has effected economies in the plans for the Lexington Ave. and Broadway routes, which are under construction, and it is expected that the amount required of the city will come within an even half of the total outlay.

The Brooklyn company will furnish, all told, $60,000,000 of new capital, $13,000,000 of which will be applied on account of the construction of city-owned lines, about $21,000,000 on account of extension and improvement of its existing elevated lines, and $26,000,000 for equipment. The lines to be built by the city for the Brooklyn system in addition to the Fourth Ave. and Bridge loop lines will cost approximately $64,700,000 in addition to the company's contribution.

The city's total new obligation in carrying out the dual plan, it is estimated, will be limited to $124,372,200, to its share in the building of a tunnel to Staten Island, and to the cost of the purchase of real estate and easements required for right of way.—V. 94, p. 1384, 1057.

St. John & Quebec Ry.—*New Road—Offering.*—

The Bank of Montreal was authorized to receive subscriptions in London at 98¼ until May 13 for £873,285 1st M. 4% debenture stock, dated 1912 and due 1962, but callable for sinking fund (1% yearly beginning in 1922) at 105. Unconditionally guaranteed, prin. & int., by the Government of the Province of New Brunswick. Prin. and int. (J. & D.) payable at Bank of Montreal, London.

Particulars from Advertisement Offering First Mortgage Debenture Stock.

Incorporated by Legislature of Province of New Brunswick (10 Edward VII., Chap. 52) with capital of $2,000,000. Authorized to construct a line of railway from city of St. John, N. B., through valley of St. John River past Gagetown, Fredericton and Woodstock, to Grand Falls or a point on the National Trans-continental Ry. (Grand Trunk System).

This 1st M. debenture stock will be constituted and secured by deed of trust and mortgage in favor of the Prudential Trust Co. of London and Montreal as a first charge upon the assets and undertaking, with power to the company to issue additional loan capital ranking equally in point of security up to an aggregate limit of $25,000 per mile of railway. The length of railway authorized is estimated at 220 miles. The assets charged to not include two bridges crossing the St. John River and one crossing the Kennebecassis River, which will be the property of a distinct company, separately financed. [Act No. 188 of the Canadian Legislature assented to April 1 1912, authorizes the Government of Canada to guarantee the principal and int. upon not exceeding $1,000,000 50-year 4% bonds issuable by a bridge company which was then to be incorporated by the Province of New Brunswick or the Parliament of Canada, to construct three bridges for the railway company, two across the St. John River—one near Andover, the other near Mistake; also one across the Kennebecassis River at or near Perry Pt.—Ed.]

Under the authority conferred by Act of the Legislature of the Province of New Brunswick (10 Edward VII., Chap. 6), the stock will be guaranteed as to principal and interest by the Government of the said Province.

The Government of the Dominion of Canada is authorized (9 and 10 Edward VII., Chap. 51) to provide a subsidy at rate of $6,400 per mile towards the cost of construction of the railway, and under agreement of March 5 1912 will lease and operate the railway when constructed as part of the Government railway system for a period of 99 years, at a rental of 40% of the annual gross earnings, subject to adjustment in respect of the bridges above mentioned.

St. Louis Rocky Mt. & Pacific Co.—*Bonds.*—Fisk & Robinson, New York, have placed at 84 and interest $532,000 treasury 1st M. 5s due July 1955, making $7,500,000 of the issue outstanding. The proceeds have reimbursed the treasury for payment of the $251,000 short-term notes due April 1 1912 (original issue $600,000) and provide additional working capital. The firm says:

The company now has no notes or other unfunded debt outstanding and is carrying a large cash surplus. The bonds are a first lien on the entire property, consisting of 299 sq. miles of coal lands owned in fee and 513 sq. miles of coal-mining rights; also on all property of the St. Louis Rocky Mtn. & Pacific Ry. Co., including 106 miles of standard-gauge railroad, equipment, terminals, &c., through the deposit of all its stocks and bonds.

Tons Yearly—	1910-11.	1909-10.	1908-09.	1907-08.	1906-07.
Coal mined	1,257,052	1,123,738	890,121	918,456	674,630
Coke produced	103,327	133,079	88,328	80,710	80,428

The net income, after fixed charges, for the nine months ending April 1 1912 was $211,474. It is estimated that for the fiscal year ending June 30 next the surplus, after charging off ample depreciation reserves, will be approximately $200,000, equivalent to 5% on the pref. stock and about 1½% on $10,000,000 common stock.—V. 94, p. 274.

St. Louis Southwestern Ry.—*Bond Offering.*—The Guaranty Trust Co., Rhoades & Co. and William Salomon & Co., all of New York, it is understood, will shortly make a public offering, at 90½ and int., yielding about 5.60%, of the unsold portion of their block of $7,500,000 "first terminal and unifying mortgage 5% gold bonds."

Dated Jan. 1 1912, due Jan. 1 1952. Authorized, $100,000,000; now to be issued, $7,500,000. Par $1,000 (c* & r*). Principal and interest (J. & J.) payable in gold in New York, and of coupon bonds also payable in London at £205 15s. 2d. sterling, or in Amsterdam at 2,490 guilders, or in Berlin at 4,200 marks, D. R. W., or in Paris at 5,180 francs, for each $1,000 of principal, and at same rate for intallments of interest. Trustees, Guaranty Trust Co. of New York and Walker Hill, Esq., of St. Louis.

Data from Letter of Pres. F. H. Britton, St. Louis, May 3.

Purposes for Which These Bonds Are Issued.

New terminal properties at St. Louis, Mo., and Fort Worth, Tex., at cost; title to be in the trustees	$2,250,000
To retire outstanding equipment obligations of an equal face value	2,165,000
To acquire $400,000 "first ref. & ext. M. bonds" of Gray's Point Terminal Ry. Co. (total outstanding), for deposit with the corporate trustee	400,000
To reimburse the company for permanent impts., &c., already made out of revenue	2,685,000

Purposes for Which Remaining $92,500,000 Bonds May Be Issued.

To refund, purchase or acquire prior mtge. bonds of a like face amount (being all the bonds of the system maturing during the life of this issue, except the bonds pledged under this mtge.), viz.: St. L. S. W. Ry. Co. 1st consol. 4s, due 1932, $25,000,000; bonds of controlled companies, $15,950,000; total	40,950,000
Additions, impts., new equip., &c., as below stated	51,550,000

These $51,550,000 bonds may be issued to an amount equal at par to the cost of: (*a*) Additions and permanent betterments, additional main track or double track, passenger and freight stations, &c., and of all the stocks and bonds of any company owning railway, terminal or warehouse property, to an amount not to exceed $2,000,000 per annum, cumulative during 1912 to 1921, incl., and $3,000,000 per annum cumulative thereafter (certain bonds to be issued under 1 (*b*) above, included in these limitations). (*b*) New equipment on which these bonds shall be a direct first lien, to an amount not to exceed $800,000 during 1912, and $500,000 per annum cumulative thereafter. (*c*) The acquisition or construction of additional lines of railway on which these bonds shall be a direct first lien or first collateral lien.

The issue is: (1) A direct first lien on terminal properties and improvements thereon at St. Louis, costing $2,000,000, and in Fort Worth, Texas, $250,000. (2) A direct or collateral lien on all railways owned, leased and controlled (except the Paragould Southeastern Ry., 37 miles), including 1,746 miles of main line and branches, of which about 209.61 miles are trackage rights, together with terminals, &c., subject to prior mtges. (3) A direct first lien or first collateral lien on any additional railway and rolling stock and equipment hereafter acquired with proceeds of these bonds.

Prior mortgage debt is about $32,400 per mile, exclusive of trackage-right mileage; total mortgage debt, with bonds now offered, including those issued for acquisition of terminal properties, about $37,275 per mile.

At St. Louis the company has operated at a disadvantage over the tracks and terminals of a competing line; at Fort Worth the present terminals are on bottom land, making it difficult to control business. With the new arrangements the company will be on equal terms with its competitors, which should enable it to obtain a much larger share of the traffic at both points. About 80% of the main line is now laid with 75-lb. steel rails. All of the main line in Missouri, Arkansas and Louisiana is ballasted with gravel or rock, and the road in Texas between Texarkana and Fort Worth is now being ballasted with gravel or burnt clay.

Earnings for Years ended June 30 and 9 Months ended March 31.

	Year		Nine Months	
	1910-11.	1909-10.	1911-12.	1910-11.
Total income, after operating expenses and taxes)	$3,457,004	$3,003,265	$3,333,881	$2,745,653
Fixed charges, rents, &c	2,241,181	2,186,798	1,783,051	1,674,862
Balance, surplus	$1,215,823	$816,467	$1,550,830	$1,070,791

The surplus earnings for the year ending June 30 1912, after payment of all fixed charges, should be not less than $1,700,000. The annual interest on the bonds now offered is $375,000, while the interest on equipment notes to be refunded is over $100,000; net increase less than $275,000 per annum. —V. 94, p. 1250, 1187.

Seattle Renton & Southern Ry.—*Receivership.*

Judge Hanford in the U. S. District Court at Seattle on May 14, on application of Peabody, Houghteling & Co., a leading creditor, appointed President E. M. Mills and O. D. Colvin receivers. It is alleged that the appointment of a temporary receiver the previous week has seriously injured the credit of the company, the latter admitting that it had outstanding obligations of over $1,000,000 which it was unable to meet. The petition alleged that under the terms of a trust deed given to the petitioners to secure $300,000 notes, it was provided that in case of the appointment of a receiver the trustee might, upon written request of the holders of one-fourth in amount of all the notes, declare the principal and interest of all the notes due and payable and that, the company being without funds, it was desirable that the Court should interpose and operate the property lest forfeiture of its franchises be declared before an advantageous sale of the road could be made.—V. 94, p. 1318.

Southern New England RR. Corp.—*Construction Begun.*—

Construction was begun on May 21 on the line from Palmer, Mass., to Providence, R. I., at a point near Woonsocket, R. I. It is hoped to have trains running over the road by December next. The Massachusetts House of Representatives on Thursday passed the bill to authorize the company to build extensions to Boston and Worcester.—V. 94, p. 1384.

Susquehanna Railway, Light & Power Co.—*Proposed Merger.*—See United Gas & Electric Corporation (of Connecticut) in last week's "Chronicle," page 1388.—V. 94, p. 692.

Toledo Port Clinton & Lakeside Ry.—*Sold.*—

W. S. Barstow & Co., New York, it is announced, have acquired this property free of all incumbrances for a sum stated as about $1,100,000. The stockholders have voted to sell out, and the holders of all of the $1,500,000 1st M. 5s of 1903, it is stated, agreed to accept the offer of 65% and interest from May 1 1912, the bonds being deposited with the Nat. Bank of Commerce, Toledo.—V. 94, p. 983.

Western Ohio (Electric) Ry.—*Bonds Offered.*—William Salomon & Co. offer at 94½ and interest $1,500,000 of the 1st M. 20-year 5% gold bonds, due Nov. 1 1921.

Authorized issue, $3,000,000; outstanding, $2,500,000; pledged as collateral for an equal amount of 6% convertible bonds, $76,000, the remaining $424,000 having been canceled. The bonds are a direct first mortgage on 82.01 miles of electric railway and subject to $389,000 underlying bonds, a lien on 31.97 miles additional, together with power plant, equipment, &c. An appraisal by Stone & Webster shows, it is stated, a replacement value, exclusive of franchises, of $4,747,000, or 60% in excess of the total $2,965,000 bonds outstanding. The line is constructed on private right of way outside of the cities, and partly on private right of way within the same.

Net earnings for 1912 are estimated at twice fixed charges. Regular dividends are being paid on the $424,000 7% first pref. and $450,000 6% 2d pref. stock. See statements in "El. Ry. Sec.," p. 66.—V. 91, p. 872.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Alabama Consolidated Coal & Iron Co., New York.—*Sale*

The Balt. Trust Co. (V. 92, p. 464; V. 91, p. 1575) will sell at auction in Baltimore on June 3 $125,000 ref. & impt. M. 5% 50-year bonds, dated May 1 1908, viz.: Two blocks of $75,000 each, Nos. 1313 to 1387, incl., and 1388 to 1462, incl., all with coupons of Nov. 1 1909 attached; $1,100,000, Nos. 1 to 200 and 413 to 1312, all incl., with coupon of Nov. 1 1911 attached.—V. 94, p. 1251, 418.

American Ice Co., New York.—*Bond Issue.*—

Press reports say that a New York syndicate may take $3,000,000 of a new $6,500,000 6% 30-year bond issue, refunding $2,411,000 5s due Feb 1 1914, etc.—V. 94, p. 914, 122.

Armour & Co., Chicago.—*1st M. 4½s on Chicago "Unlisted."*

The $30,000,000 1st M. real estate 4½s have been admitted to the "unlisted list" of the Chicago Stock Exchange.—V. 94, p. 281, 276.

Associated Oil Co., California.—

New President.—William Sproule, President of the Southern Pacific Co., which owns a majority of the stock, has been elected President to succeed William F. Herrin, who resigned.

Wm. S. Porter remains as Vice-Pres. and Gen. Mgr. Mr. Herrin will continue to be a director, and, it is understood, a member of the executiv committee.—V. 94, p. 1059.

Athens (Ga.) Gas Light & Fuel Co.—*Securities Authorized.*

The Georgia RR. Comm. has authorized the company to issue $250,000 40-year 5% bonds and $125,000 stock. Of the bonds, $225,000, and all of the stock, is to be used to pay for the property of the Athens Gas Co., which was recently acquired, free from all encumbrances, and the remaining $25,000 for extensions and improvements to be made at once.

(S.) Bayless Manufacturing Corporation, Austin, Pa.—

This company, incorporated in Pennsylvania on Mch. 14 with $100,000 auth. stock, as successor of the Bayless Pulp & Paper Co. (V. 94, p. 633), has given notice of the making of $650,000 indebtedness. An advertisement offering the bonds of the Stadacona Hydraulic Co. (see below) states that the Bayless Pulp & Paper Co., meaning persumably the successor company or a Canadian ally, is about to build a new plant near Quebec and will operate it with hydraulic power. Incorporators: Stanley Bayless (Treas.), Austin; Geo. C. Bayless, Binghamton; R. R. Lewis, A. C. Palmatier and J. H. Dexter, Coudersport.

Bayless Pulp & Paper Co.—*Contract—New Plant.*—

See Stadacona Hydraulic Co. below.—V. 94, p. 633.

Bethlehem (Pa.) Steel Corporation, New York.—*Guaranteed Bonds Offered.*—Hallgarten & Co., Harvey Fisk & Sons and William Salomon & Co. offered on May 23, at 91½ and int., the unsold portion of their block of $15,200,000 Bethlehem Steel *Company* "first lien and refunding" M. 5% 30-year gold bonds, dated 1912 and due May 1 1942, but callable at 105 and int. Interest M. & N. Principal and interest guaranteed by Bethlehem Steel *Corporation* by endorsement on each bond. The bonds having all been sold, the advertisement offering the same is published on another page for purpose of record.

Par $1,000 and $500 c* & r*. Annual sinking fund 2½% of face value of bonds outstanding, but not less than $300,000 per year All or any part of the issue redeemable at the option of company at 105% and int on any interest date upon 12 weeks' notice. Equitable Trust Co. of N. Y., trustee. Free of tax in Pennsylvania.

Data from Letter of Pres. C. M. Schwab to aforesaid Bankers, May 8.

Bonds.—I submit the following information in connection with your purchase, in conjunction with Kuhn, Loeb & Co., New York, of these $15,200,000 5% bonds.

The auth. issue, $50,000,000, is to be secured upon the real estate and manufacturing plants of Bethlehem Steel Co., subject only to the prior lien of its purchase money mortgage ($7,500,000 outstanding) and first extension mortgage ($8,000,000 outstanding after the purchase of $2,668,000 of said bonds as below), and by a first mortgage lien upon such real estate and manufacturing plants as that company may hereafter acquire, subject only to the after acquired property clauses of said first extension mortgage as to any real property which may be acquired at South Bethlehem as extensions or improvements of the plants, &c. covered thereby, and to any purchase money or other mortgages subject to which the property may be acquired, but against which mortgages an equal face amount of the bonds of this issue shall be reserved.

The retirement at or before maturity of the remaining $8,000,000 first extension bonds will (as the purchase money mortgage contains no "after

acquired property" provision) make these new bonds, on or before Jan. 1 1926, *a first lien* on the Saucon plant at South Bethlehem, Pa. This plant is complete in all respects for the manufacture of structural steel and rails from pig iron with a capacity of 600,000 tons per annum; also a lien, subject only to the purchase money mortgage, on the Lehigh plant, adjacent to the Saucon plant. The mortgage will also cover the entire capital stock (excepting directors' shares) of Juragua Iron Co., subject only to the prior pledge of half thereof under the purchase money mortgage.

Mortgage Restrictions on the Issue of the $50,000,000 Bonds.

Present issue (of which $15,200,000 are sold and $2,300,000 retained in Treasury for general purposes)	$17,500,000
Reserved for retirement or acquisition of the remaining $8,000,000 first extension 5s	8,000,000
Reserved for use as may be necessary to assist in the refunding	2,000,000
Reserved (with any balance of the above) for additions and extensions in amounts of not exceeding 90% of the cost thereof, and for the acquisition of other property of a character to be described in the mortgage; but not more than $5,000,000 to be issued, unless the net earnings of Bethlehem Steel Corporation and its subsidiaries for the previous fiscal year (after charging depreciation, but before charging interest and sinking fund), are double the yearly interest before the issuance of the additional bonds and no more than $5,000,000 to be issued at any one time	22,500,000

The proceeds of the $15,200,000 bonds now sold are to be used (a) To retire, at or before maturity, Bethlehem Steel Co. five-year 6% sinking fund secured gold notes, $6,428,000 outstanding. (b) For purchase [already effected] of $2,668,000 of the $10,668,000 first extension 5% bonds (the bonds so purchased to be used only for the requirements of the sinking fund of that issue and until so used to be deposited with the trustee of the herein described issue as additional security therefor); and (c) for further working capital.

Guaranty.—The payment of the principal and interest of these bonds is to be guaranteed by endorsement by Bethlehem Steel Corporation, such guaranty to be secured by the pledge with the trustee under this mortgage of the entire capital stocks (excepting directors' shares) of its subsidiary companies, as follows: Bethlehem Steel Co., Union Iron Works Co., Harlan & Hollingsworth Corp., Samuel L. Moore & Sons Corp., Bethlehem Iron Mines Co.

Net Assets as Security for these Bonds, $32,647,627 after Issue Thereof.

Bethlehem Steel Co.—Capital assets, $31,492,652; current assets, $9,888,107; total, $41,380,759, less purchase money 6s, due 1998, $7,500,000, and first extension 5s, due 1926, $8,000,000; leaving equity	$25,880,759
Four other companies (stocks to be pledged under aforesaid guaranty).—Capital assets, $6,653,093; less funded debt of Union Iron Works Dry Dock Co., $1,327,533, net $5,325,560; net current assets, $1,441,308	6,766,868

In the above figures the mining properties of the Corporation are included only at their book cost and the sum of about $28,000,000 should be added to adjust them to their real worth. This includes mineral rights on approximately 55,000 acres of land in Cuba on which our engineers report ore in sight of about 190,000,000 tons.

1911 *Earnings, after Substituting Charges on Present Issue for Charges on Debt Retired out of Proceeds Thereof.*

Net earnings after deducting $1,074,415 for interest and sinking fund on old indebtedness not retired from proceeds of this issue	$3,826,618
Deduct.—Interest ($760,000) and sinking fund ($464,000) on these $15,200,000 bonds, including amortization of debt disc't.	$1,224,000
Provision for depreciation, less sink. fund deducted above	581,468
Balance, surplus, on basis of present financing	$2,021,150

The year 1911 was a most unfavorable one in the iron and steel trade and the above calculation must therefore be regarded as a conservative one. Under normal demand and prices, the net earnings should be at least $8,000,000 per year.

The annual business has grown from $14,554,117 in 1905 to $30,093,023 in 1911. The Corporation has booked orders during the first quarter of 1912 aggregating about $12,250,000. The total orders on hand March 31 1912 were about $21,000,000.

Block of Five-Year 6% Gold Notes of 1909 Called.—

Fifty-eight ($58,000) 5-year 6% gold notes dated Nov. 1 1909 of the Bethlehem Steel Co. have been called for payment at 102½ and int. on July 22 at Bankers Trust Co., N. Y., trustee.—V. 94, p. 1318, 1188.

Booth Fisheries Co.—*First Preferred Dividend.*—

An initial quarterly dividend of 1¾% has been declared on the new 7% cum. first pref. stock, payable July 1 to holders of record June 15.—V. 94, p. 626, 489.

Brooklyn Union Gas Co.—*Extra Dividend.*—An extra dividend of 1% in addition to the regular quarterly disbursement of 1½% has been declared, payable July 1 to holders of record June 15, being the same amount as in Jan. last.

This is understood to be in pursuance of a policy to make extra payment semi-annually to compensate stockholders for the difference between the dividends paid and an average of 6% since 1906. Compare V. 93, p. 1467, 1388.

Calumet & Hecla Mining Co.—See "Annual Reports."

The $1,000,000 5% 10-year coupon gold notes dated Mch. 1 1909 have been called for payment at par and int. on Sept. 1 at City Trust Co., Boston.

The company has also outstanding of the notes issued in 1909 $4,134,000 4% and $1,685,000 5% notes due Feb. 28 1919, but subject to call at par and 102, respectively. The $1,700,000 3-year 5% notes matured and were paid off Mch. 1 1912.—V. 94, p. 1386, 1318.

Central Indiana Gas Co.—*Second Mortgage Bonds Called.*—

All of the $240,000 outstanding 2d M. 5% gold bonds issued under the mortgage dated July 2 1910 under the former name of Heat, Light & Power Co., have been called for payment at par and int. on June 1 at Harris Trust & Savings Bank, Chicago, trustee.—V. 94, p. 354.

Central States Electric Corporation.—*New Holding Company—Control of Cleveland Electric Illuminating Co.—Sale of Secured 10-Year 5% Convertible Notes.*—This new company having arranged to purchase control of the Cleveland Electric Illuminating Co. has sold to Spencer Trask & Co., N. Y., Albany, Boston and Chicago, and the Guaranty Trust Co., of N. Y., $3,730,000 of its 10-year 5% secured gold notes. The notes will soon be offered to investors to net 5¾%.

Data from Advance Memoranda, Subject to Correction.

To be dated on or about June 1 1912. Due on or about June 1 1922. Int. s.-a. Par, $500 and $1,000 (c*). Subject to call, in whole or in part, on any interest date, on due notice, at 101 and int. Convertible at par into 7% cumulative pref. stock at 105, with the right to convert if called for payment prior to maturity.

This company is being incorporated in Virginia, with power, among other things, to acquire stocks and securities of public utility corporations. It will acquire more than 60% of the entire $7,339,400 common stock of the Cleveland (O.) Electric Illuminating Co. (V. 94, p. 1122, 1356). It is expected that other desirable properties will be acquired as opportunity offers, further increasing the earning power.

Authorized Capitalization and Present Maximum Amount Issuable in Connection with Purchase of Cleve. El. Ill. Co. Common Stock.

	Auth.	*Pres. Max.*
Ten-year 5% secured gold notes	$6,000,000	$6,000,000
Pref. stock, 7% cumulative	30,000,000	5,000,000
Common stock (auth. issue not to be less than $10,000,000 or over $30,000,000)		6,000,000

The minimum amount of $3,730,000 10-year notes to be issued will be secured by deposit with the trustee of $4,403,640 common stock of the Cleveland El. Ill. Co., being 60% of the outstanding common shares and representing a cash investment for this purpose of $5,724,732. The balance of the $6,000,000 5% notes will be issued as additional amounts of said common stock are acquired and pledged at the rate of about $77 32 of notes for each $100 of common stock.

The Cleveland El. Ill. Co. was incorporated in 1893. Property account Dec. 31 1911, $13,755,911. The outstanding capitalization is: First M. 5s (auth. $30,000,000), $6,000,000 (see V. 94, p. 354); 6% cum. pref. stock (auth. $1,000,000), $800,000; common stock (auth. $9,000,000), $7,339,400. Dividend paid: On pref., always 6%, on common began in 1902, and from 1904 8% yearly.

Annual interest on total, $6,000,000 Central States 10-year notes.—$300,000

Present electrical apparatus of Clev. El. Ill. Co., two 14,000 k.w. and two 9,000 k.w. turbo units, and it is planned to install in the comparatively near future two 14,000 k.w. units, making a total of about 74,000 k.w., or approximately 100,000 h.p. The property owned will permit an ultimate capacity exceeding 200,000 h.p. Transmission system, all underground, at 11,000 volts pressure, connects with six fireproof substations; distribution system extends over 70 sq. miles, with meters, house connections, &c., for about 39,000 consumers. Has recently executed a 10-year contract to supply the Cleveland Electric Railways Co. with additional power needed by it. Unlimited franchises in Cleveland and ten adjoining towns.

Cleveland in 1910 had a population of 560,663, an increase of 46.9% since 1900, outstripping Baltimore and Pittsburgh, and ranking sixth among American cities.

Management.—The directors of the Central States will be men of wide experience in the management of public service corporations and largely interested in the management of the American Gas & Electric Co., the Federal Lt. & Traction Co. and the Republic Ry. & Light Co.

Cities Service Co., New York.—*Special Settling Day on London Stock Exchange.*—The London Stock Exchange recently appointed a "special settling day" for the $1,350,000 6% cum. pref. stock placed in London late in 1911, the total amount of preferred outstanding being $10,195,300.

This marks the beginning of ordinary transactions in this new stock on the London Exchange, and, while not quoted on the official sheet, the stock will be dealt in regularly for the fortnightly settlement of accounts. This is of importance because when no special settlement is granted, the laws of the Exchange cannot be enforced.—V. 94, p. 984.

Citizens' Gas Co. of Indianapolis.—*Amended Franchise.*

The City Council this week passed the bill permitting the company to make an issue of 5% bonds and additional stock for improvements. (V. 94, p. 633.) One of the important features of the amendment is that it increases the amount of mains the Board of Public Works may order extended. Under the original franchise the amount was limited to 10,000 ft. annually. This is increased under the amendment to 20,000 ft. a year for the 5 yars beginning Jan. 1 1912; 25,000 a year for the 5 years beginning Jan. 1 1917 and 30,000 a year from Jan. 1 1922 to the end of the franchise V. 94, p. 701, 633.

Cleveland (O.) Illuminating Co.—*Control Pledged.*—See Central States Electric Corp.—V. 94, p. 1386, 1251.

Consolidated Gas Co. of New York.—*Earnings.*—The report of the Public Service Commission, First District, issued this week, shows earnings of the various gas companies included in the system for the year ending Dec.31 1911:

	Operating Revenues.	*Net (after Taxes).*	*Other Income.*	*Interest, &c.*	*Dividends.*	*Balance, Surplus.*

—V. 94, p. 275, 210.

Corporation of United Cigar Stores Co. of New York.—*Status.*—The Boston "News Bureau" on May 20 said in subst.

The few stockholders at the annual meeting May 17 obtained information never before revealed. This showed that through subsidiary concerns, real estate operations have been very profitable, with the bulk of earnings turned back into extension of this branch of the business.

The United Stores Realty & Land Co., just organized in New Jersey with $10,000,000 capital, all owned by the United Cigar Stores of N. Y. [also power to issue bonds], will hereafter conduct the real estate business and will take over the leaseholds and properties now controlled. Counsel S. M. Strook, who acted as Chairman at the meeting, stated that it had not been decided whether this $10,000,000 capital stock would be distributed as a dividend to holders of the parent corporation's shares. He intimated, however, that eventually this would be done, although possibly not all at once. As the capitalization of the parent and new subsidiary are identical, a 100% stock distribution would be possible.

The parent company's income account (V. 94, p. 1386) showed only dividends received from subsidiaries and in no way indicated the earning capacity of the entire system. The total surplus April 1 1912, $1,303,479, was practically all cash. Some of the subsidiaries also hold large amounts in their treasuries, but figures were not obtainable as to totals. The chief subsidiary has been the United Cigar Stores Co. of New Jersey, which in turn has controlled the United Cigar Stores of Illinois, handling the Middle Western trade, and the United Cigar Stores of Rhode Island, controlling New England. The United Merchants Realty & Improvement Co. has been the largest real estate subsidiary, but there are also many others.

All but about $100,000 of the $3,600,000 6% bonds were owned by the American Tobacco Co. This issue was put out to retire $2,850,000 6% bonds of the United Cigar Stores Co. of New Jersey and $750,000 of that company's 7% pref. stock.

When the dissolution of the American Tobacco Co. was ordered, the United Cigar Stores system had planned to open 40 new stores. At that time it was operating 623 stores. Since March 1 practically all of the contemplated branches have been put in operation, so that now the chain comprises about 663 stores. Another location secured is at Broadway and 33d St., where a new building is being erected. Adjoining R. H. Macy's store in New York a cigar store will open as soon as the lease of the present occupant expires.

At Broadway and 42d St. a $10 annual rental will be paid for the cigar store in the new building now under construction, being the same rent as paid diagonally across the street. From the Astor estate the property was leased by a United subsidiary—the Broadway Corner Co.—at a net annual rental of $105,000. The United Cigar Stores of New Jersey guaranteed $500,000 in the transaction. The property was sub-let to a construction company which is now putting up a new building, and one of the agreements was that the United should pay the nominal rent of $10 a year for its store on that corner. The construction company in turn rented the rest of the ground floor space for $150,000. The lease will run for 84 years.

In its real estate operations the United Co. has been obliged in some instances to rent 10 years ahead in order to offset higher rents in the course of a decade.

A year ago there were but 200 stockholders, but shareholders' list now shows 1,184 names, owing to the enforced distribution of the holdings of the American Tobacco Co. and 29 individual defendants. Pres. George J. Whelan now has in his name 22,966 shares, against 7,440 shares last year; total holdings of the Whelan family approximate 35,000 shares.

Another paper says that "the new company will take over all the stock of United Merchants Realty & Improvement Co. and stock of 10 smalle rreal estate companies."—Ed. See V. 94, p.1386, 1122.

Edison Electric Illuminating Co., Boston.—*New Stock.*—Subject to the approval of the Gas and Electric Commission, the directors have voted to give to shareholders of record the right to subscribe for 26,007 shares of new stock at $215 a

share, to the extent of 1 new share for each 6 shares now held. See V. 94, p. 1188, 70.

Electric Manufacturing & Power Co., Spartanburg, S. C.—*Sale.*—A. B. Leach & Co., have, jointly with Ussing, Scoville & Co. of Pittsburgh, Pa., purchased the property.

Firestone Tire & Rubber Co., Akron, O.—*Pref. Stk. Offered.*

Borton & Borton, Cleveland, recently offered a small block of the [$1,000,000] 7% cumulative pref. stock at 108 net to buyer. Dividends Q-J. 15. Pref. p. & d. and retirable at 110 and divs. after 1915. The firm says: "The assets are about six times the pref. stock outstanding, and earnings are very large for the last few years, approximating each year the par value of the pref. issue. No mortgaged debt or other liabilities, except current items. One of the most conservative of the rubber corporations. See V. 90, p. 1493; V. 91, p. 1772.

Fort Dodge Light Co.—*Bonds Called.*—

All of the outstanding $250,000 40-year 5% collateral trust gold bonds dated May 1 1906 have been called for payment at 105 and int. on June 1 at Michigan Trust Co., Grand Rapids, Mich., trustee.—V. 82, p. 1043.

Hall Signal Co., New York City.—*Plan Effective.*—

The plan of April 2 192 has been declared effective. An underwriting syndicate, it is stated, will be formed and the plan put into effect. The time within which depositing stockholders may subscribe to the new securities under the plan will finally expire June 6. A large majority of the stock has been deposied.—V. 94, p. 985.

Illinois Steel Co.—*Bonds Ready for Delivery.*—

J. P. Morgan & Co. announce that they are ready to deliver the engraved 4½% gold debenture bonds of 1940.—V. 94, p. 986.

International Agricultural Corporation.—*Proposed Bond Issue.*—Arrangements, it is understood, are being made for the issuance of $10,000,000 to $15,000,000 bonds, to finance the requirements of the company. While, Weld & Co., who have been identified with the company in previous transactions, will underwrite the bonds. The details will be announced shortly, probably next week.—V. 94, p. 909, 282.

Keystone Telephone Co. (of N. J.), Philadelphia.—

Philadelphia papers state that it is proposed to extend the voting trust expiring July 1 in which $2,750,000 of the $5,000,000 common stock is held. —V. 94, p. 770.

Kings County Electric Light & Power Co.—*Reduction.*—

The company and its operating company, the Edison Electric Illuminating Co. of Brooklyn, announce a voluntary reduction in rates for electric current beginning July 1. The present retail rate is 12c. per kilowatt hour; the new rate will be 11c. per k. w. hour for the first two hours, 8c. for the second two hours and 4c. for all current in excess of four hours average daily use per month of the maximum demand, with an annual minimum payment of $12, payable $1 monthly. Guarantee under the present special wholesale contract is reduced from $3,000 to $2,400. The reduction, it is estimated, will save present consumers $250,000 a year. The new rates are not expected to reduce the net earnings, as the increased business and economies of production and distribution will offset the rate reduction.—V. 94, p. 770.

Long Acre Electric Light & Power Co., N. Y.—*Bonds.*—

The report that a leading banking house has purchased $10,000,000 of the company's bonds, we understand, is not correct. The deal, if one is in progress, is supposed to be in the option or verification stage.—V. 93, p. 1468, 474.

Louisville (Ky.) Gas Co.—*Control Pledged.*—

See Miss. Valley Gas & El. Co. below.—V. 94, p. 1253, 1189.

McCrum-Howell Co.—*Stricken from Chicago List.*—

The Governing Committee of the Chicago Stock Exchange on May 15 struck both the pref. and the com. stocks from the list of the Exchange. See V. 94, p. 1314, 1320.

Mississippi Valley Gas & Electric Co., Chicago.—*New Holding Company—Bonds Sold.*—This company is about to be organized under the laws of Maine for the purpose of acquiring the securities and assisting in the development of electric, gas, railway and water-power properties. Control through stock ownership will be acquired of the Louisville (Ky.) Gas Co., Louisville Lighting Co., the Geo. C. Fetter Lighting & Heating Co. and the Campbell Electric Co.

The company will be controlled by the Standard Gas & Electric Co. of Chicago, the Byllesby holding corporation (see p. 174 of "Ry. & Indus." Sec.), and the principal and interest of the $5,000,000 10-year 5% collateral trust bonds which will now be issued, secured by pledge of the securities acquired as aforesaid, will be guaranteed by that corporation. These bonds have been sold by H. M. Byllesby & Co., Chicago, and William P. Bonbright & Co., N. Y. and London.

Capital Stock of Sub-Companies—Issued, Now Pledged, &c.

	Total Issued	To Be Pledged: At Once.	To Be Pledged: By Aug. '12	To Be Pledged: Or Cash.	Bal. Owned by: Louis. Gas.	Bal. Owned by: City.
	$	$	$	$	$	$
Louisville Gas	3,600,000	2,400,000	275,000	120 a share	-------	925,000
"Fetter" Electric	200,000	200,000	or phys. prop.	400,000	-------	------
"Campbell" Electric	-------	Phys. prop.	------	50,000	------	------
Louisville Ltg., com.	2,558,000	700,000	192,000	65 a share	1,666,600	------
do preferred	108,000	100,000	8,000	115 a share	------	------

The new company will have an authorized issue of $10,000,000 10-year 5% collateral trust bonds, dated May 1912 and due May 1 1920 (but callable on any int. date at 102), int. M. & N. Of these bonds $5,000,000 have now been sold as above stated (ar par with bonus of 30% in stock of Standard Gas & Elec. Co.) and they are secured by the securities acquired; the remaining $5,000,000 can only be issued for 80% of the cost to the company of additional collateral. Trustee, Cont. & Comm. Tr. & Sav. Bank, Chic. The only underlying bonds will be $200,000 Louisville Gas Co. 1st M. 5s, due April 1 1918 (V. 86, p. 984, 1347) and $3,121,000 Louisville Ltg. Co. 1st M. 5s, due April 1 1953 (V. 79, p. 2799). The latter has issued $1,000,000 convertible 6s (V. 90, p. 306), but $624,000 of these are owned by the Gas Co. and the remaining $376,000 are to be retired from the proceeds of sale of the new company's bonds.

Earnings for 12 Months ended March 31 1912.

(1) Total earnings applicable to securities to be acquired	$356,883
Interest on $5,000,000 collateral trust 5% bonds	250,000
Leaving a surplus of	$106,883
(2) Surplus earnings of Standard Gas & Electric Co. after deducting interest on all bonds outstanding	$1,252,978

Number of meters of companies now operating gas and public electric-lighting plants in Louisville: Louisv. Gas Co., 31,230; Louisv. Ltg. Co. (electric), 12,159; Fetter and Campbell plants (electric light and steam heating), 300; Kentucky Heating Co. (V. 72, p. 1283), fuel gas only, about 17,500, and electric light and power, about 1,700.

National Enameling & Stamping Co.—*Fiscal Year Changed —Preferred Dividends.*

Owing to the change in the fiscal year, which now ends on June 30, so as to make it correspond with the cal. year (the period for which Federal corporation and State tax returns are required), the directors have declared regular dividends on the preferred stock for the last 6 months of the calendar year at the rate of 7% per annum, payable in two quarterly installments of 1¾% each on Sept. 30 and Dec. 31 1912. Declarations have heretofore been declared for full fiscal years ending June 30.—V. 93, p. 588.

National Fireproofing Co.—*New Bond Issue.*—The stockholders will vote on July 25 on authorizing an issue of $2,500,000 20-year refunding bonds.

Of the bonds $1,000,000 are to be used to retire a like amount of outstanding bonds which are subject to call at par, and the remainder to provide for the purchase of the Great Eastern Clay Co. and obligations of that company and of the National Fireproofing Co. of Canada and to provide working capital and for betterments and enlargements.—V. 94, p. 1060, 766.

Otis Elevator Co., New York.—*New Officers.*—

The New York office of the executive and other departments will be removed on or about June 1 from 17 Battery Place to the new location on 11th Ave. between 26th and 27th streets. See annual report in V. 94, p. 825.

Queen City Electric Light & Power Co., Traverse City, Mich.—*City Electors Vote to Purchase.*—See "Traverse City" in "State and City" Dept.—V. 94, p. 1060.

Quincy (Copper) Mining Co.—*Dividend Increased.*

A quarterly dividend of $1.25 (5%) per $25 share has been declared, payable June 24 to holders of record May 27, comparing with $1 (4%) quarterly from Dec. 1910 to Mch. 1912, inclusive, $1 25 (5%) in Sept. and June 1910 and $1 50 (6%) in March 1910. Compare V. 90, p. 508.

Siegel Stores Corporation, New York.—*Guaranteed Bonds.*—See Simpson Realty Co. below.—V. 91, p. 721.

Simpson Realty Co., New York.—*Bonds Guar. by Siegel Stores Corp.*—F. J. Lisman & Co., N. Y., and the Cent. Tr. Co. of Ill., Chicago, on March 13 offered at par and int. $600,000 refunding sinking fund 6% bonds, due Jan. 1 1932, but redeemable at 105 on any coupon date on thirty days' notice until Dec. 31 1921, and thereafter at 102½. Guaranteed p. & i., severally and jointly, by the Siegel Stores Corporation, Henry Siegel and Frank E. Vogel. Trustee, Trust Co. of Am. Int. J. & J. Authorized $1,500,000, outstanding $600,000; balance, $900,000, reserved to retire real estate mortgage, due 1917.

Digest of Letter from Henry Siegel, Pres. Siegel Stores Corp., Dec. 29 1911.

The property of the Realty Co. consists of real estate, leaseholds and modern buildings, occupying the entire block fronting on 6th Ave. and extending west 250 ft. on 20th St. and 375 ft. on 19th St. The Simpson-Crawford Co. leases this property for an amount sufficient to cover taxes and interest charges of the Realty Co. and owns all of the latter's capital stk.

The proceeds of these $600,000 bonds will retire the few outstanding Simpson Securities bonds (original issue $1,500,000) and reduce the present real estate mortgage (formerly $1,400,000) from $1,050,000 to $900,000, &c. The balance is reserved to retire this $900,000 mort. (due in 1917) held by Eq. Life Assur. Society. Said property was heretofore mortgaged for $2,900,000, whereof the bonded debt, $1,500,000, was reduced during 1909 by sale of pref. stock and real est. mort. ($1,400,000) by yearly payments.

The Simpson-Crawford Co., without including good-will, has quick assets, including its holdings of Simpson Realty Co. stock, of over $4,500,000. The real estate and buildings are appraised at $2,100,000. During the last eight years the Simpson-Crawford Co. showed average net profits of $272,082. The interest charges are only $81,000, viz.: 5% on $900,000 real estate mortgage due 1917 and 6% on these $600,000 refunding bonds.

The Siegel Stores Corporation has outstanding $2,000,000 7% pref. stock and $7,997,900 common stock, and it owns all of the stock of the Simpson-Crawford Co. and the 14th Street Store in New York, and practically all of the stock of the Siegel, Cooper & Co. in Chicago, which corporations have for the last eight years shown an average net profit of about $650,000 annually, and own in realty, merchandise accounts, &c., not less than $9,000,000, without including good-will. During the life of the Simpson Realty Co. bonds, neither the Siegel Stores Corporation nor any of the controlled companies can create any lien upon their present properties, beyond the $1,500,000 authorized under this issue.

Report of Siegel Stores Corp. and Controlled Cos. for Fiscal Yr. end. Feb. 1 '11.

Net earnings	$613,348	Balance, surplus, for year	$232,96
Deduct—Divs. & deprec'n.	$380,384	Total surplus Feb. 1 1911	$1,420,31

The Siegel Stores Corporation does a business of $20,000,000 annually. (See V. 91, p. 721.)

Southern States Lumber Co.—*First Cons. M. Bonds Called.*

Seventy-four ($74,000) 1st cons. M. 6% bonds, dated June 1 1908, for payment at $1,025 on June 1 at Knickerbocker Trust Co., N. Y., trustee. —V. 87, p. 1482.

South Penn Oil Co., Pittsburgh, Pa.—*Dividend.*—

This former subsidiary of the Standard Oil Co. of N. J. (V. 85, p. 216, 790; V. 93, p. 1390) has declared a dividend of 10% on the $2,500,000 stock, par $100, payable June 15 to holders of record May 31. Dividends have been paid irregularly in the past, and this is the first dividend since the dissolution of the Standard Oil Co.—V. 85, p. 226.

Stadacona Hydraulic Co., Quebec.—*Bonds Offered.*—

This company, incorporated under the Canadian law with $1,000,000 capital stock in $100 shares, has acquired (by the use of its capital stock and $60,000 cash) the ownership of the seven falls of St. Ferreol, with a total head of 400 ft. on St. Anne River, Montmorency County, 25 miles from the city of Quebec. These falls, it is estimated, are capable of producing 10,000 electric h. p. The company proposes at once to install a hydro-electric plant and it is hoped to have the first 1,000 h.p. in operation next December. The total output, it is stated, has been sold for a long term of years at a remunerative rate to the Quebec Ry., Light, Heat & Power Co. and the Bayless Pulp & Paper Co., the last-named concern being about to erect at Beaupre, 5 miles from the proposed power plant, a factory with a capacity of 100 tons of paper a day. (See that co. above).

With the power plant in full operation, it is estimated that the gross earnings will be $136,000; net, $124,000; interest on $800,000 5% bonds, $40,000; special reserve, $8,000; sinking fund for bonds and depreciation; reserve, $16,000; bal., sur., $60,000, or 6% on stock.

Subscriptions for the $800,000 1st M. 5s, with coupon of Jan. 1 1913 attached, offered at 94, were received by Aug. de Laveleye & Co., Brussels, on or before May 15. Auth. issue, $1,000,000; par $100, or 520 francs, repayable in 20 years at par, or at 105 after five years on any interest date at company's option on 3 months' notice. Coupons payable J. & J. in Canada and Brussels at 5fr. 20c. to the dollar. Trust deed dated Feb. 16 1912; mortgage trustee, Royal Trust Co.

Directors: Hon. L.-P. Pelletier, Quebec (Pres.); Sir Rodolphe Forget, Montreal, Pres. of Quebec Ry. Lt., Ht. & Power Co.; A. Bouvier, Brussels; H. J. Biermans, Shawinigan Falls; Hon. C. E. Dubord, Neuville Belleau and D. O. Lesperance, Quebec; Andre de la Morinerie, Reims.

Standard Gas & Elec. Co., Chicago.—*New Guar. Bonds.*—

See Miss. Valley Gas & El. Co. above.—V. 94, p. 831.

Standard Screw Co.—*Earnings.*—Year ending March 31:

Tiffin (Ohio) Water-Works Co.—*First Mortgage 5s Offered.*

Geo. A. Fernald & Co., Boston, are offering at par and int. $110,000 1st M. gold 5% bonds, par $1,000, dated May 1 1912, due May 1 1932, but callable at 105 and int. on and after May 1 1922. Int. M. & N. at Atlantic Nat. Bank, Boston. Capitalization: Capital stock outstanding, $200,000; 1st M. 5s, $110,000, issued to refund $110,000 1st M. bonds paid May 1 1912. In successful operation over 30 years. Property: Brick and concrete station, 3 pumps, capacity 8,500,000 gals. per day, 3 boilers and natural gas engine and electrical generator furnishing supplemental power for pumping;

30 miles of mains (24 miles in paved streets). Driven wells producing abundant pure, cold water; water-power on Sandusky River, which furnishes 75% of power required for operation of the works. Earnings cal. year 1911: gross, $30,008; net, after taxes, $17,168; present bond int., $5,500; bal., surp., $11,668. Pres., M. L. Scannell; Sec., E. A. Scannell; Treas., M. L. Scannell. City population, over 13,000.

"Timber Bonds as Investment Securities."—

Under this title there has been published by the American Academy of Political and Social Science, Phila., an 80-page pamphlet containing a series of nine articles collected and edited by T. S. McGrath of Chicago. Among the authors are James D. Lacey & Co., Chicago, &c., W. J. Cummings, W. A. Hamlin & Co., and representatives, of Marwick, Mitchell, Peat & Co.; Lyon, Gary & Co.; and Allerton, Green & King.

Union Sand & Material Co., St. Louis.—*Notes Placed.*—

An issue of $800,000 3-year 6% gold coupon notes offered at 100½ by G. H. Walker & Co., St. Louis, was all placed through an advance offering prior to advertisement. Dated May 1 1912, due May 1 1915, but callable in whole or in part, but not less than $25,000, on any int. date on 30 days' notice at 101 and int. Par $1,000. Trustee, St. Louis Union Trust Co. Int. M. & N. The company covenants that it will not mortgage any of the property now owned by it, nor create any specific charge upon its earnings otherwise than by an instrument which shall expressly recognize and confirm the charge of these notes as prior liens.

Digest of Letter from Pres. H. L. Block, St. Louis, Mo., April 27 1912:

The proceeds of these notes will be applied to the reduction of the bills payable and will reimburse the treasury for capital expenditures as follows: (1) Improvements and additions to the Kansas City Portland cement plant costing over $300,000; (2) a new sand and gravel ballast plant under construction at Arkansas City, Ark., cost $150,000; (3) steel barges costing about $35,000.

The balance of the issue is required to increase the working capital to an amount commensurate with the ever-expanding business.

Owns (a) at St. Louis a Portland cement plant of over 1,000,000 bbls. capacity ("Red Ring" brand), over 60 acres of land, partly in the city and partly in the county of St. Louis, and 447 acres of quarry land. (b) In Kansas City a plant of over 600,000 bbls. capacity ("K. C." brand), with 70 acres of land. Also manufactures sand, gravel and ballast at Memphis, Tenn.; Drake, Mo.; Hannlabl, Mo.; Arkansas City, Ark.; St. Louis, Mo.; and East St. Louis, Ill. In St. Louis owns 7 distributing yards and rents 6 yards. Also owns 300 railroad cars, &c. Employs about 1,000 men.

Assets ($6,969,778)— *Bal. Sheet Mch. 31 1912.* *Liabilities* ($6,969,778).

Plant investments	$6,001,148	Capital stock outstanding	$5,100,000
Inventories	554,449	First mortgage bonds	513,000
Notes and accounts receiv.	359,155	Notes & accts. payable	927,255
Cash	55,026	Surplus	429,523

The net quick assets alone will exceed the note issue; also owns semi-liquid assets, consisting of live stock, railroad cars, tugs, dredges and barges, valued at $1,020,031. The real estate, outside of the manufacturing plants, is valued at $587,502. There are only two small bond issues, viz.: St. Louis Portland Cement Co. (V. 84, p. 1001) bond issue, originally $500,000, reduced by sinking fund to $200,000, and will be retired entirely by Aug. 1 1915; [Union Land & Material Co.] bonds on Kansas City plant, original issue (V. 88, p. 382), $400,000, reduced to $313,000, and will be only $223,000 when these notes mature.

Average net earnings for last three years, $392,294, or over eight times the interest charges on the new notes. With normal business conditions, net earnings should materially improve.—V. 90, p. 1494.

United Electric Securities Co., Boston.—*Offered Jointly.*—

Perry, Coffin & Burr, Boston, and Parkinson & Burr, Boston and N. Y., are offering at par and int. $500,000 36th series collateral trust 5% bonds, due Feb. 1 1942. The bankers say: "Has a record of over 20 years of successful business, reporting Dec. 31 1911 a surplus of $1,341,180. Dividends at rate of 7% per annum are paid on $1,000,000 pref. stock. Issued, prior to the present offering, $20,500,000 collateral trust bonds, of which $15,097,000 have been retired, either by purchase or by call at 103 and int. Managed by representative Boston men." Compare V. 91, p. 1451.—V. 94, p. 71.

United States Realty & Improvement Co.—*Earnings.*—

Year end. Apr. 30—	Total Income.	Interest, Depr., &c.	Net Income.	Int. on Deb. Bds.	Divs. (5%).	Balance Surplus.
1911-12	$3,342,761	$1,409,589	$1,933,172	$596,500	$808,140	$528,532
1910-11	3,437,290	1,323,741	2,113,549	600,000	808,140	705,409

—V. 94, p. 922, 771.

United States Rubber Co., New York.—*Financial Plan—Increase of Auth. Stock from* $75,000,000, *All Issued, to* $120,000,000, *Divided into Two Classes Only—Outstanding Issues to be Made,* $30,000,000 *Common by* 20% *Stock Dividend to Common Shareholders and* $57,500,000 *"Pref. Stock" by Offer of* $10,000,000 *New* (1*st*) *Pref. at Par to All Stockholders and Exchange of Existing* $10,000,000 2*d Pref. for* $7,500,000 (1*st*) *Pref.—Proposed Large Tire Plant—Refunding Plan.*—At the annual meeting May 21 President Samuel P. Colt said in substance:

Since the issuance of the annual report (V. 94, p. 1311) my suggestion, that the rapid expansion of our business would soon require further financial provision, has been confirmed by the sudden development of large and combined competition which calls for active effort to maintain and extend your business. (See Goodrich Rubber Co. in V. 94, p. 1386.) To this end the board recommends:

First—That the total authorized capital stock, now fully issued ($75,000,000), be increased to $120,000,000, to be divided into $40,000,000 common stock and $80,000,000 pref. stock.

Second—That out of this additional $15,000,000 common stock and $30,000,000 pref. stock, provision be made substantially as follows:

(1) A common stock dividend of $5,000,000, or 20% upon the present outstanding ($25,000,000) common stock; a dividend which will be warranted by the company's surplus. (2) An offer ratably to all stockholders of $10,000,000 1st pref. stock at par and accrued div. (3) An offer to the holders of the ($10,000,000) 2d pref. stock of an opportunity for a virtual exchange of their present stock on the basis of 100 shares of 2d pref. stock for 75 shares of 1st pref. stock.

This plan having been fully carried out, there would be issued and outstanding $57,500,000 pref. stock and $30,000,000 common stock, leaving unissued $22,500,000 pref. stock and $10,000,000 common stock. And the company thereafter will have but two instead of three kinds of stock.

Of this pref. stock, the $2,500,000 gained through the retirement of the 2d pref. stock would be available (without exceeding the 2-to-1 requirement of the New Jersey law) for offer, if deemed advisable, for the minority holdings of the Rubber Goods Mfg. Co. stock.

The $20,000,000 pref. stock and the $10,000,000 common stock then remaining would be available for future uses.

Before deciding finally as to this plan the directors recommend that this meeting be adjourned to re-convene May 31 for an informal vote upon these propositions. In case of approval by a sufficient amount of stock, the board expects then to call the stockholders' meetings necessary to carry the plan into effect.

And then or thereafter they expect to submit a further plan or plans for the refunding of all of the existing obligations of the company and of its subsidiaries, and adequate provision for future needs of this important and steadily extending organization in a chief industry of the world.

President Colt's Separate Announcement as to Proposed Largest Tire Plant

Among the things that I advocate is the immediate construction by the United States Rubber Co. of the largest and best tire plant in the world in order to meet the growing demands for our tires. I believe that the tire industry is still in its infancy and that the organization of our U. S. Tire Co. will be able to market a much larger volume of tires than the U. S. Rubber Co. with its present capacity (although now operating four tire factories) is now able to manufacture. [The proposed new tire factory, it is stated, would increase the company's tire capacity 50%, and with its equipment will probably cost between $3,000,000 and $5,000,000. The plant will be run by the U. S. Rubber Co. directly.]

Director.—Theodore N. Vail (Pres. Am. Tel. & Tel. Co.) has been elected to the board, increasing the number of directors from 20 to 21.—V. 94, p. 1311.

United States Steel Corp.—*No Gifts to Roosevelt Fund.*—

Touching the statement by Senator La Follette to the effect that Judge Gary had contributed, or was contributing, to the Roosevelt campaign, Mr. Gary says: "Neither I nor the Steel Corporation has contributed, is contributing or has been asked to contribute anything whatever to the Roosevelt campaign."—V. 94, p. 1321, 1248.

Waltham Watch Co., Boston, Mass.—See "An. Reports."

Conover Fitch has been elected Vice-Pres. to succeed W. L. Putnam, and James W. Appleton, Thomas E. Gannett and W. B. H. Dowse directors in place of Francis R. Appleton, I. Tucker Burr and E. A. Marsh. —V. 92, p. 1440.

West Sacramento (Cal.) Co.—*Real Estate 1st M. 6s Offered.*

Louis Sloss & Co., San Francisco, underwrote and now offer at par and int. the unsold part of $2,000,000 1st M. 6% gold bonds, dated 1910, due July 1 1930, callable at 105 on any interest date. Par $1,000. Interest J. & J. Trustee is Merc. Trust Co. of San Fr. Tax-exempt, also legal for savings banks, in California.

Data from Statement by Gen. Mgr. H. W. Furlong, San Fran., Mch. 25 1912

Organized in Cal. Feb. 17 1910. Owns a tract of over 11,200 acres along the Sacramento River, in Yolo County, opposite Sacramento, and is protecting the same by a substantial levee system now approaching completion and will otherwise develop the property for agricultural, residential and industrial purposes, building wharfage facilities, warehouses, &c.

Capitalization authorized and outstanding: Capital stock and 1st M. 6s, each $2,000,000. The lands and improvements are worth at present market values more than double the amount of the bond issue. Sinking fund, calculated to retire the entire issue before maturity, commences July 1 1916. The lands, beginning in April, will be put into shape for intensive agriculture through the use of two sets of Fowler's steam-plow tackle, effecting in one year's cultivation what could not otherwise be accomplished under three years. Development of the railroad terminals at the westerly approach of the [joint railroad and highway] bridge planned by the Northern Electric Ry. Co., Vallejo & Northern RR. Co., Sacramento & Woodland RR. Co. and Westside RR. Co. will commence coincident with the completion of the bridge this spring. At the same time construction will begin on wharves and warehouses for both railroad and river traffic. E. R. Lilienthal is President and Louis Sloss and E. J. de Sabla Jr., Vice-Presidents

—At the convention of the Associated Advertising Clubs of America held the past week in Dallas, Texas, Harry D. Robbins, Publicity Manager for N. W. Halsey & Co., New York, delivered a strong address before the General Advertisers' Session on "The Publisher's Responsibility to the Advertiser." Mr. Robbins also read the report of the Vigilance Committee, which has done such excellent work in detecting all sorts of fraudulent advertising in periodicals throughout the country.

—Elijah Woodward and J. William Yates Jr. have formed a co-partnership under the firm name of Elijah Woodward & Co., with offices at 43 Exchange Place, N. Y., for the purpose of transacting a general investment business. The new firm has taken over the entire business of the New York office of H. W. Noble & Co. of Detroit, who will co-operate with the New York concern in promoting the exchange of business, the latter continuing to specialize in Detroit securities through them.

—The old established banking firm of E. W. Clark & Co., 321 Chestnut St., Philadelphia, is to-day advertising a select list of cumulative preferred stocks of public utility companies at prices to yield 6 to 6.66% on the investment. The firm's long association with the management of these properties places it in an unusual position to furnish investors with reliable information regarding the progress and future of these companies. See advertisement for details.

—The New York Stock Exchange house of Hirsch, Lilienthal & Co., 115 Broadway, are offering on another page to investors $700,000 Passaic Valley sewer 4% gold bonds, due 1961, issued by the city of Newark, N. J. The bonds are legal for savings banks, trustees and insurance companies in New York, New Jersey, Connecticut and Massachusetts. Price and full particulars will be furnished upon application.

—Bodell & Co., Providence, Boston, &c., have issued a descriptive circular offering pref. shares at prices to yield about the following returns: Ill. Traction, 6¼%; Western Rys. & Lt. Co., 6½%; Federal Lt. & Traction, 7¼%; Republic Ry. & Lt., 7½%. All are described in the "Electric Railway Section."

—Smith, Heck & Co., members of the New York Stock Exchange at 71 Broadway are distributing a daily quotation sheet of all issues of United States Government and New York City bonds free on application. Address the Bond Department. The firm will trade in New York City 4¼s due March 1 1962.

—R. M. Grant & Co., bankers, New York and Chicago, having sold a large part of the bonds, are offering the remainder of $250,000 County of Duval, Fla., road 5% bonds. This county includes within it the City of Jacksonville, the metropolis of the State of Florida.

—The Dominion Securities Corporation, Toronto, Montreal and London, has the June issue of its quarterly bond list, being a pamphlet of some 50 pages and giving the details regarding a number of Canadian Government municipal and corporation securities. Copies may be had on request.

—Redmond & Co. have issued in a small pamphlet a list of railroad bonds legal for investments for savings banks and trust funds under the requirements of the laws of New York State. A copy of the State laws relating to the matter is given.

—Frank A. Sartori, formerly with Sinkler Brothers, has become associated with Morris W. Stroud Jr., 437 Chestnut St., representing William P. Bonbright & Co. of New York.

—Wm. A. Read & Co. are offering the new $300,000 issue of City of Milwaukee 4½% water bonds, due serially 1913-32. Price to net 4.05%.

—George T. Ordway, lately with Tucker, Anthony & Co., has become associated with Bertron, Griscom & Jenks, 40 Wall St.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, May 24 1912.

Better weather has helped general trade. Cotton crop prospects are better. The iron and steel trade is larger; in fact, this industry shows more improvement than any other. On the whole the outlook for the grain crops is more cheerful. Yet it would be idle to ignore the fact that developments in national politics, present and potential, as reflected by the victories of Theodore Roosevelt in various States, are of a kind that must be viewed by the business world of the United States with uneasiness, if not with actual alarm.

LARD on the spot has been quiet and easier; prime Western 10.85c.; Middle Western 10.75c.; City, steam, 10¼c. Refined lard has been quiet; Continent 11.20c.; South American 12c.; Brazil, in kegs, 13c. The speculation in lard futures at the West has been active and at times excited, with sharp fluctuations in prices. At one time there was a marked advance under the stimulus of light receipts of hogs and a sharp upturn in grain. Commission houses bought and shorts covered. On the rise, however, heavy selling by packers and longs occurred and prices reacted.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery	10.75	10.47½	10.67½	10.82½	10.55	10.57½
September delivery	10.90	10.67½	10.87½	11.00	10.75	11.72½

PORK on the spot has been quiet; mess $20 50@$20 75, clear $19@$20 50, family $20 25@$21 25. Beef has ruled quiet; mess $15 50@$16, packet $17@$17 50, family $18@$18 50 and extra India mess $29@$29 50. Cut meats have been steady, with a light trade; pickled hams, 10@20 lbs., 12⅛@13c.; pickled bellies, 6@12 lbs., 11@11⅝c. Butter has been easier on increased receipts; trade quiet; creamery extras 27¼@27½c. Cheese has been quiet and steady; State, whole milk, new white specials, 15½c. Eggs have been quiet; fresh gathered, extras, 21@21½c.

OILS.—Linseed oil has continued firm, owing to a further rise in seed at Duluth; trading has been moderately active, though the bulk of the dealings have been confined to jobbing quantities; City, raw, American seed, 76@77c.; boiled 77@78c.; Calcutta, raw, 85c. Cottonseed has been quiet; winter 7@8c., summer white 7@8c., crude 5.87@6.20c. Cocoanut has been quiet and steady; Cochin 9¾@10c., Ceylon 9@9¼c. China wood oil has been quiet and firm at 10½@11c. Lard has been in light request, but stocks are small and prices have ruled firm; prime 85@88c. Corn has been firm with a good demand at 6.25@6.30c. Cod has been quiet and steady; domestic 52@53c.

COFFEE on the spot has been quiet; Rio No. 7, 14¼c.; Santos No. 4, 15½@16c. West India growths have been quiet and steady; fair to good Cucuta 16@16¼c. The speculation in futures has been active at times, though of late the trading has been quiet. Early in the week prices fell, owing to heavy selling due to the action of the United States Government in regard to the valorization scheme and the continued dullness on the spot. On the decline leading interests gave aggressive support, causing a rally. Closing prices were as follows:

January 13.59@13.61	May 13.30@13.32	September 13.59@13.60
February 13.55@13.57	June 13.35@13.37	October 13.59@13.61
March 13.61@13.62	July 13.39@13.40	November 13.59@13.61
April 13.61@13.62	August 13.49@13.50	December 13.60@13.61

SUGAR.—Raw has been quiet. Centrifugal, 96 degrees test, 3.92c.; muscovado, 89 degrees test. 3.42c.; molasses, 89 degrees test, 3.17c. The visible supply in the world is stated at 2,560,000 tons or 320,000 tons less than at this time last year. Grinding in Cuba has been interfered with by political disturbances and heavy rains. Refined has been quiet; fine granulated 5@5.10c.

PETROLEUM.—Refined continues to meet with an active demand from consumers at home and abroad and the market remains in a very firm position; the exports for the fiscal year thus far are well ahead of those for the same time last year; barrels 8.60c.; bulk 5c.; cases 10.50c. Crude continues strong. Quotations for gasoline for export have been withdrawn. Naphtha is active and firm; 73@76 degrees in 100-gallon drums 20c.; drums $8 50 extra.

TOBACCO.—There has been no essential change in the market for domestic leaf during the week. Buying continues on a hand-to-mouth scale, despite the belief among dealers that manufacturers are poorly supplied with leaf. The prevailing tone, however, continues firm, especially for binder, which is in light supply. Sumatra is moving more freely, the high prices current being offset by the fine quality of the leaf, which manufacturers appear to regard as an inducement to buy. Cuban leaf is selling slowly, but prices continue firm.

COPPER has been in larger demand and firmer; lake, spot and near-by, 16½@16⅝c.; electrolytic, spot and near-by, 16½c.; most speculative lots which have been pressing upon the market have been taken. Tin on the spot has been quiet and easier at 45½c. Lead has been in moderate demand and firmer on the spot at 4.07½c. Spelter has been quiet and firmer; spot 6.85c. Pig iron has been firm, though quiet; No. 1 Northern $15 50@$15 75, No. 2 Southern $15@$15 50. Trade in finished and semi-finished steel has been more active. Contracts for some 40,000 tons of steel rails have been placed by the Harriman lines. Another company has purchased 18,000 tons. Boiler steel has been active at an advance.

COTTON.

Friday Night, May 24 1912.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 43,902 bales, against 42,610 bales last week and 56,517 bales the previous week, making the total receipts since Sept. 1 1911 11,271,379 bales, against 8,258,103 bales for the same period of 1910-11, showing an increase since Sept. 1 1911 of 3,013,276 bales.

Speculation in cotton for future delivery has been less active and prices have been irregular. The market movements have been indecisive and uncertain much of the time, but the close is at a small net decline for the week. On the whole prices have been pretty well sustained. Yet the weather has been better. The weekly weather report, though not in all respects quite as favorable as was expected, especially as to temperatures, which in some sections were rather too low, was yet in the main encouraging. Certainly it showed that in the cotton belt the much-needed dry weather was the rule, and, while the week as a whole was cool for the season, dry weather permitted much outdoor work. The spot markets at the South, too, have been reported less active. Manchester's advices as to new business have not been very encouraging. They have reported trade quiet and yarns rather easier. Cold, unseasonable weather has hurt the business in cotton goods in this country. Events in the domain of national politics, it is feared, may have some effect on general trade, from which the textile industries may not wholly escape. Many believe that the present prices for raw cotton offset all bullish conditions, or what may be regarded as such by any stretch of reasoning. Opinions differ as to how much cotton will be carried over to the season of 1912-13, but some believe the quantity will be very large—not impossibly 2,000,000 to 2,500,000 bales, which would go far towards making good any probable decrease in the next crop. But the belief is quite general that the next crop is going to be a moderate one. Just how much smaller it is to be than the last one, if it is to be smaller, is, of course, a matter of mere conjecture. But that it is to be smaller, and in all likelihood much smaller, is a belief very widely received. It is based on the lateness of the season, the floods retarding germination, and in some sections a reduction of the acreage. On June 4 the Bureau of Agriculture at Washington will issue a report on the condition. Congress has made that certain, and also a report on the acreage on July 1. In the June report of last year the condition was put by the Bureau at 87.8%. What about this year? Guesses are ventured as low as 70%. In June 1907 it was 70.5. The crop that year was a little under 11,500,000 bales on an acreage over 3,000,000 acres smaller than the corrected Bureau acreage figures for last year. It is very possible that the pessimists are expecting too much of the next Bureau report. It may not dispose of the cotton crop in any such summary fashion. But it may as well be recognized that the general opinion here is that it will be bullish. The only question is whether it has been discounted or not. Wall Street bulls have bought. Waldorf bears have covered. New Orleans, Memphis and the South generally and Liverpool have all sent buying orders. The spot business at Liverpool has increased. European shorts have been covering there. There is a wide and a more healthy difference between New York and Liverpool prices. To-day prices advanced, owing to a fear that the forthcoming report by the National Ginners' Association will be bullish. There was buying by influential interests. Spot cotton closed at 11.60c. for middling uplands, a decline for the week f 5 points.

The rates on and off middling, as established Nov. 15 1911 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 1.75 on	Middling	c. Basis	Good mid. tinged	c. Even
Strict mid. fair	1.50 on	Strict low mid	0.35 off	Strict mid. tinged	0.15 off
Middling fair	1.30 on	Low middling	0.80 off	Middling tinged	0.30 off
Strict good mid	0.80 on	Strict good ord	1.40 off	Strict low mid. ting.	0.80 off

The above totals show that the interior stocks have *decreased* during the week 19,816 bales and are to-night 5,247 bales more than at the same time last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	1911-12 Week.	1911-12 Since Sept. 1.	1910-11 Week.	1910-11 Since Sept. 1.
May 24—				
Shipped—				
Via St. Louis	6,237	614,829	4,554	495,329
Via Cairo	1,085	61,803	2,220	202,571
Via Rock Island	----	8,347	----	25,957
Via Louisville	2,704	160,284	2,513	126,974
Via Cincinnati	2,659	118,523	578	76,918
Via Virginia points	2,438	186,614	1,192	169,906
Via other routes, &c.	5,143	437,759	973	163,876
Total gross overland	20,266	1,588,159	12,030	1,261,531
Deduct Shipments—				
Overland to N. Y., Boston, &c.	3,043	189,169	2,272	158,920
Between interior towns	1,027	98,558	498	59,624
Inland, &c., from South	921	66,499	1,689	46,353
Total to be deducted	4,991	354,226	4,459	264,897
Leaving total net overland*	15,275	1,233,933	7,571	996,634

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 15,275 bales, against 7,571 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 237,299 bales.

In Sight and Spinners' Takings.	1911-12 Week.	1911-12 Since Sept. 1.	1910-11 Week.	1910-11 Since Sept. 1.

MISSISSIPPI FLOOD.—A considerable improvement in the flood situation is indicated by the reports received to-night. It is true that a further break occurred near Melville, La., on Sunday morning, but generally the water in the valley is now falling and at some points where it has receded enough cotton-planting is already in progress.

OUR COTTON ACREAGE REPORT.—Our cotton acreage report will probably be ready about June 19. Parties desiring the circular in quantities with their business cards printed thereon should send in their orders as soon as possible to ensure early delivery.

EGYPTIAN COTTON CROP.—The resume of the first reports on the Egyptian cotton crop for the season 1912-13, as received by the Alexandria General Produce Association, is as follows:

In Lower Egypt good weather has favored the sowings, which are now finished with but few exceptions. Under the influence of favorable temperatures the young plants have developed well; they present a healthy and vigorous aspect and are in advance by 15 to 20 days as compared with last year. The total area sown with cotton appears to be somewhat larger than last year. In Upper Egypt and the Fayoum the sowings have beenalso made under normal conditions, and are now everywhere finished. Nothing has happened to retard the development of theplants, which present a good appearance. The area sown is larger than last year.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening are on the whole of a quite favorable tenor. Dry weather has prevailed almost everywhere, and the crop is doing well generally. Texas reports indicate that cotton is up to a fine stand throughout the State. The Mississippi River is falling rapidly and planting is being pushed as fast as the water leaves the overflowed lands.

Galveston, Tex.—No rain has occurred in Texas during the week. Weather conditions are just as needed for cotton which is reported up to fine stands throughout the State. Average thermometer 76, highest 82, lowest 70.

Abilene, Tex.—Minimum thermometer 62.

Brenham, Tex.—The thermometer has averaged 74, ranging from 58 to 90.

Cuero, Tex.—The thermometer has ranged from 58 to 92, averaging 75.

Dallas, Tex.—Average thermometer 71, highest 90, lowest 52.

Henrietta, Tex.—The thermometer has averaged 73, the highest being 94, and the lowest 52.

Huntsville, Tex.—The thermometer has averaged 71, ranging from 52 to 90.

Kerrville, Tex.—Average thermometer 75, highest 90, lowest 60.

Lampassas, Tex.—Thermometer has averaged 72, the highest being 94 and the lowest 50.

Longview, Tex.—The thermometer has averaged 71, ranging from 50 to 92.

Luling, Tex.—Thermometer has ranged from 60 to 94, averaging 77.

Nacogdoches, Tex.—Average thermometer 68, highest 84, lowest 52.

Palestine, Tex.—The thermometer has averaged 73, the highest being 88 and the lowest 58.

Paris, Tex.—The thermometer has averaged 69, ranging from 50 to 88.

San Antonio, Tex.—The thermometer has ranged from 62 to 92, averaging 77.

Taylor, Tex.—Minimum thermometer 58.

Weatherford, Tex.—The thermometer has averaged 73, the highest being 90 and the lowest 56.

Ardmore, Okla.—There has been no rain during the week. The thermometer has averaged 75, ranging from 60 to 91.

Marlow, Okla.—It has been dry all the week. The thermometer has ranged from 53 to 93, averaging 72.

Tulsa, Okla.—Dry all the week. Average thermometer 73, highest 87, lowest 58.

Alexandria, La.—We have had no rain the past week. The thermometer has averaged 72, ranging from 51 to 92.

New Orleans, La.—It has rained on three days during the week, the preciptiation being three inches and forty-one hundredths. The thermometer has averaged 75, ranging from 52 to 88.

Shreveport, La.—It has been dry all the week. The thermometer has ranged from 56 to 90,averaging 73.

Eldorado, Ark.—Dry all the week. Average thermometer 70, highest 89, lowest 50.

Helena, Ark.—Crops are doing well, but begin to need rain. The river is falling rapidly. Dry back of levees, but still overflowed outside. No rain the past week. The thermometer has averaged 70.5, the highest being 88 and the lowest 48.

Little Rock, Ark.—We have had no rain during the week. The thermometer has averaged 70, ranging from 54 to 86.

Columbus, Miss.—It has been dry all week. The thermometer has ranged from 48 to 94, averaging 71.

Meridian, Miss.—There has been no rain the past week. Average thermometer 68, highest 88 and lowest 48.

Vicksburg, Miss.—Dry all the week. The thermometer has averaged 72, the highest being 85 and the lowest 53.

Dyersburg, Tenn.—Dry all the week. The thermometer has averaged 70, ranging from 51 to 90.

Memphis, Tenn.—Cotton is coming up to good stands. The river is below the flood stage and planting is being rushed as water leaves overflowed lands. There has been no rain during the week. Thermometer has ranged from 53 to 85, averaging 70.

Nashville, Tenn.—We have had no rain the past week. Average thermometer 67, highest 88, lowest 46.

Mobile, Ala.—Weather is very favorbale and crops are doing finely on uplands. Plowing is well under way in bottoms and a small per centage has been planted. There has been no rain the past week. The thermometer has averaged 73, the highest being 87 and the lowest 76.

Montgomery, Ala.—Warm and dry all the week. The thermometer has averaged 70, ranging from 52 to 87.

Selma, Ala.—Stands are good but sandy lands and stiff lands need rain to aid germination. It has been dry all the week. The thermometer has ranged from 52 to 89, averaging 71.5.

Madison, Fla.—Favorable weather has somewhat improved prospects, but most crops are still choked with grass and plants are very small. We have had rain on two days of the past week, the rainfall being nine hundredths of an inch. Average thermometer 73, highest 90, lowest 56.

Gainesville, Fla.—There has been rain on two days during the week, to the extent of twenty-two hundredths of an inch The thermometer has averaged 76, the highest being 93 and the lowest 59.

Tallahassee, Fla.—We have had no rain during the week. Thermometer has averaged 73, ranging from 57 to 90.

Augusta, Ga.—We have had light rain on two days the past week, the rainfall being twenty-nine hundredths of an inch. Thermometer has ranged from 55 to 86, averaging 70.

Savannah, Ga.—Week's rainfall, eighty-three hundredths of an inch, on three days. Average thermometer 70, highest 82, lowest 58.

Washington, Ga.—Dry all the week. The thermometer has averaged 72, the highest being 92 and the lowest 52.

Charleston, S. C.—We have had rain on three days during the week, the rainfall being one inch and twenty-one hundredths. Thermometer has averaged 72, ranging from 61 to 83.

Greenville, S. C.—There has been no rain during the week. Thermometer has ranged from 45 to 91, averaging 68.

Spartanburg, S. C.—There has been no rain the past week. Average thermometer 68, highest 90, lowest 47.

Charlotte, N. C.—The week's rainfall has been nine hundredths of an inch, on one day. The thermometer has averaged 67, highest being 83 and lowest 51.

Greensboro, N. C.—Dry all the week. The thermometer has averaged 66, ranging from 48 to 84.

Raleigh, N. C.—There has been no rain during the week. The thermometer has ranged from 50 to 86, averaging 68.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for yarns and steady for shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Boston and Alexandria, we now receive a weekly cable of the movement of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, May 22.	1911-12.	1910-11.	1909-10.
Receipts (cantars)—			
This week	15,000	13,000	6,000
Since Sept. 1	7,217,863	7,513,240	4,887,483

Exports (bales)—	This Week.	Since Sept. 1.	This Week.	Since Sept. 1.	This Week.	Since Sept. 1.
To Liverpool	2,500	186,441	2,250	201,778	----	143,731
To Manchester	----	210,971	4,250	205,743	1,750	116,626
To Continent	6,000	330,974	3,500	362,588	2,500	273,537
To America	1,250	100,738	3,000	112,839	----	58,604
Total exports	9,750	829,124	13,000	882,948	4,250	592,498

The statement shows that the receipts for the week were 15,000 cantars and the foreign shipments 9,750 bales.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 61,456 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool—May 17—Carmania, 150 upland, 70 Sea Island	220
To London—May 17—Minnewaska, 170	170
To Bremen—May 17—George Washington, 100...May 22—Barbarossa, 550	650
To Hamburg—May 17—President Grant, 640...May 22—Pennsylvania, 201	841
To Rotterdam—May 23—Birma, 50	50
To Antwerp—May 17—Lapland, 150	150
To Genoa—May 17—Italia, 250	250
To Leghorn—May 17—Italia, 355	355
To Venice—May 22—Oceania, 220	220
To Piraeus—May 20—Themistocles, 159	159
To Japan—May 18—Indradeo, 525	525
To China—May 18—Indradeo, 54	54
GALVESTON—To Liverpool—May 20—Median, 4,880	4,880
To Manchester—May 17—Asuncion de Larrinaga, 12,462	12,462
To Havre—May 22—Sheila, 5,438	5,438
To Hamburg—May 22—Ilford, 4,068	4,068
To Barcelona—May 22—Lodovica, 5,778	5,778
To Trieste—May 22—Lodovica, 100	100
To Venice—May 22—Lodovica, 124	124
NEW ORLEANS—To Liverpool—May 23—Wayfarer, 2,000	2,000
To Rotterdam—May 18—Adelheid Menzell, 485...May 21—Lord Erne, 367	852
To Genoa—May 22—Monginevro, 2,900	2,900
SAVANNAH—To Bremen—May 17—Polamhall, 5,005...May 21—Southport, 3,677	8,682
To Hamburg—May 17—Polamhall, 160	160
To Rotterdam—May 21—Southport, 200	200
NORFOLK—To Liverpool—May 21—Iowa, 1,297	1,297
To Hamburg—May 17—Bethania, 379	379
BOSTON—To Liverpool—May 18—Devonian, 1,680...May 22—Cymric, 228	1,908
To Manchester—May 21—Iberian, 99	99
To Genoa—May 18—Cretic, 450	450
BALTIMORE—To Bremen—May 16—Germanicus, 992...May 18 Chemnitz, 1,899	2,891
PHILADELPHIA—To Rotterdam—May 17—Zaandyk, 176	176
SAN FRANCISCO—To Japan—May 18—Shinyo Maru, 1 827	1,827
SEATTLE—To Japan—May 21—Sanuki Maru, 984	984
To China—May 21—Sanuki Maru, 157	157
Total	61,456

LIVERPOOL.—By cable from Liverpool we have the following statement of the week's sales, stocks, &c., at that port:

	May 3.	May 10.	May 17.	May 24.
Sales of the week ..... bales.	55,000	55,000	47,000	39,000
Of which speculators took	5,000	2,000	1,000	2,000
Of which exporters took	2,000	1,000	1,000	2,000
Sales, American	48,000	48,000	41,000	35,000
Actual export	16,000	19,000	11,000	1,000
Forwarded	108,000	106,000	75,000	63,000
Total stock—Estimated	1,355,000	1,316,000	1,259,000	1,266,000
Of which American	1,242,000	1,210,000	1,145,000	1,152,000
Total imports of the week	110,000	84,000	27,000	72,000
Of which American	90,000	71,000	11,000	59,000
Amount afloat	204,000	171,000	173,000	128,000
Of which American	158,000	126,000	135,000	99,000

The tone of the Liverpool market for spots and futures each day of the past week and the daily closing prices of spot cotton have been as follows:

Spot.	Saturday.	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.
Market, 12:15 P. M.	Quiet.	Fair business doing.	Good demand.	Good demand.	Easier.	Fair business doing.
Mid. Upl'ds	6.48	6.41	6.41	6.45	6.42	6.36
Sales	5,000	8,000	10,000	10,000	8,000	8,000
Spec. & exp.	500	500	1,000	500	800	1,000
Futures. Market opened	Steady at 2@2½ pts. advance.	Steady at 8½ pts. decline.	Steady at 2½@3 pts. advance.	Steady at 4½@6 pts. advance.	Quiet unch. to ½ pt. decline.	Steady at 3½@4½ pts. dec.
Market, 4 P. M.	Quiet at 2@2½ pts. advance.	Steady at 8½@10½ pts. dec.	Steady at 1@3½ pts. advance.	Steady at 4@5½ pts. advance.	Dull at 2½@3½ pts. dec.	Steady at 1@1½ pts. advance.

The prices of futures at Liverpool for each day are given below. Prices are on the basis of upland, good ordinary clause, unless otherwise stated.

The prices are given in pence and 100ths. Thus, 6 26 means 6 26-100d.

BREADSTUFFS.

Friday Night, May 24 1912.

Flour has been in moderate demand at steady quotations. Buyers adhere persistently to the policy of buying as only their immediate wants demand. This they have done, as everybody knows, for months past. They simply show no disposition to buy on a larger scale. It is also of interest to remark that the output of Western mills, that is to say, of those at Minneapolis, Duluth and Milwaukee, last week was 260,585 bbls., against 306,435 bbls. in the previous week and 294,035 bbls. for the same week last year. Here is a considerable decrease in the output. Yet at Chicago there has been a better business in flour, and some of the mills have been said to be sold ahead there up to July 1. In fact, Chicago's flour sales this week are said to have been the largest for six months past. The Northwestern capacity in operation th s week is about the same, and the output is not expected to show much increase. Sales by Minneapolis mills last week, it is stated, were even smaller than the preceding week, and business very dull. sales not exceeding 75% of the output. Some mills, it is added, did not sell 50% of their output. Prices were too high for export business.

Wheat was easier early in the week, but later on became stronger. It was found that the market had become oversold. There was a large decrease in the world's visible supply. The falling off amounted to 4,716,000 bushels, against an increase for the same week last year of 3,036,000 bushels. There was heavy covering of shorts. Flour sales in Chicago have greatly increased. The receipts and stocks of wheat have been falling off at a rate which has attracted considerable attention. Some bad crop reports have come from parts of Missouri, Indiana, Nebraska and Kansas, owing to hot winds. World's stocks are now 172,089,000 bushels, being 28,000,000 less than a year ago and 46,000,000 less than two years ago. Contract stocks at Chicago fell off for the week 600,000 bushels. Foreign markets, on the whole, have showed some advance of late. The cash demand at Chicago has latterly increased. Bulls stick to it that the winter-wheat crop is going to be decidedly smaller than that of last year. On the other hand, some of the crop reports from the hard winter-wheat States have recently been more favorable. Whereas, the Government figures recently pointed to a yield of winter-wheat amounting to only 370,000,000 bushels, private statisticians in some cases put it at 400,000,000 bushels, as against 430,000,000 last year. Reports from parts of France and Russia are somewhat more favorable. Large Chicago interests have been selling May. Commission houses have sold the distant futures. The weather, as a rule, has been favorable. Early in the week, when the market sold off, a good many stop orders were caught. The price of No. 2 red is still 24c. higher than a year ago. In the spring-wheat belt the weather has been exceptionally favorable as far as the more westerly States are concerned. In States more to the east the weather has been cold and unfavorable. To-day prices advanced slightly and then re-acted. The weather was favorable. Less was heard about high winds, hot winds and dust storms in Kansas and Nebraska.

September delivery	103⅞	102⅝	103⅜	105½	104⅞	104⅜

Indian corn, like wheat, declined early in the week and then turned upward. Covering of shorts in May and the distant months had much to do with the rally. There has been an especially good demand for December. Of late cash prices have risen sharply. The receipts have fallen off to a comparatively small total. The weather at times has not been very favorable. That is to say, while to the westward of the Mississippi it has at times been good at other times, it has been cold, too cold in fact, and with considerable rain farm work has been delayed. Southward of the Ohio River there was less rainfall and the weather on the whole more favorable. Of late, shorts and cash buyers have been good buyers. The technical position has been more favorable. The short interest on the recent decline was large and long liquidation drastic. Delayed seeding pretty much all over the corn belt and reports of poor germination have been among the factors which have contributed to the advance. To-day prices advanced in sympathy with wheat and also on reports of bad weather, but receded later, owing to liquidation and the influence of a reaction in wheat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

July delivery in elevator	74⅝	73¾	74¾	77	76⅛	76½
September delivery in elevator	72⅝	71¾	72¾	74	73¾	74

Oats have latterly advanced because of an oversold condition of the market. Shorts have covered a large quantity. Leading interests at Chicago have been buyers. Cash prices have risen on a good demand. The shipping demand at Chicago has improved. Crop reports have been less favorable from the Southwest and also from Illinois. Early in he week, it is true, the market was raided by big interests at Chicago and a good many small holders were forced out. The market is largely a weather affair and must continue so for some time to come. To-day prices advanced, but reacted with other grain later. Big operators are on opposite sides ofthe market in Chicago.

THE DRY GOODS TRADE.

New York, Friday Night, May 24 1912.

As a result of the warmer weather, the dry goods business has improved considerably during the week. Mail orders received by jobbers have increased in number and retailers have moved more goods than for some time past. It will take two or three weeks of real warm weather, however, to put the demand upon a normal basis. At present, while a fair amount of business is being placed, the majority of requests are for the prompt shipment of goods already on order. Most of the buying is by small retailers, who are taking cotton wash fabrics, silks, lightweight hosiery and underwear. The larger retailers are sufficiently well covered to carry them through a week or so of warm weather. In the prmary market for cotton goods things are quiet with jobbers calling for brown and bleached goods upon a moderate scale. They are watching the situation closely and moving slowly on forward business, preferring to await greater activity in retail quarters. In print cloths offers are being received at prices a shade under present quotations and in a few scattered instances these have been accepted. The majority of the mills are refusing to accept orders except at full values. An easier tendency in raw cotton as well as slight recessions in gray goods are leading buyers to look for some shading of the price of finished goods. The yarn situation is decidedly firm desp te the fact that individual orders are small and not over numerous. Weavers are in the market quite frequently and would, no doubt, place substantial orders could concessions be obtained. Commission houses are firm in their prices, however, and weavers are compelled to cover near-by requirements at full market values. High prices are still restricting the buying for export account and the easier cotton market is causing buyers to be more determined in requesting lower prices. Prices are likely to continue firm, however, as the majority of mills are sold up through July and August and are independent of any temporary fluctuation in the market for raw material. But little business has been received from China and the outlook from this quarter continues discouraging. Some business is reported for Red Sea account but this is largely against old orders.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 18 were 8,862 packages, valued at $598,828, their destination being to the points specified in the table below:

New York to May 18—	1912 Week.	1912 Since Jan. 1.	1911 Week.	1911 Since Jan. 1.
Great Britain	55	1,725	12	335
Other Europe	19	721	35	442
China	---	39,509	5,506	30,202
India	52	9,185	---	13,188
Arabia	2,360	28,713	---	8,512
Africa	1,004	8,728	129	2,817
West Indies	812	21,529	550	15,903
Mexico	62	1,445	52	969
Central America	645	7,949	801	7,548
South America	917	30,787	2,118	25,964
Other countries	2,936	29,788	1,731	16,142
Total	8,862	180,079	10,934	122,022

The value of these New York exports since Jan. 1 has been $12,002,302 in 1912, against $9,004,171 in 1911.

Steadiness has prevailed in domestic cotton markets during the past week, and while not active, demand showed improvement, duplicate orders for quick shipment being more numerous. It is not expected, however, that any great amount of activity will develop until retailers have had opportunity to dispose of summer merchandise, which trade is expected to broaden as a result of improved weather. In markets for fine goods offerings of staples for spot and nearby delivery are freer, and it is stated that manufacturers are making more goods than buyers want, notwithstanding the fact that prices are tempting. In the markets for coarser lines, such as drills, sheetings, and other miscellaneous products, the undertone is steady, although in some instances there is a willingness to accept business for late delivery at slight concessions. Heavy colored cloths and duck are meeting with steady demand. Dress ginghams rule quiet, the same conditions being true of percales, while wash goods are being taken in a moderate way. Reports from salesmen who are out on the road with different lines of prints and dress cottons and other merchandise for fall use vary, some reporting a good business and others not, although the aggregate of orders for the week are said to exceed those for the corresponding time a year ago. Many duplicate orders have been received for napped cottons and have been refused, owing to the inability of manufacturers to make deliveries at the time requested. Little improvement is noted in the demand for print cloths and convertibles, which continues quiet. The general undertone is easier. Gray goods, 38½-inch standard, are quoted 5 to 5⅛c.

WOOLEN GOODS.—Men's wear and dress goods markets are in a strong position as a good volume of business has been booked for very distant deliveries. Advances of 7½c above opening fall quotations were obtained on orders for dress goods September -October shipment. In the men's wear department serges are in principal demand with considerable interest displayed by clothing manufacturers in materials for the spring season 1913.

FOREIGN DRY GOODS.—Improved weather conditions stimulated the demand for spot linens during the past week and holders of dress goods have been favored with a good trade. Colored dress linens and crashes appear to be most wanted, pure white dress fabrics ruling quiet. Many of the most popular shades of the colored dress linens are becoming scarce. Household goods have sold well. Nothing new of interest has developed in the market for burlaps, business continuing moderately active in both spots and futures. Prices are steady and unchanged with light-weights quoted at 5.85c and 10½ ounce at 7.00c.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending May 18 1912 and since Jan. 1 1912, and for the corresponding periods of last year, were as follows:

Elizabeth, N. J.—*Vote on Commission Form of Government.*—As stated last week, the election held May 14 resulted in the defeat of the commission form of government. We are now advised that the vote was 2,829 "for" to 4,289 "against."

Louisiana.—*Governor Urges Legislature To Take Action To Relieve Flood Sufferers.*—In a message to the Legislature on May 16 Governor Sanders urged that body to take some action to relieve the overflowed farm lands of the State from taxation for the present year. The Governor's message in full is as follows:

To the Honorable Members of the Senate and of the House of Representatives of the State of Louisiana:

Gentlemen—As indicated in my biennial message to the General Assembly, I have the honor to herewith submit to you a special message on the subject of levees and the present flood situation.

The State of Louisiana has 1,636.5 miles of levees in Louisiana and Arkansas for the protection of Louisiana lands. During this administration there has been constructed by the state and the levee districts 149.14 miles of new levees, and there has been raised and enlarged 176.73 miles, involving a total of 20,659,980 cubic yards of earthwork at a total cost of $4,925,483.38. During the same period the United States Government constructed 26.34 miles and raised and enlarged 80.83 miles, being a total of 7,412,812 cubic yards of earthwork at a cost of $1,640,406.66. There have been five breaks in the levee during the present unprecedented high water. Four of these breaks have been in the levee system under the control of the State Board of Engineers, and have been attended with great disaster to our people in the destruction of property and in the loss of a livelihood for the present. Notwithstanding these breaks in our levees, it is a splendid tribute to the levee system that there have not been more, considering the fact that the water has been some three feet higher than ever before, and while at its highest stage we were visited by storms and rains of such terrific nature that it looked for a while as if the situation was hopeless. Too much credit cannot be given to the State Board of Engineers, the Board of Control of the State Penitentiary, the students of the Louisiana State University, the farmers, planters and citizens as a whole, for the gallant and magnificent fight that has been made to hold the levees. The resources of the Penitentiary have been taxed to the utmost to assist in this work. The situation in several of our alluvial parishes is dark and gloomy and deserves consideration and attention at your hands, in order that something can be done, in some way at least, to ameliorate conditions.

I would therefore recommend that some action be taken by the General Assembly which would, in a great measure at least, relieve the overflowed farm lands of the State from taxation for the present year.

In the guarding of convicts and patroling the levees we have been compelled to use the State National Guard, and, therefore, have drawn very heavily upon the militia fund. The National Guard has done splendid work —both officers and men—not only in patrolling and guarding, but also in the relief work and in the saving of life and property.

The United States Government, through both the army and the Mississippi River Commission, has been most generous and active in alleviating the suffering among the refugees. The officers detailed for this work have been untiring and unflagging in their efforts to relieve distress and in preventing the loss of life. They are a splendid set of men and a credit to our army.

Conditions have been very grossly exaggerated in many of the Northern and Western papers, and in some sections of the Union the impression has gone broadcast that the entire State of Louisiana is inundated. Of the 28,000,000 acres of land in the State, there are over 17,000,000 acres that never have been overflowed and are not even embraced in levee districts. Of the 11,000,000 acres protected by our levee system, there are at present approximately 2,500,000 acres overflowed. Of this overflowed acreage, there are approximately 850,000 acres which were under cutivation. In the overflowed terrritory there will possibly be some hundred thousand people more or less destitute who will need assistance in the way of rations or a means to earn a livelihood. The resources of the State and of the several levee districts in the State have been taxed to the utmost, and the citizens of Louisiana and of other States have responded most generously in material contributions for the relief work. It will be necessary for the General Assembly to appropriate a sufficient sum of money to take care of the bills contracted, and which will be contracted, in this work. It is absolutely impossible at this time to give any definite figure as to what will be neded. As a further means looking toward the relief and aid of the people in the flooded areas I would suggest that a fund be provided for the purchase and distribution of seed, and in this way assist these people to raise a crop of some kind this year after the flood waters have receded.

The present flood situation has aroused a sentiment in this country for national aid and control of our levees and waterways such as there has never been before. The injustice of our having to take care of the flood waters of thirty-one States has appealed to the thinking people of this country, and, in my opinion, has gone very far towards crystallizing a sentiment for Federal aid and control that I hope will ultimately bring about its realization and consummation. Respectfully,

J. Y. SANDERS, *Governor.*

Massachusetts.—*Savings Bank Investment Law Amended.*—The Governor on May 11 signed Senate Bill No. 467 amending the law regulating savings bank investments so as to provide a wider field from which banks may select State and municipal bonds. The new law will take effect July 1. Under the present statute, banks are permitted to invest in bonds of the New England States and the States of New York, Pennsylvania, Ohio, Illinois, Indiana, Michigan, Wisconsin, Minnesota, Missouri and Iowa and the District of Columbia. The new law provides that after July 1 banks may also invest in bonds issued by the States of California, Delaware, Nebraska, New Jersey, Oregon and Washington. As regards municipal issues, investments may now be made in bonds issued by cities of any of the New England States or the States of Maryland, Kentucky, New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Missouri and Iowa and the District of Columbia, having a population of over 200,000 and a net debt of not exceeding 7% of the assessed valuation. The law just enacted changes the requirement as to population from "over 200,000" to "over 100,000," and adds to the list of permissible investments bonds issued by cities of the class mentioned in the States of California, Delaware, Nebraska, New Jersey, Oregon and Washington. The bill in full is as follows:

AN ACT RELATIVE TO INVESTMENTS BY SAVINGS BANKS AND INSTITUTIONS FOR SAVINGS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Section 1. The second clause of Section 68 of Chapter 590 of the Acts of 1908 is hereby amended by striking out all of subdivision (*e*) and inserting in place thereof the following:

(*e*) In the legally authorized bonds of the States of New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Missouri and Iowa, and of the District of Columbia, and in the legally authorized bonds for municipal purposes, and in the refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the aforesaid States which has at the date of such investment more than 30,000 inhabitants, as established by the last national or State census, or city census certified to by the City Clerk or Treasurer of said city and taken in the same manner as a national or State census, preceding such investment, and whose net indebtedness does not exceed 5% of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property therein for the assessment of taxes.

(*f*) In the legally authorized bonds of the States of California, Delaware, Nebraska, New Jersey, Oregon and Washington, and in the legally authorized bonds for municipal purposes or in refunding bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the States of California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Massachusetts, Maine, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Washington and Wisconsin, which has at the date of such investment more than 100,000 inhabitants, established in the same manner as is provided in subdivision (*e*) of this clause, and whose net indebtedness does not exceed 7% of the valuation of the taxable property therein, established and ascertained as provided in subdivision (*e*) of this clause.

(*g*) In subdivisions (*d*), (*e*) and (*f*) of this clause the words "net indebtedness" mean the indebtedness of a county, city, town or district, omitting debts created for supplying the inhabitants with water and debts created in anticipation of taxes to be paid within one year, and deducting the amount of sinking funds available for the payment of the indebtedness included.

Section 2. This Act shall take effect upon the first day of July in the year 1912.

Legislature Adopts Constitutional Amendment Providing for Direct Election of U. S. Senators.—The proposed amendment to the Federal Constitution providing forthe direct election of U. S. Senators recently passed by Congress has been ratified by the Legislature of the State of Massachusetts. A resolution to this effect was passed in the House on May 17 and in the Senate on May 22., the vote in both branches being unanimous.

Minnesota.—*Special Session of Legislature.*—Governor Eberhart has announced that he will convene the Legislature in special session June 4 to consider the enactment of a state-wide primary law.

Philippine Islands.—*Lower House of Congress Passes Bill Restricting Sale of Friar Lands.*—On May 22 the House of Representatives in Congress passed a bill forbidding the sale of friar lands in the Phillippine Islands to corporations in larger quantities than 2,500 acres and to individuals in larger tracts than 40 acres. The measure is said to make the status of these lands the same as that of the public lands and allows the Philippine Legislature to change the areas in special cases, provided it has the consent of the President. The lands (comprising 400,000 acres of which it is reported about 150,000 remains) were bought from religious orders and it had been held that they were not subject to the restrictions of the land laws.

United States.—*Committee Reports on Lorimer Election Presented to Senate.*—The committee which has been conducting the second investigation of the charges of bribery in connection with the election of William Lorimer, Republican Senator from Illinois, presented two reports to the U. S. Senate on May 20. The majority report, which is signed by Senators Dillingham of Vermont, Chairman; Gamble of South Dakota, Jones of Washington, Republicans; and Johnson of Alabama, and Fletcher of Florida, Democrats, exonerates Mr. Lorimer, while the minority report signed by Senators Lea of Tennessee, Kern of Indiana, Democrats; and Kenyon of Iowa, Republican, declares that corrupt methods and practices were employed in his election.

The majority report says in part:

"There is absolutely no evidence in all the testimony submitted intimating, suggesting or charging that William Lorimer was personally guilty of any corrupt practices to secure his election or that he had any knowledge of any such corrupt practices or that he authorized any one to employ corrupt practices in his election.

"We are convinced that no vote was secured for him by bribery; that whatever money White, Beckenmeyer, Link, Holtslaw or any other person received was not paid to him or them by any one on Mr. Lorimer's behalf or in consideration of or to secure such vote or votes for him; that neither Edward Hines nor any one else raised or contributed to a fund to be used to secure his election; that his election was the logical result of existing political conditions in the State of Illinois and was free from any corrupt practice and therefore we must find, and we do find, that William Lorimer's election was not brought about or influenced by corrupt methods and practices."

"One of the chief desires of Mr. Lorimer was that Gov. Deneen should be elected United States Senator, and it was not until Deneen positively declined, for reasons clearly appearing in this record, to become a candidate, and until the deadlock had extended over a period of practically four months, and not until three members of Gov. Deneen's military staff, personal and political friends of his, had urged and importuned him to permit his name to be used in connection with the senatorship, and Gov. Deneen likewise personally had urged him, that Mr. Lorimer seriously considered the proposition."

The minority report says:

"Believing that the confessions of members of the Legislature, strengthened by corroborating circumstances and by other evidence relating to members of the Legislature who did not confess, established conclusively not only that not at least ten votes were purchased for the purpose of electing William Lorimer to the Senate but that the record reeks and teems with evidence of a general scheme of corruption, we have no hesitancy in stating that the investigation establishes beyond contradiction that the election of William Lorimer was obtained by corrupt means, was therefore invalid and we all submit the following resolution:

Resolved, That corrupt methods and practices were employed in the election of William Lorimer to the Senate of the United States from the State of Illinois and that his election was therefore invalid."

Bond Calls and Redemptions.

De Soto, Jefferson County, Mo.—*Bond Call.*—Waterworks 4% bonds Nos. 78, 80, 81, 82, 83 and 89 for $500 each, dated May 20 1904, were called for payment May 20 1912.

Frankfort-on-Main.—*Bonds Drawn for Payment.*—On April 24 certain bonds of Series I of the 3½% Loan of 1901 were drawn for payment Sept. 1 1912 at the City Treasury in Frankfort-on-Main or at the office of Speyer & Co. in New York City. The numbers of the bonds called are given in an advertisement on a preceding page.

Scotland County (P. O. Memphis), Mo.—*Bond Call.*—Call has been made for payment June 1 of court-house 4% bonds Nos. 81 to 100 incl. for $500 each dated June 1 1907 and funding 4½% bonds Nos. 158 to 179 incl. for $1,000 each dated May 24 1897.

Scotland County Drainage District No. 1, Mo.—*Bond Call.*—Bonds Nos. 1 to 10 incl. for $500 each, bearing 6% int. and dated May 1 1910, were called for payment May 1 1912.

Tacoma, Wash.—*Bond Call.*—The following bonds are called for payment.

District.	*No. of Bonds.*	*Int. Ceases.*
Local Improvement District No. 384	59 to 70 inclusive	May 16 1912
Local Improvement District No. 261	343 to 384 inclusive	May 161912
Local Improvement District No. 725	10 to 28 inclusive	May 18 1912

Bond Proposals and Negotiations this week have been as follows:

ABINGTON TOWNSHIP (P. O. Abington), Montgomery County, Pa.—*Bond Sale.*—On May 16 the $164,000 4% gold coup. road tax-free bonds (V. 94, p. 1264) were awarded to Newburger, Henderson & Loeb of Phila. for $164,251 50 (100.153) and int. No other bids were received.

AKRON, Summit County, Ohio.—*Bonds Voted.*—The election held May 21 resulted in favor of the proposition to issue the $1,225,000 water bonds (V. 94, p. 1202). The vote was 5,474 to 530.

ALAMEDA COUNTY UNION HIGH SCHOOL DISTRICT NO. 3, Cal.—*Bond Sale.*—On May 13 the $80,000 5% gold bonds (V. 94, p. 1337) were awarded to N. W. Halsey & Co. of San. Francisco for $85,404 (106.75) and int. Other bids follow:

State Board of Control	*$85,544	J. H. Adams & Co., San Fr.	*$84,201
Vulcan Fire Ins. Co., Oakl'd	84,500	Woodmen of the World, Den.	84,175
E. H. Rollins & Sons, S. F.	*84,264	Goodwin, Garby & Holton, Inc., San Francisco	*83,151

*We are advised that these bids were conditional.

Denom. $1,000. Date June 1 1912. Int. J. & D. Due $2,000 yrly. June 1 1918 to 1927 incl. and $3,000 yrly. June 1 1928 to 1947 incl.

ALEXANDRIA, Douglas County, Minn.—*Bond Offering.*—Dispatches state that proposals will be received until 7:30 p. m. June 10 by C. J. Sunblad, City Clerk, for the $30,000 5% 5-19-year (serial) bonds (V. 94, p. 863) voted on March 12. Int. (at not exceeding 5%) semi-annual. Certified check for $250 required.

ALFALFA COUNTY (P. O. Cherokee), Okla.—*Bonds Defeated.*—The election held May 14 resulted in the defeat of the proposition to issue the $100,000 court-house bonds (V. 94, p. 1202). The vote was 434 "for" to 2,077 "against."

ANNAPOLIS, Md.—*Bond Sale.*—On May 20 the $100,000 4½% 30-yr. water-loan bonds (V. 94, p. 1131) were awarded to Kean, Taylor & Co. of N. Y. at 103.01 and int.—a basis of about 4.32%.

Bonds Not Sold.—No award was made of the $16,000 4% street-impt. bonds offered at the same time (May 20).

ARLINGTON SCHOOL DISTRICT (P. O. Arlington), Reno County, Kans.—*Bonds Voted.*—By a vote of 152 to 88 a proposition providing for the issuance of $12,500 bonds carried, it is stated, at a recent election.

ASBURY PARK, N. J.—*Bond Offering.*—Proposals will be received until 8 p. m. June 3 by W. C. Burroughs, City Clerk, for $75,000 4½% coup. (with privilege of registration) sewer bonds. Denom. $1,000. Date July 1 1912. Int. J. & J. at office of City Treasurer. Due July 1 1947. Bonds are tax-free. No deposit required.

Re-insurances	205,151 34	425,855 86
		$959,530 60
Returns of Premiums		$196,936 89
Expenses, including officers' salaries and clerks' compensation, stationery, advertisements, etc		570,472 18

A dividend of interest of Six per cent on the outstanding certificates of profits will be paid to the holders thereof, or their legal representatives, on and after Tuesday the sixth of February next.

The outstanding certificates of the issue of 1906 will be redeemed and paid to the holders thereof, or their legal representatives, on and after Tuesday the sixth of February next, from which date all interest thereon will cease. The certificates to be produced at the time of payment and canceled.

A dividend of Forty per cent is declared on the earned premiums of the Company for the year ending 31st December, 1911, which are entitled to participate in dividend, for which, upon application, certificates will be issued on and after Tuesday the seventh of May next.

By order of the Board, G. STANTON FLOYD-JONES, Secretary.

FIDELITY TRUST COMPANY

NEWARK, N. J.

Resources Over $27,000,000

Capital, Surplus and Undivided Profits, Over $9,500,000

Acts as Executor, Trustee, Administrator and in all fiduciary capacities. Takes entire charge of Real and Personal Estates. Guarantees Titles of Real Estate throughout New Jersey.

General Banking and Savings Departments. Bond Department for purchase and sale of railroad and public utility securities. Safe Deposit Department.

The Union Trust Company of New York (established in 1864) has for many years made a specialty of Personal Trusts—under Will or under Agreement—and maintains a carefully organized department for handling them

Many millions of dollars worth of property—real and personal—have been entrusted to the company by conservative people, residents not only of New York State but of other states in which the Union Trust Company is authorized to do business,

Correspondence or interviews with persons considering the formation of trusts of any kind—for themselves or for others—are solicited.

Vol. 94. NEW YORK, MAY 25 1911. No. 2448.

STATE AND CITY SECTION.

The State and City Section, issued semi-annually on the last Saturday of May and November, is furnished *without extra charge* to every annual subscriber of the **Commercial and Financial Chronicle.**

The Railway and Industrial Section, issued three times a year on the last Saturday of February, June and October, is also furnished *without extra charge* to every subscriber of the **Chronicle.**

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is also furnished *without extra charge* to every annual **Chronicle** subscriber.

The Electric Railway Section, issued three times a year, in January, May and September, is likewise furnished *without extra charge* to every **Chronicle** subscriber.

The Bank and Quotation Section, issued monthly, is also furnished *without extra charge* to every subscriber of the **Chronicle.**

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers' Association is likewise furnished *without extra charge* to **Chronicle** subscribers.

Terms for the Chronicle, including the six Supplements above named, are Ten Dollars per annum within the United States, Thirteen Dollars (which includes postage) in Europe, and $11.50 in Canada.

File covers of the **Chronicle** are sold at 50 cents each; postage on the same is 18 cents. File covers for Supplements can be had at same price.

THE MUNICIPAL BOND SALES OF 1911.

The aggregate of municipal bond sales keeps mounting higher and higher with each succeeding year, and the distinctive feature of the record for the calendar year 1911 is the magnitude of the total. Almost 400 million dollars of State and municipal bonds were put out during the twelve months, the exact amount of the new issues being $396,859,646. This includes merely long-time issues, involving permanent additions to the debts of municipalities, and does not embrace temporary obligations of any kind. It is evident that if the railroads and the larger industrial corporations have been putting out diminished amounts of new capital in the shape of stocks and bonds, the increase in municipal obligations has tended in a measure to fill the void, and that there has been no dearth of investments for the employment of savings and new accumulations of wealth.

It is quite possible that as railroad and industrial investments, in view of radical Governmental policies, do not look as desirable as in the past, investors and capitalists have turned to municipal issues as an outlet for their funds, and that that accounts for the further addition in 1911 to the municipal bond sales on top of the steady increase in the years preceding. The municipal bond market certainly showed no lack of absorbing power in the face of the enormous new issues, though, on the other hand, there was no improvement in the market prices of municipal bonds, such as would come if the demand should run considerably in excess of the supply. We need hardly say that municipal bonds carry much higher interest rates than a few years ago; that is one reason, doubtless, why it is found possible to float more and more of them from year to year. The rate of return which an obligation will yield is obviously an important consideration with the investor; and the yield may now be regarded as satisfactory where formerly it was quite meagre.

Conditions during 1911 were favorable to a large output of State and municipal obligations. The money market was free from involvements, and there was no monetary stringency or financial disturbance of any kind to interfere with the placing of new loans of this character. A good demand for municipal bonds existed throughout the year, and at no time was it difficult to float considerable amounts of new issues, though the level of prices at the close was not as high as in the middle of the year. Railroad and industrial corporations, as already indicated, made diminished calls upon the money markets. Trade was in a state of reaction, and confidence in railroad securities and in industrial issues was considerably impaired—in the case of the railroads because of the trying state of things under which operations have to be carried on, and in the case of industrial corporations because of the numerous trust prosecutions undertaken by the Government—but this impairment of confidence did not extend to the municipal field. Accordingly, the latter was a gainer rather than a loser.

We have stated that the sales in 1911 reached $396,859,646. It is necessary to go back only a few years to get an idea of the expansion which has taken place. In 1907 the disposals were only $227,643,208 and in 1906 they reached no more than $201,743,346. As compared with five years ago, therefore, the sales have almost doubled. The growth in the interval is the more noteworthy, bearing in mind that the 1906 aggregate was really the largest ever reached in a year of normal conditions. It is true that in 1904 a maximum (for this early period) of $250,754,946 was recorded, but in that year the bond proposals were large for special reasons, conditions in 1903 having been such that many bond negotiations had to be deferred until the next year. With the exception of 1904, a total of $200,000,000 had never been reached until 1906. From that time forward, however, the growth was very rapid. In 1908 the $300,000,000 mark was reached and passed, the sales reaching $313,797,549; in 1909 and 1910 the amounts were, respectively, $339,424,560 and $320,036,181, while now, for 1911, we see the aggregate up to $396,859,646.

In view of the extent of the new issues, a natural question is whether the additions furnish occasion for anxiety. Are our municipalities adding unduly to their burden of permanent debt? Are these extensive new issues evidence of extravagance, or do they reflect the growing needs of a teeming population, and hence indicate normal outlays in behalf of the proper development of our cities and towns, and a response to mod-

ern-day requirements in the way of civic betterment? We are inclined to the latter view. It is, of course, conceivable that the movement, if continued, may proceed beyond reasonable limits; but thus far there appears to be little or no warrant for the drawing of unfavorable conclusions from the continued expansion in the output of municipal bonds. As pointed out by us in previous years, there doubtless has been a tendency toward prodigality on the part of municipal governments, just as there has been in private life; but at bottom the growth in the demands upon the money market by our cities and towns is to be ascribed to the same causes and circumstances that are responsible for the constant new capital requirements of our railroads and industrial concerns, namely the expansion and development of the country. The rise of new communities, with the increase in population everywhere, explains in the main why the yearly aggregate of municipal bond issues has so greatly expanded.

Careful and detailed examination of the statistics which we have compiled at the expenditure of so much labor and trouble bears out these conclusions. It is in the newer parts of the country, where most development is going on, that the increase in the output of new issues is most noteworthy. To emphasize this point and to confirm the correctness of the view taken, we present the following table, which shows the distribution of the bond sales for the last ten years among the different geographical divisions of the country.

Calendar Years.	1911.	1910.	1909.	1908.	1907.

Total	39,617,722	39,759,599	32,101,623	23,844,843	19,252,381
Grand total	201,743,346	183,080,023	250,754,946	152,281,050	152,846,335

As heretofore, the North Atlantic tier of States (comprising New England, together with New York, New Jersey and Pennsylvania) and the North Central division (embracing Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, the two Dakotas and Nebraska and Kansas) contribute the bulk of the year's sales, being responsilbe for $261,295,839 out of the grand total of $396,859,646. Nevertheless, the disparity between the contributions of these two groups and those of the rest of the country is very much smaller than it was only a few years back. This reflects, of course, the needs of the newer communities in the remoter parts of the country. In 1904, for example (when, as mentioned above, the bond disposals were, for special reasons, of more than ordinary magnitude), the total of the new bond issues by the two groups first referred to was $218,653,323, while the aggregate for the rest of the country was no more than $32,101,623. For 1911, however, with new bond issues for the North Atlantic and North Central groups aggregating $261,295,839, those for the rest of the country were $135,563,807. In other words, in the one case the increase in the seven years has been $42,642,516, in the other case it has been no less than $103,462,184.

Another feature deserves emphasizing, because it tends to confirm still further the conclusions announced. The great increase in the grand aggregate of the sales for the whole country is taking place in the face of diminishing contributions from some of our chief cities. We referred to this feature a year ago, and now that we have the record for still another year the evidence in support of the statement is yet stronger. Take the case of New York City, for illustration. There was but one public sale of New York City bonds, namely $60,000,000, sold in January 1911, while $1,790,441 more was sold through the course of the year to the city's sinking funds, making altogether $61,790,442. This compares with $63,022,795 bonds in 1910, of which $13,022,795 was sinking fund takings; with $72,566,074 in 1909, of which the sinking fund takings were $10,066,074; with $73,340,859 in 1908, including sales to the sinking fund of only $3,641,399, and with $79,100,195 in 1907, including $3,289,195 by the sinking funds. Philadelphia, as it happens, put out $13,450,000 of new bonds in 1911, against $5,000,000 in 1910, $8,739,700 in 1909 and $19,375,000 in 1908, and Jersey City issued $8,033,254 in 1911 (mainly to pay the cost of its water-works system), against $130,000 in 1910 and $1,600,000 in 1909, while Newark placed $3,450,000 in the latest year, against $1,664,700 in 1910. But, speaking generally, most of the larger cities issued diminished amounts of municipal obligations—in some cases heavily so. Baltimore placed only $2,947,900 in 1911, against $5,063,400 in 1910; Boston $3,431,500, against $4,875,000; Chicago, with its Sanitary and Park districts, $6,037,500, against $9,025,000; Cincinnati $1,574,601, against $6,408,885; Cleveland $3,964,000, against $4,877,000, and Pittsburgh $1,510,000, against $4,900,000 in 1910, $3,069,100 in 1909 and $3,892,800 in 1908. Some of the Pacific Coast cities, and particularly San Francisco and Los Angeles, placed increased amounts of bonds in 1911, but these form part of the western half of the country, where, as we have already seen, the expansion in municipal issues is particularly noteworthy, and follows from the growth in population and the general development of the country.

It also deserves to be noted that the States are putting out some large amounts of new bonds, and these are usually for special purposes. The State of New York is conspicuous in this respect. It is spending huge sums on the Erie Canal, and also making large outlays for highways in carrying out an extensive system of good roads. The State put out $10,000,000 new Canal 4s in April, for which it received an average price of 104.3022; $12,500,000 4s in July, for highways and the Palisades Park, receiving an average price of 103.80, and another $10,000,000 Canal 4s in December, which netted an average price of 101.04. This makes $32,500,000 sold by the State in 1911, following the sale of $16,200,000 in 1911, and a further issue of $25,950,000 now being offered and to be sold June 6. A few years ago it seemed as if State bonds were going to become extinct. In 1911, on the other hand, the output of State bonds aggregated $46,935,000, of which, as we have already seen, New York supplied the bulk. Our detailed statement at the end of this article will show the amounts contributed by the different States.

Study of the statistics as regards interest rates, makes it evident that the popularity of municipal bond issues must be ascribed largely to the better return

they yield to the investor. If the comparison is extended back ten years, the change in that respect is found to be really quite remarkable. Excluding New York City's sinking fund takings, which are usually 3% issues, but furnish no criterion of market conditions, we find that back in 1901 $19,971,249 of the new bonds, or 14.25% of the whole, were 3s, and no less than $68,693,268, or 49%, were then 3½s. In other words, out of a total of $140,185,499 of new bonds sold in that year, no less than $88,664,517, or 63¼%, were 3s and 3½s. In 1911, on the other hand, with total bond sales (excluding New York City sinking fund takings) of $395,069,205, the 3s were only $7,000, and even the 3½s no more than $6,682,900. The 3s and 3½s together formed but 1.69% of the whole. The 4s aggregated $126,914,229, but as this constituted only 32.12% of the whole, and the 3s and 3½s together but 1.69%, it is evident that two-thirds of the new bond issues of 1911 bore interest rates in excess of 4%. In the following table we indicate the aggregate of the bonds put out at the different interest rates for 1901, 1906 and 1910 and 1911:

COMPARATIVE INTEREST RATES, EXCLUDING NEW YORK CITY'S SINKING FUND TAKINGS.

	1911. $	PC of Total	1910. $	PC of Total	1906. $	PC of Total	1901. $	PC of Total
3 per cent	7,000	0.02	1,939,700	0.63	5,257,456	2.77	19,971,249	14.25
3½ per cent	6,682,900	1.67	17,298,100	5.63	19,169,650	10.09	68,693,268	49.00

Higher than 5 per cent	29,303,108	7.42	31,238,865	10.18	7,146,959	3.76	2,758,797	1.97
Unknown & Unusual	78,038,899	19.75	63,161,709	20.57	6,281,828	3.30	6,668,746	4.76
Total	395,069,205	100.0	307,013,386	100.0	190,020,271	100.0	140,185,499	100.0

A word of explanation is due with reference to the large total of bonds classed as having been issued at "unknown and unusual" rates of interest. No less than $78,038,899, or 19.75% of the whole, falls under this designation in 1911. The reason is that at a few points 4¼% bond issues have sprung into prominence in recent years. New York City put out $60,000,000 bonds at that rate in 1911, Jersey City $1,161,000, Pittsburgh put out $1,510,000 and Cleveland put out $1,938,000. This is a rate which until a short time ago was unknown, and even now must be considered an unusual rate.

Owing to the fact that New York City is obliged to come into the market for such extensive borrowings from year to year, the interest rate which the city is obliged to pay is steadily rising. It sold the present month (May 1912) $65,000,000 4¼s at an average price of 100.747, making the cost of the money to the city 4.21%. Last year it sold $60,000,000 4¼s at an average price of 100.90, making the cost of the money then 4.207%. The $50,000,000 4¼s disposed of in March 1910 brought an average price of 101.28, making the cost per annum then only 4.155%, and if we went back further, the contrast would become still more marked.

To complete our analysis of the bond disposals of 1911, we furnish herewith a comparison of the new bond issues according to the purposes for which they were used or created. The bulk of the new issues each year is for five main purposes, namely, water, streets and bridges, sewerage and drainage, schools and school buildings, and public buildings generally. The total under the five heads combined amounts for 1911 to $282,960,420, which compares with $224,268,652 for 1910, $235,358,294 for 1909, $226,434,801 for 1908, $167,659,934 for 1907 and $136,034,202 for 1906.

After apportioning the amounts under the different heads, an aggregate of $58,464,893 remains for 1911, it will be seen, under the designation "miscellaneous," and the amounts for other years are also large. In explanation it should be said that this item comprises mainly bonds issued for special purposes, like the Canal bonds of New York State (of which $20,000,000 were put out in 1911), and the dock bonds and the rapid transit bonds of this city—purposes of not sufficiently common occurrence to warrant our providing an extra column for the same in our full-page compilation. A footnote to the detailed table on the following page gives the leading items that go to make up the "miscellaneous" column.

In conclusion, we will reiterate what we have said in previous years, namely that our figures deal only with issues of a permanent character—such as, by their nature, constitute a real addition to the debts of the municipalities. We rigidly exclude floating-debt obligations and everything of a temporary nature, and we are careful also to avoid duplication or the inclusion of loans that do not belong in the footings. As the best explanation of our reasons for excluding floating debt obligations, we may refer to the case of this city, which during 1911 issued no less than $176,394,693 of temporary obligations in anticipation of taxes, but redeemed $189,992,065 of the same class of obligations, and also issued $24,295,579 of corporate stock notes (a new form of obligation), which will be retired out of the proceeds of this month's bond sales. We also omit from our totals the bond issues made by Canadian municipalities and by our Island Possessions.

In order that the reader may know what the grand aggregate of the sales for the twelve months would be, with all these various items included, we will say that the total in that event would be over $716,000,000. The actual municipal bond sales for the twelve months within the territorial limits of the United States were, we have seen, $396,859,646; the temporary loans reached $254,901,797; sales by Canadian municipalities were $45,657,122, and general fund bonds of New York City $17,500,000, besides which Hawaii sold $1,500,000 bonds and the city of Cebu (Philippine Islands) $125,000, making a grand total of $716,543,565. In addition the United States floated $50,000,000 Panama Canal 3s without the circulation privilege.

A full-page tabular presentation of the sales of a permanent character within the limits of the United States for the late year appears on the following page. In giving this compilation, we are continuing a practice begun by us with the bond transactions of 1901. The table presents the details of the sales in very elaborate form, showing the disposals for each State and for each leading geographical group or division, and indicates also the purposes for which the bonds were issued and the amounts put out at the several rates of interest, besides apportioning the issues among the different civil divisions by whose authority they were created—whether State, county, municipality or school district.

ANALYSIS OF MUNICIPAL BOND SALES FOR CALENDAR YEAR 1911.

STATES AND GEOGRAPHICAL DIVISIONS.	Grand Total.	State Bonds.	County Bonds.	School District Bonds.	Municipal Bonds.	RATES OF INTEREST. 3 Per Cent.	3½ Per Cent.	4 Per Cent.	4½ Per Cent.	5 Per Cent.	Higher than 5 Per Cent.	Unknown and Unusual.

NOTE.—The total of $78,038,899 in the column giving "Unknown and Unusual" rates is made up almost entirely of odd rates. For instance, the $1,345,000 credited to Connecticut includes bonds put out by various municipalities at 4¼%. The $63,593,241 total for New York consists of $60,000,000 4¼s issued by N. Y. City, while of the remainder ($3,593,241) $3,546,914 represents bonds issued at rates of interest such as 3¾%, 4.10%, 4.19%, 4.20%, 4¼%, 4.29%, 4.30%, 4.33%, &c. Of the $1,256,500 total for New Jersey, $1,161,000 was issued by Jersey City as 4¼s. Included in the Penn. total of $2,637,800 is $1,510,000 bonds issued by Pittsburghas 4¼s. Other places in Penn. are also included in this total to the amount of $825,000 as issuing bonds at 4¼%. The Ohio aggregate of $3,817,406 includes $1,100,000 4.10s and $1,938,000 4¼s sold by Cleveland. In the column called "Miscellaneous" in the second table, Massachusetts' $2,645,541 is partly made up as follows: $450,000 rapid transit bonds of Boston and $1,211,150 "municipal loan" bonds issued by various places in the State. The main items included in the $36,334,798 under "Miscellaneous" in New York are: $20,000,000 canal bonds issued by the State; $8,510,000 rapid transit, $1,712,584 docks and ferries, $205,501 topographical bureau and $5,000,000 tax-deficiency bonds, all of which were issued by N. Y. City. The $1,606,891 credited to New Jersey includes $1,030,000 corporate bonds and $100,000 dock bonds issued by Newark. In the Penn. total of $1,726,000 there are included $1,100,000 bonds issued by Phila., $1,000,000 of which is for the payment of mandamuses. The Maryland total includes $845,000 bonds placed by Baltimore for docks, conduits, the burnt district, &c. The $948,700 total credited to Texas includes an issue of $493,000 bonds put out by Beaumont Nav. Dist. Included in the total of $1,571,644 for Idaho is $1,450,000 irrigation bonds. The Washington total of $2,079,487 includes $1,750,000 King Co. harbor bonds, while in the Cal. total of $4,716,500 there are $1,000,000 harbor bonds issued by the State and $2,920,000 bonds for irrigation purposes sold by various districts throughout the State.

United States Debt and Its History.

The following is a statement of the debt of the United States past and present. To add to its usefulness we give references to the laws authorizing each of the issues of bonds outstanding to-day, and likewise, so far as we deem it needful, citations from those laws.

All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always have the data for a correct exhibit of the debt situation at any past or future day, and make an accurate comparison with previous years, we present, *first*, the details as they stood at the close of the last fiscal year ending June 30 1911; *second*, the changes in those details since June 30 1911 down to May 1 1912; *third*, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1878; *fourth*, we publish in the "Chronicle" every month—usually the first or second Saturday—the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month; some months lack of space forces us to delay the publication to a later week.

With these data at his command, it would seem as if any inquirer could satisfy himself fully with reference to every point which might become of importance for him to know respecting the United States debt.

INTEREST-BEARING DEBT OUTSTANDING JUNE 30 1911.

Aggregate of debt June 30 1910 on which interest has ceased since maturity	$1,879,830 26

DEBT BEARING NO INTEREST JUNE 30 1911.

	Authorizing Act.	
United States notes	Feb. 25 1862; July 11 1862; March 3 1863	$346,681,016 00
Old demand notes	July 17 1861; Feb. 12 1862	53,282 50
National Bank Notes—Redemption account	July 14 1890	33,160,228 00
Fractional currency	July 17 1862; March 3 1863; June 30 1864, $15,239,928.28, less $8,375,934 estimated as lost or destroyed, Act of June 21 1879	6,857,390 93
Aggregate June 30 1910 of debt bearing no interest		$386,751,917 43

The foregoing shows that the Government debt on June 30 1911 was made up of (1) interest-bearing debt, $915,353,190, of (2) debt on which interest has ceased, $1,879,830 26, of (3) debt bearing no interest, $386,751,917 43, making total *gross* debt, $1,303,984,937 69; subtracting from the total the net cash balance in the Treasury ($288,200,599 23) at the same date (June 30 1911), we have the net debt as it stood at the close of the last fiscal year, $1,015,784,338 46. Since the close of June the changes in the various items of the *interest-bearing debt* have included $47,964,300 addition to the Panama Loan of 1911 and $459,280 Postal Savings Bonds, making the interest-bearing debt at this time $963,776,770.

For *later and future details of the debt, see the same* as issued every month in the "Chronicle," the first or a later Saturday. We now add, *first*, references to and citations from the laws which are the authority for the debt as it stands to-day; *second*, the two tables on the next page, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1878 to 1911, and on May 1 1912; *third*, the Pacific Railroad bonds, which are never included in the Treasury debt statements.

"FUNDED LOAN OF 1891" (Column 1) 4½s, continued at 2%. The bonds of this issue were issued in exchange for the 4½% funded loan of 1891 by agreement between the Secretary of the Treasury and the holders, and were made redeemable at pleasure of the Government. Amount issued $25,364,500, but May 18 1900 all were called for redemption on Aug. 18 1900, when interest ceased.

"CONSOLS OF 1930."—Column 13.) Bonds (2% payable at the pleasure of the Government after 30 years) authorized in "Act to define and fix the standard of value," &c. (for copy of Act see "Chronicle," March 3 1900, page 411), for the purpose of refunding (1) outstanding United States bonds bearing interest at 5% payable Feb. 1 1904; (2) bonds bearing interest at 4% payable July 1 1907; and (3) bonds bearing interest at 3% payable August 1 1908 (the "ten-twenties of 1898"). For details of arrangement see Secretary Gage's circular with reference to the operations for carrying out the refunding provisions of the bill in "Chronicle," March 17 1900, page 509. Of these 2%s there were outstanding May 1 1912, according to the debt statement, $646,250,150.

"LOAN OF 1908-1918."—(Column 11.) The bonds included under this head are an issue of $198,792,660 3%s. They were authorized by Act of June 13 1898 and are known as the "War Loan." The law provided that in allotting said bonds the individual subscriptions of the lowest amount must be first allotted. On the day the Act was signed a Treasury circular was issued (see circular in "Chronicle" of June 18 1898, page 1168, inviting subscriptions for 32 days, from June 13 to July 14, for the amount of bonds stated, in both coupon and registered form, coupon in denominations of $20, $100, $500 and $1,000, and registered in denominations of same amounts, and also in $5,000 and $10,000, dated August 1 1898, redeemable in coin at the pleasure of the United States after ten years from date of issue, and due and payable August 1 1918. See circular for further details. Subscriptions reached the amount of $1,325,000,000. The amount now outstanding (May 1 1912) is $63,945,460.

"FUNDED LOAN OF 1907" (Column (3) 4s. The Act of July 14 1870, authorized the issue of 1,000 million dollars of bonds at 4%, payable in coin of the present standard value at the pleasure of the United States after thirty years; these bonds to be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal or local authority. Bonds to be sold at not less than par in coin, and proceeds applied to redemption of outstanding 5-20s, par for par. Oustanding (May 1 1912), $807,800, included in debt upon which interest has ceased.

"REFUNDING CERTIFICATES" (Column 4).—Act of February 26 1879 authorized the Secretary of the Treasury to issue in exchange for lawful money of the United States certificates of deposit of the denomination of ten dollars, bearing interest at the rate of 4%, and convertible at any time, with accrued int., into the 4% bonds described in the Refunding Act; the money so received to be applied only to the payment of the bonds bearing interest at a rate not less than 5%. On March 12 1879 the issue of these certificates and their exchange into 4% bonds were authorized, the certificates were to draw 4% interest from April 1 1879 and were convertible in sums of $50 or its multiples. The amount issued at the close of the fiscal year (June 30 1879) was $39,308,110, but they had been converted so rapidly that there were outstanding at that date only $12,848,210. On Oct. 31 1879 the entire authorized amount had been reached, the maximum of the issue being $40,012,750. Of these there were still outstanding on May 1 1912 a total of $14,110, included in debt bearing no interest.

"LOAN OF 1925."—(Column 9.) Sales of bonds included under this designation were effected (1) in February 1895 to the amount of $62,315,400, and (2) in February 1896 to the amount of $100,000,000. In a message to Congress under date of February 8 1895 (published in the "Chronicle" February 9 1895, page 244), President Cleveland stated in substance that in pursuance of Section 3700 of the Revised Statutes, the details of an arrangement have this day been concluded whereby bonds authorized under the Act of July 14 1875, payable in coin at the pleasure of the United States after the first day of Feb. 1925, with interest at the rate of 4% per annum, to the amount of $62,315,400, are to be issued for the purchase of gold coin amounting to a sum slightly in excess of $65,000,000, to be delivered to the Treasury of the United States, which sum added to the gold now held in our reserve will so restore such reserve as to make it amount to something more than $100,000,000. Such a premium is to be allowed to the Government upon the bonds as to fix the rate of interest upon the amount of gold realized at 3¼% per annum. At least one-half of the gold to be obtained is to be supplied from abroad. Section 3700 of the revised Statutes is as follows:

"Sec. 3700. The Secretary of the Treasury may purchase coin with any of the bonds or notes of the United States authorized by law at such rates and upon such terms as he may deem most advantageous to the public interest."

For a construction of the "Refunding Act of 1870" and of the "Resumption Act of 1875," see "Chronicle," February 18 1893, page 265.

The issue in February 1896 was an ordinary offering, open to all bidders, of $100,000,000 of the same bonds as the foregoing—same in date, same in time of maturity, same in rate of interest and time of interest payments. Consequently both issues are called the "Loan of 1925," of which there are outstanding $118,489,900."

"LOAN OF 1904."—(Column 6.) The Act of January 14 1875 authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par in coin, either of the descriptions of bonds of the United States described in the Act of July 14 1870, for the purpose of redeeming on and after January 1 1879, in coin, at the office of the Assistant Treasurer of the United States at New York, the outstanding legal-tender notes when presented in sums of not less than fifty dollars. Under this authorization, and for the purposes mentioned, there were issued in Feb. 1894, payable in 10 years, $50,000,000 of 5%s and in Nov. 1894 there were issued $50,000,000 more for similar bonds for same purpose. The bonds matured Feb. 2 1904, and the amount outstanding May 1 ($13,350) is included on that date in "debt on which interest has ceased."

"PANAMA CANAL LOAN."—(Column 2). The Act of June 28 1902, Section 8, supplemented by the Act of Dec. 21 1905 (for copy of the sections referred to, see "Chronicle" July 7 1906, page 12), authorizes the issue of $130,000,000 of coupon or registered 2% bonds of the United States, or as much thereof as may be necessary, in denominations of $20 or some multiple of that sum, redeemable in gold coin at the pleasure of the United States after ten years from the date of issue—$84,631,980 of said bonds have been issued, all of which are now outstanding. They bear date Aug. 1 1906 and Nov. 1 1908, but interest began Nov. 1 1907 and Feb. 1 1909.

"PANAMA CANAL LOAN."—(Column 5.) The Act of Aug. 5 1909, Section 39, supplemented by the Act of Feb. 4 1910, authorizes the issue of $160,569,000 of coupon or registered bonds of the United States in various denominations up to $1,000 at a rate of interest not exceeding 3%. Under a further supplementary Act—that of March 2 1911—authorization was given to issue the bonds "not available to national banks as security for circulation notes," and in conformity therewith $50,000,000 of said bonds, bearing 3% interest, have been issued and are now outsanding. They bear date June 1 1911, are redeemable in 1961, and interest is payable quarterly on the first days of Sept., Dec., March and June. They are in denominations of $100, $500 and $1,000.

POSTAL SAVINGS BONDS.—(Column 8.) The Act of June 25 1910, authorized the issue to depositors with the United States under the Postal Savings Bank Law, upon the surrender of all or any part of his deposits, of coupon or registered bonds of the United States bearing 2% interest,

of the denominations of $20, $40, $60, $80, $100 and multiples of $100 and $500. Under the Act $41,900 of such bonds redeemable July 1 1912 and payable July 1 1931, and $417,380 bonds redeemable Jan. 1 1913 and payable Jan. 1 1932 are now outstanding.

"CERTIFICATES OF INDEBTEDNESS" OF 1908, Authorized by Act of June 13 1898. $15,436,500 of the certificates were issued in denominations of $50, payable to bearer; dated Nov. 20 1907; interest at the rate of 5% per annum, payable with the principal sum on and after Nov. 20 1908, on presentation of the certificates for redemption. For further details see circular of Secretary Cortelyou in "Chronicle," Nov. 23 1907, page 1311—the certificates have all been retired.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1878, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the refunding operations of that period began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

PRINCIPAL OF THE PUBLIC DEBT OF THE UNITED STATES FROM JULY 1 1878 TO MAY 1 1912.

Year.	1 "Funded Loan of 1891" 4½%, contin'd at 2%.	3 "Funded Loan of 1907," 4s.	4 "Refunding Certificates," 4s.	6 "Loan of 1904," 5s.	9 "Loan of 1925," 4s.	10 "Navy Pension Fund," 3s.	12 Old 6s and 7s Converted into 4s and 4½s.	14 Total Interest-Bearing Debt.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, except in the case of November, for which the total is of that date, and is exclusive of interest charge on Pacific Railway bonds.

Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

•Note 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold Reserve Fund of $150,000,000 as a separate item, and not included it in the available cash balance. In the foregoing statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

PACIFIC RAILROAD DEBT.—One other class of bonded debt must be referred to which has never been included in the total of Government debt—we mean the Pacific Railroad subsidy debt. To show the situation of this indebtedness we have to make compilations of our own, as the Treasury form comes short of indicating the existing situation. In the following we bring together the details respecting the issues to the Pacific railroads, giving likewise in the statement the debt already paid and the balance due to the Government

BONDS ISSUED TO PACIFIC RAILROADS—THEIR STATUS MAY 1 1912.

•Government accepted principal of bonds of Kansas Pacific RR.—$6,303,000—for indebtedness, but subsequently received an additional $821,898 on distribution of assets of Union Pacific, as mentioned in "note" below. The remainder ($5,785,560 34) represents the loss to Government under the settlement. *a* Government realized the sum of $2,122,841 24 from sale of claim against Sioux City & Pacific RR., or $2,057,176 96 less than the company's indebtedness.

Note.—The Government has been reimbursed for $27,236,512 principal and $31,211,711 75 interest, being the total indebtedness of the Union Pacific Railroad Co. to Nov. 1 1897, and for the principal of the Kansas Pacific indebtedness, amounting to $6,303,000. Subsequently, under the final decree for the distribution of the assets of the Union Pacific RR., made by Judge Sanborn at St. Paul. Oct. 24 1899, the United States received an additional $821,898 on its claim. Under settlement agreement of Feb. 1 1899, twenty notes of the Central Pacific Railroad Co. (bearing interest at 3% per annum), payable respectively on or before the expiration of each successive six months for ten years, and aggregating $58,812,715 48, which amount represented the unpaid balance of the total indebtedness of the Central Pacific and Western Pacific railroad companies to the United States on Feb. 1 1899, were delivered to the Treasurer of the United States. The balance of the total indebtedness was paid in full July 28 1908. . . . . .

Admitted as a State (Act March 3 1820).....March 15 1820
Total area of State (square miles).....33,040
State Capital.....Augusta
Governor (term exp. 1st Wed. Jan. 1913)...F. W. Plaisted
Secretary of State (term exp. *Jan. 1913)....C. W. Davis
Treasurer (term exp. *Feb. 1 1913).....J. F. Singleton

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and there is no limit to length of sessions.

* Is chosen by Legislature.

HISTORY OF DEBT.—For history of Maine State debt up to 1889, see "State and City Supplement" of April 1895, page 9.

The whole State debt matured in June and October 1889, and all that was not paid was refunded into new loans, payable by installments, part each year. At present the debt stands as follows:

LOANS—		Interest		Outstanding	
Name and Purpose.		*Rate.*	*Payable.*	*When Due.*	*Principal*
Re-iss. Loan J'ne '89 Class "C"	r	3	J-D	June 1 1914&'21	$100,000
				June 1 1915&'20	80,000
				Oct. 1 1912-1916	140,000
				Oct. 1 1918	10,000
Re-iss. Loan Oct. '89 Class "C"	r	3	A-O	Oct. 1 1919	21,000
				Oct. 1 1920	16,000
				Oct. 1 1921	28,000
Do Class "D"	r	3	A-O	Oct. 1 1922-1925	12,000
Bonds to State College	r	5	J-D	June 1 1919	118,300
Do do do	r	4	J-J	July 1 1917	100,000
Bond to Insane Hospital	r	4	J-J	July 1 1917	50,000
Loan of 1869, not presented for payment					700

INTEREST is payable at the State Treasury, Augusta, Me., or in Boston.

TOTAL DEBT.—The subjoined statement shows Maine's total funded debt on each of the dates named.

	Jan. 1 1912.	*Jan.* 1 1911.	*Jan.* 1 1910.	*Jan.* 1 1909.
Bonded debt	$676,000	$698,000	$698,000	$698,000

On Jan. 1 1912 the assets of the State were as follows: Cash on hand, $502,202.68; balance due on State taxes, $2,358,332.67; securities, &c., $514,718.36; total, $3,375,253.71. The total liabilities of the State on Jan. 1 1912, including bonded debt, were $5,067,577.01.

ASSESSED VALUATION.—Valuations are taken only in even years.

	Assessed Valuation			State tax
Years.	*Real.*	*Personal.*	*Total.*	*per* $1,000.
1910	$366,132,326	$85,647,793	$451,780,119	$6.00

1880	648,936	1830	399,455	1790	96,540
1870	626,915				

DEBT LIMITATIONS.—STATE.—The debt of the State is limited by Section 14, Article 9, of the State constitution. This section follows:

SECTION 14. The credit of the State shall not be directly or indirectly loaned in any case. The Legislature shall not create any debt or debts, liability or liabilities, on behalf of the State, which shall singly or in the aggregate, with previous debts and liabilities hereafter incurred, at any one time exceed $300,000, except to suppress insurrection, to repel invasion, or for purposes of war; but this amendment shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States, or to any fund which the State shall hold in trust for any Indian tribe.

[In September 1912 a vote will be taken on constitutional amendments authorizing the State to issue not exceeding $2,000,000 highway bonds. V. 94, p. 1397.]

MUNICIPAL.—At an election held Sept. 11 1911 the voters adopted an amendment to Article XXII. of the constitution, increasing the debt limit of cities of 40,000 or more (which concerns Portland alone) from 5% to 7½% of the assessed valuation. We print Article XXII. below, Italicizing and placing in brackets the words eliminated.

Article XXII. Limitation of Municipal Indebtedness. No city or town *having less than forty thousand inhabitants, according to the last Census taken by the United States,* shall *hereafter* create any debt or liability which, singly or in the aggregate, with previous debts or liabilities, shall exceed five per centum of the last regular valuation of said city or town, *provided, however, that cities having a population of forty thousand or more, according to the last Census taken by the United States, may create a debt or liability which, singly or in the aggregate, with previous debts or liabilities, shall equal seven and one-half per centum of the last regular valuation of said city, that cities of forty thousand inhabitants or over may, by a vote of their city government, increase the present rate of five per centum by one-fourth of one per centum in any one municipal year, until, in not less than ten years, the maximum rate of seven and one-half per centum is reached, that any city failing to take the increase in any one municipal year, then the increase for that year is lost and no increase can be made until the next year, as provided above; and provided, further,* that the adoption of this Article shall not be construed as applying to any fund received in trust by the said city or town, nor to any loan for the purpose of renewing existing loans or for war; or to temporary loans to be paid out of money raised by taxation during the year in which they *were* [are] made.

EXEMPTION FROM TAXATION.—The Legislature of 1909 approved an Act exempting from taxation all bonds issued after Feb. 1 1909 by the State or any county municipality, village, corporation or water district therein. Banks and trust companies holding such securities are allowed to deduct the same from the assessment of their shares. See V. 88, p. 1451, for Act in full.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Sections 23 to 26, inclusive, of Chapter 48 of the Revised Statutes of 1903. The Legislature made several changes in 1907 and in 1909 which we have incorporated below.

SECTION 23. Savings banks and institutions for savings are restricted to and hereafter may invest their deposits as follows:

First, a. In the public funds of the United States and District of Columbia.

b. In the public funds of any of the New England States and of the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington.

Second, a. In the bonds of the counties, cities and towns of any of the New England States.

b. In the bonds of cities and districts in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, having a population of seventy-five thousand or more, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein.

c. In the bonds of counties of twenty thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein, except when issued in aid of railroads, *provided,* that the net municipal indebtedness of such county does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

d. In the bonds of any city of ten thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein except when issued in aid of railroads, *provided* that the net municipal indebtedness of such city does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

e. In the refunding bonds of counties and cities above enumerated issued to take up at maturity bonds which were legal and constitutional when issued, *provided* that the interest has been fully paid on such original bonds for at least five years last prior to such refunding; *provided, further,* that such counties and cities can otherwise meet the foregoing conditions.

f. In the bonds and obligations of school district boards, boards of education and other corporate bodies within such cities, authorized to issue bonds payable primarily from taxes levied on all the taxable property in said district; *provided* that the population of the district is ten thousand or more, and the population and assessed valuation of the district are equal to at least 90% of the population and the assessed valuation of the city within which such district is located; *provided, further,* that the net municipal indebtedness of such district does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

g. In the bonds or obligations of any municipal or quasi-municipal corporation of this State, when such securities are a direct obligation on all the taxable property of said corporation.

Third, a. In the railroad bonds of this State.

b. In the first mortgage bonds of any completed railroads of the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska.

c. In the first mortgage bonds of the Central Pacific, Union Pacific and Northern Pacific railroads.

d. In the mortgage bonds of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

e. Street railroad companies are not railroad companies within the meaning of the foregoing clauses of this section.

f. In the bonds of street railroads constructed in this State prior to April 27 1895, and in the bonds of street railroads in this State constructed after said date, and in the first mortgage bonds of any completed street railroad in the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska; *provided*, that in the case of street railroads constructed in this State after April 27 1895, and in the case of street railroads in the States above named, an amount of capital stock equal to 33 1-3% of the mortgaged debt shall have been paid in, in cash, and expended upon the road, evidenced by a certificate of the railroad commissioners of the State where the road is located, filed in the office of the Secretary of State of this State, that said percentage has been so paid in and expended in addition to the amount of the bonded debt; *provided, further*, that in such of the above States as have no railroad commissioners having supervision of street railroads, the bank examiner of this State may ascertain the facts, and, if they meet the foregoing requirement, may file certificate thereof with the Secretary of State; *provided, further*, that when, for any reason, it is impossible to obtain a certificate that an amount of capital stock equal to one-third of the bonded debt has been paid in, in cash, in lieu thereof, such bonds may be certified as legal for the purpose hereof, on satisfactory proof to the bank examiner that annual dividends in amount equal to five per centum per annum on an amount of capital stock equal to one-third of the bonded debt has been earned and paid for a period of five years next prior thereto; and all the expenses and compensation of the bank examiner for such service shall be paid by the railroad company seeking to make its bonds a legal investment under this section, whether the same are admitted or not. No bonds secured by an open mortgage shall be legal under this section unless the mortgage provides that the total amount of bonds certified and outstanding under it shall at no time exceed seventy-five per cent of the amount of cash expended upon the road.

g. In consolidated or refunding bonds which are of an issue to retire the entire funded debt under the conditions as applied to first mortgage bonds in clauses *b*, *c* and *f* of this sub-division, and which are secured by a first mortgage on the whole or any part of the system.

Fourth. In the mortgage bonds of any water company in the New England States actually engaged in supplying any city or cities, town or towns, village or villages, or other municipal corporations, with water for domestic use and for the extinguishment of fires, whenever such company s earning more than its fixed charges and interest on its debts and its running expenses.

Fifth. In bonds of any corporation other than railroads and water companies incorporated under the authority of this State and actually conducting in this State the business for which such corporation was created, which is earning an amount in excess of fixed charges, interest on its debts and running expenses equivalent to 5% per annum on an amount of capital stock equal to one-half of its entire funded debt.

Sixth. a. In the stock of any bank or banking association incorporated under the authority of the State.

b. In the stock of any bank or banking association incorporated under the authority of the United States, if located within the New England States.

c. In the stock of any railroad company of this State unencumbered by mortgage.

d. In the bonds, stock or notes of any railroad in New England which has earned and paid an annual dividend equivalent to five per cent on a capital stock equal to one-third of its funded debt for a period of ten years next prior thereto, and in the stock or notes of the New York Central & Hudson River, the Illinois Central, the Lake Shore & Michigan Southern and the Pennsylvania Railroad companies.

e. In the stock of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

f. In the stock of any corporation other than railroad and water companies incorporated under authority of this State, and actually conducting in this State the business for which such corporation was created, which earns and is paying a regular dividend of not less than 5% a year.

Seventh. a. In loans secured by first mortgages of real estate in this State and New Hampshire to an amount not exceeding 60% of the value of such real estate.

b. In notes with a pledge as collateral of any funds, bonds, notes or stocks which the bank or institution would, by this section, be authorized to purchase, provided the market value of said collateral is equal to the amount of the loan.

c. In notes with a pledge as collateral of any savings bank deposit book issued by any savings bank in this State.

d. In notes with a pledge as collateral of such funds, bonds, notes or stocks as in the judgment of the trustees it is safe and for the interest of the bank to accept to an amount not exceeding 75% of the market value of such funds, bonds, notes or stocks.

e. In loans to any municipal corporation in this State.

f. In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.

g. In loans to any corporation owning real estate in this State and actually conducting in this State the business for which such corporation was created.

Eighth. a. The term "net municipal indebtedness of counties," as used in this section, shall be construed to include all bonds which are a direct obligation of the county less the amount of any sinking fund available in the reduction of such debt.

b. The term "net municipal indebtedness of cities and districts," as used in this section, shall be construed to include in the case of either not only all bonds which are a direct obligation of the cities, but also all bonds of the districts or boards within the same, as above enumerated, exclusive of any such debt created for a water supply and of the amount of any sinking fund available in reduction of such debt.

c. The number of inhabitants of cities and counties shall be determined by the last previous official census thereof, as established by the last United States or State census or city or county census taken in the same manner as United States or State census and duly certified to by the clerk or treasurer of such city or the auditor or treasurer of such county.

Ninth. All investments shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is paid.

SECTION 24. Any such bank or institution may hold real estate in the city or town in which such bank or institution is located to an amount not exceeding 5% of its deposits or to an amount not exceeding its reserve fund.

SECTION 25. No such bank or institution shall hold by way of investment, or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than 10% of its deposits, not exceeding $60,000, in the capital stock or notes or any corporation, nor have more than 50% of its deposits in mortgages of real estate. This section and the two preceding do not apply to real estate, or other assets, acquired by the foreclosure of a mortgage thereon, or upon judgment for debts, or in settlements to secure debts. This section does not apply to bonds enumerated in the first five sub-divisions of Section 23 of this chapter.

SECTION 26. Savings banks and institutions for savings may deposit on call in banks or banking associations incorporated under the authority of this State, or the laws of the United States, and receive interest for the same.

SECTION 27. The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed. No loan shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member.

CITIES, COUNTIES AND TOWNS IN THE STATE OF MAINE.

AROOSTOOK COUNTY.

County seat is Houlton. Incorp. in 1839. This county owned $728,000 of the preferred stock of the Bangor & Aroostook RR. Co., but sold the same late in 1901 to the railroad company upon their agreeing to pay the interest on the $728,000 railroad-aid bonds in table below, and also to pay the principal at maturity. This agreement has been guaranteed by a deposit of $728,000 4% consolidated refunding bonds of the railroad company with the Old Colony Trust Co. of Boston. V. 74, p. 110.

Governor (term exp. 1st Wed. Jan. 1913)..Robt. P. Bass
Secretary of State {Chosen by Legislature;} Edw. N. Pearsou
Treasurer.....{term expires Jan. 1913} Solon A. Carter

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and length of session is not limited.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,816, contracted exclusively for war purposes. June 1 1869 the total outstanding was $3,213,962.22, against which the Treasurer reported an asset of $77,082.89. The State debt at the present time is as follows:

LOANS— Name and Purpose—		*Interest— %*	*Payable.*	*Principal— When Due.*	*Outstand'g*
Agricultural College, 1893		4	J & J	July 1 1913	$135,000

do 1909	c	3½	J & J	July 1 1929	*x*85,000
Municipal War loan (overdue)		---	------	----------	500
Loan of 1873 (overdue)		---	------	----------	500
Trust funds		---	------	----------	1,019,779

Of $1,019,799.38 trust funds held Sept. 1 1911, $899,911.47 carried 4% nterest and $80,000 6% interest, no interest being paid on $39,867.91.

PAR VALUE OF BONDS.—The bonds are in $500 and $1,000 pieces.

INTEREST is payable at the National Shawmut Bank of Boston and at State Treasurer's office.

TAX-EXEMPT.—Issues marked *x* are exempt from all taxes to individual holders. Treasurer Solon A. Carter informs us that all issues at 3½% and under are exempt when held by savings banks.

TOTAL DEBT.—The *net* debt on Sept. 1 1911 was $1,463,848. The subjoined statement shows New Hampshire's *total* debt on the dates named. Assets Sept. 1 1911 were $692,031.70.

	Sept. 1 '11.	*Sept.* 1 '10.	*Sept.* 1 '09.	*Sept.* 1 '08
Total funded debt	$1,136,000	$1,071,700	$831,700	$706,700
Trust funds	1,019,779	1,020,776	1,075,964	1,035,820
School fund	------	------	3,742	14,252
Floating debt	100	100	100	100
Total debt	$2,155,879	$2,092,576	$1,911,506	$1,756,873

ASSESSED VALUATION.—The State's total assessed valuation has been as below. The average tax rate for 1911 (per $1,000) was $21.00.

Years—	*Assessed Val.*	*Years*—	*Assessed Val.*	*Years*—	*Assessed Val.*
1911	$263,074,386	1905	$225,082,628	1897	$203,507,734
1910	255,085,571	1904	220,624,307	1896	200,957,600
1909	249,219,335	1903	216,837,497	1894	197,839,543
1908	244,971,264	1902	214,616,655	1893	196,117,060
1907	238,128,476	1900	209,670,845	1881	168,964,903
1906	231,641,571	1898	204,734,731		

The preceding values are simply the aggregate of the inventories of the various towns in the State. In addition the State taxes at different rates avings banks and trust companies, insurance capital, railroads, building and loan associations, telegraph and telephone companies, parlor car and express companies. These latter were valued in 1911 at $110,875,442.

POPULATION OF STATE—

1910	430,572	1870	318,300	1830	269,328	1790	141,881
1900	411,588	1860	326,073	1820	244,165		
1890	376,530	1850	317,976	1810	214,460		
1880	346,991	1840	284,574	1800	183,858		

In 1870-80 increase was 28,691, or 9.01%; in 1880-90, 29,539, or 8.51%; in 1890-00, 35,058, or 9.31%; in 1900-10, 18,984, or 4.6%.

DEBT LIMITATION.—There is no restriction in the constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the constitution which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

In addition to the foregoing is the "Municipal Bond Act of 1895." It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. The law enacts:

Sec. 1. The term "municipal corporation" means town, city, school district, village district and village precinct. *Sec.* 2. Bonds issued must be payable within 20 years, interest semi-annual, not exceeding 6%, may be payable in gold coin. If made payable in less than 20 years, may be extended, but never beyond 20 years from time of issue. *Sec.* 3. Bonds (except of cities) must be authorized by a vote of two-thirds of all voters present and voting at an annual meeting of such corporation, or at a special meeting if properly called, &c. (for which see Act). Bonds must be signed by a majority of the Governing Board, countersigned by Treasurer and have seal of corporation. Time and place of payment and rate of interest, &c., may be delegated to Governing Board. *Sec.* 4. City bonds must be authorized by resolution of City Council passed by at least two-thirds of members elected to each branch, taken by yeas and nays, signed by Mayor, countersigned by Treasurer, seal of city affixed. Place of payment, rate of interest and sale may be delegated to Treasurer. *Sec.* 5. Bonds shall be payable to bearer or to registered holder by name, and must be in form set out in Act—which see. In case bonds be made subject to call, they must contain statement to that effect as given in Act. "The validity of any bonds shall not be affected by any variation from the forms herein prescribed." *Sec.* 6. Treasurer to keep a book in which he shall register bonds issued, &c. *Sec.* 7. "All bonds purporting to be issued by virtue or in pursuance of this Act and signed and sealed as hereinbefore provided shall, in favor of bona fide holders, be conclusively presumed to have been duly and regularly authorized and issued in accordance with the provisions herein contained, and no holder thereof shall be obliged to see to the existence of the purpose of the issue or to the regularity of any of the proceedings or to the application of the proceeds. All such bonds shall be negotiable in all respects and to the same extent as securities negotiable by the law merchant." *Sec.* 8. Annual tax must be levied and collected sufficient to pay interest and provide a sinking fund sufficient to pay principal within 20 years. *Sec.* 9. No bonds can be issued which shall increase the *net* debt of corporation to an amount exceeding 5% of the value of the taxable property therein as last appraised for assessing taxes. To ascertain *net* debt, all debts must be included except the following, which must be deducted—water debt, 'cash and other means' in treasury and sinking funds applicable to payment of debt so included; "but nothing contained in this section shall prevent the issue of bonds for the purpose of refunding an equal principal amount of other bonds of such corporation." *Sec.* 10. Corporation seal. *Sec.* 11. Act to take effect on passage. Approved March 19 1895.

Exceptions have been made to this law from time to time in special instances, such as in the case of $100,000 high-school bonds of the city of Portsmouth authorized by Chapter 202, Laws of 1903. This chapter provides that Section 9 of the Municipal Bond Law of 1895 does not apply in this instance.

TAXATION OF MUNICIPAL BONDS.—Chapter 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precinct or village district. State bonds are subject to taxation unless exempted by the terms of the Act under which they are issued.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1901. The new law was approved by the Governor March 22 1901 and went into effect on its passage. In 1907 clauses 8, 14, 18, 19 and 20 were amended. The Legislature of 1909 passed an Act adding clause 22 and amending clause 17. The law now reads as follows:

AN ACT TO REGULATE AND LIMIT THE INVESTMENTS OF SAVINGS BANKS.

Be it enacted by the Senate and House of Representatives in General Court convened

SECTION 1. On and after the passage of this Act, savings banks and savings departments of banking and trust companies shall make investment of their funds in the following classes of securities only:

1st. In notes secured by first mortgage of real estate situated in New Hampshire, but not over 70% of the value of the property covered shall be so loaned, and not exceeding 70% of the deposits shall be so invested.

2d. In notes secured by first mortgage of real estate situated outside of New Hampshire which is at the time improved, occupied and productive, but not over 50% of the value of the property covered shall be so loaned, and not exceeding 25% of the deposits shall be so invested.

3d. In notes secured by collateral in which the bank is at liberty to invest of a value at least 10% in excess of the face of the note. The amount of any one class of securities so taken as collateral, added to that which the bank may own at the time, shall not exceed the total limit of that class of security, but not exceeding 25% of the deposits shall be so invested.

4th. In notes secured by collateral securities which are dealt in on the Stock Exchanges of Boston and New York, the Stock Exchange price of which shall at all times be at least 20% in excess of the face of the note while held by the bank, but not exceeding 25% of the deposits shall be so invested

5th. In notes of individuals or corporations with two or more signers, or one or more indorsers, but not exceeding 5% of the deposits shall be loaned any one person or corporation in this class of security, and not exceeding 25% of the deposits shall be so invested.

6th. In the public funds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal.

7th. In the bonds and notes of this State, or of any county, city, town precinct or district of this State.

8th. In the authorized bonds or notes of any State or Territory of the United States; and in the bonds or notes of any city of the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut or New York, whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for taxation, or of any county, town, village, precinct or district in said States whose net indebtedness does not exceed 3% of such valuation.

9th. In the authorized bonds of any county, city, town, school district or other municipal corporation of any other of the United States or Territories whose net indebtedness at the time of such investment does not exceed 5% of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 100,000 inhabitants of any of said States whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation. The term "net indebtedness" shall be construed to denote the indebtedness of any city, town or other municipal corporation, omitting the debt created for supplying the inhabitants with water and deducting the amount of any sinking fund available for the payment of the municipal indebtedness. *Provided, however*, that such bonds shall not have been issued in aid of railroads or for special assessment purposes. *Provided, also*, that the bonds of any county, city or town of less than 10,000 inhabitants, or of any school district or other municipal corporation of less than 2,000 inhabitants, in any State or Territory other than those named in Paragraph 8 of Section 1 of this Act shall not be authorized investments. *Provided, further*, that such bonds are issued by municipalities that are permitted by law to levy taxes sufficient to pay the interest and to provide sinking funds for their debt; otherwise such bonds shall not be authorized investments. But not exceeding 50% of the deposits shall be so invested.

10th. In the bonds or notes of any railroad company, except street railways, incorporated under the laws of this State, whose road is located wholly or in part in the same; but not exceeding 25% of the deposits shall be so invested.

11th. In the bonds of any railroad company, except street railways, incorporated under the authority of any of the New England States, whose road is located wholly or in part in the same, and which is in possession of and operating its own road, and has earned and paid regular dividends for the two years next preceding such investment, or in the bonds guaranteed or assumed by such railroad company; but not exceeding 25% of the deposits shall be so invested.

12th. In the bonds of any railroad company, except street railways, incorporated under the authority of any of the United States or Territories, which is in possession of and operating its own road, and has earned and paid regular dividends of not less than 4% per annum on its capital stock for the three years next preceding such investment; *provided*, such capital stock on which it earns and pays dividends equals in amount one-third of the entire bonded indebtedness of said road; or in the bonds guaranteed or assumed by such railroad; but not exceeding 25% of the deposits shall be so invested.

13th. In the first mortgage bonds of corporations of this State, except street railways, located and doing business therein, whose net indebtedness at the time of such investment does not exceed its capital stock actually paid in and remaining unimpaired; but not exceeding 10% of the deposits shall be so invested.

14th. In the bonds of street railway corporations incorporated under the laws of this State and located wholly or in part in the same, and in the bonds of street railway corporations located wholly or in part in cities of 30,000 inhabitants or more, in any of the other New England States, and in the bonds of street railway corporations located wholly or in part in cities of 50,000 inhabitants, or more in any of the United States; provided that he net indebtedness of any of such street railway corporations mentioned in this paragraph does not exceed the capital stock actually paid in and remaining unimpaired at the time of such investment, and that such corporation has earned and paid regular dividends of not less than 4% per annum on its capital stock for five years next preceding such investment; but not exceeding 10% of the deposits shall be so invested.

15th. In the bonds of telephone, telegraph or express companies doing business in the United States or Territories, *provided* the total indebtedness of such company does not exceed its capital actually paid in and remaining unimpaired; and *provided* such company has earned and paid regular dividends of at least 4% per annum upon its capital stock or shares for five years previous to such investment, but not exceeding 10% of the deposits shall be so invested.

16th. In the capital stock of any banking or trust company incorporated under the laws of this State and doing business therein, but the amount of such stock held by any savings bank as an investment and as collateral for loans shall not exceed one-tenth of the total capital stock of such banking or trust company, and not exceeding 10% of the deposits shall be so invested.

17th. In the stock of any national bank or trust company located in the New England States or the State of New York, but not exceeding 10% of the deposits of a savings bank shall be invested in such stock; the amount of stock in any national bank or trust company in this State which may be held by any savings bank as an investment or as collateral security for loans shall not exceed 25% of the capital stock of said national bank or trust company; and the amount of stock in any national bank or trust company outside of this State which may be held by any savings bank as an investment or as collateral for loans shall not exceed one-tenth of the capital stock of said national bank or trust company.

18th. In the stock or notes of any railroad corporation, exclusive of street railways, located in any part of the United States or Territories, that has earned and paid regular dividends of not less than 4% per annum on its capital stock for five years next preceding such investment; *provided*, such capital stock on which it pays dividends equals in amount one-third of the entire bonded indebtedness of said corporation; or in the stock of any other railroad corporation whose railroad and railroad property are leased to such railroad upon an annual rental of not less than 4% per annum upon the capital stock of the leased railroad; *provided*, said leased railroad shall have earned dividends of not less than 3% upon its capital stock for a period of three years immediately preceding said lease; but not exceeding 25% of the deposits shall be so invested.

19th. In the stock or notes of any manufacturing company in the New England States that has paid regular dividends on its capital stock for five years previous to such investment, and whose net indebtedness does not exceed the amount of its capital stock fully paid in; but not exceeding 10% of the deposits shall be so invested.

20th. In the stock or notes of any parlor car or sleeping car company incorporated and doing business in the United States, and whose cars are in actual use upon any railroad whose stock is a legal investment for New Hampshire savings banks, and that has earned and paid regular dividends of not less than 4% per annum on its capital stock for five years next preceding such investment; but not exceeding 5% of the deposits shall be so invested.

21st. In land and buildings suitable and actually used by it in part for its banking room, the total cost of which shall not exceed 10% of its deposits

22d. In the stock of any real estate trust company of this State and whose property is occupied and improved and is located in this State, whose capital stock is $100,000 or more; *provided*, the total indebtedness of such company does not exceed one-half of the capital stock actually paid in and remaining unimpaired; and *provided* such company has earned and paid regular dividends of at least 4% per annum upon its capital stock or shares for five years previous to such investment; but not exceeding 5% of the deposits shall be so invested.

SEC. 2. Any savings bank may hold and lease real estate acquired by foreclosure of mortgages owned by the bank; but all taxes, foreclosure expenses and cost of maintenance shall be paid out of the income of the bank.

SEC. 3. Deposits of cash on call, or subject to check, shall be made in some authorized banking or trust company incorporated under the laws of this State, or Massachusetts, or in some national bank located in the New England States, or in the cities of New York or Philadelphia.

SEC. 4. The special deposits or guaranty fund of a guaranty savings bank shall not be included in the amount of deposits on which the percentage of any investment is reckoned.

PORTSMOUTH.
This city, incorporated in 1849, is one of the county seats of Rockingham County. The city issued $343,000 bonds in aid of the Portsmouth & Dover RR. and received in return stock of the par value of $344,000. Part of this stock has been sold at various times and the proceeds applied to the payment of the railroad bonds. When the P. & D. RR. was absorbed by the Boston & Maine, the stock owned by the city was exchanged for stock in the Boston & Maine. On June 12 1907 the City Council authorized the Board of Sinking Fund Commissioners to exchange 855 shares of the common stock of the B. & M. RR. for the same number of shares of the capital stock of the New York New Haven & Hartford RR. Co. The High School bonds for $100,000 were authorized by Chapter 202, Laws of 1903, and it was provided that Section 9 of the "Municipal Bond Act of 1895" should not apply in their case. Bonds marked (*) are not taxed in Porstmouth.

State of Vermont.

ITS

DEBT, RESOURCES, &c.

Admitted as a State (Act Feb. 18 1791).....March 4 1791
Total area of State (square miles).....9,565
State Capital.....Montpelier
Governor (term expires Oct. 1912).....John A. Mead
Secretary of State (term expires Oct. 1912)...Guy W. Bailey
Treasurer (term expires Oct. 1912).....Edward H. Deavitt

LEGISLATURE meets biennially in even years the first Wednesday in October and length of session is not limited.

HISTORY OF DEBT.—For a brief history of the Vermont State debt see "State and City Supplement" of April, 1895, pages 15 and 16.
The liabilities of the State on July 1 1910 were as follows:

LOANS— *Name and Purpose.*	*Rate.*	*Interest.—Payable.*	*When Due.*	*—Principal.— Outstanding.*
Agricultural College Fund	6	J & D	June 1 1912	$135,500 00
Floating debt	--	------	----------	346,854 59
State school tax to be distributed	8	------	----------	165,602 16
do highway do do	5	------	----------	103,387 79

INTEREST is payable at the State Treasury.

TOTAL DEBT, &c.—The total debt of the State on July 1 1911 was $751,344.54. On July 1 1911 cash on hand and in banks was $566,141.63.

ASSESSED VALUATION AND TAX RATE.—In addition to the valuations below, the State assessed (1909) $52,627,217 deposits in savings banks and trust companies at the rate of 7-10 of 1%; also appraised the value of railroad property at $29,055,460, such property paying a tax of from 2½% to 4% on the gross earnings.

Years—	*Assessed Valuation— Real.*	*Personal.*	*Total.*	*State tax per $1,000*
1910	$143,386,564	$45,106,982	$188,493,546	None.
1909	141,929,051	43,897,747	185,826,798	None.
1908	140,988,065	43,376,520	184,354,585	None.
1905	127,993,677	59,838,143	187,831,820	None.
1900	118,950,024	58,293,598	177,243,622	$1.00
1898	116,141,979	58,621,654	174,763,633	0.50
1895	112,099,284	61,700,471	173,799,755	1.20
1890	112,895,125	65,157,388	178,052,513	----

There was no direct tax for State purposes levied in either 1903, 1904, '05, '06, '07, '08, '09 or '10. A tax of $1.30 per $1,000, however, consisting of a State school tax of 80c. and a State highway tax of 50c., was collected and re-distributed to towns on a basis of the number of schools and road mileage, the State, for the sake of equalizing its distribution, acting as agent in the matter. Prior to 1902 this tax was $1 per $1,000.

POPULATION OF STATE.—United States Census:

1910	355,956	1860	315,098	1820	235,981
1900	343,641	1850	314,120	1810	217,895
1890	332,422	1840	291,948	1800	154,465
1880	332,286	1830	280,652	1790	85,425
1870	330,551				

DEBT LIMITATIONS.—There appears to be nothing in the constitution providing for a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue. Of course the purpose of the improvement must be of a public character. The laws relating to municipal debt limitation which have been passed by the Legislature from time to time are contained in Sections 3556, 3557, 3558, 3574 and 3575, Chapter 157, of the Revised Statutes of 1906. Section 3556, embodying a law passed in 1904, prohibits a municipality, unless otherwise provided in its charter, from borrowing, except for refunding purposes, an amount in excess of five times its grand list as last taken. An additional amount, not exceeding five times the grand list, may be borrowed, providing the loan is approved by a two-thirds vote. The next section (3557), covering laws passed in 1904 and 1906, provides that in figuring the debt limit, loans created for water supply, sewer or electric lights, and temporary loans, may be eliminated. The two sections follow:

SECTION 3556.—*Limit.*—No municipal corporation shall create an indebtedness, unless to refund outstanding bonds or orders, to an amount exceeding five times its grand list last taken; provided that it may, by a two-thirds vote by ballot of the voters present and voting at a meeting called for that purpose, increase such indebtedness an additional amount not exceeding five times such grand list. Bonds or obligations given or created in excess of the limit authorized by this section shall be void.

SECTION 3557.—*Determination.*—In determining the amount of municipal indebtedness permitted by the preceding section, obligations created for a water supply, sewers or electric lights, and temporary loans created in anticipation of the collection of taxes and necessary for meeting current expenses, shall not be taken into account; provided, that no such temporary loan shall be extended beyond the fiscal year for which it is made, and shall not exceed in amount 90% of the amount of taxes levied for such year; nor shall the provisions of this and the preceding section apply when the charter of a municipal corporation limits its indebtedness.

Section 3558 covers laws passed in 1872 and relates to railroad subscriptions by towns:

SECTION 3558. A town may aid in the construction of a railroad or ganized under the general law, by issuing bonds to aid such railroad, by taking capital stock therein, or in such other manner as it directs; but the liability so assumed shall not exceed eight times the grand list of the town. Such aid shall be given as provided in this chapter.

The other sections referred to (Sections 3574 and 3575) embrace a law passed in 1892, and allow towns or villages, not already bonded to an amount exceeding five times the grand list, to borrow an amount not exceeding three times the grand list for highway improvement. The two sections read as follows:

SECTION 3574. A town or incorporated village may issue bonds to an amount not exceeding three times its grand list for the purpose of purchasing road-making apparatus and for building permanent highways withia the limits of such town or village.

SECTION 3575. Such town or incorporated village may vote to issue such bonds at a meeting of the corporation, duly warned for that purpose, by a two-thirds majority of all the votes cast, and may stipulate in such vote by whom and in what manner the proceeds of such bonds shall be expended; but no town or incorporated village shall issue such bonds if it is already bonded to an amount exceeding five times its grand list.

It will be noticed that the preceding sections refer in each instance to the "grand list." To evolve the "grand list" in Vermont, the authorities first prepare a schedule of all the property, real and personal, of each individual, with valuations entered at their real value in money, deducting debts owing; after this is done, the "grand list" is made up by taking 1% of that amount, according to Section 494, Chapter 30, of the Revised Statutes of 1906, which is as follows: "All real and personal estate shall, except as otherwise provided, be set in the list at 1% of its value in money on the first day of April of the year of its appraisal."

The only other *general* authority granted for the issue of bonds by municipal corporations in Vermont is that given for refunding outstanding bonds and notes. The sections which grant these powers are Sections 3567 to 3573 inclusive, Chapter 157 of the Revised Statutes of 1906. Section 3567 is as follows:

SECTION 3567. A town which has outstanding and unpaid orders, notes, bonds or coupons lawfully issued, may issue other negotiable notes or bonds to pay or retire the same.

SECTIONS 3568 to 3573, inclusive, give the method of issuing such bonds.

By Section 3572 municipal corporations other than towns have the same refunding powers granted them which are conferred upon towns.

EXEMPTION FROM TAXATION.—Subdivision XII. of Section 496 of the Public Statutes of 1906, as amended by Act 23 of the Laws of 1908, provides that the following municipal securities shall be exempt from taxation:

XII. Notes, bonds or orders issued after Feb. 1 1907 as evidences of obligations for money loaned to a town, village, incorporated school or fire district, at a rate of interest not exceeding 4% per annum, for the purpose of constructing, purchasing, or repairing water, sewer or lighting systems, permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—By Act No. 158 of the Vermont Legislature, approved Jan. 27 1911, Sections 4615 to 4692, inclusive, of the Public Statutes of 1906, relating to savings banks and trust companies, were completely revised. Many material changes were made in that part of the law concerning investments by savings banks, an entirely new section having been added which allows investment in railroad bonds. Section 8 of the new law, which deals with investments, is given in full below:

INVESTMENTS.

SECTION 8. The assets of banks shall be invested as follows:

FIRST MORTGAGES OF REAL ESTATE.

First. In first mortgages of unincumbered real estate, not to exceed in each case 60% of the value of such real estate, if located in Vermont, and not to exceed 40% of the value of such real estate if located elsewhere. Not less than one-sixth of the amount of such mortgages shall be upon real estate in this State treating mortgages made on lands in an adjoining State within twenty miles of the bank making such loan as Vermont mortgage loans, and not more than 80% of the amount of the assets shall be invested in mortgages of real estate; provided, that not exceeding 60% of the amount of such assets may be invested in mortgages of real estate outside of this State. No investment shall be made on mortgages of real estate outside of Vermont which is unimproved and unproductive, and the amount of such investments on mortgages in Vermont shall not be more than 40% of the value thereof. No bank shall loan to any person, partnership, association or corporation upon real estate mortgage (treating loans to the individual members of a partnership as loans to the partnership) more than $30,000, and in addition thereto 1% of the deposits of such bank in excess of $1,000,000. No mortgage investment shall be made except upon the written approval of at least three trustees of the board of investment, who shall certify in writing according to their best judgment the value of the premises mortgaged or to be mortgaged. At the expiration of every mortgage loan made for a period of five years or more, such loan shall not be extended or renewed unless three members of the board of investment certify in writing the value in their best judgment of the mortgaged premises and unless such value meets the requirements above prescribed.

When buildings are included in the valuation of real estate upon which an investment is made, they shall be insured by the mortgagor in such company as the trustees or board of investment direct, and the policies of insurance shall be duly assigned, or the loss made payable to such bank, and such bank may renew such policy of insurance in the same or in another company, as said trustees or board of investment elect, from year to year, or for a longer or shorter period, if the mortgagor neglects so to do; and, when necessary, the Treasurer may sign premium notes, and may charge the amount paid for such insurance to the mortgagor.

MUNICIPAL BONDS.

Second. (a) In the public funds of the United States or any of the States or the District of Columbia or in public funds for the payment of principal and interest of which the faith of the United States is pledged.

(b) In the bonds or notes of counties, cities, towns, villages, school districts and water districts of the New England States and of any incorporated district in Vermont having the right to levy taxes in payment of its indebtedness.

(c) In the bonds or notes of towns, cities and school districts having a population, according to the last preceding United States or State Census, of at least 1,000 and an indebtedness not exceeding 5% of the last preceding valuation for the assessment of taxes in New York, Pennsylvania, Ohio, Michigan, Illinois, Indiana, Iowa, Wisconsin and Minnesota.

(d) In the bonds or notes of towns, cities and school districts having a population, according to the last preceding United States or State Census, of at least 7,000, and an indebtedness not exceeding 5% of the last preceding valuation for the assessment of taxes in New Jersey, Kansas, Nebraska, North Dakota, South Dakota, Missouri, Oregon, Washington and California.

(e) In the bonds of counties having a population, according to the last preceding United States or State Census, of at least 50,000 and an indebtedness of not exceeding 3% of the last preceding valuation for the assessment of taxes, and in the bonds or notes of cities and school districts having a population, according to the last preceding United States or State Census, of at least 50,000 and an indebtedness not exceeding 5% of the last preceding valuation for the assessment of taxes, in any of the States above named, and in Colorado, Delaware, Georgia, Maryland, Oklahoma, Texas, Utah and West Virginia.

(f) In the bonds or notes of a city in any of the States above named having a population, according to the last preceding United States or State Census, of at least 100,000 and an indebtedness not exceeding 7% of the last preceding valuation for the assessment of taxes.

(g) In the bonds or notes of a city in any of the States above named having a population, according to the last preceding United States or State Census, of at least 200,000.

In sub-divisions (c) and (d) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year and the amount of any sinking funds available for the payment of such indebtedness and in sub-divisions (e) and (f) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year, the amount of any sinking funds available for the payment of such indebtedness and debts created for supplying the inhabitants of the municipality with water.

The foregoing does not authorize investments in railroad-aid bonds (except such as are issued by municipalities in the State of Vermont) or in bonds which are not direct obligations of a municipality or in bonds of municipalities which have within twenty years repudiated or compromised the payment of any debt or defaulted for more than ninety days in the payment of any indebtedness, and the purchase of such securities is hereby prohibited.

[*The old law permitted investment:*

In the public funds of the United States, or public funds for the payment of principal and interest of which the faith of the United States is pledged;

In the bonds of notes of the counties, towns, cities, villages and school districts of the New England States, New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois and Iowa;

In the municipal bonds, not issued in aid of railroads, of counties, towns and cities of 5,000 or more inhabitants in the States of New Jersey, Wisconsin, Minnesota and Missouri, and in counties, towns and cities of 10,000 or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington; but no investment shall be made in any of the counties, towns or cities in the States above named, except in cities of 50,000 or more inhabitants, where the municipal indebtedness of such county, town or city *exceeds five per cent* of its assessed valuation, and when not issued in aid of railroads;

In the school bonds and independent school district bonds of New Jersey, Wisconsin, Minnesota and Missouri; and in the school bonds and independent school district bonds of school districts of 2,000 or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, where the amount of such bonds issued does not exceed 5% of the assessed valuation of the respective towns, cities and school districts;

In the public funds of any of the States named in this section.]

RAILROAD BONDS—VERMONT RAILROADS.

Third. (a) In the notes or bonds of a railroad corporation incorporated under the laws of Vermont, irrespective of the length of such road, when issued in accordance with the laws of this State and in compliance with the provisions hereinafter set forth relating to bonds of New England railroads.

NEW ENGLAND RAILROADS.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of which is located in said States whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; provided, either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation, or by a refunding mortgage as described in paragraphs (3) or (4) of sub-division (g) or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States, which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment, franchise, or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued, and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and provided, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment;

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraph (3) or (4) of sub-division (g) of a railroad corporation incorporated in any of the New England States the railroad of which is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in sub-divisions (a) or (b) which is in possession of and is operating its own road;

(d) No bond shall be made a legal investment by sub-division (b) unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by sub-division (c) unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

No bond shall be made a legal investment by sub-division (b) or (c) unless the corporation owns in fee not less than 100 miles of standard-gauge railroad (exclusive of sidings) within the United States.

OTHER RAILROADS—DESCRIPTION OF CORPORATION.

(e) In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States;

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, or, if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than $15,000,000;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock;

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines and the interest on all the outstanding indebtedness of railroads, controlled and operated, which is not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes;

And further *provided*, that—

(5) No bonds shall be made a legal investment by sub-division (g) in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provision of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment;

(6) No bonds shall be made a legal investment by sub-division (i) or (j) in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph 5, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at said date the total debt of the corporation which issued said bonds shall exceed three times its outstanding capital stock;

In the case of a mortgage executed prior to the passage of this Act, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph 5 and of this paragraph, as the total authorized issue.

DESCRIPTION OF BONDS.

Definition of first mortgage. (f) Whenever the term "first mortgage" is used in the following sub-divisions, it shall mean, unless otherwise qualified, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which said mortgage is a lien, but in no case on less than 100 continuous miles of standard-gauge railroad, exclusive of sidings; *provided* that—

Seventy-five per cent of the railroad subject to the lien of said mortgage is connected;

For five years prior to the date of investment therein all the railroad subject to the lien of said mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees said bonds;

The date of said mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

Direct Obligations. (g) Bonds issued or assumed by a railroad corporation described in sub-division (e) which are secured by a mortgage which was at the date thereof, or is at the date of such investment:

(1) A first mortgage on a railroad owned in fee by the corporation issuing or assuming said bonds except that, if it is not a first mortgage on 75% of all such railroad owned in fee by said corporation, it shall be a first mortgage on at least 75% of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least 75% of the total mileage which is subject to the lien of said mortgage and which is represented or covered by said stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture, which is in effect a first mortgage upon all the railroad subject to the lien of said mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said bonds;

(3) A refunding mortgage which covers at least 75% of the railroad owned in fee by said corporation at the date of said mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage at the date thereof; but if any of the bonds which said refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage either—

At least 75% of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded, or

At least 75% of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of said railroad not owned in fee which is so subjected to the lien of said refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said refunding mortgage bonds; but in no case shall the bonds secured by said refunding mortgage become a legal investment unless they mature at a later date than any bonds which said refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of said refunding mortgage in accordance with the requirements of this paragraph is at least 25% greater than the mileage covered by any one of the mortgages securing bonds which said refunding mortgage is given to refund.

(4) A mortgage upon not less than 10% of the railroad exclusive of sidings, owned in fee at the date of said mortgage by the corporation issuing or assuming said bonds, but in no case on less than 500 continuous miles of standard-gauge railroad; *provided*, that—

Said mortgage is a first or second lien upon not less than 75% of the total railroad covered by said mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon said railroad owned in fee and covered by said mortgage, at the date of the execution thereof;

The bonds secured by said mortgage mature at a later date than, and cover a mileage at least 25% greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired;

The date of said mortgage shall be at least five years prior to the date of such investment.

Bonds underlying refunding mortgages. (h) Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest, by a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs (3) or (4) of subdivision (g); *provided*, that—

Said bonds are prior to and are to be refunded by such refunding mortgage;

Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien;

In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated or leased and operated, by said railroad corporation.

Guaranteed obligations. (i) Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of sub-division (e); *provided*, that—

Said bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation guaranteeing said bonds.

In the case of a leased railroad, the entire capital stock of which, exeept shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least 4% per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) First mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs (2), (3) and (4) of sub-division (e), *provided* that said bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5), notwithstanding that the railroad of said issuing corporation is not operated by said guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph (4) of sub-division (e); but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made during said period. If, after the expiration of said period, said corporation complies for the following fiscal year with all the requirements of sub-division (e), it shall be regarded as having complied therewith during said period.

BONDS NOT TO BECOME ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of said corporation which issued or assumed said bonds.

CREDIT OF A CORPORATION NOT TO BE LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5), except that the period of compliance is less than ten, but not less than five, successive years, shall be or shall have been, thereupon consolidated or merged with, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of sub-division (e) preceding paragraph (5) during those successive years next preceding the date of such consolidation, merger or purchase, in which all said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied; *provided*, that said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following said consolidation, merger or purchase.

STREET RAILWAY CORPORATIONS ARE NOT RAILROAD CORPORATIONS.

(n) In this Act, unless the context otherwise requires, "railroad corporation" means a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this Act.

BANK STOCKS AND DEPOSITS IN BANKS.

Fourth. (a) In the stock of any national bank in the New England States and the State of New York; in the stock of any banking association or trust company incorporated under the authority of and located in this State; but no bank shall hold bank stock both by way of investment and as security for loans in excess of 10% of its deposits, nor, in any one bank, more than 5% of its deposits, or more than $35,000, or more than 10% of the capital stock of any one bank.

(b) A bank may deposit on call in banking associations or trust companies, approved by the Bank Commissioner of this State, and under the supervision of the State or Federal authority, in this State or in the cities of New York, Boston, Chicago, Albany, Philadelphia or Concord, New Hampshire, or in any other bank designated as a depository under the laws of the United States or in national banks in the cities of St. Paul, Minneapolis and Kansas City, with or without interest as may be agreed upon, sums not exceeding in the aggregate 20% of the assets of such depositing banks.

LOANS ON PERSONAL SECURITY, INCLUDING COLLATERAL LOANS.

Fifth. In loans or renewals of loans of the class hereinafter described, payable and to be paid or renewed at a time not exceeding one year from the date thereof; but not more than one-third of the assets of a bank shall be so invested; nor shall a bank loan to any person, partnership, association or corporation upon personal security (treating loans to the individual members of a partnership as loans to the partnership) more than $10,000 until a bank's deposits amount to $1,000,000, after which the sums so loaned may be increased 1% of the deposits in excess of $1,000,000 up to, but not exceeding, $50,000, or (in cases where 10% of the capital and surplus exceed $50,000) up to, but not exceeding, 10% of the capital, if any, and surplus; but this limitation shall not apply to the purchase of municipal or railroad bonds, or to notes with such bonds as collateral.

(a) A note bearing as makers, sureties or endorsers the signatures of at least two approved names of residents of this State, or of persons who reside within fifty miles of the bank making the loan.

(b) A note or accepted draft given by individuals, firms or corporations residing without the State, for goods manufactured within the State and payable to individuals, firms or corporations located within the State and endorsed by at least one responsible citizen of the State.

(c) A note of a corporation incorporated by this State with one or more substantial sureties resident in the State.

(d) A note of a responsible borrower with a pledge as collateral, in such form as the Bank Commissioner shall approve of.

(1) One or more first mortgages of real estate such as might be lawfully purchased by a bank, as in cases of mortgages bought by the bank, and that the amount of such note is not in excess of the amount which the bank might loan on a note secured by mortgage on said land.

(2) Municipal bonds in which the bank might legally invest at no more than 90% of their market value; railroad bonds in which the bank might legally invest at no more than 80% of their market value; and bank stocks in which the bank might legally invest at no more than 80% of their market value.

(3) Deposit books or certificates of deposit of depositors in banks of this State, including national banks, at their full value, and in banks of any of the New England States and of New York, under State or Federal supervision, at no more than 90% of the amount of deposits therein shown, provided written notice of such assignments has been given to the bank carrying the deposit.

BANK BUILDING.

Sixth. Five per cent of the deposits of a bank may be invested in the purchase of a suitable building for the convenient transaction of its business, or a site therefor and the erection or repairs of a building thereon, from portions of which not required for its use a revenue may be derived.

REAL ESTATE TAKEN BY FORECLOSURE.

Seventh. A bank may hold real estate acquired by the foreclosure of a mortgage thereon, owned by or pledged to such corporation, or by purchase at sales made under the provisions of such mortgage, or upon judgment for debts due, or in settlements effected to secure such debts; and such real estate shall be sold by such corporation as soon as a reasonable price can be obtained therefor and within five years after the same is vested in such corporation, except when a majority of the trustees of such corporation shall make application in writing to the Bank Commissioner, stating that, in their opinion, the interests of such corporation require that such real estate be held for a longer period than five years; in which event said Commissioner may extend the time of holding such real estate not to exceed five years.

SECURITIES ACQUIRED IN SETTLEMENT OF INDEBTEDNESS.

Eighth. A bank may hold stocks, bonds, notes or other securities not the subject of legal investment acquired in settlements effected to secure or adjust loans; but unless the length of time such securities may be held is extended, as provided in the preceding clause, they shall be sold within five years after being acquired.

LIST OF RAILROAD BONDS TO BE PREPARED.

Ninth. Not later than the first of March in each year, the Bank Commissioner shall prepare a list of the railroad securities which are then legal investment for banks, which list shall at all times be open to public inspection, and shall send a copy thereof to every bank coming within his jurisdiction. [The list of railroad bonds with additions made Mch. 1 1912 was printed in the "Chronicle" of April 27 1912, page 1201.]

CITIES, COUNTIES AND TOWNS IN THE STATE OF VERMONT.

BARRE.

This city is in Washington Co. Incorporated 1895.

School Bonds.

4s '09 M-S $40,000c Sept 1 '12-'19

Water Bonds.

4s J-D $70,000c 1912-1925

* Nominal or contingent debt except "parks," of which $2,567,500 is a direct State obligation. Two-thirds ($535,333) of the Court-house loans is contingent debt. See below.

PUBLIC SALES OF BONDS.—A bill passed the Legislature in 1904 directing the Treasurer to advertise all future sales of State bonds instead of disposing of the same at private sale, as had been the practice for several previous years. (V. 78, p. 1565.)

INTEREST is payable at State Treasury in Boston.

TOTAL DEBT, SINKING FUNDS, &C.—

	Dec. 1 1911.	*Dec.* 1 1910.	*Dec.* 1 1909.	*Dec.* 1 1908.
Total funded debt	$116,234,162	$114,436,162	$110,520,162	$109,111,362
Sinking funds, &c	35,844,648	33,358,409	30,863,096	31,013,766
Net debt	$80,389,514	$81,077,753	$79,657,066	$78,097,596

The above debt is of two classes: the Direct Debt, for the payment of which the Commonwealth is directly and entirely responsible; and the Nominal or Contingent Debt, for which the Commonwealth has loaned its credit to sundry cities and towns for various purposes, the payment of which is guaranteed by sinking funds (sufficient to pay the debt at maturity) provided by a direct annual tax on the cities and towns for which the debt has been incurred. On Dec. 1 1911 these classes and the sinking funds applicable thereto were as follows:

	Direct Debt.	*Nominal Debt.*	*Grand Total.*
Bonded debt	$41,920,417	$74,313,745	$116,234,162
Sinking funds	21,438,295	14,406,353	35,844,648
Net debt	$20,482,122	$59,907,392	$80,389,514

ASSESSED VALUATION.—The State's assessed valuation has been as below:

Years—	*Real Estate.*	*Personal Property.*	*Total.*
1911	$3,092,791,011	$2,156,384,984	$5,249,175,995
1910	2,977,075,471	2,050,079,335	5,027,154,806
1909	2,870,699,295	1,899,859,527	4,770,558,822
1908	2,799,062,707	1,775,073,438	4,574,136,145
1907	2,746,005,835	1,757,420,786	4,503,426,621
1906	2,668,110,610	1,702,851,857	4,370,962,467
1905	2,600,445,146	1,621,835,908	4,222,281,054
1900	2,315,687,381	1,562,983,689	3,878,671,070
1890	1,600,137,807	1,013,077,330	2,613,215,137
1880	1,111,160,072	816,695,358	1,927,855,430

The larger portion of the State's revenue is derived from corporations, national bank stocks, savings bank and inheritance taxes. In 1911 the tax assessed aggregated $15,539,462.87, of which $7,687,703.12 accrues to the Commonwealth and the balance is apportioned to cities and towns. Of the total of $15,539,462.87, $1,236,855.46 was assessed upon street railway companies, $4,035,662.54 upon other public service corporation, 3,443,.604.37 upon domestic business corporations, $1,808,567.56 upon savings banks, $1,539,767.84 upon national banks and $1,964,209.25 upon inheritances.

POPULATION OF STATE.—Massachusetts has the largest population of any of the New England States.

1910	3,366,416	1870	1,457,351	1820	523,287
1905	3,003,635	1860	1,231,066	1810	472,040
1900	2,805,346	1850	994,514	1800	422,845
1890	2,238,943	1840	737,699	1790	378,787
1880	1,783,085	1830	610,408		

CONDEMNATION OF PRIVATE PROPERTY ADJACENT TO IMPROVEMENTS.—On Nov. 7 1911 a proposed amendment to the State constitution was adopted which increases the power of the Legislature to authorize the taking of land and property for highways or streets. The latter adds the following to Article 10 of part 1 of the constitution: The Legislature may by special Acts, for the purpose of laying out, widening or re-locating highways or streets, authorize the taking in fee by the Commonwealth, or by a county, city or town, of more land and property than are needed for the actual construction of such highway or street; provided, however, that the land and property authorized to be taken are specified in the Act and are no more in extent than would be sufficient for suitable building lots on both sides of such highway or street; and after so much of the land or property has been appropriated for such highway or street as is needed therefor, may authorize the sale of the remainder for value with or without suitable restrictions. See V. 93, p. 1547.

DEBT LIMITATIONS.—There seems to be no provision in the constitution of Massachusetts limiting the power of the Legislature to create State indebtedness, or limiting its power to authorize municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to cities and towns. All of the general provisions are found incorporated in Chapter 27 of the Revised Statutes, edition of Jan. 1 1902. The important sections of this chapter are cited below:

SECTION 1. Cities and towns shall not incur debts, except in the manner of voting and within the limitations as to amount and time of payment prescribed in this chapter.

SEC. 2. The indebtedness of a city or town under the provisions of this chapter not inconsistent herewith shall be its net indebtedness* as defined in clause twelve of section five of chapter eight; but debts created in aid of railroad corporations, except as herein otherwise provided, and water scrip issued by a town under special statutes for the indebtedness of a fire district, and all other debts excepted by general or special statutes shall be excluded.

SEC. 3. A *city* shall not become indebted in an amount exceeding two and one-half per cent on the average of the assessors' valuations of the taxable property therein for the three preceding years, the valuation of each year being first reduced by the amount of all abatements allowed thereon previous to the last day of December in the year preceding said assessment.

SEC. 4. A *town* shall not become indebted in an amount exceeding three per cent on the last preceding valuation for the assessment of taxes of the taxable property therein.

SEC. 5. A city or town which establishes, purchases, reconstructs, extends or enlarges a gas or electric-lighting plant within its limits may incur debt outside the debt limit prescribed in this chapter in payment therefor to an amount not exceeding, in a town, five per cent, and, in a city, not exceeding two and one-half per cent, of the last preceding State valuation.

SEC. 6. Cities and towns may by a majority vote incur debts for temporary loans in anticipation of the taxes of the municipal year in which such debts are incurred and expressly made payable therefrom by such vote. Such loans shall be payable within one year after the date of their incurrence, and shall not be reckoned in determining the authorized limit of indebtedness. [Notes may be non-interest bearing and sold at a discount. See Chapter 153, Laws of 1904.]

SEC. 7. Cities and towns may by a majority vote incur debts for temporary loans for the payment of any land damages or any proportion of the general expense of altering a crossing which they are required primarily to pay under the provisions of Sections 149 to 160, inclusive, of Chapter 111. Such loans shall not be reckoned in determining the authorized limit of indebtedness, and when any money so paid is repaid, it shall be immediately applied to the discharge of the loan.

Sections referred to in Chap. 111 *provide for the abolition of grade crossings.*

SEC. 8. Debts other than those mentioned in the two preceding sections shall be incurred only by a vote of two-thirds of the voters present and voting at a town meeting, or of two-thirds of all the members of each branch of the city council, taken by yeas and nays, and subject to the approval or disapproval of the mayor.

SEC. 9. A city or town which has incurred a debt within the limitations as to amount and time of payment prescribed by this chapter may issue bonds, notes or scrip therefor, properly denominated on the face thereof, signed by its treasurer and, if issued by a city, countersigned by its mayor, or, if issued by a town, countersigned by a majority of its selectmen with, interest payable semi-annually at such rate as it deems proper, and may sell said bonds, notes or scrip, at not less than par, at public or private sale, or may use the same in payment of such debts.

SEC. 10. If a city or town votes to issue bonds, notes, scrip or other certificates of indebtedness in accordance with the provisions of this chapter, the officers authorized to negotiate the same may, in the name of such city or town, make a temporary loan for a period of not more than one year in anticipation of the money to be derived from the sale of such bonds, notes, scrip or other certificates of indebtedness; but the time within which such securities shall become due and payable shall not be extended by reason of the making of such temporary loan beyond the time fixed in the vote authorizing the issue of such bonds, notes, scrip or other certificates of indebtedness. [*See note under Section* 6.]

SEC. 11. Debts incurred for supplying the inhabitants with water, for acquiring land for public playgrounds [*a* and parks] under the provisions of Chapter 28, for a municipal lighting plant under the provisions of Chapter 34, or in constructing sewers, shall be payable within thirty years; debts incurred in building school houses and other public buildings and in procuring land therefor, within twenty years; and all other debts mentioned in Section 8, within ten years, or by the city of Boston within twenty years.

a Added to law by Chapter 375, Acts of 1903.

[*Chapter* 28, *referred to above, provides for public parks, playgrounds, &c., and under it any city or town (except Boston) may incur indebtedness to meet expense of acquiring land for public playgrounds outside the debt limit to an amount not exceeding ½ of* 1% *of its assessed valuation. Chapter* 34 *provides for the manufacture and distribution of gas and electricity.*]

SEC. 12. The interest on all debts shall annually be raised by taxation. If a debt is payable at a period exceeding ten years, the city or town shall, and in all other cases may, at the time of contracting the same, establish a sinking fund to be used for no other purpose than the payment of such debt, and shall annually raise by taxation and contribute thereto an amount sufficient with its accumulations to extinguish the debt at maturity; and if payable at a period not exceeding ten years, the city or town shall raise by taxation annually not less than 8% of the principal thereof, and shall set it apart for a sinking fund until an amount has been raised sufficient, with its accumulations, to extinguish the debt at maturity; and shall, in the year before the maturity of the debt, raise by taxation any balance necessary for its extinguishment.

SEC. 13. A city or town, instead of establishing a sinking fund, may vote to provide for the payment of any debt by such annual proportionate payments as will extinguish the same at maturity, and thereupon such annual proportion shall, without further vote, be assessed under the provisions of Section 37 of Chapter 12 until such debt is extinguished.

Sections 14 to 19, inclusive, and Sections 22, 24 and 25, relate to the election and duties of the Commissioners of the Sinking Fund and various other matters we cannot enter upon here.

SEC. 21. A city which at a meeting of its voters held for that purpose has accepted, by a vote of two-thirds of the legal voters present and voting thereon, any Act to supply said city with water may, by a yea and nay vote of the majority of the members of each branch of the City Council, contract debts and issue bonds for the purpose and to the extent authorized by such Act, in the manner provided in, and subject to the provision of, the preceding sections.

SEC. 23. No city or town shall, for the purpose of subscribing in aid of a railroad corporation, increase its indebtedness to an amount which, with its existing net indebtedness* incurred for any purpose, excluding temporary loans, exceeds 3% of the valuation of the taxable property therein as ascertained by the last preceding city or town valuation for the assessment of taxes.

In addition to these general provisions there are various special laws which contain *exceptions* to the general law as to debt limitation, which apply to Cambridge, Lynn, Newburyport, Waltham, Worcester, &c., &c. A further exception in favor of Metropolitan Park assessment loans issued in 1900 and 1901 was made by Chapter 325, Laws of 1902.

[* "Net indebtedness" as used above shall mean the indebtedness of a county, city, town or district, omitting debts created for supplying the inhabitants with water and other debts exempted from the operation of the law limiting their indebtedness, and deducting the amount of the sinking funds available for the payment of the indebtedness included. Revised Statutes, Chapter 8, Section 5, Clause 12.]

EXEMPTION FROM TAXATION.—Clause 15, Section 5, Part I, Chapter 490, of the Acts of 1909, provides that the following securities shall be exempt from taxation: "Bonds or certificates of indebtedness of the Commonwealth issued since the first day of January in the year 1906, and bonds, notes and certificates of indebtedness of any county, fire district, water supply district, city or town in the Commonwealth which may be issued on or after the first day of May in the year 1908, stating on their face that they are exempt from taxation in Massachusetts."

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—Investment by savings banks in Massachusetts is governed by Chap. 590 of the Acts of 1908, referred to in V. 87, p. 257, and in an editorial article on pages 5 and 6 of the "State and City Supplement" for May 29 1909. The law was further amended in 1909 and 1912 (see "Chronicle" of May 25 1912, "State and City Department"), and now reads as follows:

SECTION 68. Deposits and the income derived therefrom shall be invested only as follows:

FIRST—First Mortgages of Real Estate.—In first mortgages of real estate located in this Commonwealth not to exceed 60% of the value of such real estate; but not more than 70% of the whole amount of deposits shall be so invested. If a loan is made on unimproved and unproductive real estate, the amount loaned thereon shall not exceed 40% of the value of such real estate. [For conditions that must be observed in making such loans see law in full in V. 87, p. 257.]

SECOND—Public Funds.—(a) In the public funds of the United States or of any of the New England States.

(b) In the bonds or notes of a county, city or town of this Commonwealth.

(c) In the bonds or notes of an incorporated district in this Commonwealth whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

(d) In the bonds or notes of any city of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes; or of any county or town of said States whose net indebtedness does not exceed 3% of such valuation; or of any incorporated water district of said States which has within its limits more than five thousand inhabitants, and whose bonds or notes are a direct obligation on all the taxable property of such district and whose net indebtedness does not exceed 3% of such valuation. *Provided*, that there is not included within the limits of such water district, either wholly or in part, any city or town the bonds or notes of which are not a legal investment.

(e) In the legally authorized bonds of the States of New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Missouri and Iowa, and of the District of Columbia, and in the legally authorized bonds for municipal purposes, and in the refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the aforesaid States, which has at the date of such investment more than thirty thousand inhabitants, as established by the last national or State census or city census, certified to by the city clerk or treasurer of said city, and taken in the same manner as a national or State census, preceding such investment, and whose net indebtedness does not exceed 5% of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property therein for the assessment of taxes.

(f) In the legally authorized bonds of the States of California, Delaware, Nebraska, New Jersey, Oregon and Washington, and in the legally authorized bonds for municipal purposes or in refunding bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the States of California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Massachusetts, Maine, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Washington and Wisconsin, which has at the date of such investment more than one hundred thousand inhabitants, established in the same manner as is provided in subdivision (*e*) of this clause, and whose net indebtedness does not exceed seven per cent of the valuation of the taxable property therein, established and ascertained as provided in subdivision (*e*) of this clause.

(g) In subdivisions (d), (e) and (f) of this clause the words "net indebtedness" mean the indebtedness of a county, city, town or district omitting debts created for supplying the inhabitants with water and debts created in anticipation of taxes to be paid within one year, and deducting the amount of sinking funds available for the payment of the indebtedness included.

RAILROAD BONDS.

Massachusetts Railroads.

THIRD.—(a) In the bonds or notes, issued in accordance with the laws of this Commonwealth, of a railroad corporation incorporated therein the railroad of which is located wholly or in part therein, which has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment, or in the first mortgage bonds of a terminal corporation incorporated in this Commonwealth and whose property is located therein, which is owned and operated, or the bonds of which are guaranteed as to principal and interest, or assumed, by such railroad corporation. Any shares of the capital stock of a railroad corporation leased to such railroad corporation, which are owned by said lessee corporation, shall not be considered as outstanding within the meaning of this subdivision.

New England Railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of which is located in said States, whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; *provided* either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation or by a refunding mortgage as described in paragraph (3) or (4) of subdivision *g*; or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and *provided*, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment.

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraphs (3) or (4) of subdivision *g*, of a railroad corporation incorporated in any of the New England States the railroad of which is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in subdivisions *a* or *b* which is in possession of and is operating its own road.

(d) No bond shall be made a legal investment by subdivision *b* unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by subdivision *c* unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

Other Railroads.

(e) In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States:

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than five hundred miles of standard-gauge railroad, exclusive of sidings, within the United States, or if such corporation owned in fee less than five hundred miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than fifteen million dollars;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least four per cent upon all its outstanding capital stock.

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all the outstanding indebtedness of railroads controlled and operated which is not owned by said corporation after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

And further *provided*, that—

(5) No bonds shall be made a legal investment by subdivision *g* in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment.

(6) No bonds shall be made a legal investment by subdivision *i* or *j* in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph five, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at said date the total debt of the corporation which issued said bonds shall exceed three times its outstanding capital stock.

In the case of a mortgage executed prior to the passage of this Act, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph five and of this paragraph, as the total authorized issue.

(7) Any railroad corporation which is mentioned in subdivision *c* of clause fourth of section twenty-six of chapter one hundred and thirteen of the Revised Laws shall be considered as having complied with all the requirements of this subdivision preceding paragraph five up to and including the fiscal year of said corporation in which this Act is passed.

DESCRIPTION OF BONDS.

(f) *Definition of First Mortgage.*—Whenever the term "first mortgage" is used in the following subdivisions, it shall mean, unless otherwise qualified, a first mortgage on not less than seventy-five per cent of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which said mortgage is a lien, but in no case on less than one hundred continuous miles of standard-gauge railroad, exclusive of sidings; *provided*, that seventy-five per cent of the railroad subject to the lien of said mortgage is connected;

For five years prior to the date of investment therein all the railroad subject to the lien of said mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees said bonds;

The date of said mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.*—Bonds issued or assumed by a railroad corporation described in subdivision *e*, which are secured by a mortgage which was at the date thereof or is at the date of such investment—

(1) A first mortgage on railroad owned in fee by the corporation issuing or assuming said bonds, except that, if it is not a first mortgage on seventy-five per cent of all such railroad owned in fee by said corporation, it shall be a first mortgage on at least seventy-five per cent of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least seventy-five per cent of the total mileage which is subject to the lien of said mortgage and which is represented or covered by said stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture which is in effect a first mortgage upon all the railroad subject to the lien of said mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said bonds;

(3) A refunding mortgage which covers at least seventy-five per cent of the railroad owned in fee by said corporation at the date of said mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage at the date thereof. But if any of the bonds which said refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage either—

At least seventy-five per cent of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded; or

At least seventy-five per cent of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of said railroad not owned in fee which is so subjected to the lien of said refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said refunding mortgage bonds;

But in no case shall the bonds secured by said refunding mortgage become a legal investment unless they mature at a later date than any bonds which said refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of said refunding mortgage in accordance with the requirements of this paragraph is at least twenty-five per cent greater than the mileage covered by any one of the mortgages securing bonds which said refunding mortgage is given to refund.

(4) A mortgage upon not less than ten per cent of the railroad, exclusive of sidings, owned in fee at the date of said mortgage by the corporation issuing or assuming said bonds, but in no case on less than five hundred continuous miles of standard-gauge railroad; *provided*, that

Said mortgage is a first or second lien upon not less than seventy-five per cent of the total railroad covered by said mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon said railroad owned in fee and covered by said mortgage, at the date of the execution thereof;

The bonds secured by said mortgage mature at a later date than, and cover a mileage at least twenty-five per cent greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired;

The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds Underlying Refunding Mortgages.*—Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest by, a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs three or four of subdivision *g*; *provided*, that—

Said bonds are prior to and are to be refunded by such refunding mortgage;

Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated, or leased and operated, by said railroad corporation.

(i) *Guaranteed Obligations.*—Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of subdivision *e*: *provided*, that—

Said bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation guaranteeing said bonds;

In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least four per cent per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) First mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs two, three and four of subdivision *e*; *provided*, that said bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, notwithstanding that the railroad of said issuing corporation is not operated by said guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph four of subdivision *e*; but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made during said period. If after the expiration of said period said corporation complies for the following fiscal year with all the requirements of subdivision *e*, it shall be regarded as having complied therewith during said period.

BONDS NOT TO BECOME ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for or to acquire the stock of the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to four per cent per annum upon the capital stock outstanding at the time of such consolidation or purchase, of said corporation which issued or assumed said bonds.

CREDIT OF A CORPORATION NOT TO BE LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, except that the period of compliance is less than ten, but not less than five successive years, shall be, or shall have been, thereupon consolidated or merged into, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of subdivision *e* preceding paragraph five during those successive years next preceding the date of such consolidation, merger or purchase in which all said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied: *provided*, that said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following said consolidation, merger or purchase.

STREET RAILWAY CORPORATIONS ARE NOT RAILROAD CORPORATIONS.

(n) In this Act, unless the context otherwise requires, "railroad corporation" means a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this Act.

PRESENT INVESTMENTS NOT TO BECOME ILLEGAL.

FOURTH.—The provisions of this Act shall not render illegal the investment in any mortgages of real estate held by such corporation at the time of its passage, nor the investment at such time or thereafter in any issue of bonds or notes dated prior to its passage, in which such corporation was then authorized to invest, so long as such bonds or notes continue to comply with the requirements of law then in force.

STREET RAILWAY BONDS.

FIFTH.—In the bonds of any street railway company incorporated in this Commonwealth the railway of which is located wholly or in part therein, and which has earned and paid in dividends in cash an amount equal to at least five per cent upon all its outstanding capital stock in each of the five years last preceding the certification by the Board of Railroad Commissioners hereinafter provided for. No such investment shall be made unless said company appears from returns made by it to the Board of Railroad Commissioners to have properly paid said dividends without impairment of assets or capital stock, and said board shall on or before the fifteenth day of January in each year certify and transmit to the Bank Commissioner a list of such street railway companies.

Dividends paid by way of rental to stockholders of a leased street railway company shall be deemed to have been earned and paid by said company within the meaning of this clause, provided that said company shall have annually earned, and properly paid in dividends in cash, without impairment of assets or capital stock, an amount equal to at least five per cent upon all its outstanding capital stock in each of the five fiscal years next preceding the date of the lease thereof.

If two or more street railway companies have been consolidated by purchase or otherwise during the five years prior to said certification, the payment severally from the earnings of each year of dividends equivalent in the aggregate to a dividend of five per cent on the aggregate capital stocks of the several companies during the years preceding such consolidation shall be sufficient for the purpose of this Act.

The Board of Railroad Commissioners in January 1912 announced the following roads as meeting the requirements of this clause (V. 93, p. 1736):

Boston Elevated Ry. Co.	Fitchburg & Leominster St. Ry. Co.
Boston & Northern Ry. Co.	Holyoke Street Ry. Co.
Boston & Revere Electric Ry. Co.	Springfield Street Ry. Co.
Citizens' Elec. St. Ry. of Newb'yp't.	Union Street Ry. Co.
Dartmouth & Westport St. Ry. Co.	West End Street Ry. Co.
East Middlesex Street Ry. Co.	Worcester Consolidated St. Ry. Co.

The above is used by the Bank Commissioner as a basis for the list of bonds which he deems good and safe investments under Clause *Fifth* of this Act. (*See Clause Thirteenth below.*)

TELEPHONE COMPANY BONDS.

SIXTH.—In the bonds of any telephone company subject to the provisions of section thirty-seven of chapter fourteen of the Revised Laws, and of which a majority of the directors are residents of the Commonwealth:

Provided, that during each of the five fiscal years of such telephone company next preceding the date of such investment—

(1) The gross income of such telephone company shall have been not less than ten million dollars per annum.

(2) Such telephone company shall have paid the matured principal and interest of all its indebtedness.

(3) Such telephone company shall have paid in dividends in cash an amount equal to not less than six per cent per annum on all its outstanding issues of capital stock.

(4) The dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

And further *provided* that such bonds shall be secured either (*a*) by a first mortgage upon at least seventy-five per cent of the property of such telephone company or (*b*) by the deposit with a trust company incorporated under the laws of this Commonwealth of bonds and shares of stock of other telephone corporations, under an indenture of trust which limits the amount of bonds so secured to seventy-five per cent of the value of the securities deposited as stated and determined in said indenture, and provided that during each of the five years next preceding such investment the annual interest and dividends paid in cash on the securities deposited have amounted to not less than fifty per cent in excess of the annual interest on the bonds outstanding and secured by said deposit. Not more than two per cent of the deposits of any savings bank shall be invested in the bonds of telephone companies.

BANK STOCKS AND DEPOSITS IN BANKS.

SEVENTH.—In the stock of a banking association located in the New England States and incorporated under the authority of the United States,

or in the stock of a trust company incorporated under the laws of and doing business within this Commonwealth, but such corporation shall not hold both by way of investment and as security for loans more than twenty per cent of its deposits in the stock of such associations or companies, nor in any one such association or company more than three per cent of its deposits in, nor more than one hundred thousand dollars nor more than one-quarter of the capital stock of, such association or company. Such corporation may deposit not more than two and one-half per cent of its deposits in any banking association incorporated under the authority of the United States and located in this Commonwealth, and in any trust company incorporated in this Commonwealth, but such deposit shall not in any case exceed five hundred thousand dollars nor twenty-five per cent of the capital stock and surplus fund of such depositary.

Clause *Eighth* relates to loans on personal security, which are restricted to one-third of the deposits and income. [In addition to loans authorized by Clause *Eighth*, under an Act approved April 8 1910, banks may loan on notes with a pledge as collateral of life insurance policies. V. 90, p. 1376.] Clause *Ninth* concerns the amount to be invested in a bank building. Clause *Tenth* deals with real estate acquired by foreclosure, and Clause *Eleventh* with securities acquired in settlement of indebtedness Clause *Twelfth* relates to pledges of securities as collateral and provides against invalidating the same. For the provisions of these clauses, see V. 87, p. 257, where the law was printed in full.

LIST OF BONDS TO BE PREPARED.

THIRTEENTH.—Not later than the first day of February in each year the Commissioner shall prepare a list of all the bonds and notes which are then legal investments under the provisions of clauses *third*, *fourth*, *fifth* and *sixth*. Said list shall at all times be open to public inspection and a copy thereof shall be sent to every savings bank.

The report of the Bank Commissioner for 1911 contains a list of bonds considered legal under clauses *third*, *fourth*, *fifth* and *sixth* of the above Act. This list appeared in State & City Dept. of "Chronicle" April 27 1912.

[*Opinion of Attorney-General Regarding Legality of N. Y. N. H. & H. RR. Bonds as Savings Bank Investments.*]—Attorney-General James M. Swift rendered an opinion in Feb. 1911 with reference to the Act passed by the Legislature in June 1910 to validate bonds and stocks of the New York New Haven & Hartford RR. Co., and for the purpose of determining whether or not the assets were sufficient to show the road a solvent corporation. As stated in V. 92, p. 462, the report of the Commission appointed under the Act referred to was filed with the Legislature on Feb. 17 1911. The Act stated that "nothing herein contained shall authorize the investment by savings banks in the securities aforesaid unless they are otherwise legal investments under the provisions of Chapter 590, Acts of 1909," and the Attorney-General finds that "no matter what the finding of the Commission appointed under the Act with reference to assets and liabilities was, it would not in and of itself make any change in the standing of securities for savings bank investments." See V. 92, p. 541.

CITIES, COUNTIES AND TOWNS IN THE STATE OF MASSACHUSETTS.

Aggregate Municipal Indebtedness.

The gross interest-bearing debt of all municipalities of the State was $247,526,776 on May 1 1910.

The following table shows the aggregate assessed valuation as returned by the local assessors, the aggregate *net* debt of all the municipalities of the State, and the percentage of the same, for the years indicated:

Year—	Aggregate Valuation.	Net Debt.	Percentage.
1910	$3,907,892,598	$167,315,903	4.2
1909	3,727,473,635	166,080,073	4.4
1908	3,590,690,106	163,558,325	4.5
1907	3,512,557,604	158,586,274	4.5
1905	3,312,255,163	147,509,003	4.4
1900	2,961,119,947	131,016,743	4.4
1890	2,154,134,626	70,742,786	3.2
1880	1,584,756,802	68,512,929	4.3
1871	1,497,351,686	39,421,298	2.6

INTEREST is payable in Boston on water bonds at the Old Colony Trust Co. and on town-hall bonds at the Mercantile Trust Co.; on bridge 3½s in Lowell.

BOSTON. J. F. Fitzgerald, Mayor; Chas. H. Slattery, City Treas.; J. Alfred Mitchell, City Auditor.

City was incorporated Feb.23 1822. On Nov. 2 1909 a charter amendment was adopted under which municipal nominations are to be made only upon petition of 5,000 voters. The Mayor serves for four years, subject to recall after two years. V.89,p.1234. The question of holding a recall election was submitted to the voters on Nov. 7 1911, but failed to carry. V. 93, p. 1337. On Nov. 7 1911 the voters accepted an Act passed by the Legislature annexing the town of Hyde Park, which became a part of the city Jan. 1 1912. V. 93, p. 1337.

The county of Suffolk, in which Boston is situated, contains also the city of Chelsea and the towns of Revere and Winthrop. Boston, however, receives all the county income, pays all the county expenses, owns the county buildings, and is responsible for the county debt, which amounted on May 1 1912 to $3,866,-333. The details of this county debt are included in the following financial report for this city.

BOSTON (*Con.*)—

TOTAL DEBT, &c.—	*May* 1 1912.	*Nov.* 1 1911.	*Nov.* 1 1910.
City debt proper	$89,531,331	$88,696,456	$90,004,706
Cochituate water debt	3,420,500	3,244,500	3,335,500
County debt	3,866,333	3,874,333	3,881,133
Rapid transit debt	18,398,700	17,500,700	17,460,700
Total bonded debt	$115,216,864	$113,315,989	$114,682,239
Sinking funds, &c	42,085,367	41,663,706	39,987,215
Net debt	$73,131,497	$71,652,283	$74,695,024

The following table shows the amount of the gross funded debt, sinking funds and the net debt on Jan. 31 for the following years:

Years.	*Gross Debt.*	*Sinking Funds.*	*Net Debt.*
1912	*$116,613,839 00	$41,797,590 00	$74,816,249 00
1911	115,074,489 00	42,145,839 00	72,928,650 00
1910	110,715,406 00	39,369,433 42	71,345,972 58
1909	108,484,606 00	34,385,217 10	74,099,388 90
1905	94,118,606 00	30,383,612 00	63,734,994 00
1900	86,966,579 00	27,697,062 00	59,269,517 00
1890	53,930,095 22	22,505,598 72	31,424,496 50
1881	40,949,332 18	14,511,849 19	26,437,482 99

* Includes $753,850 Hyde Park debt assumed by annexation Jan. 1 1912.

ASSESSED VALUATION.—The city's assessed valuation of real estate and personal property and tax rate have been as follows:

Years—	*Assessed Valuation— Real.*	*Personal.*	*Total.*	*Rate of Tax per $1,000.*
1911	$1,146,659,800	$281,685,014	$1,428,344,814	$16.40
1910	1,118,989,100	274,771,323	1,393,760,423	16.40
1909	1,092,602,000	255,346,227	1,347,948,227	16.50
1905	1,021,431,200	238,314,482	1,259,745,682	16.00
1900	902,490,700	226,685,132	1,129,175,832	14.70
1895	744,751,050	206,616,878	951,367,928	12.80
1890	619,990,275	202,051,525	822,041,800	13.30
1880	437,370,100	202,092,395	639,462,495	15.20
1870	365,593,100	218,496,300	584,089,400	15.30

The tax rate for 1911 includes the State tax, $2.40 per $1,000; the county tax, $1.10; the city tax proper, $12.90; total, $16.40. Of the city tax of $13 00, $3.64 is for school expenditure.

DEBT AND TAX LIMITATIONS.—Taxes in Boston, exclusive of the State tax, county tax and sums required by law to be raised on account of the city debt, are limited by Chapter 521 of the Acts of 1910 to $10.55 on every $1,000 of the assessor's valuation of the taxable property therein for the preceding year, said valuation being first reduced by the amount of all abatements allowed thereon previous to the thirty-first day of December in the year preceding said assessment.

Sec. 2, Chap. 312, Laws of 1885 (Sec. 3, Chap. 27, of the 1902 edition, Revised Statutes), places the debt limitation of the city of Boston at 2½% of the average assessors' valuations of the taxable property for the preceding three years. Reference to this section of the Revised Statutes will be found in our remarks under the State of Massachusetts.

The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures authorizing bonds outside of the debt limit for various purposes, especially enumerated.

It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to *anticipate* its authority to borrow money within its debt limit for any current municipal year.

NEW LOANS AUTHORIZED.—The following is a summary of loans authorized but not issued as of May 1 1912.

Purpose of Issue—	*Inside Debt Limit.*	*Outside Debt Limit.*
South Union Station	$425,000	--------
Broadway Bridge	115,000	--------
Sewerage works	325,000	--------
Municipal Building (South Boston)	20,000	--------
High School of Commerce and School Administration Bldg. (Chap. 446, Acts of 1909)	550,000	--------
Separate system of drainage	405,000	--------
East Boston Court House and Police Station	60,000	--------
Meridian Street Bridge	63,000	--------
Rapid Transit (Chapter 187, Acts 1905)	--------	141,000
Land and buildings for schools	500,000	--------
Highways, making of	300,000	--------
Franklin Square	2,500	--------
Chelsea Bridge, north	95,000	--------
Norfolk Street widening	150,000	--------
Pleasant Street widening	--------	900,000
Arlington Street extension	364,000	--------
Consumptives' Hospital Dept	50,000	--------
Land and buildings, refuse station	150,000	--------
Refuse destruction sites, Spectacle Island	15,000	--------
Total	$3,589,500	$1,041,000

In addition to above, loans have been authorized outside of debt limit without limit as to amount, for Cambridge bridge, sewerage charges, Atlantic Avenue extension, Boston Tunnel and Subway, Riverbank Subway, Rapid Transit Cambridge connection, Boylston St. Subway, Dorchester Tunnel and East Boston Tunnel Extension bonds. The amounts issued to date are $1,567,900, $415,000, $547,900, $8,496,700, $505,000, $1,300,000, none, $300,000 and $200,000.

BORROWING POWER.—The city's borrowing power May 1 1912 is shown in the following statement:

Total debt, city and county		$115,216,864 33
Less special loans (outside of limit)	$58,343,500 00	
Less county loans (outside of limit)	3,458,333 33	
Less Cochituate water debt	3,420,500 00	
Total deductions		65,222,333 33
Total debt less above deductions		$49,994,531 00
Sinking funds, less $22,776,013.92 held for loans deducted as above (water loans, &c.)		18,183,133 79
Net debt, excluding debts outside of limit		$31,811,397 21
Right to borrow, under Chapter 93, Acts of 1891, as estimated Feb. 13 1912		$3,599,105 28
Less loans authorized since (inside of debt limit)		2,104,000 00
Right to borrow Apr. 30 1912		$1,495,105 28

POPULATION.—1910, 670,585; 1905, 593,598; in 1900 it was 560,892; in 1890, 448,477; in 1880, 362,839; in 1870, 250,526.

ITS

DEBT, RESOURCES, &c.

Admitted as a State.....One of Original Thirteen
Total area of State (square miles).....1,250
State Capital.....Providence
Governor (term exp. first Tues. Jan. 1913)—Aram J. Pothier
Sec. of State (term exp. first Tues Jan. '13)—J. Fred Parker
Treasurer (term exp. first Tues. Jan. 1913)—Walter A. Read

LEGISLATURE.—As the result of an amendment to the constitution which was adopted at the election held in Nov. 1900, the Legislature now meets annually the first Tuesday in January. There is no limit as to the length of session, but compensation of the legislators is limited to sixty days' attendance in any calendar year. On Nov. 7 1911 the voters adopted a proposition to amend the State Constitution so as to provide for biennial, instead of annual, elections of Governor, Lieutenant-Governor, Secretary of State, Attorney-General, General Treasurer and Senators and Representatives. V. 93, p. 1338.

HISTORY OF DEBT.—For early history of the Rhode Island State debt see "State & City Supplement" of Apr. 13 1895, page 33. $600,000 highway loan voted in Nov. 1911 offered for sale May 28 1912. V. 94, p. 1401. The bonds outstanding at present are described as follows:

Penal & Reformatory Inst. Loan.
3 ½g'09 M-S $300,000c..Mch 1 1959

State House Loan.
3 ½g'94 J-J $130,000c...Jan 1 1914

3 ½g'94 J-J 400,000c...Jan 1 1934
3s g '98 A-O 800,000c..July 15 1938
3s g '01 M-N 700,000c...May 1 1941

Harbor Improvement Bonds (x).
4s g '10 F-A $500,000c...Aug 1 1960

Highway Improvement Bonds.
3s g '06 A-O $600,000c...Apr 1 1936
3 ½g'09 M-S 600,000c...Mch 1 1939

Armory Construction Bonds.
3s g '06 A-O $350,000c...Apr 1 1946

***Metropolitan Park Loan.**
3 ½sg'08J-D $250,000c..June 1 1958

*This is debt incurred for the benefit of the several towns and cities included in Metropolitan Park System. While such debt is a direct obligation of the State, its payment must eventually be met by assessment on the towns and cities benefited. (x) Coupon with privilege of registration.

PAR VALUE OF BONDS.—The bonds are for $1,000 each.

TAX FREE.—All of the above bonds are tax-exempt in Rhode Island.

INTEREST on the State-House bonds is payable in Providence at the Rhode Island Hospital Trust Co.; all other issues at Industrial Trust Co.

TOTAL DEBT SINKING FUNDS, &c.—

	Jan. 1 '12.	Jan. 1 '11.	Jan. 1 '10.	Jan. 1 '09.
Total funded debt	$5,030,000	$4,600,000	$4,800,000	$3,900,000
Sinking funds	593,310	548,906	654,999	558,361
Net debt	$4,436,690	$4,051,094	$4,145,001	$3,341,639

The sinking fund is largely invested in city, town and district bonds and notes, and it is to receive $75,934 yearly.

TAX VALUATION.—The total assessed valuation of real estate and personal property in Rhode Island in 1911 was $552,784,617, consisting of $419,099,870 real estate and $133,684,747 personal property. Tax rate (per $1,000) in 1911 was $1.80.

POPULATION OF STATE—

1910	542,610	1870	217,353	1820	83,059
1905	480,082	1860	174,620	1810	77,031
1900	428,556	1850	147,545	1800	69,122
1890	345,506	1840	108,830	1790	68,825
1880	276,531	1830	97,210		

STATE AND MUNICIPAL INDEBTEDNESS LIMITATIONS.—Under Section 13, Article IV. of the State constitution; the General Assembly has no power to incur State debt to an amount exceeding $50,000 without the consent of the people, except in time of war or of insurrection or invasion. In no case is the Assembly to pledge the faith of the State for the payment of obligations of others without the approval of the people. In reference to city debts, there is nothing in the constitution of Rhode Island limiting the amount of such obligations. The following, however, are two sections taken from Title 8, Chapter 46 (page 221) of the Revised Statutes of the State of 1909. Since 1878 these provisions have been in force, and consequently 3% of the taxable property has been the limit of the power of each town (which includes city) to create debt.

SECTION 20.—"The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority thereof."

SECTION 21.—"No town shall, *without special statutory authority therefor*, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight; but the giving of a new note or bond for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

TAXATION OF BONDS.—Bonds or notes of the State are not subject to taxation. Loans of municipalities, we were advised Dec. 12 1911 by J. F. Parker, Sec. of State, are taxable.

SAVINGS BANK INVESTMENTS AND RESTRICTIONS.—At the 1911 session of the Legislature the laws concerning Rhode Island savings bank investments were completely revised and materially altered in a great many respects. In 1912 a further amendment was made. See V. 94, p. 1397. The new law will be found in full in the "Chronicle" of May 20 1911, page 1386.

CITIES, COUNTIES AND TOWNS IN STATE OF RHODE ISLAND.

Note.—For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.

BRISTOL.

This town is the capital of Bristol County. Incorp. in 1746.

JOHNSTON.

This town is in Providence County and was incorporated Mch. 6 1759. On June 1 1898 a portion of this town, representing about five-sevenths of the assessed valuation, was annexed to the City of Providence. The commission appointed to apportion the debt to be assumed by the city of Providence reported that the city's share of the net debt is $255,720.64, leaving $101,677.48 as the town debt remaining. Bonds Numbers 151 to 191 (all inclusive) remain as an obligation of the town of Johnson. The bonds given below are those remaining as an obligation of the town after division.

ITS

DEBT, RESOURCES, &c.

Admitted as a State—One of Original Thirteen
Total area of State (square miles)—5,004
State Capital—Hartford
Governor (term exp.) Jan. 1913)—Simeon E. Baldwin
Secretary of State (term exp. Jan. 1913)—Matthew H. Rogers
Treasurer (term expires Jan. 1913)—Costello Lippitt
State Comptroller (term exp. Jan. 1913)—Thos. D. Bradstreet
Attorney-General (term exp. Jan. 1915)—John H. Light

LEGISLATURE meets biennially in odd years on the Wednesday following the first Monday in January. There is no limit to the length of the session.

HISTORY OF DEBT.—For early history of the Connecticut State debt see "State and City Supplement" of April 1895, page 36. An Act of the Legislature approved April 14 1909, provides for the issuance of $7,000,000 3½% bonds "to meet the needs of the State." In 1911, however, another Act was passed limiting the issuance of bonds under the Act of 1909 to $3,100,000 and authorizing a further issue of $6,000,000 4% bonds for the same purpose. Of the bonds authorized in 1909, $3,000,000 were issued, and under the Act of 1911 $4,000,000 have been put out. The 3½% bonds, it is provided, "shall be exempt from taxation by or under State or municipal authority." The 4s are also exempted from taxation, but the Act provides that "this exemption shall not be construed to apply to corporations taxed under the provisions of Sec. 2331, Gen. Stat., and amendments thereof." The condition of Connecticut's debt now is as follows:

Name and Purpose.		—*Interest*— *Rate.*	*Payable.*	—*Principal*— *When Due.*	*Outstand'g.*
State bonds	1909	3	A-O	*April 1 1934	$874,000
		3½	A-O	*April 1 1934	2,020,000
do do	1911	4	J-J	July 1 1936	4,000,000
War loan	1865	Ceased		Oct. 1 1885	100

* Subject to call after April 1 1924.

PAR VALUE OF BONDS.—The bonds are all for $1,000, $10,000 or $50,000.

INTEREST on all bonds is payable in Hartford, Conn.

TOTAL DEBT, &c.—	*Oct.* 1 1911.	*Oct.* 1 1910.	*Oct.* 1 1909.	*Oct.* 1 1908.
Total funded debt	$3,064,100	$2,894,100	$1,874,100	$874,100
Civil list funds	376,576	1,164,847	60,692	325,513
Net debt	$2,687,524	$1,729,253	$1,813,408	$548,587

ASSESSED VALUATION.—Assessed value, formerly about 50% of actual value, now believed to be fair value.

Years.	*Tax valuation.*	*Years.*	*Tax valuation.*
1910	$997,500,664	1900	$694,200,162
1909	965,629,807	1899	570,163,749
1908	922,071,592	1898	552,887,762
1907	833,537,086	1897	534,465,257
1906	791,769,979	1896	529,621,165
1905	712,519,166	1895	452,863,714
1904	690,896,142	1894	441,001,581
1903	677,396,711	1893	416,323,252
1902	665,094,301	1892	381,261,607
1901	649,571,791	1888	354,557,515

Under Chapter 106, as amended by Chapter 165, Laws of 1901, the State collects the tax on every bank, national banking association, trust, insurance, investment and bridge company whose stock is not exempt from taxation, and remits the amount so collected to the various city and town treasurers. As the value of such stocks was previously included in the grand list of each town, the reduction in values in 1901 followed from that cause.

POPULATION OF STATE.—Population has been as follows:

1910	1,114,756	1860	460,147	1820	275,248
1900	908,420	1850	370,792	1810	261,942
1890	746,258	1840	309,978	1800	251,002
1880	622,700	1830	297,675	1790	237,946
1870	537,454				

DEBT LIMITATION.—The Constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows:

No County, City, Town, Borough or other Municipality shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any town or city to protect by additional appropriations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There are no general restrictions in the Revised Statutes; whatever restrictions have been made from time to time are contained in enabling Acts and in city charters.

As to towns, we notice that there is a general law granting them unlimited power to issue bonds. According to Section 1931, Chapter 121, of the Revised Statutes of 1902, "when any town shall have made appropriations or incurred debts, or shall hereafter make appropriations or incur debts exceeding $10,000, it may issue bonds, either registered or with coupons attached, or other obligations, payable at such times and at such annual rate of interest not exceeding 6%, payable annually or semi-annually, as it shall determine," &c. Cities have had no such general authority conferred upon them.

TAX EXEMPTION.—*Exemption from Taxation* has been accorded by general statute to certain bonds issued by cities and towns to aid in the construction of railroads; and this exemption has been extended to new bonds issued for the purpose of redeeming or providing a fund to redeem the railroad-aid bonds above referred to, or to redeem or to provide a fund to redeem any re-issue of the same. This exemption is found in Section 2315, Chapter 144 of the Revised Statutes of 1902 (latter part of Section), and the bonds there named are those "issued by any town or city in aid of the construction of the railroads of the Connecticut Western Railroad Company, the New Haven Middletown & Willimantic Railroad Company, the Shepaug Valley Railroad Company, the Connecticut Valley Railroad Co., the Connecticut Central Railroad Company, or either of them." All railroads which are in whole or in part in the State are taxed by the State under Section 2424, Chapter 147 of the Revised Statutes, so that the tax on these bonds is paid by the railroads.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—At the session in 1899 material changes were made in the provisions regulating the investment of the deposits of the savings banks of Connecticut, and at the sessions in 1901, in 1903 and in 1905 the scope of such investments was still further enlarged. One of the departures in the 1903 amendments was that street railway bonds were then included for the first time, and the list was still further enlarged in 1905. In 1909 obligations of fire and sewer districts in Connecticut were added to the list of investments and a slight change made in Section 3429 with reference to investments in mortgages on land in adjoining States. We give below the law as it is found in Sections 3428 and 3429, General Statutes of Connecticut, Revision of 1902, with the later amendments included.

SECTION 3428.—*Investments by Savings Banks.*—Savings banks may invest their deposits and surplus as follows:

(1) Not exceeding twenty per cent thereof in notes secured by the pledge of stocks or bonds as collateral, *provided*, such stocks or bonds shall have paid dividends or interest of not less than three per cent per annum during the two years next preceding that in which the respective loan is made; or by the pledge of any stocks, bonds, or other obligations which, under the provisions of this section, can be purchased by savings banks;

(2) Not exceeding twenty per cent thereof in notes, each of which shall be the joint and several obligation of two or more parties all residents of this State:

(3) In the bonds of the United States, the District of Columbia, any of the New England States, or any of the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Kentucky, Michigan, Indiana, Illinois, Iowa, Wisconsin, Minnesota, Missouri, Nebraska, Kansas, California, Colorado and Oregon:

(4) In the bonds of any city in the New England States or in the State of New York, of Newark, Paterson and Trenton in the State of New Jersey, of Philadelphia in the State of Pennsylvania, of Cincinnati, Cleveland, Columbus, Dayton and Toledo in the State of Ohio, of Louisville in the State of Kentucky, of Detroit in the State of Michigan, of Chicago in the State of Illinois, of Milwaukee in the State of Wisconsin, of St. Louis in the State of Missouri or of Omaha in the State of Nebraska;

(5) In the obligations of any of the counties, towns, cities, boroughs, school districts, fire districts and sewer districts in this State.

(6) In the capital stock of any bank or trust company located in this State, or in the city of New York in the State of New York, or in Boston in the State of Massachusetts.

(7) In the bonds of any other incorporated city located in any of the States mentioned in this section having not less than twenty thousand inhabitants, as ascertained by the United States or State Census, or any municipal census taken by authority of the State, next preceding such investment: *provided*, the amount of the bonds of such city, including the issue in which such investment is made, and its proportion, based on the valuations contained in the assessment for taxation next preceding such investment, of the county and town debt, after deducting the amount of its water debt and the negotiable securities in the sinking funds which are available for payment of its bonds, does not exceed seven per cent of the valuation of property in such city as assessed for taxation next preceding such investment; *and provided, further*, that the State or city issuing such bonds has not defaulted payment of any of its funded indebtedness or interest thereon within fifteeen years next preceding the purchase of such bonds by the savings bank; but this section shall not be held to authorize the investment of any funds in any "special assessment bonds" or "improvement bonds," so called, which are not direct and primary obligations of the city issuing the same;

(8) In the bonds of any railroad company organized under the laws of any of the States mentioned in this section, and which bonds are secured by a first mortgage as the only mortgage security given by such railroad company upon some potion of the railroad owned by it, or given by a railroad company a majority of the capital stock in which is owned by the railroad company issuing such bonds, upon some portion of the railroad owned by it but leased or operated by the railroad company issuing such bonds, and which portion of such railroad in either case shall be located wholly or in part in one or more of the States mentioned in this section, *provided* the entire railroad of such company is located wholly within the United States; in the consolidated bonds of any railroad company incorporated by this State and authorized to issue such bonds to retire the entire funded debt of such company; *provided*, that in every case such company shall have paid each year, for a period of not less than five years next previous to such investment, in addition to the interest on its funded indebtedness, dividends of not less than four per cent per annum upon its entire capital stock outstanding; and *provided further*, that said outstanding capital stock at the time of such investment equals or exceeds in amount one-third of the entire outstanding issue of such bonds;

(9) In the bonds of the following-named railroad companies, viz.:
Boston & Albany Railroad Company,
Boston & Lowell Railroad Company,
Boston & Maine Railroad Company,
Concord & Montreal Railroad Company,
Fitchburg Railroad Company,
Harlem River & Port Chester Railroad Company,
Maine Central Railroad Company,
New England Railroad Company,
New York & New England Railroad Company,
New York New Haven & Hartford Railroad Company,
Old Colony Railroad Company;
Also in the following securities:
Central RR. of N. J.—Gen. mort. 5s, gold bonds, due July 1, 1987;
Burlington Cedar Rapids & Northern Railway Company system—
Cedar Rapids Iowa Falls & Northw., con. 1st 5s, due Oct. 1, 1921,
Bur. Ced. R. & Nor., con. 1st M. and col. trust 5s, due April 1, 1934.
Great Northern Railway Company system—
St. Paul Minn. & Man. Ry. Co., Montana ext. 4s, due June 1 1937,
do do do Pacific ext. 4s, due July 1 1940,
Montana Central Ry. Co., 1st M. 5s & 6s, due July 1937,
Willmar & Sioux Falls Ry. Co., 1st M. 5s, due June 1 1938.
Ill. Cent. RR. Co.—Ch. St. L. & N. Orl. con. M. 5s & 3½s, due June 1951;
Chicago & North Western Railway Co. system—
Chicago St. Paul Minn. & Omaha Ry. Co., con. M. 6s, due June 1 1930, and in mortgage bonds heretofore issued which said consolidated mortgage 6 per cent bonds are to retire at maturity;
Chicago & Eastern Illinois Railroad Co., gen. con. & 1st M. 5s, due Nov. 1 1937, and in mortgage bonds heretofore issued which said gen. con. and 1st mortgage 5 p. c. bonds retire at maturity;
Minneapolis & St. Louis RR. Co., 1st & refunding M. 4s, due March 1 1949, and in the mortgage bonds heretofore issued which said 1st and refunding bonds are to retire at maturity;
Milwaukee & Northern RR. Co., con. M. 6s, due June 1 1913, and in the mortgage bonds heretofore issued which said con. mortgage 6 per cent bonds are to retire at maturity;
Atlantic Coast Line RR. Co., 1st con. M. gold 4s, due July 1 1952, and in the mortgage bonds heretofore issued which said first con. mortgage bonds are to retire at maturity. [Owing to the fact that this company paid its Jan. 1908 dividend with certificates of indebtedness, instead of in cash, a question was raised as to whether these bonds would continue legal investments. The Attorney-General seemed to think not (see V. 86, p. 680), but the Bank Commission finally held in the affirmative. See V. 86. p. 1355.]
The Terminal Railroad Association of St. Louis general mortgage refunding 4 per centum sinking fund gold bonds of 1953 and the mortgage bonds heretofore issued which said general mortgage bonds are to retire at maturity. [See editorial V. 77, p. 2071, for Attorney-General's opinion relative to these bonds.]
The St. Louis Iron Mountain & Southern Railroad Company, River & Gulf Division, first mortgage 4 p. c. bonds due May 1 1933.
The Buffalo & Susquehanna Railroad Company first mortgage 4 per cent gold bonds due in 1951. [In default since July 1910.]

(10) In any general or consolidated mortgage bonds issued by any of the following named railroad companies to retire all of the outstanding prior mortgage bonds secured upon the property covered by said general or consolidated mortgage:—
Chicago & North Western Railway Company
Chicago Burlington & Quincy Railroad Company,
Chicago Milwaukee & St. Paul Railway Company,
Chicago Rock Island & Pacific Railway Company,
Chicago & Alton Railroad Company,
Cleveland & Pittsburgh Railroad Company,
Lake Shore & Michigan Southern Railroad Company,
Michigan Central Railroad Company,
Morris & Essex Railroad Company,
New York Central & Hudson River Railroad Company,
Pennsylvania Railroad Company,
St. Paul Minneapolis & Manitoba Railway Company,
Eastern Railway Company of Minnesota, Northern Division,
Louisville & Nashville Railroad Company,
and the mortgage bonds hitherto issued which such consolidated or general mortgage bonds are to retire at maturity; *provided*, that at no time within five years next preceding the date of such investment in such general consolidated mortgage bonds issued by any of the railroad corporations last named shall such railroad corporation have failed to pay regularly and punctually the principal, at maturity or as extended ,and interest on all its mortgage indebtedness, and, in addition thereto, dividends upon all its outstanding capital stock during the preceding five years; and *provided further*, that at the date of every such dividend the outstanding capital stock of such railroad corporation shall have been equal to at least one-third of the total mortgage indebtedness of such railroad coproration, including all bonds issued or to be issued under any mortgage securing any bonds in which such investment shall be made.

No bond of any railroad corporation named in this section *shall be a legal investment for a savings bank when such corporation, or the system of which it is a part, shall fail to pay dividends on all of its capital stock; and this section shall not be held to authorize any investment in the bonds of any corporation operating its railroad exclusively by any means other than steam as a motive power, or in the bonds of any street railway company.* [As already stated, amendments have since been made permitting investment in street railway bonds—see below.]

[In 1909 the Legislature passed an Act repealing Chapter 205 of the Laws of 1905, which allowed savings banks to invest their deposits in the first mortgage gold 4s of the Southern Indiana Railway Co., due 1951.] V. 88, p. 1329.

All other investments shall consist of deposits in incorporated banks or trust companies located in this State, or in the States of New York, Massachusetts or Rhode Island, or of loans secured by mortgage on unincumbered real estate situated in this State (except as provided in section 3429) [see section below] worth double the amount of the loan secured thereon.

Street Railway Bonds.—As stated above, street railway bonds are included for the first time by chapter 171, Laws of 1903. This Act was amended in 1905 and now reads as follows:

Savings banks may invest their deposits and surplus in the first mortgage bonds of the Hartford Street Railway Company and the Fair Haven & Westville Railroad Company, and in all bonds of the Consolidated Railway Company and in the Connecticut Railway & Lighting Company. [Under ruling of the State Attorney General the 30-year 5% gold bonds of the Meriden Horse Railroad Co. assumed by the Consolidated Railway Co. are legal investments for Connecticut savings banks. See V. 82, p. 292.]

SECTION 3429—*When Mortgages May Be Made in Adjoining States.*—Any savings bank in the towns of Putnam, Brooklyn and Killingly may loan on land located in the county of Providence in the State of Rhode Island; any savings bank in the town of Ridgefield may loan on land located in the county of Westchester in the State of New York; any saving bank in the town of Enfield or in the town of Stafford may loan on land located in the county of Hampden in the State of Massachusetts; and any savings bank in the town of Stonington may loan on land located in the county of Washington in the State of Rhode Island; and any savings bank in the town of Salisbury may loan on land located in the county of Berkshire in the State of Massachusetts and on land located in the county of Dutchess, in the State of New York.

The subjoined sections, 3431, 3432, 3433 and 3434, provide certain *restrictions* with reference to loans—section 3431 restricting loans on mortgage security to manufacturing corporations and ecclesiastical societies; section 3432 restricting amount of loans to one party on personal security; section 3433 forbidding loans on single names.

SECTION 3431—*Loans to Corporations and Societies Regulated.*—No loan shall be made by any savings bank to any corporation or association or ecclesiastical society, secured by mortgage upon its property, unless the same shlal be accompanied by the individual guaranty of some responsible party or parties, or by other collateral security of value equal to the amount of the sum loaned. The directors or trustees of any such bank consenting to any loan contrary to the provisions of this section shall be held individually responsible for any loss to the full extent of such loan.

SECTION 3432—*Loans Restricted.*—No savings bank having more than twenty-five thousand dollars of deposits shall loan on personal security to any one person, company, or interest more than three per cent of its deposits at the time of making such loan.

SECTION 3433—*Obligations of One Person or Firm Not to Be Taken.*—No savings bank shall buy or lend any money upon, any obligation on which only one person or firm shall be holden, without taking additional security for the same equivalent to the guaranty or indorsement of some other responsible party.

TRUST FUNDS—HOW LOANED OR INVESTED—We find in Section 254 of Chapter 22 of the Revised Statutes of 1902 the following liberal provisions providing that trust funds may be loaned or invested in the same securities savings banks are authorized to invest in.

SEC. 254.—Trust funds, unless it is otherwise provided in the instrument creating the trust, may be loaned on the security of mortgages on unencumbered real estate in this State double in value the amount loaned, or may be invested in such mortgages or in the bonds or loans of this State, or of any town, city or borough of this State, or in any bonds, stocks or other securities which the savings banks in this State are, or may be, authorized by law to invest in, or may be deposited in savings banks incorporated by this State.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT.

NOTE.—For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.

The relation which the towns, cities and boroughs of this State bear to one another is peculiar, and requires a word of explanation. The State is divided into eight counties, and these counties are made up of towns, numbering in the aggregate 168. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List of each town") is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city of a borough, or both, all of which may at the same time have bonds outstanding. In recent years several towns and cities whose limits were about identical have been consolidated and the outstanding bonds of both town and city are reported together without distinction. This is the case with the city and town of Hartford, which, previous to April 1896, reported their debts separately. The city and town of New London have been consolidated, as have also the city and town of New Britain and the city and town of Bridgeport. On Dec. 7 1897 the city, town and school district of New Haven were likewise consolidated.

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting a tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In some instances the schools are in the charge of school districts, which also are empowered to issue bonds and to levy a tax so that to cover the total tax paid by a city it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for, though distainct corporations, their debts are to greater or less extent the debts of a single community.

AGGREGATE MUNICIPAL INDEBTEDNESS.

The total indebtedness of all the towns, cities, boroughs and counties in the State was in 1908 $38,463,704 91. In the following table we show the funded indebtedness, the floating debt and the total indebtedness of all the civil divisions of the State at quadrennial periods:

	Funded debt.	*Floating debt.*	**Total debt.*
1908	$30,598,153 47	$7,865,551 44	$38,463,704 91
1904	26,906,859 05	5,269,101 56	32,520,460 61
1900	22,142,993 58	5,005,323 09	27,624,827 42
1896	19,749,667 08	4,384,980 56	24,581,066 55
1892	16,023,832 46	4,473,571 36	20,627,058 48
1888	15,569,818 67	3,759,642 86	19,392,804 89
1884	14,655,903 75	2,980,386 15	17,636,289 91
1880	15,388,375 69	1,967,623 60	17,355,999 29
1877	14,437,742 93	2,713,584 35	17,151,327 28

* In 1904 and at former periods the county debt ($344,500 in 1904) was not divided into funded and floating debt, and therefore is included only in total debt column.

ANSONIA.

Ansonia is in New Haven County. Incorporated in April 1889. By an Act of the Connecticut Legislature of 1893, the borough, town and fire district of this name were consolidated to form the present city.

Comptroller (term expires Dec. 31 1912)...William Sohmer

LEGISLATURE meets annually the first Wednesday in January, and length of sessions is not limited.

HISTORY OF DEBT.—The early historical details of New York's State debt from 1817 to 1894 will be found in the "State and City Supplement" of April 1894, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average of $1,000,000 per year, and practically wiped out.

At the November election in 1895 the proposition to issue bonds of the State to the amount of $9,000,000, for the purpose of enlarging and improving the Erie, Oswego and Champlain canals, was submitted to the voters and carried. These bonds were all issued, but $1,770,000 have been redeemed, leaving outstanding Sept. 30 1911 $7,230,000. In 1903 a further issue of $101,000,000 canal bonds was authorized, and up to date $53,000,000 of these bonds have been sold. At the 1905 election a constitutional amendment was adopted giving authority to create an aggregate debt of $50,000,000 for highway purposes, and up to date $26,000,000 of these bonds have been sold. The question of issuing an additional $50,000,000 bonds for highways will be voted upon in Nov. 1912. In Nov. 1909 the voters approved the issuance of $7,000,000 bonds for the Cayuga and Seneca canals. Of this latter issue $1,000,000 have been sold. The State's bonded debt on Sept. 30 1911 was $79,730,660 and the sinking fund $26,867,372.06. $25,950,000 4% bonds offered June 6 1912. V. 94, p. 1400. Loans outstanding at time of going to press were as follows:

LOANS—		Interest—		Principal—
Name and Purpose.		*Rate.*	*Payable.*	*When Due.*	*Outstanding.*
Non-interest-bearing debt	Erie & Champlain 6% canal stock				$160
	Stock for paym't 6% canal rev. ctfs.				500

INTEREST is payable at the Bank of the Manhattan Co., N. Y. City.

STATE DEBT FOR A SERIES OF YEARS.—Below we give the amount of the State debt on Sept 30 in the years named.

1911	$79,730,660	1900	$10,130,660	1875	$28,328,686
1910	57,230,660	1899	10,185,660	1870	38,641,606
1909	41,230,660	1898	9,340,660	1865	50,861,349
1908	26,230,660	1897	6,265,660	1860	34,182,975
1907	17,290,660	1893	660	1850	23,537,874
1906	10,630,660	1892	763,160	1840	18,385,309
1905	11,155,660	1891	2,927,655	1830	8,635,035
1904	9,410,660	1890	4,964,304	1820	2,983,500
1903	9,665,660	1885	9,461,854	1816	2,905,535
1902	9,920,660	1880	8,114,054		

TAX VALUATION, TAX RATE &c.—Large increase in values for 1904 due mainly to New York City's real estate being assessed about full value. The Constitutional Amendment adopted in 1905 permits interest and sinking fund requirements to be met out of funds in the Treasury instead of by means of a direct tax as heretofore. No direct State levy, therefore, was made in 1906 to 1910, revenue being entirely raised through the operation of mortgage, stock transfer, liquor, inheritance and corporation taxes. In July 1911, however, the Legislature again imposed a direct tax of 6-10 of a mill on each dollar of real and personal prop'y. In 1912 the Legislature made provision for a direct tax levy of one mill.

	Valuation—			State Tax—	
Year.	*Real Estate.*	*Personal.*	*Total Equalized Valuation.*	*Rate per $1,000.*	*Total Levied.*
1910	$9,266 628,482	$555,192,070	$9,821,820,552	None.	None.
1909	9,117,352,838	548,765,843	9,666,118,681	None.	None.
1908	8,553,298,187	620,268,058	9,173,566,245	None.	None.
1907	7,933 057,917	632,321,477	8,565,379,394	None.	None.
1906	7,312,621,452	702,469,270	8,015,090,722	None.	None.
1905	7,051,455,025	686,710,615	7,738,165 640	0 154	1,191,677

1895	3,841,582,748	450,499,419	4,292,082,167	3 24	13,906.346

	Valuation—			State Tax—	
Year.	*Real Estate.*	*Personal.*	*Total Equalized Valuation.*	*Rate per $1,000.*	*Total Levied.*
1890	$3,298,323,931	$385,329,131	$3,683,653,062	$2 34	$8,619,748
1870	1,532,720,907	434,280,278	1,967,001,185	7 26¼	14,285,976
1859	1,097,564.524	307,349,155	1,404,913,679	2 50	3,512,284

POPULATION OF STATE.—New York ranks first in population among the States of the Union. The following gives the U. S. Census figures, except 1905 returns, which were compiled under State supervision:

1910	9,113,614	1870	4,382,759	1820	1,372,812
1905	8,067,308	1860	3,880,735	1810	959,049
1900	7,268,894	1850	3,097,394	1800	589,051
1890	*6,003,174	1840	2,428,921	1790	340,120
1880	5,082,871	1830	1 918,608		

*Includes population (5,321) of Indian reservations, specially enumerated.

CANASERAGA CREEK IMPROVEMENT BONDS.—On July 1 1910 the State Water Supply Commission sold under authority of Chap. 54, Consolidated Laws of 1909, and on behalf of the Canaseraga Creek Improvement District in Livingston County, $200,000 5% bonds due $5,000 yearly from 1915 to 1954, incl. V. 91, p. 110. These bonds are payable by assessment upon the lands and properties in such improvement district.

CONSTITUTIONAL AMENDMENT CHANGING CLASSIFICATION OF CITIES.—At the Nov. 1907 election an amendment to Sec. 2 of Art. 12 of the Constitution was adopted by a vote of 309,159 "for" to 123,919 "against." This amendment alters Section 2 by changing the population of cities of the first class from "two hundred and fifty thousand or more" to "one hundred and seventy-five thousand or more," and the population of cities of the second class from "fifty thousand and less than two hundred and fifty thousand" to "fifty thousand and less than one hundred and seventy five-thousand." This section was printed in full in V. 85, p. 359.

DEBT LIMITATION—STATE —The new Constitution has in some measure modified the provisions of the fundamental law restricting the power of the Legislature over the issue of debt, &c. These provisions are found in Article 7. We give the sections of that article (Article 7) below which have reference to the subject.

State credit not to be given.—SECTION 1. The credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation.

State debts power to contract.—SEC. 2. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, direct or contingent, singly or in the aggregate, shall not at any time exceed one million of dollars; and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so contracted and to no other purpose whatever.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of legislative power to create debts.—SEC. 4. Except the debts specified in sections two and three of this article, no debts shall be hereafter contracted by or in behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within fifty* years from the time of the contracting thereof. No such law shall take effect until it shall, at a general election, have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law; but the tax imposed by such Act, in proportion to the debt and liability which may have been contracted in pursuance of such law, shall remain in force and be irrepealable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability, shall be applied to the work or object specified in the Act authorizing such debt or liability, or for the payment of such debt or liability and for no other purpose whatever. No such law shall be submitted to be voted on, within three months after its passage, or at any general election when any other law, or any bill, shall be submitted to be voted for or against. The Legislature may provide for the issue of bonds of the State to run for a period of not exceeding fifty years in lieu of bonds heretofore authorized but not issued, and shall impose and provide for the collection of a direct annual tax for the payment of the same as hereinbefore required. When any sinking fund created under this section shall equal in amount the debt for which it was created, no further direct tax shall be levied on account of said sinking fund and the Legislature shall reduce the tax to an amount equal to the accruing interest on such debt. [An amendment adopted by the voters on Nov. 2 1909 adds the following to Section 4: "The Legislature may from time to time alter the rate of interest to be paid upon any State debt which has been or may be authorized, pursuant to the provisions of this section, or upon any part of such debt, provided, however, that the rate of interest shall not be altered upon any part of such debt or upon any bond or other evidence thereof, which has been or shall be created or issued before such alteration. In case the Legislature increase the rate of interest upon any such debt or part thereof, it shall impose and provide for the collection of a direct annual tax to pay and sufficient to pay the increased or altered interest on such debt as it falls due, and also to pay and discharge the principal of such debt within fifty years from the time of the contracting thereof, and shall appropriate annually to the sinking fund moneys in

amount sufficient to pay such interest and pay and discharge the principal of such debt when it shall become due and payable.]

**Originally eighteen years, extended to fifty by amendment adopted Nov. 1 1905.*

Sinking Fund, how kept and invested.—SEC 5.—The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided.

Bonds for Highways.—[Adopted at the November 1905 election.] Section 12. This section—an entirely new one—provides for a debt of not exceeding $50.000.000 for highway purposes. See V. 80, p. 1494, for full text. The question of issuing an additional $50,000,000 bonds for highways will be submitted to a vote in Nov. 1912. See V. 94, p. 1131.

Palisades Park Bonds.—At the Nov. 8 1910 election a vote was taken on a proposition to issue $2,500,000 bonds for the use of the Palisades Inter-State Park Commission. The proposition carried by a vote of 349,281 "for" to 285,910 "against." See V. 91, p. 1658. These bonds have been sold.

Interest Increased on Public Highway and Canal Bonds.—The Legislature of 1907 passed an amendment to Chapter 469 of the Laws of 1906, fixing the interest rate on issues of State highway-improvement bonds at 3, 3½ or 4%, instead of at a rate not exceeding 3½%. See V. 85, p. 359. In 1910 a bill was passed by the Legislature increasing to 4% the rate of interest on the unsold portion ($78,000,000) of the $101,000,000 3% bonds authorized at the general election in 1903 for the purpose of improving the Erie Canal, the Oswego Canal and the Champlain Canal.

Barge Canal Bonds.—On Nov. 7 1911 a proposition to issue $19,800,000 bonds to furnish terminals and facilities for barge canal traffic was defeated by a vote of 315,932 "for" to 311,516 "against." V. 93, p. 1679.

The Governor on April 17 1912 signed a bill providing that the State Comptroller may issue canal-improvement bonds made payable in the currency of a foreign country. V. 94, p. 1131.

DEBT LIMITATION—CITIES, COUNTIES, TOWNS AND VILLAGES.—The new Constitution of New York State puts a general and uniform limit to the power of all counties and cities of the State to contract and put out their obligations, leaving the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Article 8, Section 10. We give that section in full. The separation into paragraphs and the figures in parentheses which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to or use any particular portion can the more readily find the part desired. With that exception we give Section 10 of Article 8 as it reads, preserving even the punctuation.

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law.

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed 10% of the assessed valuation of the real estate of such county or city subject to taxation as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds 10% of the assessed valuation of its real estate subject to taxation shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the term of the bonds issued to provide the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

At the 1909 election a very important constitutional amendment, with reference to the exclusion of debt incurred for rapid transit and dock purposes by New York City, and with reference to the exclusion after Jan. 1 1910 of water bonds issued by third-class cities, was ratified by the voters. The amendment referred to changes sub-division (6), making it read as follows, the new parts being printed in *italics*.

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted; except that debts incurred by the City of New York after the first day of January, nineteen hundred and four, and debts incurred by any city of the second class after the first day of January, nineteen hundred and eight, *and debts incurred by any city of the third class after the first day of January, nineteen hundred and ten*, to provide for the supply of water, shall not be so included; *and except further that any debt hereafter incurred by the City of New York for a public improvement owned or to be owned by the city which yields to the city current net revenue, after making any necessary allowance for repairs and maintenance for which the city is liable, in excess of the interest on said debt and of the annual installments necessary for its amortization, may be excluded in ascertaining the power of said city to become otherwise indebted, provided that a sinking fund for its amortization shall have been established and maintained and that the indebtedness shall not be so excluded during any period of time when the revenue aforesaid shall not be sufficient to equal the said interest and amortization installments, and except further that any indebtedness heretofore incurred by the city of New York for any rapid transit or dock investment may be so excluded proportionately to the extent to which the current net revenue received by said city therefrom shall meet the interest and amortization installments thereof, provided that any increase in the debt-incurring power of the city of New York which shall result from the exclusion of debts heretofore incurred shall be available only for the acquisition or construction of properties to be used for rapid transit or dock purposes. The Legislature shall prescribe the method by which and the terms and conditions under which the amount of any debt to be so excluded shall be determined, and no such debt shall be excluded except in accordance with the determination so prescribed. The Legislature may in its discretion confer appropriate jurisdiction on the Appellate Division of the Supreme Court in the First Judicial Department for the purpose of determining the amount of any debt to be so excluded. No indebtedness of a city valid at the time of its inception shall thereafter become invalid by reason of the operation of any of the provisions of this section.*

(7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. At the November 1899 election an amendment to the Constitution was adopted changing this paragraph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year 2% of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in "incurring any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only counties and cities.

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 *that the sinking fund was not a part* of the city debt within the meaning of the above provision of the Constitution limiting the creation of debt to 10% of the assessed valuation of the real estate.

Towns and villages are not limited in their debt-making power by the Constitution. Those municipalities are governed by general or special statutes.

The 1895 Legislature passed an Act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the "Chronicle" of June 8 1895 V. 60 p. 1023.

BILL PERMITTING LEGALIZING OF MUNICIPAL BONDS BY SUPREME COURT.—The 1911 Legislature passed a bill amending the general municipal law by providing that proceedings heretofore or hereafter taken by municipal corporations in relation to bond issues, pursuant to statute authorizing such procedure, may be legalized and confirmed by the Supreme Court instead of requiring legislative enactments. This bill was given in full in V. 93, p. 1619. See also V. 94, p. 316.

EXEMPTION FROM TAXATION.—Section 8, Article One, Chapter 24, Consolidated Laws of 1909, provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, county, municipal or State purposes." Chapter 24 here mentioned provides that 'the term 'municipal corporation' as used in this chapter includes only a county, town, city and village." This differs from the definition given in the General Corporation Law (Chapter 23, Consolidated Laws of 1909), which in Section 3 of Article 1 says that "A 'municipal corporation' includes a county, town, school district, village and city and any other territorial division of the State established by law with powers of local government."

TAX ON SECURED DEBTS.—In July 1911 the Legislature passed a bill providing for a tax of ½ of 1% on bonds and other obligations secured by property located outside the State (and also on unsecured debt), and for exemption of the same from the annual tax on personal property. The full text of the bill will be found in V. 93, p. 204. See also V. 93, p. 893 & 969.

TAXATION OF MORTGAGES.—Mortgages now are not subject to taxation of any kind, the only charge being a recording tax of ½ of 1%.

CONDEMNATION OF PRIVATE PROPERTY FOR PUBLIC USE.—At the Nov. 7 1911 election the voters defeated a proposed Constitutional amendment elating to the taking of private property for public use. See V. 93, p. 1679.

TAX LAW RELATIVE TO INVESTMENTS IN STATE BONDS BY SAVINGS BANKS, TRUST COMPANIES AND INSURANCE COMPANIES.—A new section (Section 187c) was added to the Tax Law by an amendment passed by the Legislature of 1907. This amendment provides that every corporation, company or association required by Section 187, 187a or 187b of Chapter 908 to pay to the State an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings for the privilege of exercising its corporate franchise, or carrying on its business in such corporate or organized capacity, which shall own any State bonds, shall have credited to it annually an amount equal to 1% of the par value of such bonds bearing interest at a rate not exceeding 3% annually, and owned and held in the name of such corporation, company or association. The text of this bill was given in V. 84, p. 1216.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions of the law defining securities in which savings banks may invest their deposits are contained in Section 146 of Chapter 2 of the Consolidated Laws of 1909. We give this section in full below.

Sec. 146. *In what securities deposits may be invested.*—The trustees of any savings banks may invest the moneys deposited therein and the income derived therefrom only as follows:

1. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia. [*The State Attorney-General ruled that this sub-division does not authorize savings banks to invest in the land purchase bonds of the Philippine Islands. V. 78, p. 298.*]

2. In the stocks or bonds or interest-bearing obligations of this State issued pursuant to the authority of any law of the State.

3. In the stocks or bonds or interest-bearing obligations of any State of the United States which has not within ten years previous to making such investment by such corporation defaulted in the payment of any part of either principal or interest of any debt authorized by the Legislature of any such State to be contracted; and in the bonds or interest-bearing obligations of any State of the United States, issued in pursuance of the authority of the Legislature of such State, which have, prior to May 29 1895 been issued for the funding or settlement of any previous obligation of such State theretofore in default, and on which said funding or settlement obligation there has been no default in the payment of either principal or interest since the issuance of such funding or settlement obligation, and provided the interest on such funding or settlement obligations have been paid regularly for a period of not less than ten years next preceding such investment.

[On July 24 1909 the Attorney-General rendered an opinion to the effect that bonds of the State of Oklahoma are legal investments for savings banks under the terms of this sub-division. The right of the banks to invest in these bonds was questioned for the reason that Oklahoma had not existed as a State for ten years. The Attorney-General, however, is of the opinion that this does not prevent its bonds from fulfilling the requirements of the law so long as there has been no default within ten years on any of the obligations. V. 89, p. 298.

[On Aug. 11 1909 the Attorney-General held that Port Commission 5% bonds of the State of Louisiana "maturing at any time between July 1 1924 and July 1 1959" were not legal investments for New York State savings banks. He calls attention to the action of Louisiana in disclaiming liability for some $900,000 of so-called "baby bonds" authorized by Act, 104, Laws of 1880, and by the constitution as amended in 1879. It had been argued that the "baby" bonds were invalid when put out, having been given in exchange for warrants issued between 1874 and 1879 in violation of the constitutional provision then in force which made void all appropriations or claims in excess of current revenue. As, however, the bonds were expressly authorized both by constitutional amendment and by the Act of the General Assembly above referred to the Attorney-General thought "there certainly would be grave doubt in holding that these bonds did not represent a debt 'authorized by the Legislature' of the State to be contracted." The Attorney-General also mentioned as a further ground of objection to the Port Commission bonds that they a e not a di ect obligation of the State of Louisiana. This view, however, is not concurred in by the United States authorities, for on Oct. 23 1911 R. P. Goodwin, Assistant Attorney-General for the Post-Office Department, rendered na opinion holding that the Port Commission bonds are an obligation of the State of Louisiana and in acco dance with this advice Lee McCluny, Treasurer of the United States, on March 11 1912 announced that the bonds would be accepted by his office as security for postal savings funds.]

4. In the stocks or bonds of any city, county, town or village, school district bonds and union free school district bonds issued for school purposes, or in the interest-bearing obligations of any city, county town or village of this State, issued pursuant to the authority of any law of the State for the payment of which the faith and credit of the municipality issuing them are pledged.

5. In the stocks or bonds of any incorporated city situated in one of the States of the United States which was admitted to Statehood prior to January 1 1896, and which, since January 1 1861, has not repudiated or defaulted in the payment of any part of the principal or interest of any debt authorized by the Legislature of any such State to be contracted, provided said city has a population, as shown by the Federal Census next preceding said investment of not less than 45,000 inhabitants, and was incorporated as a city at least twenty-five years prior to the making of said investment and has not since January 1 1878 defaulted for more than ninety days in the payment of any part either of principal or interest of any bond, note or other evidence of indebtedness, or effected any compromise of any kind with the holders thereof. But if, after such default on the part of any such State or city, the debt or security, in the payment of the principal or interest of which such default occurred, has been fully paid, refunded or compromised by the issue of new securities, then the date of the first failure to pay principal or interest, when due, upon such debt or security, shall be taken to be the date of such default within the provisions of this subdivision, and subsequent failures to pay instalments of principal or interest upon such debt or security, prior to the refunding or final payment of the same, shall not be held to continue said default or to fix the time thereof within the meaning of this subdivision, at a date later than the date of said first failure in payment. If at any time the indebtedness of any such city, together with the indebtedness of any district, or other municipal corporation or subdivision except a county, which is wholly or in part included within the bounds or limits of said city, less its water debt and sinking funds, shall exceed 7% of the valuation of said city for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to 7% of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks; but the Superintendent of

Banks may, in his discretion, require any savings bank to sell such bonds or stocks of said city as may have been purchased prior to said increase of debt.

[On Feb. 15 1911 an opinion was rendered by the Attorney-General, deciding that both *real and personal* property should be used as a basis in determining the 7% debt limit which the savings bank law says must not be exceeded in the case of municipalities in the bonds of which the banks may make investments. The question was raised because of the fact that the constitutional provision in regard to cities of this State provides that no city shall be allowed to become indebted for more than ten per cent of its assessed real estate. See V. 92, p. 610.]

[In Dec. 1911 the Attorney-General rendered an opinion holding that bonds of the city of Omaha, Neb., are not legal investments for savings banks in New York State, as the bonded debt of that city now exceeds 7% of its valuation. See item under "Omaha, Neb.," in V. 94, p. 645, for full text of opinion.]

6. In bonds and mortgages on unincumbered real property situated in this State to the extent of 60% of the value thereof. Not more than 65% of the whole amount of deposits shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than 40% of its actual value. No investment in any bonds and mortgages shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the corporation.

Also in the following securities

(a) The first mortgage bonds of any railroad corporation of this State the principal part of whose railroad is located within this State, or of any railroad corporation of this or any other State or States connecting with and controlled and operated as part of the system of any such railroad corporation of this State, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad companies respectively; provided that at no time within five years next preceding the date of any such investment such railroad corporation of this State or such connecting railroad corporation, respectively, shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount at least equal to 4% upon all its outstanding capital stock; and provided, further, that at the date of every such dividend the outstanding capital stock of such railroad corporation, or such connecting railroad company, respectively, shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporations, respectively, including all bonds issued or to be issued under any mortgage securing any bonds, in which such investment shall be made.

(b) The mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quincy RR. Co., Michigan Central RR. Co., Illinois Central RR. Co., Pennsylvania RR. Co., Delaware & Hudson Co., Delaware Lackawanna & Western RR. Co., New York New Haven & Hartford RR. Co., Boston & Maine RR. Co., Maine Central RR. Co., the Chicago & Alton RR. Co., Morris & Essex RR. Co., Central RR. of New Jersey, United New Jersey RR. & Canal Co.; also in the mortgage bonds of railroad companies whose lines are leased or operated or controlled by any railroad company specified in this paragraph if said bonds be guaranteed, both as to principal and interest, by the railroad company to which said lines are leased or by which they are operated or controlled. Provided that at the time of making investment authorized by this paragraph the said railroad corporations issuing such bonds shall have earned and paid regular dividends of not less than 4% per annum in cash on all their issues of capital stock for the ten years next preceding such investment, and provided the capital stock of any said railroad corporations shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad and railroad property of the company issuing such bonds, or that such bonds shall be mortgage bonds of an issue to retire all prior mortgage debts of such railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(c) The mortgage bonds of the Chicago Milwaukee & St. Paul Railway Co. and the Chicago Rock Island & Pacific Railway Co., so long as they shall continue to earn and pay at least 4% dividends per annum on their outstanding capital stock, and provided their capital stock shall equal or exceed in amount one-third of the par value of all their bonded indebtedness, and further provided that all bonds of either of said companies hereby authorized for investment shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad or railroad property actually in the possession of and operated by said company, or that such bonds shall be mortgage bonds of an issue to retire all prior debts of said railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(d) The first mortgage bonds of the Fonda Johnstown & Gloversville RR. Co., or in the mortgage bonds of said railroad company of an issue to retire all prior mortgage debts of said railroad company, and provided the capital stock of said railroad company shall equal or exceed in amount one-third of the par value of all its bonded indebtedness, and provided, also, that such railroad be of standard gauge of four feet eight and one-half inches and in the mortgage bonds of the Buffalo Creek Railroad Company of an issue to retire all prior mortgage debts of said railroad company, provided that the bonds authorized by this paragraph are secured by a mortgage dated, executed and recorded prior to Jan. 1 1905.

(e) The mortgage bonds of any railroad corporation incorporated under the laws of any of the United States which actually owns in fee not less than 500 miles of standard-gauge railway, exclusive of sidings, within the United States, provided that at no time within five years next preceding the date of any such investment such railroad corporation shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount at least equal to 4% upon all its outstanding capital stock; and provided, further, that during said five years the gross earnings in each year from the operations of said company, including therein the gross earnings of all railroads leased and operated or controlled and operated by said company, and also including in said earnings the amount received directly or indirectly by said company from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable during that year upon its entire outstanding indebtedness, and the rentals for said year of all leased lines, and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is at the time of making said investment or was at the date of the execution of said mortgage, (1) a first mortgage upon not less than 75% of the railway owned in fee by the company issuing said bonds exclusive of sidings at the date of said mortgage or (2) a refunding mortgage issued to retire all prior lien mortgage debts of said company outstanding at the time of said investment and covering at least 75% of the railway owned in fee by said company at the date of said mortgage. But no one of the bonds so secured shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of said company, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed three times the outstanding capital stock of said company at the time of making said investment. And no mortgage is to be regarded as a refunding mortgage, under the provisions of this paragraph, unless the bonds which it secures mature at a later date than any bond which it is given to refund, nor unless it covers a mileage at least 25% greater than is covered by any one of the prior mortgages so to be refunded.

(f) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided that during five years next preceding the date of any such investment the gross earnings in each year from the operations of said corporation, including the gross earnings of all lines leased and operated or controlled and operated by it, shall not have been less than ten million dollars.

(g) The mortgage bonds of a railroad corporation described in the foregoing paragraph (e) or (f) or the mortgage bonds of a railroad owned by such corporation, assumed or guaranteed by it by indorsement on said bonds, provided said bonds are prior to and are to be refunded by a general mortgage of said corporation, the bonds secured by which are made a legal investment under the provisions of said paragraph (e) or (f); and provided, further, that said general mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

(h) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) or (f) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided the payment of principal and interest of said bonds is guaranteed by indorsement thereon by, or provided said bonds have been assumed by, a corporation whose first mortgage is or refunding mortgage bonds are a legal investment under the provisions of paragraph (e) or (f) of this subdivision. But no one of the bonds so guaranteed or assumed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which together with all the outstanding prior debts of the corporation making said guaranty or so assuming said bonds, including therein the authorized amount of all previously guaranteed or assumed bond issues, shall exceed three times the capital stock of said corporation at the time of making said investment.

(i) The first mortgage bonds of a railroad the entire capital stock of which, except shares necessary to qualify directors is owned by and which is operated by a railroad whose last issued refunding bonds are a legal investment under the provisions of paragraph (a), (e) or (f) of this subdivision, provided the payment of principal and interest of said bonds is guaranteed by endorsement thereon by the company so owning and operating said road and further provided the mortgage securing said bonds does not authorize an issue of more than $20,000 in bonds for each mile of road covered thereby. But no one of the bonds so guaranteed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all the outstanding prior debts of the company making said guaranty, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of said company at the time of making said investment. Bonds which have been or shall become legal investments for savings banks under any of the provisions of this section shall not be rendered illegal as investments though the property upon which they are secured has been or shall be conveyed to another corporation, and though the railroad corporation which issued or assumed said bond has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds and shall continue to pay regularly interest or dividend or both upon the securities issued against, in exchange for or to acquire the stock of the company consolidated or the property purchased or upon securities subsequently issued in exchange or substitution therefor to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of said corporation which has issued or assumed said bonds. Not more than 25% of the assets of any savings bank shall be loaned or invested in railroad bonds, and not more than 10% of the assets of any savings bank shall be invested in the bonds of any one railroad corporation described in paragraph (a) of this subdivision, and not more than 5% of such assets in the bonds of any other railroad corporation. In determining the amount of the assets of any savings bank under the provisions of this subdivision, its securities shall be estimated in the manner prescribed for determining the per centum of surplus by section 154 of this chapter. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

7. In real property subject to the provisions of Section 147.

We omit Section 147, as it relates only to real estate. The following sections of the banking law relate—No. 148 to *available funds for current expenses, how loaned*, No. 149 to *temporary deposits* and 150 to *personal security and loans on bond and mortgage*.

SECTION 148. The trustees of every such corporation shall as soon as practicable invest the moneys deposited with them in the securities authorized by this article; but for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund not exceeding 10% of the whole amount of deposits with such corporation, on hand or deposit in any bank in this State organized under any law of this State or of the United States, or with any trust company incorporated by any law of the State; but the sum so deposited in any one bank or trust company shall not exceed 25% of the paid-up capital and surplus of any such bank or company; or such available fund, or any part thereof, may be loaned upon pledge of the securities or any of them named in subdivisions 1, 2, 3, 4 and 5 of Section 146, or upon the first mortgage bonds, or any of them, of the railroads mentioned and described in subdivision 6 of this section, but not in excess of 90% of the cash market value of such securities so pledged. Should any of the securities so held in pledge depreciate in value, after making any loan thereon, the trustees shall require the immediate payment of such loan, or of a part thereof, or additional security therefor, so that the amount loaned shall at no time exceed 90% of the market value of the securities pledged for the same.

SECTION 149. Every such corporation may also deposit temporarily in the banks or trust companies specified in section 148 the excess of current daily receipts over the payments, until such time as the same can be judiciously invested in the securities required by this article. Whenever it shall appear to the Superintendent of Banks that the trustees of any such corporation are violating the spirit and intent of this provision by keeping permanently uninvested all or an undue proportion of the moneys received by them, he shall report the facts to the Attorney-General, who shall proceed against such corporation in the manner provided in section 127 of chapter 689, Laws of 1892.

SECTION 150. The trustees of any savings bank shall not loan the moneys deposited with them or any part thereof, upon notes, bills of exchange, drafts or any other personal securities whatever. In all cases of loans upon real property, a sufficient bond secured by a mortgage thereon shall be required of the borrower, and all expenses of searches, examinations and certificates of title, and of drawing, perfecting and recording papers, shall be paid by the borrower.

TRUST FUNDS.—*How Loaned or Invested.*—Section 21, Chapter 41, Consolidated Laws of 1909, permits executors, administrators, guardians, &c., to invest in the same securities as savings banks. We quote the provision below:

INVESTMENT OF TRUST FUNDS.—A trustee or other person holding trust funds for investment may invest the same in the same kind of securities as those in which savings banks of this State are by law authorized to invest the money deposited therein, and the income derived therefrom, and in bonds and mortgages on unincumbered real property in this State worth 50% more than the amount loaned thereon.

CITIES, COUNTIES AND TOWNS IN THE STATE OF NEW YORK.

Note.—For debts of minor civil divisions not found among the statements given below see "Additional Statements" at the end of this State.

ALBANY.—C. M. Foll, Comptroller.

TOT. DEBT, SINK. FDS., &C.—

	Jan 1. '12.	*July* 1 '11.
	$	$
Tot. bond. d't.	26,223,582	26,466,932
Sinking funds	2,794,829	2,795,647
Net debt	23,428,753	23,671,285

The sinking funds are all invested in the city's own bonds. In addition to the indebtedness as given above, there was outstanding on July 1 1911 treasury and local fund warrants to the amount of $1,668,589.96.

CITY PROPERTY.—The city owns real estate estimated at $21,280,496; personal property valued at $18,011,269; total, $39,291,765. Included in this total is the water-works property, consisting of real estate valued at $2,144,266 and personal property valued at $10,936,711. The total resources of the city on July 1 1911, incl. all property—real and personal—together with other assets, were figured by the Comptroller at $45,736,199 and liabilities at $27,157,607, leaving $18,578,592 as the excess of resources over liabilities.

HEMPSTEAD, TOWN.
Hempstead (inc. April 17 1784) is now in Nassau Co., but was formerly in Queens Co., then including Far Rockaway, Hempstead, Inwood, Lawrence, Rockaway Beach and Seaford villages. On Jan. 1 1898 that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the channel between Rockaway Beach and Shelter Island, in the county of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April 1899, and the new boundary is that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the town of Jamaica, as it existed on the thirty-first day of December 1897." The bonds given below are those remaining as a debt against the town after assigning to New York City the portion belonging to it according to a decision of the Supreme Court of the Third Judicial District at Albany Dec. 9 1899. See V. 69, p. 1357.

NEW YORK CITY. Wm. J. Gaynor, Mayor; Wm. A. Prendergast, Comp.

The consolidation provided under the Greater New York Charter became effective Jan. 1 1898, and New York City now includes Kings County, Richmond County, and the following portions of Queens County, namely Long Island City, the towns of Newtown, Flushing and Jamaica, and part of the town of Hempstead. The Legislature in 1912 passed a bill providing for the creation of the County of The Bronx out of what is now the Borough of The Bronx. The bill does not take effect, however, until approved at a referendum of the citizens of the proposed Bronx County in November 1912. The following statement includes all of the funded debt of the former City of New York and of the municipalities in Brooklyn, Queens and Richmond which was recorded at the date of consolidation; also such additional amounts as were recorded in subsequent years as being funded obligations of said former municipalities to be assumed by the city of New York. These figures do not include $2,007,600 revenue bonds of the former City of New York outstanding Jan. 1 1898 and redeemable from its tax levy of 1897 nor $4,060,000 of revenue bonds or certificates of indebtedness of the former city of Brooklyn outstanding Jan. 1 1898, but redeemable from its tax levy for the year 1898.

DEBT OF GREATER CITY AT CONSOLIDATION, JAN. 1 1898.

	Tot. Funded Debt.	*Sinking Fund.*	*Net Debt.*
Manhattan & The Bronx	*$226,144,311 28	$85,654,317 52	$140,489,993 76
Brooklyn	81,626,175 53	6,734,055 69	74,892,119 84
Queens	13,709,935 62	330,000 00	13,379,935 62
Richmond	3,486,736 67		3,486,736 67
Total	*$324,967,159 10	$92,718,373 21	$232,248,785 89

* Includes $3,061,645 01 special revenue bonds.

DEBT OF GREATER CITY AT PRESENT TIME.

Since consolidation up to Mch. 30 1912 the Greater City has issued (not counting special revenue bonds or revenue bonds for current expenses) $898,575,014 new bonds and redeemed and canceled issues aggregating) $170,935,479. The following compares gross and net debt of the consolidated city at different dates.

	x Funded Debt.	**Temporary Debt.*	*Total Debt.*	*Sinking Funds.*	*Net Debt.*

x Including general fund bonds as follows: $8,500,000 at Jan. 1 1904, $18,000,000 at Jan. 1 '05, $29,000,000 at Jan. 1 '06, $40,750,000 at Jan. 1 '07, $54,250,000 at Jan. 1 '08, $68,750,000 at Jan. 1 '09. $85,500,000 at Jan. 1 '10, $102,500,000 at Jan. 1 '11, $120,000,000 Jan. 1 '12 and $120,000,000 Mch. 30 1912. On Jan. 1 1912 the funded debt also included $23,795,579 of the corporate stock notes described below. On Mch. 30 1912 $37,567,147 of these securities were included. None outstanding at previous dates.

*Consists of special revenue bonds and revenue bonds for current expenses.

The water debt, *included* in the foregoing, was as follows at the several dates below:

Water debt. Jan.	1 '98.	*Jan.* 1 '10.	*Jan.* 1 '11.	*Jan.* 1 '12.	*Mch.* 30 '12.
Gross	$59,568,249	$108,355,093	$128,913,618	$160,195,447	$162,994,475
Net	42,796,855	85,007,855	95,928,156	124,127,585	124,551,612

The following table shows the assessed valuation of property in the consolidated city for the year 1912. In 1903 the assessment of real estate was made on the basis of about real value; 1903 and subsequent values, there fore, are greatly in excess of those for previous years, and consequently the tax rate is much lower.

	Real Estate.	*Personal Estate.*	*Total.*	*Tax Rate.*

[Under a law passed by the 1911 Legislature, the collection of taxes takes place semi-annually instead of annually, as heretofore. V. 93, p. 63.]

PAR VALUE OF BONDS.—Under the provisions of the city charter registered bonds may be issued in denominations of $10 or any multiple thereof.

EXEMPTION FROM TAXATION.—Section 8, Article 1, General Municipal Law, Consolidated Laws of 1909, provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, county, municipal or State purposes."

DEBT LIMIT.—At the general election in Nov. 1909 the voters passed on a Constitutional Amendment which permits the city, in ascertaining its borrowing capacity, to exclude bonds heretofore issued for any rapid transit or dock investment, as well as bonds hereafter issued for a public improvement which provides a revenue in excess of the interest and amortization charges. The rapid transit and dock bonds may be excluded only in proportion to the extent to which the current net revenues received from these improvements shall meet the interest and amortization charges. See the amendment in full under general remarks for New York State.

ISSUANCE OF SHORT-TIME NOTES IN ANTICIPATION OF SALE OF CORPORATE STOCK.—A law was passed in 1911 authorizing the City Comptroller to issue short-term notes to provide funds pending the sale of corporate stock. See V. 92, p. 1577.

ISSUANCE OF CORPORATE STOCK IN FOREIGN CURRENCY.—The 1911 Legislature also passed a bill permitting the City Comptroller to make corporate stock payable in the currency of foreign countries. See V. 93, p. 63.

GENERAL FUND BONDS.—A new kind of bond (known as the 'General Fund Bonds") was created by the Legislature in 1903. It is issued for the purpose of releasing the surplus revenues of the sinking fund of the old City of New York, and to allow the money to be applied to the reduction of taxation. Under the law the bonds will be issued only in the way indicated, and they will be taken for account of sinking fund for redemption of the city debt No. 1. See V. 76, p. 610. Up to Mch. 30 1912 $120,000,000 of these bonds had been issued.

Special Assessment Certificates (5 years, subject to call after 1 year.)

APPROPRIATIONS.—The total appropriation for Greater New York in 1898 was $77 473,084 77; in 1899 it was $93,520,082 03; in 1900 it was $90,778,972 48; for 1901 it was $98, 00,413 43; for 1902 it was $98,619,600 88; for 1903, $97,119,031 10; for 1904, $106,674,955 09; for 1905, $109,817,593 03; for 1906, $116,805,490 37; for 1907, $130,421,505 56; for 1908, $143,572,266 17; for 1909, $156,545,148 14; for 1910, $163,130,270; for 1911, $173,967,835, and for 1912, $181,090,657.

POPULATION.—The population of Greater New York, according to the U. S. Census of 1900, was 3,437,202, and according to that of 1910, 4,766,883.

DETAILS OF INDEBTEDNESS.

The tables which follow give full details regarding the indebtedness of the consolidated city and the various boroughs and other divisions forming part of it. We show first the bond issues made since the Greater New York Charter went into effect. Then we add statements reporting at length the indebtedness of the separate boroughs; all the districts, towns and other divisions being in each case grouped under the borough to which they belong.

GREATER NEW YORK.—*Bonds issued since consolidation.*
The loans marked (s f) are held in the sinking fund.

Town of Eastchester, school district bonds			2,065

a, b, c.—These letters indicate on which sinking fund the bonds are a lien, as more fully explained below.

INTEREST—WHERE PAYABLE.—Coupon interest is payable at Guaranty Trust Co.; registered interest at office of City Comptroller.

AGGREGATE DEBT OF THE OLD CITY.

	Mch. 30 '12.	*Jan.* 1 '12.	*Jan.* 1 '11.
Total funded debt	$113,711,192	$113,721,236	$121,544,648
Sinking fund, including cash	*a*215,305,384	211,136,484	187,521,031
Surplus	$101,594,192	$97,415,248	$65,976,383

a Includes $2,954,072 cash.

The annexed table shows the *old* city's net funded debt (*not including revenue bonds*) as it was on the first day of January of each of the following years:

1907	$3,295,088	1900	$114 291,956	1890	$98,663,072
1906	20,211,893	1899	126,185,281	1885	93,648,100
1905	36,464,084	1898	136,847,276	1881	106,066,240
1904	57,730,126	1897	120,710,525	1876	116,773,721
1903	80,987,312	1895	105,777,854	1871	73,373,552
1902	91,796,965	1894	101,428,481	1866	35,973,597
1901	102,802,888	1892	97,550,036	1862	20,087,310

In 1908, 1909, 1910 and 1911 there was a *surplus* over the funded debt. Mch. 30 1912 this surplus was $101,594,192.

SINKING FUNDS.—The total sinking fund assets of the *old* city (Manhattan and the Bronx) on Mch. 30 1912 were $197,463,185. Of this amount $10,083,998 was held in a special sinking fund (sinking fund redemption No. II.) for account of certain water bonds and $205,221,386 (sinking fund redemption No. I.) was held for certain other sinking fund issues.

The totals of the various issues having a lien on these sinking funds, and the order of their lien, are shown in the following; the letter prefixed in each case being the same as that used in the preceding table of bonds to designate the issues having such lien.

a Consolidated stock, &c., having a lien on special fund derived from taxation and from sink. fund redemption No. I $91,368,092
b Total issues payable from sinking fund redemption No. II 12,500,000
c Consolidated stock (new parks) payable from sinking fund redemption No. I, in accordance with act of authorization 9,823,100

BILL TO UTILIZE SURPLUS REVENUE OF SINKING FUND.—The Legislature in 1903 passed a bill providing for the utilization of the annual excess revenues pledged to the sinking fund. For details see V. 76, p. 610. Up to Mch. 30 1912 $120 000,000 of excess revenues had been thus applied.

ASSESSED VALUATION.—The *old* city's assessed valuation and tax rate have been as follows. In 1903 basis of assessment was changed, accounting for the great increase in that year.

Years.	*Real Estate.*	*Personal Estate.*	*Total Assessed Valuation.*	*Rate of Tax per* $1 000.
1912	$5,652,006,791	$286,062,320	$5,938,069,111	$18.30
1911	5,643,095,618	294,784,847	5,937,880,465	17.2248
1910	5,237,674,704	305,747,033	5,543,421,737	17.5790
1909	5,077,150,294	346,162,305	5,423,312,599	16.7804
1908	5,025,765,149	339,350,312	5,365,115,461	16.407
1907	4,788,658,681	446,741,299	5,235,399,980	14.8499
1906	4,461,131,883	465,213,407	4,926,345,290	14.7890
1905	4,095,615,774	585,064,415	4,680,680,189	14.9051
1904	3,937,883,888	523,235,608	4,461,119,496	15.1342
1903	3,730,884,149	564,605,294	4,295,489,443	14.1367
1900	2,369,997,504	429,874,168	2,799,871,672	22.477
1898	1,856,467,923	509,022,449	2,365,490,372	20.10
1895	1,646,028,655	370,919,007	2,016,947,662	19.10
1890	1,398,290,007	298,688,383	1,696,978,390	19.70
1885	1 268 443 137	202 673 866	1 371 117 003	24.00

POPULATION OF THE BOROUGHS OF MANHATTAN AND THE BRONX, according to U.S. Census of 1910, was 2,762,522; in 1900 (U. S. Census) it was 2,050,600; in 1890 the population of the old city of New York, comprising a somewhat smaller area than that of the present boroughs of Manhattan and the Bronx, was 1,515,301. On the basis of the present territory, population then was 1,529,301. See V. 71, p. 408. In 1880 New York City's population was 1,206,299.

BOROUGH OF BROOKLYN.

OLD CITY OF BROOKLYN.

The old city of Brooklyn covered the entire area of the county of Kings, the county government being consolidated with that of the city on Jan. 1 1896 under the provisions of Chapter 954 of the Laws of 1895. Under the provisions of this Act, "the debt of the said county shall not be deemed to be or be included as a part of the debt of the City of Brooklyn, within the meaning of the provision of the Constitution of the State of New York limiting the power of cities to incur indebtedness." (See "Chronicle," Vol. 62, p. 49.) The towns of Flatbush, New Utrecht and Gravesend were annexed to the City of Brooklyn in 1894 and the town of Flatlands became a ward of the city on the first day of January 1896.

DEBT OF CITY OF BROOKLYN AS CONSTITUTED PRIOR TO CONSOLIDATION, INCLUDING ALSO ANNEXED TOWNS AND KINGS COUNTY.

COUNTY OF QUEENS.

The debt of the county of Queens is reported under the county's own name on a subsequent page; the amount of the original deot which was chargeable to the City of New York was adjudicated finally to be $3,796,032 11, leaving $1,011,967 89 as Nassau County's share of the old indebtedness. Instead of apportioning certain bonds to N. Y. City and to Nassau County, the debt and interest is not divided, but N. Y. City pays .7895241493 of the principal and interest as it becomes due, and Nassau County .21047585027. The Comptroller of N. Y. City acts as agent in the payment of the debt. The amount of Queens County bonds outstanding on Mch. 30 1912 was $4,428,000, of which $3,496,015 was chargeable to New York City.

LONG ISLAND CITY.

This was formerly a city in Queens County.

INT. payable at Glens Falls Tr.Co.

QUEENS COUNTY.

County seat is Long Island City. A good part of the old County of Queens is now included in the Greater New York, and a law changing the name of that portion of the old county *outside* of Greater New York to Nassau County went into effect Jan. 1 1899. The amount of outstanding bonds of this county which will be chargeable to the City of New York has been finally determined by the Supreme Court (V. 71, p. 875). Under this decision the City of NewYork was made liable for $3,796,032.11 of the old debt of Queens County as it stood at the date of division, and the remaining $1,011,967.89 became an obligation of Nassau County. Instead of apportioning certain bonds to New York City and to Nassau County, the debt and interest is not divided. New York City pays .78952414973 of the principal and int. as it becomes due and Nassau Co. .21047585027. The Comptroller of New York City acts as agent in the payment of the debt.

The statement below shows the obligations of the old County of Queens which remained outstanding on Mch. 30 1912.

Tax pr. M*	24.16	23.12	19.73

* The city has several different tax rates, the figures given above being the rates for all purposes. State, county and city, in the old city of Troy. In the old city of Troy the tax for 1911 was $18.78; in Sycaway School District, $17.91; in St. Mary's School Dist., $16.76; in annexed territory of North Greenbush, $16.76; and in Wards 15, 16 and 17 (formerly Lansingburg), $13.85. The State and county tax in all districts for 1911 was $5.38.

POPULATION.—In 1910, 76,813; in 1905, 75,910; in 1900, 60,651, excluding sections annexed in 1901, which brought the aggregate up to about 75,000; in 1890 it was 60,956; in 1880 it was 56,747.

Tax rate (per $1,000) 1911 ... $8.00
Population in 1910 ... 2,985

INT. payable at Citizens' Bank of Westfield in New York exchange.

WEST SENECA.

This town is in Erie Co. Incorp. 1851. The decrease in the valuation for 1909 was caused by a division of the town, cutting off the city of Lackawanna. While the bonds below are considered a lien upon the whole town, the referee appointed to apportion the debts has decided that they are to be paid by the city of Lackawanna, the sewer having been built in that city. This report came up in December for confirmation by the State Supreme Court and was opposed by the city of Lackawanna. No decision has been rendered.

Sewer Bonds.

5s '07	A-O	$37,500c	Apr 1	1913

INT. on the above bonds is payable in New York exchange.

RECAPITULATION OF DEBT MAY 14 1912.

Refunding bonds	$514,500 00
Fire Department bonds	86,110 00
City-Hall bonds	352,800 00
Deficiency bonds	32,000 00
Hospital bonds	125,000 00
Local-impt. bonds	338,850 00
Road-impt. bonds	162,250 00
Assessment bonds	335,000 00
Revenue bonds	475,000 00
Public-building & dock bonds	60,000 00
Irving Park bonds	10,000 00
Bath bonds	5,000 00
Street-paving bonds	196,621 01
Building bonds	121,250 00
Park bonds	332,250 00
School bonds	2,088,130 00
Water bonds	2,291,250 00
Certfs. of indebtedness	1,300,000 00
Local- improv't notes	250,000 00
Total May 14 1912	$9,076,011 01
Deductions—	
Revenue bonds	$475,000 00
Water bonds, issued after Jan. 1 1908	636,250 00
Ctfs. of indebtedness	1,300,000 00
Yonkers bonds in Water Bond Sinking Fund	233,000 00
	$2,644,250 00
Debt to be counted in ascertaining the power to become further indebted	$6,431,761 01

Assessment bonds, revenue bonds, certificates of indebtedness and local improvement notes are issued in anticipation of the collection of taxes and assessments and paid from the receipts thereof.

Refunding bonds are issued to refund $297,500 redemption bonds, $70,000 assessment bonds and $49,000 tax-relief bonds are paid from moneys received from taxes, assessments and redemption of lands purchased by the city for non-payment of taxes and assessments.

Water bonds are paid from receipts of Water Bond Sinking Fund.

Prior to Jan. 1 1908, the School Bonds were issued by the Board of Education and the water bonds by the Water Board. Since the date referred to, however, all bonds of the city have been issued under the Uniform Charter for cities of the second class. Chapter 452 of the Laws of 1908 repeals the Acts under which the Board of Education and the Water Board were created separate bodies.

CITY PROPERTY.—Real estate owned by the city is assessed at $6,739,752, including water works valued at $2,950,000.

ASSESSED VALUATION.—The city's assessed valuation has been:

	Real Estate.	*Personal Property.*
1912	$76,984,920	$2,856,900
1911	72,942,945	2,885,803
1910	64,855,640	2,206,103
1909	63,732,005	3,362,200
1908	61,647,160	2,330,150
1905	45,980,905	3,252,000
1900	35,124,400	3,086,830
1890	22,574,226	398,240
1880	10,024,677	430,295

	Total Assessed Valuation.	*Ave. Rate of Tax per $1,000.*
1912	$79,841,820	$28.997595
1911	75,828,748	25.426109
1910	68,061,743	26.0817
1909	67,094,205	24.2706
1908	63,977,310	23.2137
1905	49,232,905	24.4848
1900	38,211,230	23.709
1890	22,972,466	17.3902
1880	10,454,972	----------

POPULATION.—In 1910 was 79,803; in 1905 it was 61,716; in 1900 it was 47,931; in 1890 it was 32,033; in 1880 it was 18,892.

YORKVILLE.

This village is in Oneida County. Incorporated in 1902.

State of New Jersey.

ITS

DEBT, RESOURCES, ETC.

Admitted as a State.....One of Original Thirteen
Total area of State (square miles).....7,815
State Capital.....Trenton
Gov.(term exp. Mon.bef.3d Tues.,Jan.'14).Woodrow Wilson
Secretary of State (term exp. Apr. 1 '17) ....David S. Crater
Treasurer (term expires Mch. 1 1913)...Daniel S. Voorhees
Comptroller (term expires Feb. 20 1914)...Edw. I. Edwards

LEGISLATURE meets annually the second Tuesday of January, and there is no limit to the length of the session.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The Constitution of 1844 forbade the creating of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c. This exception, under which it was allowable to exceed the hundred-thousand-dollar limit, became operative on the occasion of the breaking out of our Civil War. Quite a debt was created at that period. The last of these war bonds was retired on Jan. 1 1902.

TOTAL DEBT.—With the exception of $116,000 certificates issued to the Commissioners of the Agricultural College under Act approved June 13 1895, the State is now clear from debt, and has been since Jan. 1 1902. At previous dates the debt was:

Nov. 1 1901	$71,000	Nov. 1 1895	$660,400
Nov. 1 1898	194,000	Nov. 1 1894	735,400
Nov. 1 1897	394,000	Nov. 1 1880	1,996,300
Nov. 1 1896	593,400	Nov. 1 1866	3.395.200

On Nov. 1 1911 the cash balance on hand in the State Fund was $3,121,-081.20; this fund also held on the same date 1,887 shares (par value $188,700) of the stock of the United Railroad & Canal Companies of New Jersey, the market value of which amounts to about $475,000. The State School Fund on Nov. 1 1911 held securities to the amount of $5,327,314.16; cash balance on hand for investment, $189,675.11.

ASSESSED VALUATION.—The assessed valuation for a series of years has been as below. Under new tax laws the assessment beginning with 1906 has been made at supposed full value—a much higher basis than in former years.

1911	$2,166,735,535	1902	$952,560,540	1888	$603,676,953
1910	2,045,898,214	1901	918,418,741	1886	573,256,303
1909	1,949,687,287	1900	891,237,286	1884	554,828,114
1908	1,843,001,178	1898	844.354,193	1882	534 917,876
1907	1,841,527,418	1896	794,428,048	1880	518,617,518
1906	1,570,210,073	1894	774,398,332	1878	531,851,849
1905	1,153,682,961	1892	742,759,082	1876	596,833,707
1904	1,055,379,023	1890	649,979,700	1874	619,057,903
1903	1,008,062,612				

In addition to the above, valuation of railroad and canal property in 1900 was $219,656,014, in 1902 $223,486,392, in 1903 $227,195,115, in 1904 $231,655,525, in 1905 $236,720,571, in 1906 $194,532,469, in 1907 $200,-045,173, in 1908 $272,182,490, in 1909 $279,059,611, in 1910 $286,546,453 and in 1911 $284,542,181. The 1906-7-8-9-10 and '11 valuations are subject to court revision. No general tax is imposed in New Jersey, the State deriving its revenue from other sources.

POPULATION OF STATE.—Population has been as follows.

1910	2,537,167	1870	906,096	1820	277,575
1905	2,144,134	1860	672,035	1810	245,562
1900	1,883,669	1850	489,555	1800	211,149
1890	1,444,933	1840	373,306	1790	184,139
1880	1,131,116	1830	320,823		

DEBT LIMITATIONS.—The provisions of law limiting and regulating the debt-making power in New Jersey will be better understood and the information will be made more serviceable to the investor if arranged in accordance with the civil divisions to which the provisions apply.

(1) *THE STATE* is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4 the whole subject is disposed of. The third paragraph forbids a loan of the State's credit and the fourth paragraph forbids the creation of debt. These provisions are as follows:

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State, which shall singly or in the aggregate with any previous debts or liabilities at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to $100,000, except (1) for purposes of war, &c., and (2) when the authorization is for some single object of work specified therein, &c. In the latter case the mode of procedure is, as will be seen given in the same paragraph of the Constitution.

CITIES, COUNTIES, TOWNS, &c., are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the constitution. We give these paragraphs in full:

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of, any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibitions are absolute.

Article IV, Section VII, Paragraph 11, of the constitution, forbids the passage by the Legislature of any special laws "regulating the internal affairs of towns and counties," the constitution directing that in this and all other cases where general laws are feasible, general laws shall be provided.

In compliance with this last provision the Legislature has passed many general laws relating to the bonded indebtedness of the different kinds of municipalities existing in New Jersey, which are counties, cities, towns, townships, boroughs, villages, school districts, and certain anomalous municipalities governed by Boards of Commissioners, or Improvement Commissions, and not specifically named as villages, which they really are. See Compiled Statutes of New Jersey 1910, under the following headings: Chosen Freeholders, Cities, Towns, Townships, Boroughs, Villages and Municipal Corporations.

There is no general debt limit for New Jersey municipalities, either constitutional or statutory.

The most important law applicable to the debt of all municipalities is the Act of Mar. 29, 1887, P. L. 1887, p. 67, Com. Stat. of 1910, p. 3676, which prohibits the issuance of bonds by any municipality which is in default in the payment of its past-due bonds or the interest thereon, or in arrears for over six months in the payment of any State or county tax, or other legal indebtedness. A supplement to this Act passed in 1912 provides that the failure to pay interest or principal of bonds the validity of which is contested by the municipality in pending litigation is not to be deemed a default under said Act.

The constitutional prohibition above referred to against special legislation relating to the internal affairs of towns and counties has been so construed by the highest Court in New Jersey as to prevent special legislation relating to the internal affairs of any municipality. The word "towns" as used in the constitutional provision is construed in the broadest possible sense so as to include cities, towns, townships, boroughs, villages, school districts and municipalities of every kind. The result of this is that while the Legislature may, and does, incorporate municipalities by Special Laws, naming them and defining their boundaries, Special Laws as to the government and powers of such municipalities cannot be passed. The old special charters, which many cities have and which were granted before Sept. 1875, when this constitutional provision was adopted, remain in force except so far as amended or repealed by general laws, as the constitutional prohibition prevents the amendment or repeal of these old special charters by a special law. Consequently, at almost every session of the Legislature in recent years one or more laws have been passed providing generally for the government of cities, or some other class of municipalities, which laws, while general in form, are really passed for the benefit of some particular municipality. To avoid the amendment or repeal of the old special charters, the new laws by their terms do not take effect until accepted by the voters at an election held for that purpose, and usually only the particular municipality at whose solicitation a law is passed accepts it. This makes it necessary to inquire as to any municipality whether or not it has accepted any such laws in order to know how it is governed. These referendum charters, as they may be called, frequently contain special debt limits and other important provisions in regard to municipal finance, as did also the old special charters. Similarly, many acts granting power to municipalities are passed which do not provide a frame of government, but still take effect only on acceptance.

Counties, towns, townships, boroughs and villages are almost entirely governed by general laws applicable either to all municipal corporations or to those classes, except that a few of the older towns have special charters which are still in force, so far as not inconsistent with general laws adopted since. Counties are governed by the General County Act of 1846, as amended, Comp. Stat. of 1910, p. 474, and there are numerous Acts giving powers either to all counties or to those of a certain population. Towns are governed by the General Town Law of 1895, P. L. 1895, p. 218, Comp. Stat. of 1910, p. 5518. This act applies to all towns incorporated under it by referendum proceedings, and also to towns previously incorporated under other General Town Laws. Boroughs are governed by the General Borough Law of 1897, Comp. Stat. 1910, p. 226. This Act limits the bonded debt of boroughs to 15% of the assessed valuation. Townships are governed by the General Township Law of 1899, Comp. Stat. of 1910. p. 5567, which limits the bonded debt of townships to 10% of the assessed valuation. There are few villages in New Jersey, most of the former villages being now incorporated under some other form, but the remaining villages are mostly governed by the General Village Act of 1891, Comp. Stat. of 1910, p. 5727, which is known as The Winton Act.

The Act of Mar. 26 1896, appearing in the Comp. Stat. under the heading of "Municipal Corporations," Sec. 20 and 21, p. 3462, provided that thereafter no borough or village shold be incorporated except by special Act of the Legislature. While this Act operated to prevent the incorporation of boroughs and villages by referendum proceedings under previous general laws, it does not prevent subsequent action by the Legislature permitting such incorporation. It is, however, a declaration by the Legislature of its policy to incorporate municipalities by special Act, which policy has been pursued as to all municipalities since that date. This course has many advantages, the principal one of which is, that as to municipalities so incorporated there can be no question as to their corporate existence, name, and boundaries, which are fixed by the special Act. When the Legislature desires to incorporate a town, township, borough or village, it now does so by a special Act fixing the name and boundaries of the new municipality, and the new municipality thereupon becomes subject to the general laws affecting the class to which it belongs. In the case of new cities, the situation is more complicated, because there is no general Act relating to all cities and furnishing a form of government therefor which takes effect without acceptance by the voters or governing body of the city. Therefore, when the Legislature incorporates a new city, as it cannot by the Act of incorporation provide for its government, but can only fix its name and boundaries, the new city would be without any frame of government unless it should proceed to accept one of the general referendum charters. This is the course generally pursued and frequently the Legislature has simultaneously incorporated a new city and passed a new referendum charter ostensibly for all cities, but which was intended to be and was accepted only by the new city. The effect of this is practically the same as if a special charter had been passed for the new city.

At the session of 1911 the Legislature adopted an Act providing for the commission form of government in cities, generally known as The Walsh Act, being Chap. 221 of the Laws of that year. This Act, (which only applies to municipalities accepting it at an election) provides that it may be so accepted by "cities, towns, boroughs and other municipalities.' This left it uncertain whether on the one hand the Act applied to counties and school districts (which the Legislature probably did not intend) or whether on the other hand it could be accepted by villages and townships (which the Legislature probably did intend). This doubt has been set at rest by an amendment adopted by the Legislature at the session of 1912, which amended the title and body of the Act so as to make it applicable to cities, towns, townships, boroughs, villages and municipalities governed by boards of commissioners and improvement commissions, and to these only, so that it is now clear that counties and school districts are not affected. The Walsh Act has been accepted by only four of the larger municipalities in New Jersey, i. e., the cities of Trenton, Passaic, Atlantic

City and Long Branch, and, while submitted to the voters of a number of other cities, such as Jersey City, Paterson, Hoboken, Elizabeth and Bayonne, has been rejected by them. The Walsh Act limits the net bonded debt of cities accepting it to 10% of the assessed valuation of property therein, unless authorized by the voters at a special election. Said amendment of 1912 provides that such net bonded debt shall be determined by deducting from the gross bonded debt all water bonds, cash and investments held in sinking funds, and all bonds the payment of which is provided for in the current tax levy.

Under the County Act of 1846, as amended, counties are governed by large Boards of Chosen Freeholders, each Freeholder being elected by the municipality, or portion thereof, that he represents. By the Strong Act (P. L. 1902, p. 65), counties accepting it at an election have a small Board elected at large consisting of 9, 7, 5 or 3 members, according to population. The Strong Act was amended by P. L. 1909, p. 294, and by two Acts passed in 1912 (P. L. 1912, p. 278, and p. 494), and revised and re-enacted by P. L. 1912, p. 619. P. L. 1912, p. 228, is a similar referendum Act applicable only to counties of the first class (population 200,000). Several counties have already accepted the Strong Act, and as the small Board elected at large represents one of the principles of the so-called commission form of government, it has been stated in the press that these counties have accepted the "commission form of government," thus creating the false impression that they had accepted the Walsh Act.

School Districts are governed by the General School Law of 1903, Comp. Stat. of 1910, p. 4724, which provides that every incorporated city, town, township and borough shall be a school district. City school districts are governed by Art. VI of this law, which practically makes the Board of Education a branch of the City Government, and authorizes the issuance of bonds of the City for school purposes to an amount not exceeding 3% of the assessed valuation of the City. School districts in towns, townships and boroughs are governed by the provisions of Art. VII of this law, which originally provided for the issuance of bonds of such school districts (which are not obligations of the town, township or borough) as the legal voters might direct, without any limitation. But under an amendment of 1912 these bonds cannot run for more than 30 years or be issued in excess of 3% of assessed valuation. This amendment does not, however, affect the issuance of bonds already voted, but not issued. The School Law also provides that the voters of any city school district may accept the provisions of Art. VII of the School Law, and be governed like a town, township or borough district, and, on the other hand, town, township and borough school districts may accept the provisions of Art. VI of the School Law and be governed like a city district. This has been done chiefly by large towns which found it cumbersome to submit all important matters as to taxation and bond issues to meetings of the voters, and the towns of West Hoboken, Kearny and Montclair have accepted and are governed by Art. VI. So far as we are aware, no city has accepted the provisions of Art. VII. The proceedings for the issuance of bonds of all school districts under Art. VII must be submitted to the Attorney General for his approval before the bonds are issued.

SALE OF BONDS.—By the Act of Apr. 9th 1910, P. L. 1910, p. 347, Comp. Stat. of 1901, p. 3685, all municipal bonds must be sold for not less than par at public sale on ten days' notice, unless the statute under which they are isued expressly authorizes private sale. By an amendment to this Act, passed in 1911, (P. L. 1911, p. 218), the notice must be given by two insertions in a local paper, and private sale to the sinking fund is allowed. The School Law of 1903, the Borough Law of 1897 and the Funding Act of March 23 1899, Comp. Stat. of 1910, p. 3681, (which last Act as amended applies to all municipalities except school districts and counties) expressly authorize private sale. A supplement to the School Law, P. L. 1911, p. 514, prohibits the issuance of school bonds except after public sale on ten days' notice, unless previously offered to and rejected by the School Fund. This Act also requires all School Bonds to be signed, sealed, delivered and paid for in the State of New Jersey, such payment to be made by cash or certified check to the order of the Custodian of school moneys, who is the Treasurer of the city, town, township or borough, as the case may be.

TAX EXEMPTION.—By Sec. 3 of the General Tax Act of 1903, Comp. Stat. of 1910, p. 5075, bonds and other securities of the United States and of the State of New Jersey or any County, taxing district or school district of the State are exempt from taxation. This makes all New Jersey municipal bonds tax-exempt in that State.

LIMITATION OF TAX RATE.—Chap. 116, Laws of 1906, provides that the ultimate maximum tax rate for all taxing districts of the State for county, school district and local purposes, shall be $17.50 for each $1,000 of assessed valuation, and requires a gradual reduction to said ultimate rate in taxing districts where the rate in 1905 exceeded that amount. The Act further provides an ultimate rate of taxation for county purposes of $5.00 per $1,000 of assessed valuation, and for a similar gradual reduction to said ultimate rate in counties which had a higher rate in 1905. This limitation does not apply to taxes required to raise any State tax or State school tax, or to pay judgments, all of which may be in addition to the rate limited by said Act. Therefore, any holder of bonds or other obligations of any New Jersey municipality, while he might not be able to compel the immediate levy of a tax to pay such obligations, (if such a levy would exceed the limit), could finally reach the same result by first reducing his claim to a judgment, and then compelling the levy of a tax to pay that judgment. These limitations are, therefore, not of much importance to investors in New Jersey municipal securities except as they limit the tax burden on the taxable property for other purposes.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS—The savings bank law of New Jersey was completely revised by the State Legislature of 1906, without, however, changing in any essential respects the investment provisions. We give below in full the investment section of the new law.

VI. DEPOSITS—HOW INVESTED.

SECTION 33. No savings bank shall invest the moneys deposited with the same in any manner except as follows, to wit:

I. In stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is distinctly pledged to provide for the payment of the principal and interest thereof;

II. In the interest-bearing bonds of this State; or in any bonds authorized by the laws of this State to be issued by any commission appointed by the Supreme Court of this State, by virtue of any law of this State;

III. In the bonds of any State in the Union that has not, within ten years previous to making such investment by any such bank, defaulted in the payment of any part of either principal or interest in any debt authorized by any law of such State to be contracted.

IV. In the bonds of any county, township, municipality or school district of this State issued pursuant to the authority of any law of this State, *provided*, such county, township, municipality or school district shall not, within the five years next preceding, have defaulted in the payment of any part of either principal or interest of any legal debt or obligation thereof and *provided further*, the total indebtedness of any borough or village does not exceed 10% of its assessed valuation, and such school district bonds are by law charged upon all the property of the inhabitants of such district or in any interest-bearing obligation (other than obligations commonly known as improvement certificates) issued by the city, county, town, township, borough or village in which such bank is situated;

V. In the bonds of any city or county of any other State of the Union issued pursuant to the authority of any law of any such State; *provided*, no such city or county has, within ten years previous to making such investment, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; and *provided further*, the total indebtedness of any such city or county is limited by law to 10% of its assessed valuation;

VI. In first mortgage bonds of any railroad company which has paid dividends of not less than 4% per annum regularly on its entire capital stock for a period of not less than five years next previous to the purchase of such bonds, or in any consolidated mortgage bonds of any such company authorized to be issued to retire the entire bonded debt of such company;

VII. In bonds secured by mortgages which shall be a first lien on real estate situate in this State, and worth at least double the amount loaned thereon, but not to exceed 80% of the whole deposits shall be so loaned or invested; but in case the loan is on unimproved or unproductive real estate, the amount loaned thereon shall not be more than 30% of its actual value; and no investment in any bond and mortgage shall be made by any savings bank, except upon the report of a committee of at least three of the managers, and two members of which committee shall certify in writing to the value of the premises mortgaged, or to be mortgaged, according to their best judgment; such report shall be filed and preserved among the records of the bank;

VIII. In real estate strictly in accordance with the following provisions:

(*a*) A plot whereon is erected, or may be erected, a building or buildings requisite for the convenient transaction of its business, and from portions of which not required for its own use a revenue may be derived; the costs of such building or buildings and lot shall in no case exceed 50% of the net surplus of such bank except with the written approval of the Commissioner of Banking and Insurance; *provided*, the limitations as to the cost of such lot and building contained in this subdivision shall not apply to or affect any such investment heretofore made by a savings bank organized under a special charter;

(*b*) Such as shall have been purchased or acquired by it at sales upon the foreclosure of mortgages owned by such corporation, or upon judgments or decrees obtained or rendered for debts due to it, or in settlements effected to secure such debts, or in satisfaction of such mortgages; and all such real estate shall be sold by such bank within five years after the same shall have been so purchased, unless, upon application by such corporation to the Commissioner of Banking and Insurance, he shall extend the time within which such sale shall be made; the provisions of this section shall apply to all funds of any savings bank, including its reserve fund, and all investments of money and sales and transfers of securities may be made in the manner provided and made lawful in this Act, notwithstanding any provision in any special charter contained limiting the number of trustees or managers who shall act in the investment of moneys and the sale or transfer of stocks or securities.

SECTION 34. No savings bank shall loan the money on deposit with the same, or any part thereof, upon notes, bills of exchange or drafts, except upon the additional pledge of collateral security, which shall be of the same nature and character as those in which the money deposited may be invested as directed in the preceding section, or the capital stocks of national and State banks, or the capital stock or bonds of other corporations of this State, which have not defaulted in the payment of interest or dividends upon the collateral loaned upon, within two years next preceding the time of such loan, and then only to the extent of 80% of the market value of such collaterals: *provided*, the total amount of such loans shall not exceed 15% of the total deposits held by such savings bank.

INVESTMENT OF TRUST FUNDS.—This subject is covered by the Act of May 8, 1907, P. L. 1907 p. 382, Comp. Stat. of 1910 p. 3864, printed in full in "Chronicle of Nov. 23, 1907, p. 1352.

Population in 1910 11,877
INTEREST on sewer bonds payable at Merchants' Nat. Bank, Newark; on the fire department bonds of 1912 at Irvington National Bank.

JERSEY CITY.

H. O. Wittpenn, Mayor; F. Gormley, Comptroller.
On Feb. 13 1900 the citizens authorized the purchase of a water plant for the sum of $7,595,000. V. 70, p. 344. After extensive litigation the city completed negotiations for the purchase of the plant of the Jersey City Water Supply Co., paying that company on Oct. 10 1911 $6,992,000 for its property. See V. 93, p. 1107. The city issued $6,776,000 bonds to cover the cost of the water plant, and they are given below. Commission government defeated July 18 1911.

RAHWAY.

This city, of Union County, was declared bankrupt in 1882, and a compromise of the debt, exclusive of the water debt ($185,000), was forthwith agreed to with most of the leading creditors at 35 cents on the dollar. the debt, exclusive of water debt, then amounting to about $1,200,000. This settlement was completed in 1894, and interest is now paid promptly on the new bonds. The water bonds were renewed in 1891 at 4%, an agreement having been made in 1890 by which all accrued interest at 7% was adjusted at the 35% rate. Interest on these water bonds is also now promptly paid. Incorporated 1858. Commission government defeated Sept. 26 1911.

State of Pennsylvania.

ITS

DEBT, RESOURCES, ETC.

Admitted as a State.....One of Original Thirteen
Total area of State (square miles).....45,215
State Capital.....Harrisburg
Governor (term expires 3d Tues. Jan. 1915) John K. Tener
Secretary of State (term expires Jan. 1915)..Robert McAfee
Treasurer (term expires May 1913)... Charles Fred. Wright

LEGISLATURE meets biennially in odd years on the first Tuesday in January, and there is no limit to the length of the sessions.

HISTORY OF DEBT.—For a history of Pennsylvania's State debt from 1789 to 1893, see the "State and City Supplement" of 1893, pages 63 and 64. The details of the debt as it now exists are subjoined.

LOANS—	—Interest—			—Principal—
Name and Purpose.	*P. Ct.*	*Payable.*	*When Due.*	*Outstand'g*
Agricultural College bonds, 1872 r....	6	F-A	Feb 1 1922	$500,000
Proceeds of farm sale, 1887	6	Quar	Held in State Treas.	17,000
Unfunded debt and debt upon which interest has ceased.....				134,110

INTEREST on the Agricultural College loan is payable at the State Treasurer's office in Harrisburg; on all other bonds at Farmers' & Mechanics' National Bank in Philadelphia.

TOTAL DEBT, &c.—	*Dec.* 1 '11.	*Dec.* 1 '10.	*Dec.* 1 '09.	*Dec.* 1 '08.
Total public debt.....	*$2,295,510	$2,384,867	$2,643,917	$2,689,617
Sinking fund.....	2,396,683	2,440,857	2,652,035	2,642,531
	a$101,173	*a*$55,990	*a*$8,118	*x*$47,086
Unfund. debt (incl. above)	$134,110	$134,117	$134,117	$134,117

* Includes $1,644,400 bonds due Feb. 1 1912 and redeemed on that date. *a* Surplus. *x* Net debt.

The sinking fund on Dec. 1 1911 consisted of cash balance in banks of $2,396,683 22. Balance in treasury, both general and sinking funds, Dec. 1 1911 was $12,923,370 61.

The unfunded debt mentioned in the above table consists of relief notes in circulation, interest certificates unclaimed, interest on certificates outstanding, domestic creditors and bonds past due upon which interest has ceased.

ASSESSED VALUATION has been as follows:

Years—	*Assessed Valuation*— *Real.*	*Personal.*	*Total.*
1911.....	$4,584,806,925	$1,198,861,401	$5,783,668,326
1910.....	4,633,547,665	1,129,650,455	5,763,198,120
1909.....	4,270,982,557	1,090,195,053	5,361,177,610
1908.....	4,209,076,056	1,060,615,377	5,269,691,433
1905.....	3,520,136,662	1,094,468,656	4 614,605,318
1900.....	2,766,829,685	761,755 893	3,528,585,578
1899.....	2,728,163 336	859,979,331	3,588,142,667
1898.....	2,685,199,712	846,751,853	3 431,951,565
1895.....	2,471,018 204	770,049,820	3,241,068,024
1894.....	2,389,232,748	658,341 105	3,047,573,853
1892.....	2,308,767,431	591,007,558	2 899 774,989

The above does not include valuation of railroad property. The State makes no *general tax*. Income is derived from tax on capital stock, on money at interest, on collateral inheritances, on corporate loans on bonus on charters &c.. &c.

1870.....	3 521 951				

DEBT LIMITATION.—In Pennsylvania the limit to the indebtedness of the State, and to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State Constitution.

1. *State indebtedness.*—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4 5, 6, 11, 12, 13 and 14 of Article IX of the Constitution, and are as follows:

ARTICLE IX, SEC. 4. No debt shall be created by, or on behalf of, the State except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars.

SECTION 5. All laws authorizing the borrowing of money by and on behalf of the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenue of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualification to hold office for a period of not less than five years

(2) *County and Municipal Indebtedness.*—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons elected triennially under the minority system of voting, by which the minority party in each county usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is subject to the following constitutional limitations;

ARTICLE IX, Sec. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association institution or individual.

SECTION 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city the debt of which now exceeds seven per centum of such assessed valuation may be authorized by law to increase the same three per centum, in the aggregate at any one time, upon such valuation.

[At the Nov. 1911 election the voters adopted an amendment to the above section which allows the city of Philadelphia, in ascertaining its borrowing capacity, to exclude such debt as may be incurred for the construction or development of subways for transit purposes or for the construction of wharves or docks owned or to be owned by the city and which produce revenue sufficient to pay the interest and principal of such debt. V. 93, p. 1547. We print below the lines added to Section 8.

"Except that any debt or debts hereinafter incurred by the city and county of Philadelphia for the construction and development of subways for transit purposes, or for the construction of wharves and docks, or the reclamation of land to be used in the construction of a system of wharves and docks, as public improvements, owned or to be owned by said city and county of Philadelphia, and which shall yield to the city and county of Philadelphia current net revenue in excess of the interest on said debt or debts and of the annual installments necessary for the cancellation of said debt or debts, may be excluded in ascertaining the power of the city and county of Philadelphia to become otherwise indebted: Provided, That a sinking fund for their cancellation shall be established and maintained."]

SECTION 9. The Commonwealth shall not assume the debt, or any part thereof, of any city, county, borough or township, unless such debt shall have been contracted to enable the State to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

TAXATION OF MUNICIPAL AND SCHOOL BONDS.—All bonds issued by municipalities, counties and school districts in Pennsylvania are subject to a State tax of four mills, which is paid by the place issuing the bonds and deducted from the remittance of interest to the bondholder, unless the bonds are issued as "tax-free", when the municipality itself assumes the tax. See V. 92, p. 359.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists bearing the same name. Originally the bank was not incorporated, but was a voluntary organization, such societies in Great Britain being at the time of a like character. The date of the organization was November 27 1816, and the bank was opened for business Dec. 2 1816. The oldest ledger of the company goes back to the time of opening, and shows a deposit on that day (December 2 1816) of five dollars. The company was not incorporated until February 25 1819. The second savings institution in the State, however, did not come into existence until 1847. In 1889 a general law facilitating the incorporation of savings banks was passed by the Legislature. Still, the report of the Banking Department of November 1 1911 shows that the total number of savings banks within the State was only eleven. The aggregate deposits of these banks at that date was $186,680,985.

The provisions of the special charters are all liberal as to investments. A law passed in 1885, and a supplement of the same passed in 1889, authorizing the extension for twenty years of special charters, contains the following

"*Provided also*, that no * * * Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this Act, shall thereafter be allowed the privileges of a bank of discount, nor be allowed to loan any money received on deposit, *except* upon first mortgage or lien upon real estate within this Commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, township or school district, *or any other good and valid securities.*"

Authority to loan on any "good and valid security" appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

In 1897 an Act was passed allowing savings institutions and savings banks chartered under Special Acts to invest in Pennsylvania county and municipal bonds, notwithstanding any provisions of their charters. The law follows:

CHAPTER 77, LAWS OF 1897.—From and after the passage of this Act all provident institutions, savings institutions and savings banks, chartered under Special Acts of this Commonwealth of Pennsylvania, may notwithstanding any provisions of their charter, loan the moneys received by them on deposit upon the bonds of any county, city, borough, township or school district within this Commonwealth issued pursuant to the authority of any law of this Commonwealth for the payment of which the faith and credit of the municipality issuing them are pledged.

It was not until 1889 as already stated, that a general law facilitating the organization of savings institutions was passed. The following is section 17, which contains the investment limitations; we would especially direct attention to subdivision four of this section:

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows:

(1) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

(2) In the stocks or bonds of the Commonwealth of Pennsylvania bearing interest.

(3) In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be contracted.

(4) In the stocks or bonds of any city, county, town or village of any State of the United States issued pursuant to the authority of any law of the State, or in any interest-bearing obligations issued by the city or county in which such bank shall be situated.

(5) In bonds and mortgages on unincumbered, improved real estate, situated in this State.

The next section (18) relates to the temporary deposit of funds in banks and trust companies. It makes it lawful to deposit temporarily in banks or trust companies the excess of current daily receipts over the payments until such time as the same can be judiciously invested in the securities named above

CITIES, COUNTIES AND TOWNS IN THE STATE OF PENNSYLVANIA.
